Open Up the Possibilities

The Outdoor Living industry has been one of the fastest growing industries over the past decade. Popular programming on networks like HGTV and DIY, dedicated to decorating and home improvement, now educates and inspires homeowners about all the possibilities for transforming their homes. As the trend of moving indoor rooms outdoors grew, creating unique ways to manage the elements like sun and rain became key to making these spaces more useable. Traditional architecture provided some fixes, but came with limitations and drawbacks. The industry was hungry for a better answer.

That's why StruXure created the perfect solution to controlling the effects of weather. We designed, engineered and patented the highest quality resolution for improving outdoor living. Today, as the leading innovators in shade and shelter products, we continue to push the envelope, incorporating advanced technology and building materials into our latest designs. No other system offers this level of quality and technology.

Now let's talk about your space. We want to help you create an outdoor living area that you'll enjoy for years. A space to enjoy good times with friends and family. A space that reflects your personality and sense of style. A space that's protected from the elements so it's comfortable year round. A space that's as functional as it is beautiful. Are you ready to create the space that's as unique as you?

A HISTORY OF INNOVATION

We aren't kidding when we say that StruXure Outdoor Inc. is rooted in innovation. Company founder, CEO, and Chief Product Architect, Scott Selzer was a middle-school teacher with a part-time remodeling business on the side. He specialized in building decks and pergolas, refinishing basements, and tackling other home improvement projects for his clients. When he was asked to find a solution for creating an outdoor shade structure that would still allow sunlight to penetrate the adjacent home's interiors, Scott went on an exhaustive search, eventually concluding that the caliber product he was seeking didn't exist. Never one to settle, Scott decided to design and build his own product, a pivoting louvered-roof structure that the user could control. Little did Scott know that he had begun a journey that would lead to one of the fastest growing* privately held companies in the United States.

What began as Adjustable Patio Covers, a company focused on improving outdoor spaces, and the first to bring an adjustable louvered system to the East Coast, evolved into Arcadia Building Products, before becoming StruXure Outdoor in December 2018.

The Pivot was our first company offering in 2011, a structure designed and engineered to withstand all types of weather conditions. Scott continued to find ways to re-design, innovate, and patent even higher quality products, adding the Slide in 2016 and the Pivot XL in 2018. Steady growth led us to move into a new state-of-the-art manufacturing facility and corporate headquarters just north of Atlanta, GA in 2016. We also expanded operations from our existing Southern California office to a much larger West Coast Fulfillment Center and Showroom, located just outside of Las Vegas, NV, in the fall of 2017. StruXure has future plans to open additional distribution facilities to keep up with our growing national dealer network. With StruXure dealers from Canada to the Caribbean, we are poised and ready to lead the way to more innovative outdoor living across North America and beyond.

We are proud of our roots, which is why StruXure still holds true to our core values: quality, customer service, and innovation. In pursuit of building a great company, we recognize that good isn't good enough. That's why we will never compromise the quality of our products. We also know that to be great we must offer impeccable customer service to our dealers and their customers. StruXure is continually expanding our technology and design, with a focus on architectural innovation and leading-edge building materials. Our next generation of products will continue to evolve and break new ground. As the leader in automated shade and shelter, our mission is to enhance outdoor living and exceed people's expectations for what an outdoor lifestyle really means.

Designed, Fabricated & Assembled by American Craftsmen

TO YOUR EXACT SPECIFICATIONS

StruXure luxury systems are manufactured entirely in the U.S. by American workers who take great pride in what they do. Our team of people really cares and is passionate about building the best system made — and that dedication shows in the beauty and quality of all our products.

Each StruXure system is engineered to exceed all standards and expectations. They're designed to meet Florida's stringent hurricane codes, as well as withstand heavy snow loads in the cold of winter. Plus, each StruXure system is fabricated and powder coated to order, made to exact specifications, which makes for a better fit and finish and a cleaner looking system.

Ideal for any outdoor living areas, such as patios, decks, lanais, verandas, entryways, courtyards, outdoor kitchens, swimming pools and spas. It's a perfect enhancement for patron comfort at Country clubs, restaurants, hotels, resorts, theme parks and sports venues. Select from a variety of available colors, materials and finishes to complement any architectural style and conform to your aesthetics.

Pivot to create shade or shelter from the elements.

Pivot

The original StruXure system has been improved and perfected since its inception in 2011. Its award-winning pivot design gives a full 170° range of motion to provide a cool oasis, regardless of the sun's position. Now available with StruXure's Somfy technology, the Pivot can intuitively control the effects of the weather to enhance your outdoor lifestyle.

