

World History and Globalism's Road-map to World Government

Everything you will read here is what "the people" of the world were never taught. After 20 years of research acquiring knowledge to understand and make sense of the World Government Plan, I personally underwent a total revision of my ideas about all aspects of what is considered reality, the world we live in, and the future of humanity. As a result it is my understanding Western history for the people is every bit as distorted, censored, and as useless as in Hitler's Germany, the Soviet Union or Communist China. And to insure that not just history, but economics, medicine, technology, social engineering, education, media, entertainment and more remains controlled, distorted and censored, no Western foundation will ever award grants to research/expose all I do here. Moneypower insures academics cannot survive by researching what's here. What is written here did not come from moneypower or any institution it controls, therefore most people *by design* will find this world studies essay with all its topics of global significance like nothing they ever "believed", learned in school, in University, or imagined as a possible reality.

"Most people prefer to "believe" that their leaders are just and fair, even in the face of evidence to the contrary, because once a citizen acknowledges that the government under which he lives is lying and corrupt, the citizen has to choose what he or she will do about it. To take action in the face of corrupt government entails risks of harm to life and loved ones. To choose to do nothing is to surrender one's self-image of standing for principles. Most people do not have the courage to face that choice. Hence, most propaganda is not designed to fool the critical thinker but only to give moral cowards an excuse not to think at all." - Michael Rivero

Explained herein for the "critical thinker" are the real reasons for wars, revolutions, debt, poverty, the global food crisis, climate change, terrorism, energy security, migration, global health, technology, cultural exchange and more. The mainstream media will never expose why the ruling elite families of the world have and continue to invest in every area of the planet, and bet on every point of conflict on the planet. The level and types of conflict and misunderstanding in this world is by careful design through controlled change for a plan. The purpose of this essay is to help the reader break through a lifetime of propaganda to go beyond the conspiracy to understand how not only America, but all of mankind is really governed/controlled/ruled and by whom. Therefore my goal in writing this is to help "the people" properly identify the true enemy to humanity. That identification is required to save humanity for what is planned for "the people" of the world.

This account of truth tells a story quite different than our propaganda media or sanitized textbooks. It tells a story of a 100+ year old oligarch designed globalist plan requiring the deliberate creation of war, the knowing finance of revolution to change governments, the use of conflict to create world government, and barbaric technologically advanced behavior and mind control to keep control of people on a road to World Government. All to keep

that same magical freedom disappearing act we see throughout history continuing on and on. Understanding the global elite and their plan for world control through world government have never been more important as they have never been closer to their version of a united world. The governance of this planet is increasingly becoming globalized and centralized and in 2015 were some of the biggest steps toward a one world government, a one world economy and a one world religion.

Pursuing truth doesn't take the wonder out of reality; the truths discovered have the potential to make reality drastically more fulfilling if enough people understand reality outside the worlds elite and their favored class. The challenge of looking ahead cannot be overstated and this essay can not seek to predict the future, there are too many variables. Awaking people to reality is increasingly complex in preparing for what tomorrow might bring. If the people discovered and comprehended the multigenerational hidden truths exposed in this work IMHO it would result in a rise of individualism causing a disconnection from long-established puppet governing structures. Understanding reality will be the most effective way of helping all of us think about the future we want and how to embrace it. Some people will criticize this work on grounds of incomplete referencing. Some will claim its scope is too narrow or its focus too expansive. Others will disagree with my overall argument, my representation of the western world regarding how its used for bringing about world government. We are all at different points in our path to the understanding of World Government. Even though I have immersed myself in study for a long time, I cannot claim to understand the intricacies of every mechanism of this massive totaltarian plan as it comes into being. World government is a work in progress therefore so is this essay, I update it monthly. We all have different life experiences and are privy to various ways in which domination operates. But World Government has the same plan for all 'the people' and it therefore is essential that we forge an alliance based on the recognition of this plan and combine our knowledges together in order to build resistance.

For 20 years I have looked for people that dig up news I could not find anywhere in the media. I listen to their perspectives and heed their modes of analysis; how they interpret news and connect seemingly disjointed dots. Many people excel in that regard outside todays controlled academia and many of them are brilliant. Some can be found in the references I used to write this essay and on my facebook friends list. We all need to listen, stop believing, and never stop thinking for ourselves or being honest about any reality uncovered. I hope this roadmap will initiate a dialogue between all who choose to read it. Regarding referencing I have many files offline I will share with anyone wanting to do further research to supplement whats here and online for evidence to help you further comprehend your own conclusions. Every year we move closer to a future where there will only be government approved information and disinformation available online.

Its important to understand only 6 media companies exist today. And more importantly to understand WHY. If everything you read, hear, and see comes from mainstream programming then your entire reality and everything you “believe” is programmed into you by the global elite. The purpose of that programming is to keep you in a continuous state of deception and fear to completely control you for a reason. That is why throughout history and today their servitude remains the peoples salvation now on this long road to world government.

