Thumbnail Blaster is the world's leading thumbnail creation app. It makes use of new A.I. software to create attractive thumbnails.

There are so many benefits that one can obtain from this program.

Over 4000 members are already using the Blaster Tools to cut their niche. The Thumbnail is everything, no matter how good your content is, Attention-grabbing thumbnails promise more likes, views and subscribers than just good videos. Over 400 videos are

uploaded on YouTube every minute. Most viewers, therefore, a scheme through the videos. This means you need to go an extra mile in terms of creativity for your video to stand out. That is why the Thumbnail Blaster is here for you. It is here to cater to your creativity and attraction needs.

The program helps save time and money while attracting endless new subscribers and viewers. It utilises Artificial Intelligence to make everything possible. Its cloud computing nature allows you to use it without the need to download anything on your desktop or mobile phone. It is so hard even to find a good freelancer that will deliver quality work 100% to your liking. The Thumbnail Blaster saves you from this stress. It simplifies, automates and eases the attractive thumbnail making process.

Beneficiaries Of This Program

- Those that have ranked their video on the first page of YouTube or Google and didn't get any views.
- Those with thousands of subscribers and still only getting a few views.
- Those that have uploaded a video and got no traffic.

Features

- A fully automated thumbnail marker for marketers and You Tubers.
- 30 thumbnail templates
- Drag and drop editor
- AI-enabled
- Publishing button for posting final videos.
- Split test module
- There is an extra feature: you will get 100% free auto-updates.

How The Program Works

The following three basic steps illustrate how the program works:

Step 1: Select One Template. You also have an option of letting the AI choose a template for you. The Thumbnail Blaster has a variety of thumbnail templates, over 30 thumbnail templates across multiple niches. Also, there are general templates and Click Bait templates that can be used in any niche. All these templates have been battle-tested and proven to get the highest click-through rate for video campaigns.

Step 2: *Click, edit or customise*. Here, you also have the option of letting the AI choose a template for you. The best part of this is no technical skills are required. You have the freedom to customise templates to your liking and utilise all the editing features at your disposal.

Step 3: *Publish and get views.* It is the easiest step. You do not need the AI to do this for you. It is as easy as clicking the “PUBLISH” button. Once you’ve clicked the Publish button Thumbnail Blaster will update the video with the new AI created a thumbnail that will get more views, visitors and exposure.

It doesn’t just create beautiful looking thumbnails only because that does not guarantee more traffic and likes. YouTube has a split test feature. The Thumbnail Blaster Split Test module has another 3 step procedure to help you find the best performing thumbnail between two.

Step 1: Select two thumbnails you want to compare and find out the better performer.

Step 2: Start the split test. The thumbnail blaster will work behind the scenes rotating the thumbnails and checking your views every hour.

Step 3: when the test is over, Blaster will automatically set the highest converting Thumbnail. No sweat here, Thumbnail Blaster does all the smart work.

Pros

- It does not require any technical skills.
- The process is as simple as point and click.
- It is easy to use.
- Over 30 templates to choose from gives you a variety and room for uniqueness.

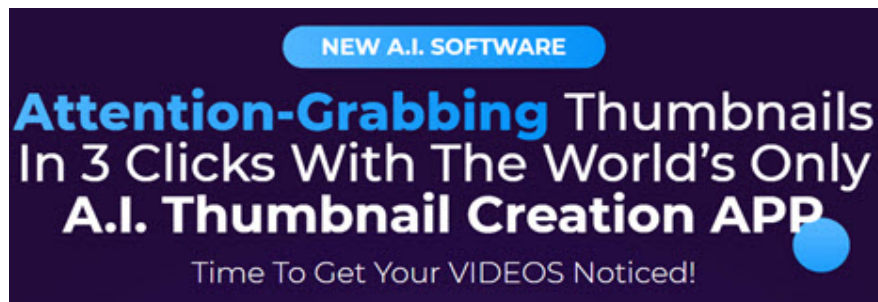

Benefits

- It saves you money. You do not need to spend on expensive designers and ineffective freelancers.
- Automatic creation benefits you with more views, visitors and leads.
- More subscribers. These subscribers get notified each time you upload a new video.
- It Saves you time. Thumbnail Blaster is fast compared to freelancers who take time to do their thumbnails. While Thumbnail Blaster guarantees quality results, freelancers may give you below par/expectations work.
- More exposure. More videos assure you of more exposure.

The Bottom Line

The Thumbnail Blaster AI enable app is the answer to your need for attractive thumbnails that will result in massive traffic in your timeline. The app uses a split test to choose the better thumbnail designed through a simple point and click process. The application is cloud-based and quite affordable. It is useful in so many ways. For instance, you can increase the number of views and subscribers on your YouTube channel. Use coupon code "Blaster 37" and get Thumbnail Blaster at a discounted price.