CLOSED

When closed, the patented louver design interlocks, providing a solid shelter from rain. Water is pitched into the system's 360° integrated gutter.

ANGLED IN

Shaded space provides protection from the harmful effects of the sun. The Pivot provides SPF protection and allows you to spend more time outdoors without added sun exposure.

OPENED

Allow maximum light into your space with the louvers fully opened. Minimizes resistance and uplift in high winds.

ANGLED OUT

Angled louvers provide cool shade and air flow without blocking your blue sky view.

THE AWARD-WINNING PIVOT DESIGN IS CHANGING HOW WE LIVE OUTDOORS, WITH A FULL 170° RANGE OF MOTION.

Slide

We listened to our customers' feedback and challenged our design team to do what no other louvered roof can do: give you full sky. The StruXure Slide gives you the ability to open the space above you while maintaining the versatility of the Pivot. By combining these two features, the Slide has totally revolutionized the way we view outdoor living. Now, the sky's the limit.

We can design an StruXure Slide in larger spaces, where a full sky view can provide an impressive visual and eliminate the barrier between you and a beautiful day. With the push of a button, simply slide one pivot zone above another to open up your space. Then, when you're ready, close the Slide and return it to the full functionality of an StruXure Pivot.

THAT DRIVING-
WITH-THE-SUN-
ROOF-OPEN
FEELING, NOW
FOR YOUR PATIO.

High-Quality Building Materials

EACH STRUXURE SYSTEM IS A WORK OF ART,
CONSTRUCTED WITH CARE AND ATTENTION
TO EVERY LITTLE DETAIL.

Our goal is to give you the strongest, most durable system on the market today. That's why every StruXure system is constructed from fully-extruded aluminum and stainless steel components. The Smart Motor drive system that powers our designs is American made and UL and CE certified.

When it comes to finish, we believe a premium product deserves a premium powder coat. We use a premium architectural grade powder coat on all our standard components. Our process demands a more thorough pre-treat process to prep for better adhesion. This is critical when combating the effects of salt water, chlorine and other environmental conditions. StruXure delivers a higher quality standard finish because our customers demand — and deserve — the best.

COLORS TO Complement Any Space

The StruXure system features five standard color options that can enhance almost any architecture. For unique instances where standard won't do, we are able to provide thousands of custom colors for the perfect match. A chemical textured powder coat makes a more scratch-resistant surface, while giving it a matte finish that is extremely on-trend for outdoor design today.

or Choose A Custom Color.
Now Offering Woodgrain Options.

EXTRUDED ALUMINUM

Withstands the Elements

LIGHTWEIGHT

Aluminum weighs less by volume than most other metals and materials.

STRONG

Aluminum profiles can be made as strong as needed for most applications.

NON-CORROSIVE

Aluminum does not rust.

RESILIENT

Aluminum combines strength with flexibility and can flex under loads or spring back from the shock of impact.

REFLECTIVE

Highly reflective aluminum can be used to shield products or areas from light, radio waves or infrared radiation.

NON-COMBUSTIBLE

Aluminum does not burn and, even at extremely high temperatures, does not produce toxic fumes.

RECYCLABLE

Aluminum retains a high scrap value. It can be recycled indefinitely without losing any of its superior characteristics.

ACCEPTS FINISHES

Aluminum can be finished with a variety of common techniques, including liquid paint, powder coatings, anodizing or electroplating.

WITH

COMES
DURABILITY

The only fully extruded aluminum
louvered roof system on
the market today.

Solutions for Your Space

StruXure's philosophy is "if it can be designed and engineered, we will build it." Truly amazing designs can be created to meet your exact requirements — however demanding, unusual or eccentric. We take pride in making your StruXure system one of a kind. With so many options and limitless possibilities, how do you know where to begin? Our product specialists can help you design an StruXure for your outdoor space that is uniquely yours.

CUSTOMIZABLE

Each StruXure can be customized to meet virtually any existing architectural elements.

- / CEILING FANS
- / ACCENT LIGHTING
- / CUSTOM COLORS
- / WOOD / FAUX CLADDING
- / CUSTOM COLUMNS
- / CORNICE STYLE FACADE
- / PERGOLA CUTS / CORBEL ENDS
- / MOTORIZED SOLAR SCREENS
- / OUTDOOR CURTAINS
- / OUTDOOR HEATING & COOLING

GUTTER SYSTEM

When the system is closed, our interlocking louvers channel water into a fully extruded aluminum gutter system. Our 360° gutter design provides a more efficient water management when the louvers are closed.

