What follows is your personal natal chart information, as well as interpretations of the positions and aspects in your chart.

With this report, you'll find out the positions of the planets in your natal chart by sign. The most personal of these are the Sun sign, Moon sign, Mercury sign, Venus sign, and Mars sign. Most people already know their Sun sign. If your time of birth is known, you will also find out your Ascendant, or rising sign, as well as the positions of the planets in the houses of your chart. Aspects between the planets are also listed and interpreted.

If the birth time is unknown, we cannot know the Ascendant or house positions. The natal chart shown here is an Aries chart in that case. Additionally, you may not know the Moon sign for certain. This is because the Moon changes signs approximately every 2-1/2 days. Less probable but still possible is a change of signs for the other planets and luminaries, depending on the planet itself (for example, the Sun changes signs every 30 days or so).

Each paragraph of interpretation refers to an individual position in your chart. All of these positions and aspects are some of the "parts" that make up a "whole"--you! Some of these interpretations will be contradictory, just as people are contradictory. A person can be timid in love and aggressive in business, for example. As well, we evolve and grow throughout our lives, facing challenges that help us to handle our positions and aspects in a different way. We all have choices, and one of the major benefits of astrology is the chance to understand ourselves so that we can work with our natal charts and improve ourselves. Any computerized report that interprets the individual placements in a natal chart is somewhat disjointed, simply because the different parts that make up the whole are not synthesized.

Some of the interpretations are more detailed than others. You can use this as a starting point and do some further reading about different positions (such as Moon in Libra, Saturn in the 10th house, Moon conjunct Mercury) in your chart by exploring our own site, other astrology sites, and by reading astrology books.

The tables show the technical details of your natal chart, personalized based on your birth data. Below the tables, you'll find your free birth chart report.

Planet Positions, Ascendant, & Houses

The following table shows the position of the planets in your chart, by sign and degree. You will also find the sign of your Ascendant and the signs on the cusp of each house in your natal chart only if the birth time is known. The Roman Numerals refer to the houses, where the Ascendant is also the first house and the Midheaven is also the tenth house. For example, if the sign Taurus is next to Mars, you know your Mars is in Taurus. If the sign Libra is next to Venus, you know your Venus is in Libra. If Cancer is next to Ascendant, you have a Cancer Ascendant, and if Leo is next to II, Leo is on your 2nd house.

The following table shows the planetary aspects in your natal chart. Interpretations of these factors are found below. The numbers listed under the column "Value" serve as a relative rating system for each aspect and are determined based on the planets involved, the aspect type, and the orb of influence. Natal Chart Report

Birth Chart

This birth chart report shows the positions of the planets for Gavin.

The Sun

The Sun represents vitality, a sense of individuality, and outward-shining creative energy.

The Sun is in Scorpio

Scorpios are known for their intensity. They are determined folk that absolutely throw themselves into whatever they do -- but getting them to commit to something is rarely an easy task. In fact, it's better not to even try to "get them" to do anything. Solar Scorpios absolutely have their own mind. And, their primary motivation is unlikely to be prestige (like their Capricorn friends), or even authority (Leos can have that, too)--it's real power. Their power can absolutely be of the "behind the scenes" variety, just as long as they have it.

To others, Scorpios seem to have plenty of willpower. They probably do. Scorpios do know what they want, and they won't go out and grab it at the wrong moment. They simply sit back, watch (quite expertly), and then get it only when the moment is just right. This apparent patience is simply their powerful skills at strategy at work. Scorpio isn't afraid of getting their hands (their bodies, their minds) dirty. The darker side of life intrigues them, and they're always ready to investigate.

Scorpios simply never give up. They have tremendous staying power. They're not in the slightest intimidated by anybody or anything. Confrontations are not a problem. In fact, talk to any Scorpio about their lives, and you'll probably be in awe at all they've gone through. Trauma seems to follow them wherever they go. When Scorpio learns optimism, instead of expecting the worst, they'll find that they possess amazing regenerative powers -- the power to heal, create, and transform.

Short description:

Physical energy and courage. Strong passions. Regeneration and improvement. Strong sexual powers.

Potential issues: He is suspicious, defiant, extremist; he is sometimes vindictive.

Scorpio with ascendant Leo

Sun in IV: The Sun is in the fourth house

You invest much of your pride and energy into your personal and private life, your home, and your family. Privacy is important to you. You are naturally protective of your family, including your heritage, and of your personal life. Avoid being defensive as you work to build a secure foundation for yourself and the people you love.

