**2016**

**Kids Island Higher Secondary School**

## Editors' Note

Dear readers

After the successful publication of our school magazines for the past two years, the school has come up with another fascinating periodical this year. The students of Kids Island have been supreme in contributing enthusiastically to the contents of the school magazine. However, due to the upshots of demonetisation, the press was unable to publish it in the print form. The drawings and the write-ups in Hindi and Urdu could not be published due to the same reason. Nevertheless, enjoy this extremely joyous magazine in digital form.

The contents of this magazine include variable write-ups submitted by the students which they either have composed themselves or contributed from various sources. Apart from this, the magazine is also filled with colours in the form of class group photographs and event photographs from the session 2015-2016. We hope you all will find it difficult to move your eyes away from this companion.

Go ahead and enjoy the journey of reading.

Sincerely

Dr. Mustafa M Siddiqui and Dr. Talaia Naz  
Chief-Editors

### Thoughts about Friendship

Making hundred friends is not a miracle. The miracle is to make a single friend who stands by your side even when hundreds are against you.

Friends are like walls. Sometimes you lean on them and sometimes it is just enough to know that they are there.

Submitted by Nazreen Ali (X A)

### Studies

Now I lay down to study  
I promise God I won't be naughty.

History, Science and Arithmetic,  
When I study, make me sick.

There are many answers I have to find  
But there is nothing present in my mind.

I study whole night and make a knowledge layer  
When I wake up in the morning, it's all clear.

Dear Maths, lower your tone  
How can I solve yours when I have problems of my own.

Now my situation is very bad  
O studies, do you think I've gone mad?

I'm tired of all this concentration  
and all I need is some relaxation.

Submitted by Arisha Shafeeq  
and Shifa Khan (VIII A)

### With a Friend

I can talk with a friend  
And walk with a friend  
And share my umbrella in the rain.  
I can play with a friend  
And stay with a friend  
And learn that he/she would explain.

I can eat with a friend  
And compete with a friend  
and sometimes even disagree.  
I can ride with a friend  
And take pride with a friend  
A friend can mean a lot to me!

Submitted by Nazam Qureshi (VI A)

### **My Dear School**

O my Kids Island school  
You are a learning pool.  
I play in your open field  
And you are for me a shield.  
You build in me a pure character.  
You shape my future better.  
You flourish me and make me wise.  
You teach us how to rise.

Submitted by Nimra Zaidi (VIII A)

### **Studies and Tension**

Studies are such a tension  
What to say, what to mention!  
English with its composition  
Maths with its calculation  
Geography and its population  
Have eaten up my summer vacation.

Submitted by Faiz (IV B)

### **Our Teachers**

My friends and I are successful students. The credit goes to all my teachers. We are lucky to have good teachers in my school. They are devoted teachers and worshippers of good values. They embed in our mind the good virtues like hard work, honesty, courage, helping and respecting elders. They share their knowledge with us. They give us good thoughts and they broaden our look. They develop in us a habit of rational thinking. If we become successful persons tomorrow, it would be because of our teachers.

Submitted by Zoya Fatima (VII A)

### **School Life**

Some may see school as a torture chamber  
Some cannot wait for holidays in December  
But it depends on how we look at school  
Honestly speaking, school is cool!

Submitted by Tayyaba Sajid (X A)

### **School**

School is the place to learn.  
You can't make its fun.  
School is as precious as gold.  
It makes us confident and bold.  
Schools should be our like Kids Island school.  
If you forget this, you are a fool.

Submitted by Areeba Khan (VI A)

### **Thoughts**

A naked truth is always better than a best-dressed lie.

Submitted by Sumbul Khan (VII A)

Friendship is that ship which helps you sail across the sea of problems.

Submitted by Ariba Tahir (X A)

Let your questions and answers reconcile and do your best to remember that the best kind of learning curve is an educated smile.

Submitted by Amreen Fatima (XI)

I always had a question in mind, "What is friendship?" After meeting my KIBA teachers, I have finally got the answer.

Submitted by Bushra Khan (IV A)

## ALLAH LOVES US ALL

If Allah gives you hardships and problems in life,  
be sure that Allah loves you and wants to hear your voice in prayers.

