

**USED TO DENY ME EMPLOYMENT WITHIN LAW ENFORCEMENT IN MIAMI DADE**(Miami Dade police department abused, delayed, and lied durin emplyment procedure there. Here is the appeal letter that was submitted to Miami Dade Police Department after declining me the right to work as a police officer):

The two written reprimands received from Wackenhut Corporation mentioned on my background file were irrational.

The first time reprimand took place in my life was at the at the Marriott hotel's location in Dadeland when working for Wackenhut Corporation. After working 16 hours without rest(entire afternoon and night shift) at Marriott Dadeland, I was asked to continue my work at different post. When asked, I have initially agreed to another eight hours by giving signature to supervisor who have asked me for favor; however, I was unrested(as much as I wanted to assist him, work load went beyond me). Therefore, still holding the paper in my hands, I have erased my signature from the paper by using the white out !!! All this occurred at approximately 0630 hours which was just thirty minutes before ending 16 hour shift(for him, this was a ground for written reprimand).

Second reprimand occurred when I left at 0800 hours from Dadeland's Marriott hotel toward home to Miami Beach. I failed to pass onto morning guard what was master key(just card used to swipe to open doors). The relieving guard was one hour late that morning and I was in hurry to get out of Dadeland due to construction work and congested morning traffic which would regularly build after 0800 hours. As a result of guard being late one hour that morning, It took me two hours to return home from Dadeland that morning. Upon arrival to Miami Beach residence, several messages were recorded on my answering machine...messages were related to master key card.

Despite traffic and everything(all night work), I have immediately returned with my wife to hotel at Dadeland. Due to previously mentioned conditions on US1, I have used car to Miami Downtown and from there on we both took metro mover/rail(I was TIRED from working all night long and it would probably took me 3 hours to get there by car). I have returned with card to hotel at approximately 1100 hours and have passed one on to my supervisor.

Once I gave the card to my supervisor, I was told to go to Wackenhut's branch office located at Blue Lagoon Drive. Supervisor declined to explain how or why !!! Upon my arrival at Blue Lagoon Drive, major DELAROSSA, have handled me written reprimands for which he demanded to be signed. I did not agree with the reprimands as those were all fabricated charges, and have requested to see instead Mr. Eduardo Esquivel who was the main person incharged for Miami's operations. After my explaining him the situation, he stated how he understands me, but that I should sign reprimands despite facts mentioned earlier. He stated that he likes my performance, and is thinking to promote me from upscale security officer to custom protection officer. Left without choice, I did sign the reprimands as directed by Mr. Eduardo Esquivel without knowing or anticipating that those will be actually used against me(in most disgusting and backstabbing manners possible) when applying with government related work positions.

Year passed, and while working at Winn-Dixie's Warehouse one night, Road Captain Alexander Cruz stopped bye to conduct the post check. Due to me unknown reasons, Mr. Cruz disliked me(would not laugh or converse as he did with other guard). While handling him touch probes (sensors) in his vehicle through the window, he kicked me with vehicle's door. My realizing the potential for conflict situation, I have instead managed to friendly avoid him by immediately assuming work post back at the guardhouse. After more than thirty-five minutes(he should have stay there for no more than 5-10 minutes or for post check only - its what you do as a road supervisor unless you are replacing guard), Mr. Cruz approached me in guardhouse and have asked me for the spare radio battery which I have immediately handed him(I gave him whole radio). However, he was unable to detach primary battery on his radio and have asked me to hand him my personal keys set what I declined(he could have broken my car key and then what).

By using his own keys set, he finally managed to detach the battery off his radio. Upon his battery replacement completion, he slid me one across the table by what appeared to be almost as if thrown in me(into my paperwork in front of me). I have quietly attached the spare battery onto his radio unit(he didn't bother to attach one to his spare radio, but have demanded me to do so instead), but did have enough of his attitude and have replied him I cite, "I do not appreciate the way you treat me". He returned angrily with, "What is your problem man! Do you want me to come in there ?"....

On his challenging words and since Cruz was armed with pistol, I answered him that I feel threatened and will report this incident to Blue lagoon's office. Agitated and equipped with revolver, Mr. Cruz entered the security booth, and stated that he knows Mr. Esqivel personally. Few minutes latter, he called new major who have sent me at home(major who was at home was totally awake during incident which I believe have taken place sometimes between two and three in the morning...as if someone well anticipated stated above). Next very same day, I was fired from Wackenhut Corporation upon my arrival there. They ware not interested in my side of the story, but did mentioned previous reprimands as a critical factors in their final decision.

Sincerely(I used to still sign myself under "sincerely yours" back then even that whole thing didn't have to do anything with me at all),  
Avsec Bostjan  
Miami Police Department Applicant

END

**What was not included in official letter, but is fact is that people involved in conflicts above were all either blacks or Cubans.**