457 Conjunction between the Sun and Mercury

Because your ego and your mind are usually on the same page, you possess much mental energy. You are always in a position to think about what you want, and in many ways, this is an interruption of the will. You are highly intelligent with a great drive to communicate with other. You invest a lot of pride in your intellectual capacities. You may not always listen as well as you speak, however! You might be too busy thinking about what to say next. But you are very curious and although you enjoy expressing yourself, you usually don't dominate conversations completely.

As far as studying or learning goes, you are better off reading the material than listening to a teacher. These traits come from a strong need to take an active role in communications. It is very hard for you to passively listen and absorb information.

Your opinions are usually strong and you are an independent thinker. You tend to be proud of your opinions and thoughts, and might easily get a bruised ego if you are not "heard", if your opinions are pushed aside or ignored, or if your opinions are criticized. You are expressive and possibly a very animated speaker. You are also very witty and others enjoy your playful and sometimes mischievous sense of humor.

-114 Square between the Sun and Jupiter

Although your intentions are generally good, you are given to overdoing things. You can easily gloss over realistic details and get yourself into debt, overindulge in pleasures such as food and drink, and promise more than you can deliver. For the most part, you find help for your excesses. Somebody's there to bail you out, as plenty of people believe that your heart is in the right place. Generally, this is the case, but if excessive behavior becomes a pattern, and you continually face light consequences, there is the danger that you will not learn from your mistakes and abuse the "system", relying on your friends and family to help you out a little too often. Your reputation for being "good people", thus, can eventually be used to further your purposes--something that should, of course, be avoided.

However, many people with this aspect don't fall into the trap of losing their sincerity. You are generous, helpful, and charitable. Still, the tendency to live beyond your means is a real threat that you might struggle with much of your life. Another thing to watch for is depression. You tend to go through periods of intense highs when you are excessively optimistic. These periods are so marked that they seem to be unnatural and a fall seems to be inevitable. You can make promises you intend to keep, but have a problem with follow-through. Self-control can be a real problem. Try to avoid gambling altogether. Usually quite knowledgeable and generous with your time, you have many talents that you might take for granted.

The Moon

The Moon represents the emotional responses, unconscious pre-destination, and the self-image. The Moon represents the emotions, and the Moon sign shows how a person expresses themselves when at home, at ease, and comfortable.

The Moon is in Capricorn

Being useful and productive are basic needs for Lunar Capricorns. Because they generally keep their emotions under check, Moon in Capricorn people come across as competent people. However turbulent their emotions may be under the surface, Lunar Capricorns keep cool-headed--and they come across as steady and reliable people. This position of the Moon suggests a desire for clear boundaries and realistic goals. Not much for taking risks in life, Lunar Capricorns look for safety and security in most everything they do. Most of them respect authority and tradition, and many are planning well ahead of the rest of us. You likely won't have to remind them to protect their interests, plan for old age, or keep fall-back money in their bank accounts. These things come naturally to them.

Calm, cool, and collected--these words sum up Moon in Capricorn natives well. Messy emotions and "leaky" souls are a bit frightening for most with this position of the Moon. Truth is, they can have plenty of mood swings and some dark emotions now and again.

Lunar Capricorns are often quite hard on themselves, and would benefit from letting their guard down once in a while. They quickly garner reputations of being mountains of strength, and they easily hide their sensitivity behind a sarcastic manner.

You may have read that Moon in Capricorn natives are a bit cold and calculating. The fact is, they are unlikely to be any less emotional than the other 11 sign positions of the Moon--they simply aren't comfortable "letting go" when it comes to emotions. They keep their emotions under control. Wherever Capricorn is found in the chart, there is a desire for structure and control. Capricorn is the sign of organization and efficient management; so, when the Moon is found in the sign, the world of emotions are well-managed and handled in an efficient and practical manner. At the heart of Lunar Capricorns is a powerful need to feel worthwhile in the real world. There's a basic need for respectability and a big attachment to the world of the senses. Lunar Capricorns put a lot of value in all things tangible and real. And, perhaps more than anything, they need to be respected by others in order to feel secure.

Short description:

Reserved and cautious. Attracted to politics. Selective, earthy, success comes by means of other people, who recognize his qualities.

