

SENTA ONE

IMPROVED FLEXIBILITY and SAFETY WITH BLUE HEAT TREATMENT

ISO Standard Color
Tip size indicator

Rubber Stopper

Variable Pitch

Gradually-increased from tip to handle to prevent suction and locking

Ni-Ti Wire and Heat Treated Control Memory Features:

- Strengthen cyclic fatigue resistance
- Enhance flexibility
- Lower the risks of treatment

%4 Taper

%6 Taper

Precise Length Marking

Sharp Cutting Edge
Optimizes treatment procedure

Safe Non-Cutting Tip
Decreases canal transportation, ledge formation and apical extrusion

Double S Cross-Section
Effective debris removal

EF ONE

Color						
Tip Size	20	25	35	20	25	35
Taper (%)	4	4	4	6	6	6
Length (mm)	21/25/31					
Cross Section						
Suggested Speed	400 rpm					
Suggested Torque	2.5 N.cm					

Utilization Procedure