If Allah does not give you much wealth in this life,  
be sure that Allah loves you and gifted you the best virtue.

If Allah gives you patience,  
be sure that Allah loves you and you are among winners.

If Allah gives you poverty,  
be sure that Allah loves you and has blessed you with a more precious gift i.e. health.

And when Allah loves you these and others  
how can you not love Him back!

Submitted by Sahiba Khan (X A)

## ISLAMIC KNOWLEDGE

The most beautiful name is Allah  
Most beautiful song is Azaan  
The best exercise is Namaz  
The perfect book is Quran  
The best month is Ramadaan

Submitted by Mohammad Ayaan Khan (VII B)

## ISLAM

Never do will I leave Islam;  
It has elevated me to where I am,  
It has developed me, my emotions;  
It's belief has given me life and promotions.  
It is in fact the best of all- a great teacher.  
Helps in emergency, encourages and becomes a preacher.  
It has developed my qualities; taught me how to live;  
How to pray, how to do daily work and how to give.  
And my heart, humble and fervent, has grown to infinity.  
For I never have to be greedy and have my dignity.  
My life is now no more meaningless- without a goal;  
I think I possess a hearty and merciful soul.  
I believe in the One, the merciful, the beneficent and the great;  
Emancipated me from the hell, I yell, for I should not be an ingrate.

Submitted by Shaheen Parveen (IX A)

### PARENTS

An oasis in the desert, a boat in the sea,  
A mountain to protect, a security you see.  
In the scorching Sun, shade they give.  
In biting winters, with their warmth we live.  
If they are not around, we are alone.  
Mobile without battery, body without bone.  
They are the flowers with beautiful scents.  
Thank Almighty for giving us parents.

Submitted by Zoya (IX)

### A HOUSE AND A HOME

*What is a house?*

It's brick and stone  
And wood that's hard.  
Some window glass  
And perhaps a yard.  
It's caves and chimneys  
And tiled floors  
And walls and roofs  
And lots of doors.

*What is a home?*

It's loving a family  
And doing for other.  
It's brothers and sisters  
And father and mother.  
It's unselfish acts  
And kind sharing  
And showing your loved ones  
You're always caring.

Submitted by Muskaan Niazi (VIII A)

### MOTHER

One who can best pamper a baby  
Is none other than a lady.  
And that lady is none other  
But my lovely and sweet mother.  
For a period of nine months long,  
She keeps us in her womb.  
There is no doubt  
Love is hidden in her shout.  
She shares the sorrow  
Whatever I borrow.  
She smiles with a joy  
When she plays with me as a toy.  
She shows the right way,  
which we should always obey.  
Oh mother! I always want to live with you  
Because I love you too.

Submitted by Anamta Ansar (VI A)

## FATHER

Father, dear father  
Sweet as honey  
Dear as money  
Delicate as petal  
Sometimes hard as metal  
Great like Sun  
Soft like a bun  
Cheerful like flower  
With love and power  
Father, dear father.

Submitted by Haram Fatima (VI A)

## MY MOTHER

When I'm sad, she makes me glad.  
When I'm happy, she celebrates.  
When I'm hungry, she gives a cake.  
When I do my work, she extends help.  
When I want to play, she says "okay."  
When she hugs me, I feel so good.  
O my dear mother, this love I get from no other.

Submitted by Zeeshan Ali (IV B)

## PARENTS

Parents are like angels on Earth.  
They love us and give us birth.  
They know everything about us  
Because they love and care for us.

They know what we like and dislike.  
They always let us know what's wrong and right.  
They give us everything we need.  
They make us a beautiful plant from seed.

Parents are the greatest gift of life  
Without them it's difficult to survive.

Submitted by Neha Aslam (VIII)

## Riddles

1. The stick which cannot be used for walking?
2. What type of case cannot be solved?
3. In which pan, we cannot cook?
4. What is the most dangerous city?
5. Which key climbs the tree?
6. The room in which we cannot enter?