You were never taught or understand WHY many companies, corporations, universities, institutions, corporate governments, corporate agencies, lawyers and international bankers have been aiding/funding and creating emerging technologies that is serving a plan to reshape the entire world. They have all been working separately, yet unknowingly together according to a plan for over 100 years. Since energy is the key to all activity on the face of the earth, in order to attain a monopoly of energy, raw materials, goods, and services to establish a world system it was necessary to control economics and all economic factors to engineer today's world economy. If you understand the geopolitical goals/roles of organizations that lead before or are leading the reshaping today such as; The Committee 300, NATO, The Club of Rome, The International Monetary Fund, Skull & Bones, Illuminati, The Council on Foreign Relations, The United Nations, The Trilateral Commission, The Bilderberg Group, The Federal Reserve, Non Government Organizations, American Tax Exempt Foundations, and many others, then that shaping does not sound absurd to you. It makes insane sense once you understand the organizational structure, financing, and belief systems of the elite who control those groups who also remain hidden from the masses by controlling the money, technology, health, media, education, politics, art, entertainment, and religion. And for generations many have tried to expose these groups to the people. One common theme found throughout history in my studies regarding those who tried to expose the aristocracy/oligarch elite to the masses is they understood them as being humankind-hating genocidists. Yet they continue to control the world more and more generation after generation, now on this long road to world government.

There is an elite plan in motion I refer to as “the globalist plan”. The globalist plan works to protect the worlds oligarch elite and their politically favored class while making sure there is a failure to anticipate problems for the people of the world. The plan works to block perceiving problems when they occur and works to prevent solving them when they become perceived. And the plan has been successful preventing solutions that plague the people of the world using complex bureaucracy. As a result bureaucracies are created to protect the interest of special interests on behalf of a special interest, and that special interest is the globalist plan for world government.

Reading this essay will allow the reader to understand how “the people” being forced to use fiat debt currency has been most essential for the globalist plan; how the weather is controlled and weaponized for political control and corporate profit from that plan; why our food supplies, indoor&outdoor air and water have been poisoned from that plan; why history has been rewritten for that plan; why we have weaponized health care from that plan; why media is propaganda from that plan; how climate change aka global warming uses geoengineering from that plan; why schools are indoctrination and disinformation government programs from that plan and why/how wireless "wi-fi" frequency devices are being used as weapons for human destruction/control in ways you never imagined.

Lets start by looking back to World War II where the stated purpose of Operations Research to the people in America was to study the strategic and tactical problems of defense against foreign enemies. The actual purpose for those in positions of power were for acquiring total control of a society. The reason why the globalist plan is waiting so long to implement world government is because their plan requires a variety of technological advancements including social engineering to create an automated society. And that requires the correlation of great amounts of constantly changing data, meaning very-advanced computerized data-processing systems must be in place 50-75 years before the kind of world government they want can acquire the technologies for global totalitarian control for world government to successfully come into being and keep control forever.

- Relay computers were invented in 1946 and were too slow.
- Then the simplex method of linear programming in 1947 was too slow.
- Then the transistor in 1948 promised great expansion of the computer field by reducing space and power requirements. Its obvious today that promise was correct.

After the invention of the transistor the globalists decided it was the technology to use to control the whole world one day. That's why the Rockefeller Foundation in 1948 gave a 4 year grant to Harvard funding the Harvard Economic Research Project for the study of the structure of the American Economy. The Project was an extension of World War II Operations Research. Its purpose was to discover the science of controlling the American economy, and then the world economy. By 1952 the Harvard project had been very useful suggesting the feasibility of economic (social) engineering for the globalist plan. And that plan needed the availability of unlimited social power. Looking back to 1952 today we can see it was only decades away. Studying the topic of “silent weapons” its clear to me the globalists by 1954 understood it was only a matter of time before the general public would be capable/able to grasp many technologies and would use it to better humanity, which is

an unacceptable outcome for the globalists. For the oligarch elite the game of life for “the people” must remain rigged and at any cost to the people. The global elite will accept a public utopia, they only allow their private utopia.

*"What advantages will we reap if science conquers all the world, except a World Government."-
The Chicago Tribune, Jan. 24, 1924)*

That concern from 1924 was important for the people who didn't know, unfortunately the globalists did and 91 years have passed and today the globalists have successfully conquered science through creating and controlling the funding structure. The issue of primary concern for the globalist plan to succeed still requires dominance of the energy sciences. And “energy” to globalists is recognized as the key to all activity on earth needed to control all humans including natural science, natural energy and social science. And its important to understand economics is the study of the sources and control of social energy. And since economics is bookkeeping, mathematics is the primary energy science for the globalist plan. So the globalist's and their plan remains in control simply because the public is kept ignorant of the methodology of the bookkeeping. To a globalist science is nothing more than a means to an end. The means is knowledge. The end is control. The globalist plan has been a complete success to privately wage a quiet war against the American public with the objective of permanently shifting the natural and social energy (wealth) of the many into the hands of a few to be used for the globalist plan for world control.

