Nobody wants to be in a selling business where the highest commission rank is impossible to achieve. So, how many water ionisers you have to sell in order to reach the top? It depends what you purchased. There are four ways how to start this business. The minimum is that you buy one ionisator for yourself. We invested in more than one machine (I can send you a chart that breaks down all the numbers), because that way we could skip the not so lucrative start. For us, the top rank is achieved when we have sold 24 similar packages (or more if we sell individual machines, or LESS if and when our team members sell, but let's keep it simple & talk about our sales). In dollars that means minimum \$121175 in commissions!
