

**На глубине:
знаменитые
подводные
музеи мира**

Гавань Ирода
(Кесария, Израиль)

Руины гавани

**Археологический
подводный парк в Байях
(Италия)**

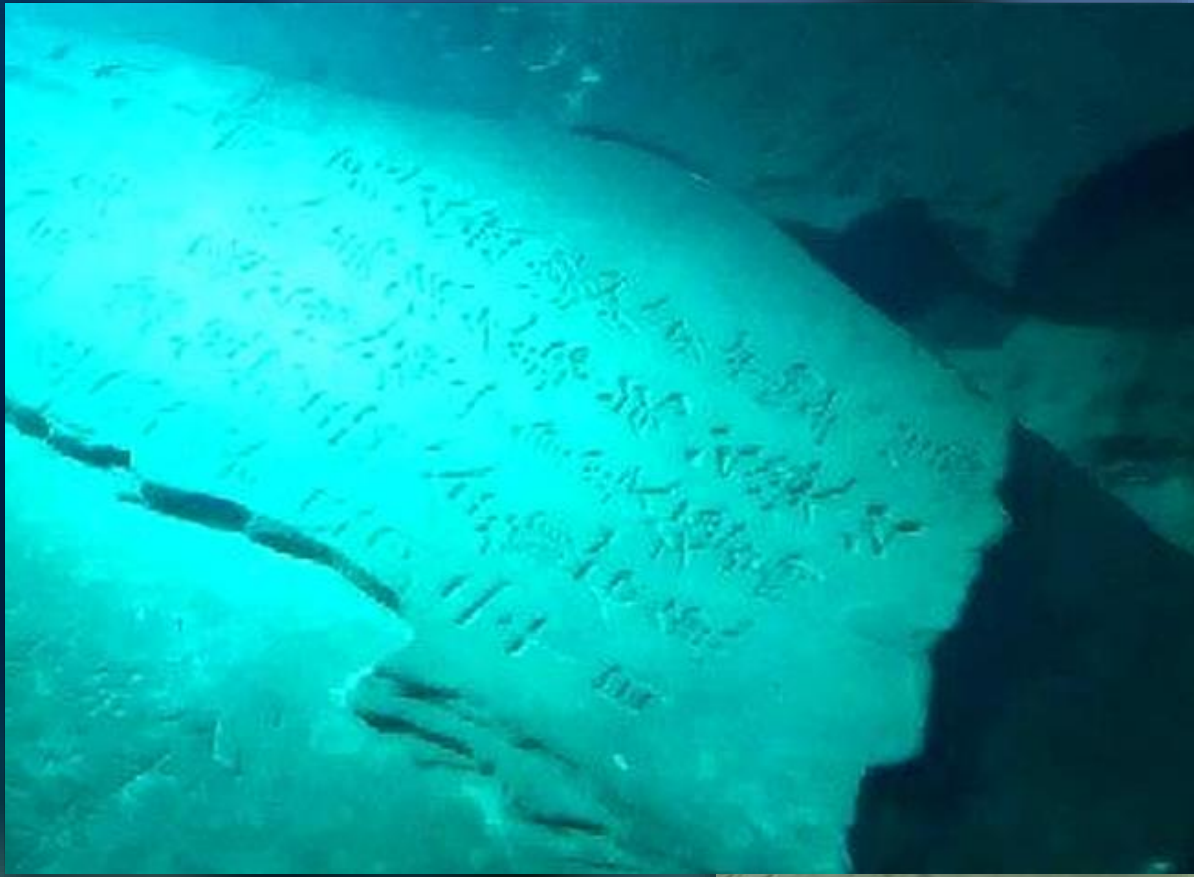

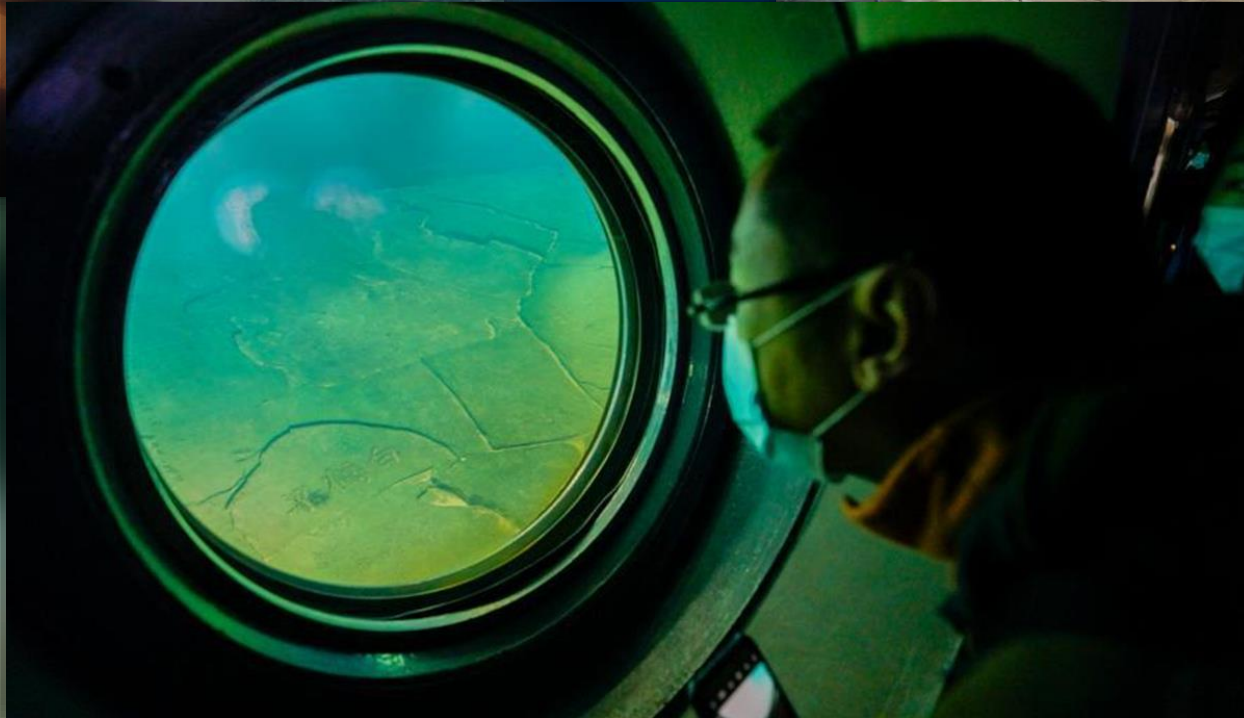

The image shows the interior of an underwater museum. A long, narrow tunnel is illuminated by a series of bright, circular lights mounted on the ceiling. The walls of the tunnel are dark and feature several