

LINGERING INJURIES

LINGERING INJURIES AND WOUNDS, MASSIVE DAMAGE; VARIANT OPTIONAL RULE

To determine the nature of the injury, determine the type of damage that triggered the injury and roll on the appropriate table below that corresponds to the damage type. If multiple types of damage caused the injury, use the type that dealt the majority of damage, or randomly determine the damage type to use when you roll for the lingering injury. These tables assume a typical humanoid physiology, but you can adapt the results for creatures with different body types. If you choose, you can also allow injuries that require regeneration or other high level magic to heal naturally, given a substantial amount of time.

A creature might sustain a lingering injury under the following circumstances:

- Whenever a character hitpoints fall below 0.
- Whenever a character takes massive damage from a single attack (equal or greater than half the maximum hitpoints).

**It's up to you to decide when to check for a lingering injury.

ABOUT THE WORLD OF FARLAND

What is Farland? Farland is a campaign setting for Dungeons & Dragons®, a roleplaying game. Specifically, it is a continent on a larger world called Núríon. This small continent is home to Elves, a tall and mysterious race; dwarves, a race of miners and craftsmen; humans, a flexible and prodigious race; and dark folk, creatures of shadows and evil. Farland is important, however, because it is the focus of a war for liberation. Currently half of the continent is ruled by the Seven Lords of Sin, fell creatures who rule with an iron fist on behalf of a more mysterious being, the Dweller in the icy and evil Wintervale. Farland consists of six human kingdoms and one Dwarven kingdom. The three westernmost human kingdoms have been liberated but are tottering on the brink of invasion, while the four easternmost kingdoms are still under the yolk of this oppressive evil regime. This site details the kingdoms, places, personages, and events of Farland and the wars for liberation.

HOLYHIEN

I own none of this information. This was all from **farlandworld.com**. I loved how Mark "Sherlock" Hulmes use his injury table in his game HighRollers: Aerois. I found Lingerin Injuries by Damage Type which was also but wanted to make it look cleaner like from an official DnD book. So this was all created from homebrewery.naturalcrit.com

PS: My favorite Character is Sentry. Gotta get those warm plates.