The objective of globalist dominated/controlled economic research conducted by the magnates of banking, the industries of commodities and services, is to establish an economy which is totally manipulated, predictable and controlled. To achieve today's totally controlled economy required more than just controlling the money, government, education etc.; the low and middle classes of society are controlled in every aspect from a very early age to prevent understanding or questioning their realities later in life. That is slavery. And its essential to maintain today's scripted distorted pseudo version of social order, peace, and tranquility for the people. All so the ruling upper class can keep control and continue with the globalist plan.

I make clear in this essay world war 3 began right after WW-2 against the American people for the globalist plan with scientific research and by the 1950's was already out of control, then went into overdrive after 911. This war also worked hand and hand with the cold war. This war causes no obvious physical or mental injuries to its brainwashed targets, and does not *obviously* interfere with their daily social life, while at the same time is causing them unmistakable physical damage, mental damage and interferes with daily social life from birth to death. This war attacks the potential, health, vitality, options, and mobility of the individuals of society by knowing, understanding, manipulating, and attacking their sources

of natural and social energy, and their physical, mental, and emotional strengths and weaknesses. All of that has been accomplished because the U.S. government for over 100 years has been controlled by corporations and bankers posing as a representative government for the globalist plan. All wars have been bankers wars so an endless supply of military men and women have been/are for war games that serve the globalist plan; the courts/lawyers work for the advancement of the corrupt corporate government for the plan; consumer products for the people have been deliberately poisoned with chemicals for the plan; we have a weaponized pharmaceutical health industry for the plan. Today's globalists have control over the technologies capable to understand and manipulate matter associated with omniscience and nanotechnology, to be used for the plan; the global strategic trends today clearly expose the deliberate and large-scale manipulation of all inhabitants on Earth for the plan; political operations, scientific advancements, economic, intelligence networks, material resources, the military, all physical infrastructure, transportation, transit systems, buildings, the power grid, even concrete and steel are being blended with cyber-infrastructure for the plan to control the people.

The number of connected devices has increased by 4,000% between 2003 and 2015. The new IPv6 internet protocol allows for 340,282,366,920,938,463,463,374,607,431,768,211,456 connections which is believed to be sufficient to make world government a reality making earth officially a prison planet. It will become increasingly harder to go 'off-line' to a point where a time is planned to come where anyone considered a threat to world government and will be targeted with microwaves until they submit or die. The people need to awaken themselves to truth/reality. Or perhaps they need a new breed of private programmer/economists to catch on to the far-reaching implications of the work that begun at Harvard in 1948 before they can awaken? Meanwhile the globalists continue controlling technologies, air, food, media, subverting education, subverting academia, all to help keep the public weak and distracted with meaningless choice and issues of no real importance so they never awaken to the globalist plan.

An insane destructive philosophy which is the actual source of both Naziism and Marxism long ago began to change America as a constitutional republic for the globalist plan. As we continue to move forward toward global government we will continue to see all clash of opposites and ideas that would/should make for progress for the people simply vanish from the world by design. The only reason the globalists need to control all opposites is to dominate/control the nature of all outcomes. And to date the most obvious example the use of political "right" and "left." They financed and encouraged the growths of both philosophies for the sole purpose to control outcome. Also by continually dividing the sciences and education into narrower and narrower segments, it only becomes easier each

decade for the globalists to control the world through the many created and controlled parts with all the “specialists” coming from academia. Under world government the child will exist to be trained to serve the State with suppression and eventual elimination of all individualist tendencies using a lifetime of globalist approved knowledge, mind control and several other manipulations discussed throughout this essay.

The global elite are on the inside looking out. We the people are on the outside looking in. They call us "peasants" and “useless eaters”. What are they most afraid of today? The potential of every single awakened individual who has the advantage of knowing about the truths explained here, the real world with its infinite diversity and using truth to wake up others.

They are terrified of the potential of thousands coming together and waking up the masses. But sadly globalist control of information is only becoming more successful, and that success also controls political organizations that continually destroy the social health and constitutional vitality of American society for the globalist plan. Unfortunately the intellectual world by careful globalist design everyday is more locked into the phony political battle between "left" and "right" not comprehending the real battle is between individual freedom and the encroaching power of the absolute State. In a truly free society, the opposite from how far America has drifted today, the exercise of political power would always be open and known. Understanding the world that's been pulled over our eyes gives us the ability to move toward truth, justice, and freedom. Understanding how the world really works and using that knowledge to awaken others will put us beside other humans in history who also tried to UN-rig this world from the elite. Are you interested to understand what can better humanity? Its something no self proclaimed globalist controlled “official” body would ever give you. Its simply understanding reality, and its yours if you want it!