*Answers-*

- |                       |                    |                    |
|-----------------------|--------------------|--------------------|
| <i>1. Lipstick</i>    | <i>2. Suitcase</i> | <i>3. Japan</i>    |
| <i>4. Electricity</i> | <i>5. Monkey</i>   | <i>6. Mushroom</i> |

Submitted by Sehba Khan (IX B)

## DO YOU KNOW?

- The famous game snakes and ladders was created in India by the thirteenth century poet Santh Gyan Dev. It was originally called *Moksha Paat*.
- The Queen Elizabeth of Great Britain sent her first email in 1976.
- The word *Queue* is the only word in English language which is still pronounced the same way even when the last four letters are removed.
- After the death of Albert Einstein, his brain was removed by pathologists and put in a jar for future studies.
- Giraffes have no vocal cords and their tongues are blue black in colour.
- Hump back whales create the loudest sound among all the living creatures.
- Elephants can smell water from a distance of 3 miles.
- A dog's noseprint is as unique as human's fingerprint and can be used to identify them.
- The word *Diamond* comes from the greek word *Adamas* and it means unconquerable and indestructible.
- Millions of trees are accidentally planted by squirrels that bury nuts and then forget where they have hidden them.

Submitted by Arisha Tauqeer (VIII A)

## **AMAZING FACTS**

- All the planets in our solar system rotate anticlockwise except Venus. It is the only planet which rotates clockwise.

Submitted by Mohammad Asim (IV B)

- The world's largest desert is Sahara Desert which covers one third of Africa.
- Your heart beats around one lakh times a day.

Submitted by Alfia Tahir (VII A)

- 38% of doctors in America are Indians.
- 36% of NASA employees are Indians.
- 34% of Microsoft employees are Indians.
- 28 of IBM employees are Indians.
- 17% of Intel employees are Indians.

Submitted by Fatima Ali (IX B)

- Our most active muscles in our body are eyes.
- Honey is the only natural food which never spoils.
- Our liver performs over 500 functions.
- Lemon contains more sugar than strawberry.
- A cat has 32 muscles in each year.
- The 85% of plant life is found in oceans.
- We breathe more than 23 thousand times a day.
- A banana contains 75% of water.

Submitted by Ashadiyya Ayyana (V A)

## **I Didn't Do It!**

Once a girl named Ariba came back from school and went straight to her mother complaining, "Mummy, today my teacher punished me for something that I didn't do." The mother got so angry that without listening to any further she went straight to the teacher and scolded her. When she came back, she asked her daughter, "By the way Ariba, what was it that you didn't do?" Maya replied, "My homework."

Submitted by Shaaz Javed Alam (III B)

# water

Water is important for life. We cannot live without water. It is a wonderful gift from nature. We need water to drink, to wash our hands, to cook our food, to water plants and many other things. Plants also need water for their survival. More than two third of our body is made up of water. Some important sources of water are rain, snow, lakes, oceans, rivers, ponds etc. We should always try to save water.

Submitted by Tuba

## tips to conserve water

1. Turn off the tap when you brush your teeth. This can save 6 litres of water per minute.
2. Wash paint brushes in a container rather than under a running tap.
3. Use minimum amount of water by closing the tap after filling the bucket.
4. Store drinking water in the refrigerator rather than letting the tap run every time.
5. Try to do at least one thing which can save water.

Submitted by Atika Rafeeq (VII A)

### Learn from Nature

Learn to smile from the beautiful flower.  
Falling spring tells us, "Fall to generate power."  
The wide blue ocean shouts  
to have depth in thoughts.  
Trees state, "Be evergreen and give shelter to others."  
"Go on marching your aim," flowing river utters.  
Mountains tell us to rise up above the globe.  
Earth speaks "Have patience, despite heavy load."

Submitted by Fariha Aftab (IX B)

### Caring Trees

I am present deep in forest  
Because I am shy.  
On me, birds make their nest  
But humans pass me by.  
Yet my heart is bigger  
That I want to share  
My fruits, air and shelter  
Because I really care.

Submitted by Shumaila Shareef (X A)

### Life

Life is an opportunity, benefit from it.  
Life is beauty, admire it.  
Life is a dream, realise it.  
Life is a challenge, meet it.  
Life is a duty, complete it.  
Life is a game, play it.  
Life is a promise, fulfil it.  
Life is a sorrow, overcome it.  
Life is a song, sing it.  
Life is a gift, live it.

Submitted by Areeba Chand (X A)

### Beauty

Beauty is seen  
In the sunlight,  
The trees, the birds,  
Corn growing and people working  
or dancing for their harvest.