Potential issues: material worries, saving far more than enjoying, restrictions. Does not get carried away by love.

Moon in V: The Moon is in the fifth house

He likes pleasures, distractions of all sorts. Emotional life is rich. He loves children and may have a lot. He will be self-taught.

You love to share emotional experiences with loved ones and have a flair for the dramatic. Love affairs are magnetic and intense, and you don't take them lightly by any means, although you may go through much change with regard to your romances. You are attached to children, whether they're your own or not. Your creative hobbies are subject to relatively frequent changes, and you have innate artistic talent. You have a vivid imagination and are given to daydreaming often. There is a sense that you are always in touch, or trying to get in touch, with your inner child. If the Moon is challenged, you may have problems with impulsive shopping or gambling, or with frequent love affairs that never fully satisfy you. In any of these cases, you are more attached to the game than the player, and this is something to work on if you are looking to find true fulfillment. You might take risks just for the fun of it, but in the process, you are being irresponsible to others and to yourself.

65 Sextile between the Moon and Venus

You are generally amiable and project a soft and yielding manner. You possess natural charm and you are highly imaginative and sympathetic. You can make an excellent mediator and go-between. You are keenly aware of your need for relationships and for intimacy. You have a well-developed respect for qualities typically associated with the feminine. People appreciate you for your tender heart and friendly, diplomatic disposition. You should enjoy a good measure of personal popularity and success in your life. Although generally considered "lucky" with relationships and with money, this is less about luck than it is about a certain level of inner peace and positive energy that attracts pleasant situations. At times you can be complacent, downright lazy, and over-indulgent in the "pleasures" of life. However, you are a peace-maker at heart and have an unusual ability to help and heal others. You are gracious and warm.

He is gracious, sweet, happy. He especially enjoys pleasure and entertainment, the Arts. He needs tenderness. He appreciates home life in a comfortable, safe atmosphere more than most.

-138 Opposition between the Moon and Saturn

When the Moon is in hard aspect to Saturn in the natal chart, natives need to learn to trust others more. Fear keeps them from fully enjoying personal relationships, and fear is behind the occasional rigidity that they express. When they let themselves receive nurture or care from others, an inner voice cautions them that it might not be sincere, long-lasting, or enough! There can be some reluctance about becoming a parent, but once taken on, these people don't take their responsibility lightly.

Emotional reticence is the main theme of these aspects. Many people with this aspect had a lot of conditions placed on the love they received in early childhood. They tend to expect the same later in life. With hard Saturn aspects, individuals are often plagued with doubts, not only about the self but about what to expect from life itself. The problem is that expecting difficulties or negative situations creates an aura around them that perpetuates the problem. They must work hard at positive thinking and expecting more from life. Ironically, many people with hard Saturn aspects can be quite sarcastic, skeptical, and rigid in manner. This is essentially a defense mechanism designed to protect themselves from harshness in the world.

It is extremely likely that they feel neglected because they perceive it in the first place, and later expect it, to be the case. There's a vicious circle going on here that can only be broken when the patterns created by negative conditioning are broken. Adjusting one's perceptions and expectations is the key to breaking out of these negative patterns. Otherwise, natives of hard Moon-Saturn aspects will live life feeling left out--attracting circumstances that perpetuate a feeling of deep unhappiness and dissatisfaction.

Short description: He has changeable moods, a reserved character, can be stubborn and may lack assurance. His relationship with a guardian may have been difficult or a challenging early family life in some cases.

27 Trine between the Moon and Midheaven

He has a strong sense of family, profound feelings, and may especially like children and animals. If there are changes in his professional life, they are most often for the better. There is a sense of forward movement, popularity with those in authority or in the professional life.

Mercury

Mercury represents communication, Cartesian and logical spirit.

Mercury is in Scorpio

He is extremely observant and astute, always reading between the lines and looking for the real meaning behind things. Passionate in speech, excellent at strategy. Natural psychologist.

Mercury in IV: Mercury is in the fourth house

Good education; he is cultivated, enjoying literature, family life, and family relationships.

You are an extremely imaginative person who dreams up all sorts of unusual ideas and plans. Your thinking is quite subjective, and in some cases narrow or biased. Some of you might enjoy working at home or keeping a lively, intellectual atmosphere in your home. You tend to retain a lot of information, and are usually quite interested in history, psychology, or politics. You are not quick to embrace a new idea or plan, and can be quite traditional in your thinking.