Understanding the globalist plan requires understanding unthinkable recent history for most Americans to consider. For example how and why the West built the Soviet Union and transferred technology to Hitler's Germany. Why Washington conceals those facts. Why America boosted Soviet military power and simultaneously boosted their own. During the past 100 years the globalist plan has made sure any theory of history or historical evidence that falls outside a pattern established by the American Historical Association and the major globalist owned foundations has been suppressed, destroyed or rejected. One example is in 1946 the Rockefeller Foundation allotted \$139,000 for an official history of World War Two. This was to avoid a repeat of debunking history books which blindsided the globalists and interfered with their plan for world control after World War One.

Studying the globalists, the globalists plan, and their operations we can connect dots to generate a picture of their objectives without access to any internal agreement or

statement of objectives. For the record the precursor of the globalists objectives today were recorded and began long ago in Cecil Rhodes will. It was for the extension of British rule throughout the world by perfecting a system of emigration from the United Kingdom and of colonization by British subjects of all lands wherein the means of livelihood are attainable by energy, labor and enterprise with the ultimate recovery of the United States of America as an integral part of the British Empire. I will cover his will and its ties to today's globalists plan later in the essay. This essay lays out how the world has moved forward since from many groups that make up the leadership of the worlds globalist's globally. These groups have cooperative and competitive features and together at this point in history, for the plan, they have either set up or penetrated every significant research, policy, and opinion making organization in the United States including science, money, health, church, education, business, law, government and politics. They made great strides in the last 100 years to set up world government persistently and consistently enough to dominate the direction of American society for the globalist plan. The evolution of American society is not and has not been for over 100 years a voluntary development reflecting individual opinion ideas and decisions at the grass roots. The direction has been created artificially stimulated and controlled by the globalists for their plan. Their global plan also called a "New World Order" calls to first restrict then eliminate freedom, Constitutional protection, national boundaries, individualism and cultural distinction. They plan to make order out of all that chaos they created over generations, so in reality the conflicts in this world are not inconsistent because the objective is to bring about world government/slavery through predetermined controlled change.

Do you ask how can there exist a common objective when members of any government are acting in opposition to one another? It seems one difficult task in this essay will be to get across to the reader what is really very a simple observation: that the objective of Globalists is neither "left" nor "right." "Left" and "right" are illusions, the left and right side of the same beast to bring about controlled predetermined change, and the extremes of political left and political right are vital elements in a process for that controlled change. Globalists need us all to believe the opposite of what we the people deserve/need. That is crucial to understanding what the globalist's are about. For example all discussions between left and right to promote change is never allowed to develop into a discussion where the best government is least government. The discussion and the funding is always for more globalist controlled state power and less individual rights for the people. So it doesn't matter from the viewpoint of globalists whether it is termed left, right, Democratic, Republican or religious. All that matters to the globalists is that the discussion is kept within the framework they set up and the increasing power of the State they now control moving continuously toward internationalism, leading to world organizations they now control, leading to world law they now control, leading to world government they PLAN to control.

"If it be asked, What is the most sacred duty and the greatest source of our security in a Republic? The answer would be, An inviolable respect for the Constitution and Laws — the first growing out of the last." —Alexander Hamilton, 1794

The most basic set of REAL rules governing our society is the Constitution and the Bill of Rights. And there is *nothing* in these constitutional documents to support *any* of the globalist demands. What those demands imply is that American citizens have a DUTY to advance the will of the globalists/the State. That is definitely not in any way part of the philosophy under which the United States was founded. The Constitution was created by those who refuse to sit by and accept a bad fate without a fight against elite oligarch control. Today we face a Reckoning. A forced accounting is confronting us for everything "we the people" have allowed and all we have failed to understand for several generations. There is a price to be paid for every mistake a society makes and ours by design are all rapidly coming due at this stage of the globalist plan that can clearly be seen in 2015. In September 2015 the U.N. Openly launched what they are calling a "new universal agenda" for the world. This latest step in becoming more open with the globalist plan can be put into operation because the American people are fully controlled by long range penetration and inner-directional conditioning. Every 5 or so years decade after decade the plan is more exposed by the globalists proving the globalists feel they can come out gradually into the open because the populace is continuously more brainwashed and conditioned to a point today the whole plot can not even considered a "conspiracy" by most everyone. That confidence is why the Pope traveled to New York City in September 2015 to give his endorsement to this phase of the globalist plan for world government. Almost every nation on Earth is now signed up for the 17 goals in this step of the globalist plan, which made very few international headlines for a reason. The UN is not asking your permission to do this. This universal agenda is for the entire planet to commit to 17 sustainable development goals and 169 sustainable development targets designed to radically transform our world by 2030. This agenda is nothing new and is just taking agenda 21 (explained later) to the next level for the globalist plan. The preamble to this U.N. plan reads "All countries and stakeholders, acting in a collaborative partnership, WILL implement this plan." It says "will" because the UN represents the globalist plan and has never, or will ever, rule by the consent of the governed. One thing is clear; the globalist plan has arranged it so we the people will never be in position to determine terms of a settlement with the U.N , we takeover, we will just be along for the ride if we remain asleep regarding the horrific totalitarian world government ahead. If we truly can get a government of the People, by the People, for the People, and elected officials who serve at consent of the governed, this globalist created nightmare would end rapidly.

