

I realise that Sir Keir Starmer is a very busy man, but it would be good to get an actual reply to the letter sent on 21/10/2021, it seems to me that not getting a reply for over 3 months means that people with mobility issues are not a priority for the Labour Party.

When or if I do receive a reply, it would be nice to also get an acknowledgement that this is not being ignored and that the Labour Party are actively looking into making Level Boarding a Priority.

And please don't send me to the Dft or your Shadow Transport Minister, unless the reply is meaningful, that is what everybody seems to do, I have been in touch with the DfT since 2018 and still have not got this situation resolved.

I have attached the letter again, for your attention.

I look forward to your reply and ultimately a reply from your Leader.