67 Conjunction between Mercury - Venus

He looks on the bright side of life. He is gay, agreeable, optimistic, sociable. He enjoys speaking and writing, and he does both with charm and artistry. His intellectual pleasures are very much influenced by his feelings. He is amorous and sensual. He likes beauty, the Arts, travelling, frequent changes of scenery. Aims always for diplomacy. Very charming.

-20 Square between Mercury - Jupiter

He is frivolous and imprudent at times. He may lack judgement, and may be full of self-importance. He can have difficulty realizing his plans largely because he lacks clarity and he often overshoots.

-40 Square between Mercury - Neptune

He misjudges, but very imaginative. He lets things happen, and is happy to stay in his dreamworld. Confronted by reality, he is hesitant, anxious about being tested and can fall back into his imaginary world.

-40 Square between Mercury - Ascendant

He may criticize and gossip, arguing frequently and often nervous. Without even realizing it, he might look for or instigate a verbal battle, and can be provoking.

Communication is very important to you, and your mind is sharper and more creative when you have a partner you can bounce your thoughts and ideas off of. You are an excellent conversationalist and can fascinate your partners with your sharp mind. You love to debate issues just for the mental exercise, even if you don't feel strongly about the position you argue! You play devil's advocate often, and your ideal partner understands that your debates are, in fact, mental exercises--certainly not attacks! You are also prone to exaggerate or stretch the truth when trying to make your point, especially when it comes to your own background or experience.

In your close relationships, your partner serves as a mirror, reflecting your thoughts and ideas back to you from a different perspective. You are rather independent and will not allow anyone to restrict your freedom, but you love to talk things out before arriving at a decision. Truth is, you won't always take others' advice! However, you do enjoy looking at problems from all sorts of different perspectives. You may choose partners who are considerably younger than you, or who are not as academically smart as you. Conversations with you are always stimulating and lively. The ability to share your thoughts with a partner is vital to your sense of fulfillment in a close personal relationship.

Venus

Venus represents an interest in emotions and values, exchange, and sharing with others.

Venus is in Scorpio

Venus in Scorpio people attract others with their intensity and willingness to commit. They have a strong and concentrated manner which suggests their feelings run deep. Their actions in love tend to promise deep commitment and sexual pleasure, even if they are not telling you this directly. Their appeal lies in their focus on you, and their dedication. Venus in Scorpio seems fearless when it comes to intimacy. Potential lovers get the feeling that Venus in Scorpio will never stray, that they are intensely loyal to the one they love. They possess you, and somehow make it seem attractive to be possessed.

Venus in Scorpio natives give you their complete attention. These people are very focused

on their partners. Depending on your personality, you may find this unnerving or entirely flattering. They have a strong need to control their partner, although this won't be immediately apparent, and they may not ever admit to this. Their body-and-soul love and commitment can be so intense that it eclipses fun and makes loving them a very heavy experience. Their emotion and intensity may seem overdone to those looking for a more lighthearted relationship. These people take things to extremes, and can be very provocative. Although they want to explore all of your nooks and crannies, they won't always be forthcoming with their own. When you've upset these lovers, you'll know it. Depending on the moment, Venus in Scorpio will shoot you one of the most piercing glares around, or totally blow up. Whichever style they choose, a slighted Scorpio lover is not a pretty sight. These people can be jealous of all of your attachments, but few will admit it. They're not afraid of being underhanded in matters of the heart, and they are experts at cutting through all the fluff and seeing you for what you are. Still, you may find their conclusions about you seem skewed and mistrustful.

Pleasing Venus in Scorpio involves demonstrating your complete commitment and loyalty to them. Appreciate their guts when it comes to love and intimacy -- they're proud of their courage in these matters. If you can, and they're deserving, relinquish some of the control in the relationship. Let them feel they own you, without taking it to extremes. Remember, though, that some Venus in Scorpio lovers can and will take advantage of you on a subtle level, if only to keep you all to themselves. Let them have their secrets and their silences.

Short description: Sensual and passionate. Passions run hot and cold. Full of ardor and desire where the partner needs to be able to match his level. Can be jealous and possessive. If disappointed or deceived in love, he can become bitter. Usually very loyal.

Venus in IV: Venus is in the fourth house

He is lucky enough to have many happy occasions all through life. Strong friendships which can affect the emotional life. He usually enjoys a good marriage. Happy family life. Good work situation.

