LONDON, ENGLAND - JANUARY 07: A coat belonging to a member of the Newham Health Trust team hangs over a hand sanitiser dispenser as he injects a shot of the Pfizer/BioNTech COVID-19 vaccine at the Sir Ludwig Guttmann Building on January 07, 2021 in London, England. The UK aims to vaccinate all over-70s, front-line health workers, and the most clinically vulnerable by mid February, when its current lockdown rules will be reviewed. That would require around 13 million covid-19 vaccinations. As of Tuesday, the country had vaccinated more than 1.3 million people.
