

# Harley Davidson Apparel - Gifts For Every Event!

As you fix your eyes on your precious Harley Davidson motorcycle, you can't help but light up with joy and happiness. After all, owning a Harley is an honor to an adoring motorcycle rider. What's great is that owning the bike is just the beginning! Riding the bike is of course the next greatest thing but aside from that, there is a wide selection of Harley Davidson clothing and accessories that you can purchase to complete your look and more importantly to make your ride a smooth and safe one.

Below you will find some of the HD clothing and accessories you might be interested in:

- **Helmet:** Riding without a helmet is extremely dangerous. You might feel cool, but you will not be cool when a serious injury occurs. Slow down to the right speed let your Harley Davidson helmet protect your head from any possible injuries that might happen. Always remember that hundreds and thousands of lives have been saved by wearing a helmet. Since you have to wear one, why not buy a Harley Davidson helmet that matches your ride? - **Leather Jacket:** Leather jackets make a Harley Rider feel menacing and dangerous. That Harley Jacket turns a bike rider into a bad boy. This toughness is all great, but the truth behind leather jackets is that it gives the rider sufficient protection from wind, dust, and sand. It also minimizes injuries like abrasions and burns in case of crashes. A Harley Davidson jacket will not only give you a great look and feeling, but more importantly it will make your ride a safe one.
- **Leather Pants:** The Harley Pants complement your leather jacket. Again, the pants need to protect your lower body from abrasions and to complete your Harley Davidson ensemble. Harley pants are typically made from denim or leather.
- **Motorcycle Boots:** Boots should not only dress your feet up, but protect your feet. I'm sure at this point you are noticing a trend with fashion and safety! Make sure those Harley Boots keep your feet warm, guarded and looking great.
- **Harley Hat:** Once you get off your bike, you probably do not want to continue to wear your helmet. This is why a great Harley Hat is needed. Remember, to keep your head protected either from the weather outside, wear a Harley Davidson hat!