Our Founders established a government with 3 separate branches capable of enforcing a balance of power between them so no single branch could achieve undue influence and undermine the representative power of the People. That can only work when the members of those 3 branches keep that power in balance. When you have most of the people filling those seats who are corrupt owned puppets then the balance of power, by design, is never addressed. The Supreme Court is there to say whether or not legal activities in our nation comply with Constitutional principles. This is critical for defense of the Constitution but the Court by design has become a political arm of ideologies and sentiments for the globalist plan. One example is expediency of Court decisions make or break entire industries resulting in the loss or preservation of millions of jobs and countless dollars. All of that serves the globalist plan. And as time passes the globalist plan depends on justices serving lifetime appointments. That was never the intent when the Supreme Court was established. Article 3, Section 1 of our Constitution states that all federal justices should hold their terms "during good behavior." When was the last time one was removed for failing to adhere to the Constitution? Why are these seats now lifetime appointments? Congress has the legal ability to balance the power of the Executive and Judicial branches yet they consistently abdicate that duty which allows/serves the globalist plan to continue forward.

Its very important to understand, all by design, an overwhelming number of damaging regulations, laws and orders have been implemented so the very nature of Congressional action makes it impossible for Congress to ever clean up the mess that was created to serve the globalist plan.

Today there is endless evidence the Globalist plan is responsible for 50 States as an example of 50 failures by demonstrating how people (by design) have traded power and rights away for money by accepting change through the ideology of incrementalism. Moneypower was used to create a system for the people where people forfeit their independence for money. States that have decided to show strength alone against this part of the globalist plan found themselves to be targets of power plays and lawsuits from this globalist owned puppet federal government. Looking over the past 100 years the globalist plan made sure to make our government, which is supposed to protect our ability to live free and prosper, do nothing but be a growing aggressive enemy of the peoples freedoms and prosperity. The globalist plan has succeeded in making all levels of government determined to make it hard for citizens outside the politically favored class to conduct business while spending their time figuring out ways to make us pay more for the damage they cause to fund their globalist plan. The globalists have horrifically succeeded in creating perplexing situations whose solutions all create more problems for the people.

One of a thousand symptoms of where we are, and are headed. In 2014, seizure of property by police exceeded the loss of property through burglaries. US Attorneys seized \$12.6 billion from 1989 through 2010. The corruption grew by 19% per year on average, except in 2009 when it expanded by 53%. In Washington DC alone!

The first duty of a political party in the United States, which is non-existent in left vs right, is to uphold and defend Constitutional Law and principles in all aspects of government at every level. Our Constitution contains no original language regarding political parties. No party is named, no guidelines exist. Citizens known as "The People" are mentioned frequently in the Constitution. The people have Rights, Powers and Freedoms guaranteed in the Constitution. So it's obvious today we the people, the ones with guarantees, have been forced to have radically less power than political parties who were not mentioned. Moneypower corruption is the reason because it owns both party's. Our Founders operated with the intention that literal interpretation of the Constitution would remain the starting point where all political actions would come from. Within this basic framework of guaranteed Rights for citizens are well defined limited powers of government for a system where leaders serve at the consent of the People. That is supposed to be the rule. By law the people who swore an oath to serve this nation under constitutional law could be held immediately accountable for violating that oath for the globalist plan. We the people have every right to remove/punish all who violate the trust they swear to us.

I have found most all baby boomers do not want to look outside the only political reality they know, which is how they were programmed throughout life; left vs right. Boomers cannot maintain that pseudo-comfort zone of accepting corruption and doing nothing to halt it immediately without dire consequences for their children and so on. We cannot live a lie that elections will someday just fix it all. We allowed this nightmare to occur and it's our duty to correct asap in our time instead of being irresponsible stewards of the globalist plan for world government. Benjamin Franklin once said they had given us a Republic if we could keep it, he understood moneypower and expected endless attempts would be made to undermine what the founders devised for the people. It's obvious today his suspicion's were on target or we would not be on a road to world government. If the Constitution is restored and corruption removed from Washington DC before they finish destroying us it will be because of awakened people, as no one else is trying.

Looking at where we are today it's obvious the globalists control of history through foundations and the American Historical Association has been effective for the globalist plan. Achieved through censorship and the controlling of the American people. Controlled/taught to become gullible because the people were forced since childhood to become an "educated public" of the State with a subversive education of globalist design.

