Why choose wireless?

Increased Transaction Volume

- A dedicated communication solution ensures your ATM will connect every transaction.
- Eliminating shared phone lines, eliminates missed transactions.

Lowered Operating Costs

- Wireless solutions cost significantly less than wired solutions.
- Lower your installation costs by eliminating the cost and time of running wires.

Increased Security

- Wireless services on a private, nationwide 3G network.
- Connects only to processors domains and IP addresses.
- Exceeds PCI data security standards