large, oval-shaped portholes. The floor is composed of large, flat, greyish-brown stone slabs. The overall atmosphere is dim and mysterious, with the light from the ceiling fixtures creating a strong contrast against the dark surroundings.

**Подводный музей
Байхэлян (Китай)**

Подводный музей искусства в Канкуне (Мексика)

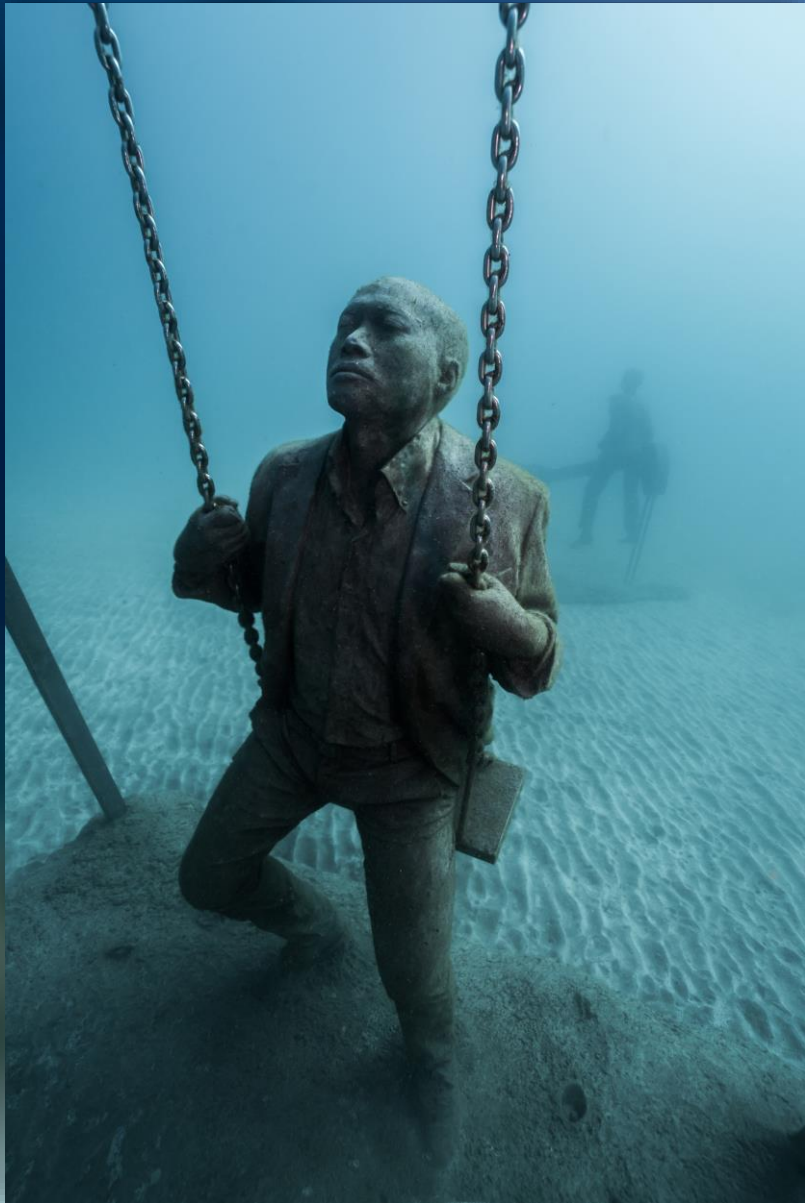

Атлантический музей Лансароте (Испания)

**Океанский атлант
(Багамские острова)**
