

# Reflection on my first cut

## Negatives

- The cuts are too visible making the film appear unnatural.
- Some of the props that I used are different to the ones used in my final cut.
- Focus is average and could be better
- Lack in continuity editing
- Ending is missing
- No sound effects
- No voiceover included
- Unnecessary background noise
- Some of my cast changes in final edit
- No credits included

## Positives

- All of my actors were available
- Majority of my clips were in order
- My clips matched my screenplay and shot list
- The location was perfect for the horror genre