You seek balance, beauty, harmony, and peace in your home and domestic life. You might be especially attracted to luxury or quality/comfort items in the home, and you likely have an eye for interior decorating. There is a loving, personal touch to the way you decorate your home. Your love is decidedly sentimental, and you show your affection through nurturing and displays of sympathy. You don't give your heart out easily, but when you do, you do it with great emotion. It's very easy for you to become attached to a partner, and possibly smothering or overly dependent if you are not careful. Your parents' marriage affects your own partnering skills and style more than most. A parent may be especially charming, beautiful, or otherwise Venusian. On the negative side, this parent may have been especially indulgent or overprotective with you.

28 Trine between Venus - Saturn

He has a good grasp of reality and of duty. He is thrifty, reserved and usually not given to showing off. He likes truth and justice. In love, his sentiments are sincere and deep, he never plays false. He is, of course, faithful in love and friendship. He might love a much older person, appreciating that person's intelligence and good sense.

-13 Square between Venus - Neptune

He might lack self-confidence and his ideals are not always easy to achieve. In love, he is unstable and deceitful or, more likely, meets people who are like this. He is easy-going and follows others' wishes in love much of the time, and might let the partner take the initiative more often than not.

This aspect indicates a suggestible romantic nature. Being "in love with love" is a strong possibility. You are naturally compassionate and are generally willing to go over the top for a loved one. It's hard to say whether your expectations in personal relationships are too high or too low. On the one hand, you tend to easily accept behaviors in your partners that others wouldn't accept, as you are compassionate and even drawn to people who others might consider trouble. On the other hand, your romantic dreams may be so powerful that you are easily disappointed with the reality of relationships. Deception in love is possible, but self-deception is even more likely. In love, you see what you want to see, rather than what is. Feelings of being used or deceived may come up. However, if a distinct pattern exists in your love life that involves you being let down, deceived or used, it will be especially worthwhile to examine whether self-deception was at work.

The possibility of clinging to romantic delusions is very high with this position. For example, some with these aspects cling to a romantic notion that someone loves them when in reality that person doesn't return the affection. Or, they may cling to a romance that has lost all hope. Another possibility is devoting their love to someone who is unattainable or who is unable to commit. Yet another Venus-Neptune scenario is loving someone who treats them badly, all the while clinging to an idealized image of the partner. No matter what the scenario, romantic yearning and longing, as well as delusion, tends to be the theme. The expectation here is that loving someone requires self-sacrifice. The result is an attraction to relationships that are co-dependent and even abusive. Venus-Neptune people are drawn to victim/savior relationships, and they can play either the role of victim or savior! Dependency or neediness in a partner can be confused for love. In an attempt to love unconditionally, you may too readily sacrifice your own needs and eventually feel used.

-5 Square between Venus - Ascendant

He may go to excess with his pleasures, frequents doubtful company, may come across differently than expected. He is very spendthrift, but spreads his money around his circle. His friends may be more self-interested than sincere.

-17 Opposition between Venus - Midheaven

He can have a difficult time integrating personal and public or professional lives effectively. Both areas may suffer at times due to indecision, inconstancy.

Mars

Mars represents the desire for action and physical energy.

Mars is in Libra

Mars in Libra natives often reflect about things before they act. Decisiveness is not their strong point, but they do, eventually, get things done. Many people with this position procrastinate, generally because they feel the need to weigh all of the alternatives before taking action.

Life isn't always fair, as Mars in Scorpio would say, but Mars in Libra will seldom accept this notion. These natives can easily get caught up in defending themselves and others. Although their overall goal is to live peacefully, they stir others up with their desire to balance everything. Still, they always play innocent when they are challenged, and can generally charm the birds out of the trees to win your favor. Passive-aggressiveness is practically the hallmark of this position. They don't want to look like they are ever being mean or unfair, but aggression has to go somewhere! Too often, this results in sneaky behavior and subterfuge. On the other hand, some Mars in Libra people turn the Mars energy into action, and they fight for Libran justice and fairness in the world. On the up side, Mars in Libra people are adept at predicting when problems and discord will occur well in advance. They know how to compromise and are excellent at conflict management.

Mars in III: Mars is in the third house

Lively spirit, alert and ingenious but can be sarcastic, critical, provocative. He is quarrelsome at times. He expresses himself easily, does what he wants: success is at the end of the road. He is capable and acts quickly.