Beauty is heard  
In the night,  
Wind sighing, rain falling,  
or a singer chanting  
A song earnestly.

Beauty is seen in your  
Good deeds, happy thoughts  
That repeat themselves.  
In your dreams  
In your words.  
And even in your rest.

Submitted by Neha Tahir (VI A)

### The Five Vowels of Success

A Always speak the truth.  
E Early to bed and early to rise makes a man healthy, wealthy and wise.  
I Industriousness is the key to progress.  
O Once a liar, always a liar.  
U United we stand, divided we fall.

# JOKES

Teacher: What is your favourite musical instrument?

Student: Sir, the last bell of school.

---

Raju : I got 100 marks in school today.

Mother: That's good. In which subject have you got 100 marks?

Raju : I got 20 in Maths, 40 in Science and 40 in English.

Submitted by Sidra Iqrar (VI A)

## CHARACTER

Choose the life that you can spend  
Character is that you can always mend  
Honest is what you can be  
Hearten those who need to be.  
Adoration we ought to render to God  
And our life is all because of the Lord.  
Religion should be a must for you  
Realm of life will then be with you  
Actions of yours shall be upright and pure  
And then you can be very sure.  
Courtesy is what will stand you out  
Courtesy will help grow love, no doubt.  
Treatment to others let it be kind  
Things will be normal you will find.  
Enfold all men as your brothers  
Encourage all to encourage others  
Rank yourself among those who are true  
Remember, character is that which defines you.

Submitted by Aaskar Ahmad (VIII B)

## Some Thoughts

Sun rises everywhere but crop goes only where the farmer has worked hard. Similarly, God is everywhere, but His grace is only for one who works hard.

Submitted by Md. Nazish Hasmi (XII)

If you change the way you look at things, the things you look at change.

Submitted by M. Bilal (VII B)

There's only one corner of the universe you can be certain of improving, and that is your own self.

Submitted by Saiba Khan (VIII A)

Success doesn't depend on making important decisions quickly. It depends on taking quick actions over important decisions.

Submitted by M. Tazeem (VII B)

Don't waste your time looking back for what you have lost. Move on! Life wasn't meant to be travelled backwards.

Submitted by Adeeba Parveen (VII A)

APJ Abdul Kalam has said, "Success is when your signature changes to autograph."

Submitted by Yashfeen Khan (VII A)

## **Some More Thoughts**

We should pray to Allah to give us strength to face all the challenges in life and to give us courage to walk on the path of thorns.

Submitted by Salman Ahmad (VIII B)

Fury or force is useless to solve problems which can be solved easily with gentleness.

Submitted by Ilma Javed Alam (V A)

To beautify your eyes, lower your gaze towards strange men/women; this will make your eyes pure and shiny. Abstain from looking at what is haram (forbidden), look at only what is halal.

Submitted by Insha Nabi (IV A)

Time is free but it's priceless. You can't own it but you can use it. You can't keep it, but you can spend it.

Submitted by Adeeba Aijaz (X A)

### THE NUMBERS OF MY LIFE

When I was one, I had just begun.  
When I was two, I was nearly new.  
When I was three, I was hardly me.  
When I was four, I was not much more.  
When I was five, I was just alive.  
When I got six, I knew some clever tricks.  
When I got seven, I wrote this poem with my pen.

Submitted by Saba Khan (VII A)

### Dr. APJ Abdul Kalam

I know a simple man  
And everyone is his fan.  
With his achievement far and wide,  
Everybody is on his side.  
His mind is full of scientific equation  
He has answers to all questions.  
His name is APJ Abdul Kalam  
He leaves the whole world alarmed.

Submitted by Ateeq Alam (VII B) and  
Muqem Ali (VIII B)

### A Prayer

God be in my head  
And in my Understanding.  
God be in my eyes  
And in my looking.  
God be in my mouth  
And in my speaking.  
God be in my heart  
And in my thinking.  
God be at my end  
And at my departing.

Submitted by Aashi Khan (VI A)

### The Value of Time

- To realise the value of one week, ask the editor of a weekly magazine.
- To realise the value of one hour, ask the teacher who is taking a class.
- To realise the value of one minute, ask a person who has missed the bus.
- To realise the value of one second, ask the person who has just escaped an accident.
- To realise the value of one millisecond, ask a person who has won a silver medal in Olympics.