The movement that can topple the globalists globally and the U.S. puppet government could begin so simply and be very effective. It could take 100 thousand who came to the conclusion they don't want the State to control them and prefer to live under the protection of their Constitution. Independent decision is what the globalists fear. Regarding differing views of the relationship between the State and the individual, which do you think is superior? Is the individual superior to the State? Is that individual the holder of sovereignty? Is the State the servant of the people? The Globalist will tell the people the State is superior to "the people" and the people can only find freedom through obedience to the State. In reality the State is the fiction! And who or what controls the State in the world today defining that fiction? Its the Globalists!

Whats ahead regarding technology for human control in the hands of the globalists, because they control the funding structure, is direct brain-to-brain communication to be achieved by 2045, transforming ways of living, working, to eliminate all abilities to be an individual, and gradually/eventually what is defined as *being human*. Only horrific changes for the people of the world, not the elite and their favored class, technology is only used to only improve their DNA private utopia. The realtime transfer of behaviourally meaningful information between the brains of rats has already been achieved. When extended to complex cognitive tasks, the approach of directly linking brains will be the basis for wholly new methods of control for the people. Also mind-controlled machinery, augmentation of humans with embedded sensors and computing devices is what they have planned.

Below are globlist controlled alternative materials that will be used to enslave the world if they are allowed, instead of serving the people to make a better world.

- The development of nanobots.

- DNA nanotechnology to fabricate nano-scale devices. The self-assembly mechanism of DNA will be harnessed to fabricate mechanical, electrical and optical devices smaller than current technology allows.

- New developments in piezoelectric materials will allow devices without batteries to run on power harvested from vibrations.

- Graphene paper around ten times stronger than steel.

- Magnetic shape-memory alloys change shape and mechanical properties when a magnetic field is applied.

- Metamaterials are artificial materials engineered to exhibit properties that only rarely occur naturally.

-Transparent materials made of self-assembling nanospheres that is the stiffest organic material ever created, surpassing the properties of stainless steel and Kevlar.

-Ultra-lightweight and ultra-absorbent materials such as highly-porous carbon constructs one-sixth the density of air and highly absorbent.

-Programmable matter, materials that can be programmed to alter themselves at the molecular level into various shapes and then disassemble to form entirely new ones.

-Compounds that can reform the shape of components in real-time, similar to holograms for the remote projection of a replica of a person or object, or enable robots to change size and perhaps even state of matter.

An economist for the Bank of England predicts robots will replace humans in 50% of jobs by 2035. <https://www.youtube.com/watch?v=LRQfOQIsMuM>

-Project Blue Beam is a US government program designed to play upon religious convictions of the masses to convince them that a genuine spiritual event is taking place in the sky. The globalist plan requires this to provide momentum for a new religious foundation globalists control under world government. <http://truthstreammedia.com/2015/10/19/project-blue-beam-yes-the-govt-researched-projecting-holograms-of-god-as-a-mass-psyop/>

We all know terrorists attack governments and kill humans in the process with the purpose to destabilize governments. Some of us understand the attacks are only done so leaders can be replaced by puppets who will serve the interests of others. The process is quite simple; to bring about regime change the globalist plan requires destruction of ALL regimes on earth they do not control. Today, just like throughout history by design most everyone has no idea who the globalists are or what their plans are. The global elite long ago captured the financial and military resources of many governments to achieve that. We have all been “educated” to believe governments are the culprits of terrorism. But the truth is terrorism is a tactic of the globalist plan, and that plan requires that war is waged to covertly control all governments to then create world government. On December 5th 2013, The National Reconnaissance Office (NRO) launched a satellite with a top-secret payload called NROL-39. All that was revealed to the public is that its purpose is to spy on “enemies” and civilians with technology that is top secret and not revealed to the public. The logo on the satellite is a giant octopus engulfing the world with the words “Nothing is Beyond our Reach”. Once you study world history and understand the globalist plan you understand symbols on everything “secret” are not about public relations or what's best for the people. This giant octopus engulfing the world represents the occult elite mindset that has not ever changed throughout history. Its why you have an all seeing eye and Illuminati pyramid on the money we are forced to use. Symbols provide true representation of the

goals in the globalist plan. The budget of the NRO is over 10 billion dollars per year to do its part for the globalist plan. <http://vigilantcitizen.com/latestnews/new-u-s-spy-satellite-logo-octopus-engulfing-world-words-nothing-beyond-reach-underneath/>

*"The real menace of our republic is this invisible government which **like a giant octopus sprawls its slimy length over city, state and nation**. Like the octopus of real life, it operates under cover of a self created screen....At the head of this octopus are the Rockefeller's and a small group of powerful banking houses generally referred to as international bankers. The little coterie of powerful international bankers virtually run the United States government for their own selfish purposes. They practically control both political parties." - New York City Mayor John F. Hylan, 1922*

It is nearly impossible to obtain information regarding highly classified endeavors, mission patches offer a rare glimpse into the world of PSYOPS.

