Terms Of Service

My terms are in place to ensure I am not missing customers by spending more time than necessary on small jobs. These terms & prices on this price list are related to deals on Telegram. There is a separate set of terms for the websites.

-Payment is always upfront, work will only start once I see your payment in my account.

-All prices are fixed. No negotiations.

-Be specific with what you want. There's usually plenty of people waiting to order, So I don't really want to spend all day on yours.

-If I have made an error, I will always correct it free of charge and apologise. Just let me know where I messed up!

-If you have made an error and need something re-editing, You may be charged for it.

-If you need something revising or changing, 24 hours after your order is complete. You will always be charged full price as my templates are overwritten and I have to make it all again.

-I will send you all photos and files relating to the job on request. (Not the templates of course).

-Please don't spam me. Be patient and wait for my reply. I am very busy and have alot of customers to get through. I will get to you once I can.
