DOGECOIN

for funding and friendship

A beginners guide to Dogecoin:
The people's currency

What is Dogecoin?

Imagine an online currency specifically designed to say “thanks!”, “great job” or “wow, That’s amazing!”. Dogecoin is the monetary system that’s all about rewarding fun, friendship and compassion. It’s the High-Five that you can spend!

With Dogecoin you can ‘tip’ your friends, donate to charities and even buy cool things. With Dogecoin you’re not just ‘liking’ someone’s work, you’re financially empowering them to make more of it. The best part is that unlike other ‘reward’ systems, Dogecoin isn’t limited to just one website or brand. Dogecoin is used all over the internet to buy all sorts of things from music to books to even locally-sourced honey and home-made hot sauce.

Our friendly mascot, the Shiba Inu

Dogecoin isn’t just ‘money’ it’s a chance to spread goodwill and reward those who you feel deserve it, an opportunity for you to add a bit more ‘wow’ to the world.

Dogecoin is made for communities and rewarding those around you!

Why use Dogecoin?

Put simply, Dogecoin is currency for the 21st century! Credit cards are convenient but they require unnecessary fees.

Because Dogecoin is digital cash you can send it anywhere in the world almost instantly for free! From shopping in a local store to funding charities in developing countries, your Dogecoin will always reach it's intended destination. You’re in control.

Dogecoin means always receiving money you were sent within 2 minutes. Best of all? No chargebacks!

Dogecoin uses state-of-the-art technology to process transactions safely and securely over the Internet. Unlike conventional money, Dogecoin isn't kept in a bank or in a safe; it's held directly by you on your computer or phone.

Dogecoin is FAST, FRIENDLY AND FUN! Your money shouldn't be boring or limited by long transaction times!

What does this mean? It means that all of your money is yours to spend 24/7. It means your money is secure, even in your back pocket. It means that only you have control over your money and not even your bank can touch it!

Dogecoin means being able to spend your money both and online and in stores, all just with your mobile phone.
