UPDATED 03.2018!!!

So now there are a bit more chance NOT to get LOCK/PADLOCK on games for longer time! I can't guarantee it works for 100%, but with this method:

YOU WON'T GET KICKED OUT OF ACCOUNT BY OWNER!

7) So now you NOT LOGIN on bought account, but go in YOUR PSN

profile and go to SETTINGS

8) Then you go to LOGIN SETTINGS

Setti	nys	1
	😵 User's Guide	
	📩 Data Handling/Health & Safety	
	PSN [™]	
	i Notifications	
	္သာ Login Settings	
	🔋 Parental Controls	
	Application Saved Data Management	
	🥣 System Storage Management	
	System Software Update	
🛞 Enter	◎ Back	

9) Next you go to USER MANAGAMENT!

Log In to PS4 Automatically	
Enable Face Recognition	
Face Data Management	
Login Passcode Management	
🕗 User Management	

10) Then you clink on <u>CREATE USER</u> (in same place you can DELETE old users)

	🕗 Create User		
	🤌 Delete User		
(ME-star	Opert.		 enerina.
WEnter	Goor		
-		 -	

11) Now you add the bought account as before, and click SIGN IN!

If you have successfully DEACTIVATED the account on sony site before, you will get this message.

Your PlayStation™Network sign-in information has been saved on this PS4.	
<notice> When you log in to this PS4 next time, you will be automatically signed in to PlayStation™Network. If other people have access to this PS4, set a passcode so that they cannot log in to this PS4 as you. A passcode can be set by selecting [Settings] > [Users] > [Login Settings] > [Passcode Management].</notice>	
ОК	
⊗ Enter	

12) NOW THE GOOD PART!!!!!

After account has been added on PS4, <u>YOU WILL STILL BE IN YOUR PSN PROFILE!!!</u> And won't get kicked out by OWNER

What you need to do now is <u>RESTART PS4</u> (You can LOG OUT from your profile too, but ACTIVATION may not sit correctly, that's why i'm suggesting to RESTART PS4).

And LOGIN back into YOUR PS4 PROFILE!

IF after this games still not appearing on your Download list when you login in STORE to downlaod them, try to check on Settings if you Automatic updates are enabled, and if still doesn't work, then you need to download from PS4 LIBARY.

- 13) Now you are ready to DOWNLOAD games to Your PS4.
- 14) Go to <u>https://store.playstation.com/#!/en-lv</u> and <u>login with bought account</u> <u>details</u> (image bellow).

After You've logined in, in right corner (same place where u clicked Sign in), will appear Profile Name, with your Mouse cursor move it on the name, u will see appearing log of options, click on <u>DOWNLOAD LIST</u> (If there is no Download List button, it could go trough <u>Purchase History</u> too.)

15) Once you are in Download List, you will see all Downloadable games/addons/dlc's from that account. You have to click <u>DOWNLOAD TO YOUR PS4</u> – you will see games appearing in Download list on your PS4.

And You're done, now wait for games to download in your PS4 and happy playing. You will be able to play ONLINE multiplayer.

FAQ.

- 1) You do this only once, when You have put games in Download list, forget about it, cause You won't be able to do it again, so Download all You need.
- 2) We give warranty for 15 minutes to set it up on your PS4, but that's a lot of time to set it up, and will be enough.
- 3) Account's works random amount of time, if you disconnect internet after downloaded games, they will last long time, if you play online, it can be days, weeks, months or even up to 1 year.
- 4) If You don't see game on your Download list in PS4 after u clidked Download To Your PS4, in same place where You was clicking to Download games, go on Profile Name and click DOWNLOAD QUEUE to cancel some game download, and in Download List click to Download it again.
- 5) DO NOT EVER CHANGE ACCOUNT DETAILS or Your PS4 will get 30 day or Permamnet ban.