The hard truth is every aspect of your reality to this point has been corrupted by globalist totalitarians and they plan to use technologies to keep it that way FOREVER. The technology the people have allowed them to acquire control of over during the last 50 years for the plan is mind boggling. And that will be elementary compared to the next 50 years. Science fiction helps us all imagine technologies so powerful they will transform the world into something unimaginable. For example people savor sophisticated smartphones and all wifi devices and the reason everyone has them and savors them is because its required a level of human control/manipulation/destruction required ahead in the globalist plan. For half a century electronics has seen ever-greater breakthroughs and technology will continue to advance with technological sophistication that will continue to go beyond what our minds can now fathom. The most important question for us today is will it remain elite controlled? Will elite ownership of science/ideas ever change? Science and technology do not *appear* to be able to find solutions to society's greatest threats. Threats the people of the world *believe* if not resolved will traumatize Planet Earth and all its inhabitants. It is not that scientists by choice are neglecting these issues—simply put approaches to address them are controlled to prevent outcomes for what is best for the people of the world. Today's inventors are employees of billion-dollar industries and research universities governed by quarterly profit margins. Today scientists are slaves to moneypower for controlled outcomes that serve the globalist plan. In reality the thousands upon thousands of scientists and engineers staffing mega-research businesses are continuously fed profitable short term outcomes for reasons of control to assist and serve the globalist plan. Today's scientists have none of whats required for maximizing scientific and engineering impact for humanity because by design everything serves the globalist plan.

The most important challenge for the future of humanity facing a generation of young scientists has to be breaking free of the globalist plan. Currently there seems no way of

breaking free from being under moneypowers funding structure equipped with resources primarily used on contract science for the globalist plan rather than discovery based on the merits of ideas to better humanity.

Society has every incentive to promote innovation. But as we close in on World Government profit-making companies controlled by moneypower only gear more toward serving the globalist plan. Until the people understand the globalist plan moneypower will remain the dominant controlling funders of American R&D, for industry, and investing in research. The globalist plan also has made government funding as a contributor for basic science to continuously decline. And institutions and individuals able to commit to fundamental exploration and breakthrough innovation continues to decline. The plan for world government after WW1 forced a movement away from creative discovery for controlled science and its application. Modern research universities today presented as nonprofit businesses in a competitive global marketplace in reality do not exist, because they have been forced to become increasingly capitalistic in the rigged game of monopoly capitalism. Research benefits institutional prestige to produce affluence creating an emphasis on the bottom line to support the globalist plan and not on creativity. That is not in the best interest of science or humanity, only the best interest of the globalists, their private utopia and their plan.

The proper purpose of science was summarized in a 2013 Lancet editorial titled; Catastrophic Neglect of Basic Sciences in Medicine. *"To advance knowledge for the good of society; to improve the health of people worldwide; or to find better ways to treat and prevent disease."* Scientists should stop and reflect on how much those goals have been eliminated by the globalist plan. Moneypower knows Society, institutions, and individuals all desire roles to play in better promoting transformational innovation and that is exactly why its controlled to prevent it, so none of that can interfere with the globalist plan.

If we could defeat the plan the globalists are using here in America there would be immediate benefits to the country as a whole from a tremendous development of economic infrastructure, which one would think could launch the greatest economic boom the United States has ever seen. The employment opportunities alone could eliminate the entire unemployed base of the U.S.. Imagine an America never again experiencing the boom/bust cycles forced by a Federal Reserve cartel? Can you imagine the example it would set for the people of the world?

Have you noticed but don't understand how forces are moving people of the world who were not in poverty into a global economic depression? The reasons are here and are not even close to what most people *believe*. Since the founding of America, the 'elite' and their politically favored class have successfully fabricated the peoples history, taken control of their economy and radically altered their form of government/legal system over the last 150 years for a global plan in place for 101 years to eventually create a prison planet. The signs are everywhere; from the militarization of social science to American government announcing they plan disarm every citizen and to eventually chip then brainchip the public. A horrific future for all "the people" of the world is planned to be reality if most all of us remain brainwashed that the plan does not exist. In America many will finally see whats ahead once the Constitution is openly exposed by government as being destroyed. The initial role for America in this is the emergence of a North American Union, a continent-wide government with a unelected political class with a unified military/police superstructure.

"It is easier to resist at the beginning than at the end." - Leonardo da Vinci.

If you cannot understand this directed and organized effort exists and why, then you cannot ever possibly comprehend why there was/is so much suffering in the world, or why American and global events happen the way they do. If you live your entire life "believing" all tragedy and triumph is *not* according to the globalist plan I am laying out here, then you are supporting the global elite plan to bring in world slavery. What kind of life is that? The people of the world have lived and died through endless wars of aggression, terrorism, destruction, torture and murder that was controlled by the elite. Almost every aspect of our perceived reality has been altered and redesigned. The hard truth is we live in a virtual reality of make believe. Only educating ourselves in-order to make different decisions based upon knowledge and understanding will end this corporate construct pseudo-world. Once you *choose* to understand how the writers/controllers of the world's global theater

think, you will understand events to predict how they intend the story of *your* life to progress. And my guess is you will want to awaken others to this interpretation/understanding of reality to create enough numbers of awakened people to stop the insane globalist plan.