You speak your mind quite readily, sometimes shooting from the hip when it comes to expressing your ideas and opinions. You tend to know a lot about a variety of subjects, and like to share that knowledge with others (sometimes too forcefully!). You are generally very direct and clear when it comes to communicating. You can easily get worked up about what others might think are trivial matters. You love a good debate. Whether you know it or not, or no matter your intentions, you can be provocative in your communication style. You

are likely gifted with manual dexterity, although you might easily become impatient with tasks. At your best, you are enthusiastic, animated, and lively in the way you express yourself, and this can inspire others. You will fervently defend your opinions and beliefs, as well as your family and childhood.

92 Sextile between Mars - Jupiter

He has a good sense of organization, he is jovial, frank, and sincere. He is full of dynamism and abundant energy. He loves life, taking all it has to offer. He likes sports and the outdoor life. He is successful professionally and emotionally. He may have many children or projects and ventures.

He is honest and forthright in his dealings with others, and He tends to trust others readily. He can be a bit careless about spending money, however, and this is probably because he is so eternally optimistic that there will always be plenty around. The possibility of failure does not enter his mind, although success itself is not as important to him as enjoyment and happiness are. Can be pleasantly competitive and good-humored.

9 Trine between Mars - Neptune

His feelings are dominated by wisdom, intuition, and instinct and geared towards the ideal. He likes water, sea voyages. He likes odd people, situations. Can often use a gentle approach to pursuing desires.

73 Sextile between Mars - Pluto

He is ambitious with a great capacity for work and effort, self-confidence, and determination. Will stick it out to the end with his plans.

You are committed, determined, and passionate. For you, it's all or nothing, and you are baffled by, and possibly impatient with, others who do things only halfway or half-heartedly. You are usually quite decisive, and often unwavering once committed. You are certainly a passionate person and you possess a fascinating and commanding aura.

You are generally confident about your own talents. You employ strategy when you are going after something, and you are very talented at this, saving time and energy. You're naturally very resourceful and usually quite persistent when pursuing a goal. You are a wonderful person to be around when there's a crisis. Very little fazes you, and you're especially effective when circumstances call for a leader.

-43 Opposition between Mars - Lilith

Love affairs are tempestuous with quarrels, crises, great passion after the storm.

Jupiter

Jupiter represents expansion and grace.

Jupiter is in Leo

He attracts the most good fortune when he expresses magnanimity, is generous with others, inspires confidence in those around him, conducts himself with dignity and sincerity, while also avoiding the pitfall of excessive egotism. Prosperous areas are creative ones, entertainment, children, and recreation. Takes pride in everything he does. Generosity brings success.

Jupiter in I: Jupiter is in the first house

-5 Opposition between Jupiter - Neptune

He is easily influenced. He is a dreamer, perhaps allowing himself to be seduced by others' fine words which are not always sincere or by a new imagined plan that may not materialize. He does not see wickedness right away, preferring to give the benefit of the doubt, but can often be duped by others due to a philosophy that one should trust in people until they prove themselves untrustworthy.

54 Trine between Jupiter - Pluto

He likes to direct, he is intelligent and an organizer of the first order.

35 Trine between Jupiter - Lilith

He could meet a partner much wealthier than himself. Good sexual understanding.

42 Sextile between Saturn - Midheaven

He is ambitious, but in a deliberate, calculated, well-balanced way. He is persevering, mostly serious, and orderly. He climbs the ladder slowly but surely; if need be, he is willing to change his ideas. He is wise and experienced.

Uranus

Uranus represents individual liberty, egoistic liberty.

Uranus in Aquarius

May get over-excited at the start of a task that interests him. At times, his debonair personality can give others a banal impression.

Uranus in VII: Uranus is in the seventh house

He rejects traditional roles in partnership or he is attracted to (or attracts) unconventional people as partners. May fear entrapment, but it can take half a lifetime to realize this is coming from within, not from others. His independence doesn't match well for traditional marriage. If he does marry, he needs many freedoms.

Will do best in unconventional or nontraditional set-ups. Likely to attract unusual, erratic people, particularly in close relationships.

70 Sextile between Uranus - Midheaven

6 Trine between Pluto - Lilith

He may lead a double life. He may have a secret love affair while having a good relationship with his partner. Most with this aspect, however, are highly perceptive and can keep a secret. Alternative views of relationships are likely.

