Notes:

1. Individuals who PCS will have their SDAP stopped by the losing unit and the gaining unit will restart SDAP when/if the individual is certified and performing Watch Supervisor duties. SDAP will be stopped on the last day of the individual's PCS month.

2. Individuals selected for opposite (either tower/radar) facility training at their current location will continue to receive SDAP. However, SDAP will be stopped if the member is not certified and performing duties within 12 months. This excludes individuals who PCS and start opposite facility training at their next duty location.

3. Guard/Reserve personnel performing IDT and ADT (less than 180 days) must perform Watch Supervisor duties at least 15% of total hours served within a specified tour in order to qualify for receipt of SDAP (rounded to the nearest full hour). Total hours served is calculated based on two-4-hour periods per day. Guard/Reserve personnel shall receive 1/30 of the prescribed monthly SDAP rate.

4. To determine required monthly proficiency hours, subtract "Number of Exempted Proficiency Hours" from 24. Calculate "Number of exemption Proficiency

Hours" = $(24 \div \text{Number of days in the month}) \times \text{Number of Leave days taken in the month}$. Round fractional hours to the nearest quarter hour and subtract from the 24-hour requirement. For example: $(24 \div 31 \text{ days in month}) \times 7 \text{ days leave} = .774 \times 7 = 5.419$ hours. Round to 5.5 hours. Subtract from the 24-hour requirement: $24 \text{ hours} - 5.5 \text{ hours} = 18.5 \text{ hours}$. Airmen must perform Watch Supervisor duties at least 18.5 hours this month to be eligible for SDAP.

5. ATC was designated as a special duty as of 1 September 2000 and ATC Trainer as of 1 October 2018. Personnel performing Watch Supervisor-equivalent duties at a Landing Zone on a monthly basis was added as an additional requirement as of 1 October 2019.
