[Total Enhance RX](#) we discuss transformation of the physical body, to be successful we cannot deny that mind, body & spirit are woven tightly together in our being & therefore EACH needs to be considered - not just one. Often people when wanting to conquer health or healing goals immediately BEGIN at the physical, they think weight loss, nutrition, exercise...but that is their first step to failure because they're joining the race before they've even laced their shoes!! When we fail to address mind & spirit in the health process we eventually lose the vision of why we're addressing the physical in the first place & sadly fall off course when interest wanes, times get tough, or we lose our way because the how-to's become unclear or appear out of reach. But if we start INSIDE & work OUTWARDS friends, GAME ON!!

Our 5 Expert Insider Steps to Transforming Your Health & Body

So these 5 KEY STEPS must be addressed in order to achieve a complete & SUCCESSFUL health & body transformation, and they must also be achieved in order as follows...

1. When you change your (health & body) thinking, you change your (health & body) beliefs.

Total Enhance RX you think what you've been taught is healthy by the mainstream media is where your learning stops, then don't expect to achieve great illness-free, authentic preventative health because they don't teach proactive health approach, they teach reactive wait til you get sick & then act health approach. Begin to change your thinking to change your belief system about your body and health potential.

2. When you change your (health & body) beliefs, you change your (health & body) expectations.

Once you begin to expand your thinking, start to also seek out experts in areas of health & body who have shown & continue to show PROVEN ABILITY TO CREATE TRANSFORMATION RESULTS in their own health & body that you would like to emulate. Begin to sponge knowledge from them vs. what mainstream media claims leads to great health results, & you'll in turn raise the bar on what you expect from your own health. You'll see your new mentor/s are just ordinary people too like you, who decided to blaze their own health path about the quality of health they wanted to achieve for their life by taking the road less followed for their own health in life, and YOU CAN TOO - if you follow in their footprints.

3. When you change your (health & body) expectations, you change your (health & body) attitude.

Total Enhance RX your mind becomes opened by experts to your new health possibilities, you'll have a renewed attitude & confidence about your abilities & empowerment around your personal health & begin to realize that anything you put your MIND to, your BODY can achieve -with the right tools in your toolbox. And THAT is exciting!

4. When you change your (health & body) attitude, you change your (health & body) behavior.

Now that you come to the table with a revitalized health attitude of possibilities & an arsenal from your health mentor, your entire being & behavior begins to shift because your mentor connects you with your own personal ability to achieve great results for your health, and as that continues to happen over and over, your self-efficacy GROWS & GROWS around your capabilities to manage your own personal health, as you transition into your own personal mini-health-expert!
