

OUR ROAD MAP

The Subscriber

Projected Target – Subscribers Over The Next 7 Years

The Marketing Plan: **Online Marketing Campaign**

In May 2024, utilizing the **referrals and testimonials**, as well as the 24 months of data on our Telegram Channel, we will launch an Online Marketing Campaign in order to enroll Subscribers, **who will pay an Annual Subscription Fee of \$850.00**

- Advertising will commence primarily in the following English-speaking Countries:

Written and Video Testimonials

The Subscriber

Our Target and Projected Figures are Extremely Conservative

- ❑ In our first year, our **Target** is to enroll at least **1 000 paid Subscribers**
- ❑ **1 000** paid **Subscribers** in our 1st year is a **conservative target**, however we would rather focus on realistic growth
- ❑ Each Subscriber will pay an **annual subscription of \$850.00**
- ❑ In any business, to secure the first **1 000 clients** is the **most challenging**
- ❑ Our Projected Target is to have enrolled at least **100 000 Subscribers** over the next **7 years**

The Subscriber

The Subscriber will pay an Annual Subscription fee of **\$850.00**

This is the sole source of income for **Wealth Creation Community**.

We will **not** be trading on behalf of the Subscriber or managing the **Subscriber's** funds, and we don't earn fees or % of the **Subscriber's** Trades. The **Subscriber** trades on an **International** and **highly reputable** and **reliable platform** which is **not** connected to Wealth Creation Community.

There is no minimum or maximum amount that the Subscriber will require to trade with, as the Subscriber will (at all times) **be in possession** and will be totally in **control of their own funds and assets**.

Competitors

At an initial glance, it may appear that our platform would have a huge number of competitors. Whilst competition is healthy in any environment, our platform will actually have very little legitimate competition.

The Reasons Are As Follows :

There are thousands of **YouTubers** who offer advice in this space, unfortunately, the majority of them are newcomers to the financial world, and their advice is often speculative, while offering little or **no technical analysis**.

There are also numerous websites that offer to trade for and on behalf of individuals, utilizing artificial intelligence. While a number of these sites have been successful, the primary risk is that to trade on these platforms the individual has to hand over their digital assets, or Cryptocurrencies to a **third party**. This is the biggest **No-No** in the Cryptocurrency space. **Never hand over your assets or Cryptocurrencies to a third party.**

Then there are Cryptocurrency trading platforms, that offer **FREE** signals. When a platform **earns from trading fees**, they often have very little interest as to how successful their clients are. Sadly, the vast majority of trading platforms that offer free signals are **immoral** as their focus is on **earning trading fees**, and there is little or no integrity behind their signals, as history clearly has demonstrated.

Our Road Map from 2020 to 2031
