Mateusz Żak

Java developer

Extroverted, willing to learn person. I am looking forward to work in team as a Java Developer in order to gain as much experience, knowledge as I can and to develop successful projects.

Projects

Cruise system

Project built on Maven using Spring boot, Hibernate/JPA, MySQL. It is a REST API application with management system of ordering cruises. In the application we are able to:

- Register/Sign in
- Order cruises and orderem them in many ways (eg. sorting by price/date)
- Upload photography (.jpg/.png)
- Insert new offers
- Manage orders
- Manage available journeys

UI/UX is build with Thymeleaf and CSS. Page is multilanguage.

Work experience

● EPAM Student

From April 2022 to August 2022 **EPAM Systems** Remote

I have attended in Java university program for students organized by EPAM Systems Cracow. During the course I have expanded my knowledge, which allowed me to create a website with a working backend using, among others, Spring Boot and Hibernate/JPA. I have also learnt more about SQL, Collections, Maven and more.