1 Trine between Pluto - Ascendant

He has willpower and ambition, and almost always prefer to have his own way.

Lilith

Black Moon Lilith represents our darker, deeper natures that may be repressed or buried.

Lilith in Aries

There can be some fear of taking the lead, asserting oneself, and making executive decisions. These things need to be learned in this lifetime, and when integrated and accepted, it can be empowering.

North Node-South Node

The South Node represents our overdeveloped character traits. We are talented here but if we overdo this area of life or hold onto these traits to feel secure, we may stagnate. The North Node points to the qualities that we need to work on and develop to achieve inner balance and fulfillment.

North Node in Gemini

He has brilliant ideas and is the first to discover new things. However, he has a tendency to ignore the details and may avoid some responsibilities for fear of becoming too bogged down. Taking on too many activities can keep him from focusing on one or two paths, and this can be to his detriment in the long run.

Another life lesson is to understand the impact of his words. Speaking his truth should be done mindfully or else it may undermine his growth at times. A balance should be sought. He can be an excellent teacher and hold far more meaningful and intelligent exchanges with others in so doing. By learning to slow down and take care of business and to live in the present, he is likely to achieve far more happiness and a wonderful sense of inner balance. Qualities to develop: clarification, listening skills, attention to detail.

North Node in XI: North Node in the Eleventh House

His path is to share and cooperate with others more often, as he seems to naturally fall back on a personal approach. While it is not instinctive to be a team player, as he develops this side of him, he grows and this growth brings more opportunities and fortune into his life. Qualities to develop: collaboration, participation, impartiality.

The Houses

House I is the area of self identity. The ascendant is a symbol of how one acts in life. It is the image of the personality as seen by others, and the attitude that one has towards life.

Scorpio with ascendant Leo

Ascendant is Leo

Leo rising people cannot help but be noticed. They radiate a special energy and magnetism that gets others' attention. Sometimes it's because they are loud people who pay a lot of attention to their personal appearance (especially their hair!); other times it's due to a regal manner that simply demands interest from others. Leo Ascendant people are very self-aware and body-conscious. They are acutely aware of others, and how they come across. In fact, these people are especially aware of their personal "backdrop"--they consider what the people they're with, and the environments they are in, do to their own image. Often, Leo rising natives feel as if they are on stage, even in the privacy of their own homes! They are given to rash decisions, temper tantrums, and excesses. However, they have plenty of staying power, drive, and their idealism keeps them from getting into too much trouble. The desire to oversee the goings-on in their circle can sometimes amount to bossiness. If this desire doesn't go too far, however, it can just mean a person who wants to make sure the people they love are all right. Many Leo rising people are managers, either by profession or character.

The tendency to overestimate things, and themselves, is generally present. This is due to a natural enthusiasm and optimism about any new undertaking. Sometimes, they are walking commercials. In fact, Leo rising people make excellent promoters. Leo rising people are generally demonstrative, and given to grand gestures. Drama comes naturally to these natives. In fact, some are so caught up in fiction, they're a little blind to fact. They have an unusual need to be admired. Leo Ascendants often have a strong physical constitution. They pay special attention to their personal appearance and mannerisms. Usually, they choose clothing and hairstyles that are youthful. Their manner is authoritarian and strong. Very full emotional life.

No matter their age in real-world terms, Leo rising people are kids at heart. They are fun-loving and warm; generous and spirited. Just how magnanimous and outgoing a Leo rising individual is will be modified by the placement of the Sun by sign and house. This is because the ruling planet of a Leo Ascendant is the Sun. For example, a Leo rising person with Sun in Virgo may not come across as strongly as a Leo rising person with Sun in Aries. No matter the placement of the Sun, however, Leo rising natives are quite self-aware and optimistic. They have a natural flair for presentation, an eye for quality, and a hard-to-resist warmth of style. They want to make things happen, and create a stir.

House II - the second house - is the area of material security and values. It rules money and personal finances, sense of self-worth and basic values, personal possessions.

Aquarius on House VIII

An unexpected inheritance.

House IX - the ninth house - is the area of learning that shapes the identity.

Pisces on House IX

He likes sea cruises. He has brilliant ideas that seem to come from nowhere.

House X - the tenth house - is the area of material action. The Midheaven represents the work one will do in one's life, the place one will take in the world of society. It becomes more important as one grows older.
