

THE DAPPERSTANCED

GENERAL- CREW AND MEET RULES

1.

Low needs to be your lifestyle.

2.

Respect every single member of the crew and be loyal to everybody.

3.

The crew hierarchy is representative. You should know who the leaders are. You have to listen to higher ranked members (crew hierarchy) – in the meets and on the social club.

The lobby host is also the meet leader until a different leader got determined.

4.

Lobby and meet rules:

Your car needs to be lowered in every meet. That is what THE DAPPERSTANCED is about.

Carefull and providently driving. No speeding. No overtaking – allways lined up driving. No crashing. No drifting while driving in a line. No hard breaking and fast acceleration. Keep distance.

Try not to damage your or any other car in any way. Park with the right amount of distance.

Passive mode is allowed but we prefer to have no players in passive mode. If you are in passive

mode you have to follow the same rules. (no overtaking, speeding etc.)

No guns, except for lowering your car. Use a silencer when lowering your car. Lower your car always alone away from any other player and away from meeting's spot. Don't explode your vehicle near the meet group to call a new car. Don't shoot without any reason. Don't cause the police to come and crash other players cars. If you have wanted levels instantly kill yourself, call lester or drive away from any other player.

No flares ever.

Only tasteful cars, with no neons or chrome paint.

If you are in a special themed meet follow the specifications which are required.

Don't fly planes or helicopters around meeting's place/cruise.

5.

Join and membership rules.

Your profile and gamer tag needs to be visible. You must have been in other car crews or obviously love low cars. (for example: pictures you made or liked, comments u wrote). It is still up to the leaders if you get an invite or not.

If u got an invite we want players to play for TheDAPPERSTANCED. To not have our crew active can cause us to kick you from TDS.

Spamming the crew wall is not allowed. All posts must be related to the crew and the topic the crew is about. Posting pictures or videos is only allowed to promote new photography and footage. Posting the same content more than once is rated spam.

6.

Kick rules.

You are getting kicked if you brake any of the rules.

(Breaking lobby / meet rules = ban. Breaking membership rules = kick)

Any member can report any other member who did not follow the rules. It is up to the leaders if they kick reported members instantly or if they give them a second or third chance. The post on the crew wall will be commented with the name of the leader / coloader who kicked that player.

It is possible to rejoin as a kicked member after some time.
