

## **WHY SHOULD WE USE COSMETIC MEDICAL TRAINING?**

### **CONVENIENCE**

You don't have to take days off from your practice to travel and take a course. We will come to your office to train you.

### **PRICE**

We are able to train two trainees from your office for the price of \$1199\*. Non clinical staff may observe without any additional fees.

### **PERSONALIZED**

You don't have to be a part of a herd of trainees trying to get the most hands-on experience or waiting to have your questions answered.

### **HISTORY**

We have been training Botox and Dermal Filler injection training courses since 2006. Many of our trainers are certified trainers for Botox & Dysport and various other filler companies.

---

### **WHO**

We will train two medical providers (Physicians, Dentists, Nurse Practitioners, Physician Assistants, and Registered Nurse) from your practice for \$1199 for your personalized hands-on training. Our traveling instructors include Nurse Practitioners, Physician Assistants and Registered Nurses.

### **WHAT**

Hands-On, One day, Basic and Advanced, Combination Botox training & Dysport training AND Dermal Filler injection training. The Hands on training will include immediate access to the ONLINE training material. We also offer ONLINE only courses as well. A certificate of training will be provided for both online and hands on training.

### **WHEN**

We can typically set up a training in your office within a month. After you register, our training coordinator will set up the earliest training date request possible, including weekends. We don't have a list of training dates, because we will fit our training date to YOUR schedule.

### **WHERE**

All of our trainings are held at YOUR medical office. Training in a hotel conference rooms is unsanitary and does not replicate your actual practice experience. The bonus of having a training in your office is that your front desk and sales staff will benefit from watching and learning from the hands on training. While you save time and money when you don't have to travel to a training center, additional travel costs to get our trainer to your city may be added depending on the location of your training.

## HOW

You will have access to the online training material as soon as you register. You also have the ability to download training documents, sample patient history and consent forms. You will provide us with at least three possible training dates. Then, we will coordinate our trainer's availability, and schedule the earliest date possible. You will enlist live injection models by asking your office staff, friends and family members. You will also need to pre-order supplies and products for your training session. You can read about this in more detail in our Frequently Asked Questions (FAQ) page.
