Dragon City is a Dragon breeding game where we develop our own little city of dragons! Breed, train, battle, and grow! Watch as we learn how to create the most amazing world! The second look! We need to do some quests but see that they're not finishing themselves, and then we get some free gifts from people! ~~ If you want to help the Dragons out, do so on Facebook! ~~ http://facebook.com/PoetPlaysYT Check out the TimeShot subreddit today!