Range of Motion

THE STRUXURE PIVOT AND SLIDE GIVE YOU THE POWER TO CONTROL THE WAY SUN AND RAIN AFFECT YOUR OUTDOOR LIVING SPACE.

We designed our StruXure Pivot to create shade in any space, regardless of position of the sun. Our quiet linear drive system is smooth and efficient in moving the louvers from zero to 170°. This range of motion provides complete control over both light and weather in your outdoor environment, so your plans can stay as flexible as our systems.

Your perfectly-angled louvers allow for excellent air flow, creating a cool, comfortable outdoor space, where it's possible to enjoy both the feel of the shade and the beauty of a clear blue sky. We like to think of it as the best of both worlds.

Preventative Maintenance & Cleaning

SEAMLESS OPERATION

Everything is designed to work in unison. The result is fingertip control and a dynamic connection with your outdoor space.

CONTROL LOUVERS WITH THE PUSH OF A BUTTON

Control your system with a hand held remote or wall switch. Upgrade to Somfy's MyLink™ and control your system via any smart device.

OPTIONAL RAIN, SNOW, ICE SENSORS

Our sensors can be set to automatically open and close the system depending on the weather conditions. The rain sensor closes the system, to protect you from the weather. The snow and ice sensors open the system to alleviate any snow build up to continue use of your system.

WIND SENSORS

This setting can sense excessive wind speeds and fully open the louvers to minimize uplift, allowing the air to flow through the system freely. This mode overrides all other functions so the louvers stay open until the storm passes.

PROGRAM & CONTROL YOUR SYSTEM WITH THE WITH THE STRUXURE OUTDOOR APP BY SOMFY

Thinks On Its Own

WITH ARTIFICIAL INTELLIGENCE

Welcome to the smarter side of outdoor living. The StruXure Outdoor app by Somfy provides the ultimate control of your outdoor living environment from the palm of your hand. It's just one of the ways StruXure continues to innovate, continually perfecting our products through applied design and advanced technology to provide the best customer experience.

StruXure Outdoor app by Somfy Technology provides users with a variety of programming options including:

- / Remote Control with WIFI APP (Use both together)
- / Home Automation compatibility
- / Use the same controls to automate both the pergola/structure and motorized screens
- / More Sensors: Rain, Wind, Snow/Ice, Freeze Voice Control (Amazon Alexa Integration)
- / Programmability (Different times of the day)
- / Full range of radio controls
- / Technical Support
- / Training Support
- / 5 year full warranty

Environmental Innovation

StruXure is proud to continue its tradition of environmental innovation. Using sustainable building materials, we've created the strongest, lightweight StruXure that is virtually maintenance free. From the selection of our building materials to our innovative designs and lean production methods, StruXure is committed to operating as a sustainable business and reducing its overall environmental impact.

ECO-FRIENDLY DESIGN

Each StruXure system is manufactured in the U.S. and fabricated with recycled aluminum, making it an extremely green product. The louvers can be oriented in any direction desired for maximum control over sunlight. That means in the winter, you can let sun through to provide warmth and light to adjacent rooms. In the summer, you can angle your louvers to provide energy-saving shade. At any time of year, rain water can be reclaimed from closed louvers and used to water plants. In every season, there's a reason to love StruXure's eco-friendly design.

Limited Lifetime Warranty

StruXure Outdoor Inc. extends a transferable limited warranty to the structural components and moveable accessories of our products.

StruXure warrants our products for the lifetime of each product against manufacturer's defects in materials.

StruXure Care

Think of it like changing the oil in your car or taking it to a carwash for a detail. You want to take care of your investment. StruXure Care is a planned preventative maintenance and cleaning program generally performed once or twice a year, that's designed especially for your StruXure system. This program will allow you to keep your StruXure operating at peak performance, so you may enjoy it for many years to come.

Members of the StruXure Care Preventative Maintenance Program, enjoy the standard coverage offered by the general StruXure Product Warranty, plus the following add-ons.

- / TESTING OF MOVING PARTS
- / GENERAL WEAR AND TEAR CHECKED
- / COMPREHENSIVE CLEANING OF LOUVERED ROOF
- / SYSTEM GUTTER CLEANING

Please contact the dealer that installed your system for more details and pricing. Joining is optional.

(Not all Authorized StruXure Dealers participate in StruXure Care, please check with your local dealer.)
