Description of the action:

Training for mentors of the project **Upgrade Yourself** is an opportunity to gain useful skills in leading people, managing projects and meeting interesting people from Slovenia and Czech Republic.

It is also an opportunity, challenge and non-formal commitment to more long-term engagement. Therefore, think twice before you sign up, whether you are interested and really ready to get into it!

Training that you are going to take part in, is only a first step in a journey of a project group leader, who will have a whole year for inventing and implementation of his/her idea.

And what shall follow-up after the training?

- ✓ Opportunity to learn and use the cell phone app **IM-PROVE** for cracking your voluntary experience and competence growth;
- ✓ support in starting up your project idea, its promotion and networking with other people who would like to join you;
- ✓ support in project group coordination – in case of your interest we are able to provide you with a mentor/advisor from our staff;
- ✓ opportunity to consult together your project idea and a support that you will need for it;
- ✓ opportunity to continue with another training in 2016 and with upgrading your experience

Due to international nature of the event the training will be conducted fully in English.
