

# BT+2.4G Wireless Dual-mode Trackball Vertical Mouse

New

**Model: G95**

## Mouse Features:

. Ergonomic thumb-operated mouse: With a smooth and precise wheel mouse, you no longer need to move your arm to move the cursor. Your thumb will control the cursor. Can effectively relieve wrist and arm fatigue and stress.

. Adjustable vertical angle design: Unique adjustable angle allow you to customize the trackball angle on demand, from 0 to 20 degrees.

. 4 RGB lighting modes: Four RGB effects can be adjusted with one button. Rainbow streamer (default), Rainbow breathing, Neon color, single color breathing. Note :RGB backlights can be turned off by long pressing the light button which saves battery power for the mouse.

. Rechargeable and adjustable DPI: Built-in 900mAh lithium battery. You do not need to replace the battery. After a full charge, it can last for 1 month. Remember to turn it off if you don't use it for a long time. Three DPI levels (1000/1600/2400) allow you to easily change cursor sensitivity and track more smoothly on a variety of surfaces

. Bluetooth and 2.4G wireless connection: Plug and play. The mouse has three connection modes. You can control three devices at the same time and switch between Android, tablet and Mac with the button. Compatible with Windows, Android, Mac OS PC, laptop, desktop, etc