Submitted by Mubashira Habib (XI)

### A Smile 😊

A smile is such a lovely thing,  
It crinkles up your face.  
And when it's gone, it's hard to bring  
The same smile to the same place.  
It is unbelievable to know and see  
what wonders a smile can do.  
I smile at you, you smile at me,  
And so one smile makes two!

Submitted by Mantasha Ilyas (VII A)

### Full Form

(VIII B)

### The Desire to be Free

Bird in its cage wishes to be free.  
Freedom and only freedom is what it desires.  
The world outside is vast and cruel.  
Yet freedom from its cage, it desires.

The world is full of seas, rivers and falls.  
But for water its search would be on.  
In its cage, water is at hand.  
Yet the bird's desire for freedom is on and on.

Outside there would be little to eat.  
In the cage grain is served enough.  
In the open a hunter may be out with his net.  
But its desire to be free is ever tough.

Without a fear of being hunt,  
Through its cage it would try and try.  
When the cage is not shut,  
The desire to be free would make it fly.

Submitted by Sapna Kumari

### Reasons to Learn English

- It is essential for work.
- It is the universal language.
- It will open the doors of new culture.
- You will travel comfortably.
- It is the most learned language.

Submitted by Sahar Rashid

### Oh Chemistry!

Chemistry is like Michael Jackson  
Which is like a dancing section.  
In this, molecules dance for reaction  
And it is full of small fraction.  
Chemistry has some deep mystery  
Which is dull just like History.  
Whenever teacher forms a compound,  
My mind starts playing on the ground.  
When we are in the examination hall,  
Questions bounce like a crazy ball.  
Scientists have created silly inventions.  
All of them give us so much tension.

Submitted by Darakshan Hasan (X A)

### Mistake

If an administration makes a mistake; it's a new law.  
If an educator makes a mistake; it's a new principle.  
If a scientist makes a mistake; it's a new invention.  
If an artist makes a mistake; it's a new design.  
If a tailor makes a mistake; it's a new fashion.  
But, if a student makes a mistake; Alas! It's only a zero.

Submitted by Shezee Jamal (IX B)

ICKLE ME, PICKLE ME, TICKLE ME TOO.

*The following poem is composed by Shel Silverstein*

Ickle Me, Pickle Me, Tickle Me too,  
Went for a ride in a flying shoe,  
'Hooray!'  
'What fun!'  
'It's time we flew!'  
Said Ickle Me, Pickle Me, Tickle Me too.

Ickle was captain, Pickle was crew,  
And Tickle served coffee and mulligan stew  
As higher  
And higher  
And higher they flew,  
Ickle Me, Pickle Me, Tickle Me too.

Ickle Me, Pickle Me, Tickle Me too,  
Over the sun and beyond the blue. '  
Hold on!  
'Stay in!'  
'I hope we do!'  
Cried Ickle Me, Pickle Me, Tickle Me too.

Ickle Me, Pickle Me, Tickle Me too  
Never returned to the world they knew,  
And nobody  
knows what's  
happened to  
Dear Ickle Me, Pickle Me, Tickle Me too.

Submitted by Anam Zameer

# ANALYSIS OF BACK BENCHERS

*Name* – Back Bencher

*Symbol* – Bb

*Atomic No.* – 420

*Steps for Preparation*–

Back chairs + Student's attention = Back Benchers

Relative Density = Heavier than his mates.

*Occurrence*–

- 1- On back chairs of classroom.
- 2- On front rows in cinema hall.
- 3- On streets near paan, khokha, dhaba and canteen.

*Physical Properties*–

- 1- Looks like a film star.
- 2- Wears clothes of latest style.
- 3- Generally busy in disturbing class fellows.

*Chemical Properties*–

- 1- Acts outrageously resulting in fights.
- 2- Teachers' words are all Greek letters for him.
- 3- Extremely sensitive in movies.
- 4- Ready with chalks to make cartoons or throw at classmates.
- 5- In boring classes, they make teachers' sketches.

*Use*–

A good consumer of parents' income.
