

So, starting today, I'm going to be using my favorite characters shown here, and putting them in 100 different situations. I may use some or all of them. I'll be trying to use different sets here and there and DON'T WORRY these will not be the only characters I'll be doing over the next... very long time. Not every work I do will be in relation to this, the idea is just to improve my craft. If you want to know information about this challenge please refer to my post.

Also, this probably is rather apparent at this point, but I suck at backgrounds. So the main rule here is that most of these should include backgrounds.

For the sake of keeping info on these characters private (and the work I am doing with them by extension), I will not be releasing information about them publicly (aside from their ages and first names).

The following characters will be included:

- Evelyn (37)
- Scarlet (43)
- Helen (39)
- Tessa (32)
- Karen (27)
- Jo (40)
- Isla (36)
- Alessandra (25)

...and some other characters by extension. I'm gonna try to get different combinations for each.