"The authoritarian sets up some book, or man, or tradition to establish the truth. The freethinker sets up reason and private judgment to discover the truth... It takes the highest courage to utter unpopular truths." -- Herbert Spencer (1820-1903) British author, economist, philosopher.

If history is an indicator most people who have a chance to read this won't get this far into it because when they see the material that's unbelievable they refuse to even ponder it involves what they don't understand or anything it controls. The good news is information is not secret. All you have to do is look for yourself. In my opinion all you need to understand it is here. The failure that gets more prominent with each generation is to not teach children how to properly read, write and express themselves in a literary form. The prime purpose of our globalist created education is not to teach subject matter but to condition children to live as socially integrated citizens. The endgame is by adulthood the individual finds freedom only in obedience to the State to prepare the individual citizen for entry into world government that will prepare them for world slavery. The paradox I make clear in this essay is that all the moneypower controlled institutions supposedly devoted to the search for truth and freedom are actually institutions devoted to the globalist plan for world government for world enslavement. Comparing myself today to 20 years ago what makes me most different; I have taken the time to re-teach myself and made the effort to look, listen, and acknowledge a truth. A truth at one time I refused to ponder when I would think of reality.....until I researched it and understood it.

Compared to previous generations who never had the means to awaken to reality, we are lucky to be alive during this major phase change in the nature of science and technology because it is more exposed than ever before in history regarding the implications on "the people" in global economies, societies, and cultures. This means we have more ability *if we choose* to understand it than anyone else in history. The plan calls to control every living thing on the planet and beyond that to alter/redefine the definition of *being human*, from the global elite perspective this will finally make the people of the world perfect, which actually means changing the people of the world into perfect slaves for the elite..

"To ignore the evidence, and hope that it cannot be true, is more an evidence of mental illness." -William Blase

To those who hate politics globally and are sick of hatred, wars, poverty in the world, and want to fix their broken society; To those in the U.S.A. on the hard right who want to see Republicans take the White House, Senate and Congress to fix their broken society; To

those Liberals/Progressives who still support the Obama administration and want to see Obama finish what he claims he started to fix their broken society; To you hard left Socialists/Democrats out there who see no evil in a larger all encompassing socialist government and think it would only need more power/control to fix their broken society; To you Independents who just can't decide which side of the line to stand on to fix their broken society; To those Conservatives working to create a 3rd political party to fix their broken society; To those who were thinking anybody but Bush and now anybody but Obama to fix their broken society; and finally for you people who are just plain fed up and feel hopeless with the whole Left vs. Right dog and pony show in America..... all of us not in the politically favored class globally are in the same boat together.....and were all sinking together.

"The state represents violence in a concentrated and organized form. The individual has a soul, but as the state is a soulless machine, it can never be weaned from violence to which it owes its very existence." - Mahatma Mohandas Gandhi

"Who controls the past controls the future who controls the present controls the past" - George Orwell

The plan will not change and from the most horrific to our simplest problems can never get better if most just stand by without understanding **the power centers of the world**, and not even wanting to understand, as I once did, is what most people of the world have done (and been trained to do) generation after generation from birth to death.....that mindset was created all by design, according to a plan. Change simply requires enough people understanding reality to create a tipping point. To make this as difficult as possible, there is an endless supply of disinformation over the centuries that come from moneypower and every institution/government they control. Also most source materials for every detail today and throughout history for understanding the world are not and will never be made available to common people. Not available in what I would call anywhere near a complete perspective. Regardless, there is sooo much going on in the world there are more than enough facts to connect very little past history to current events. 20 years ago my research began with Big Pharma and Big Medical and eventually led up to understanding the globalist plan that directly explains all the insanity those associations represent.

A great deal explained here should not be hard to understand by the boomer generation, lots of dots to connect/understand back when they were getting a formal education....reasons exposing what is wrong with the world, America and WHY! Covered is a comprehensive enough study of American history connected to today's events and the mechanisms of our society, economy, political systems and importantly there global influence. I simply used common sense to figure out a system the people were born into

including what/who created individual peoples present day way of thinking and believing. Each topic builds on the previous in the process of understanding the globalist plan. Most everything I present here was researched using the internet for research and connecting with others globally exchanging ideas; this work is a result and an example of free thinking individuals. Its simply a "collective" of common sense being used as tools for human progress, forged from myself and several thousand other people I learned from and engaged in critical thinking with on the internet from around the world. So it's easy to understand why what's explained here would never come from moneypower or an institution it controls for the plan.

Our money is fake.
Our debt is fake.
Our two party system is fake.
Our healthcare system is fake.
Our food is fake.
Most of the stuff we've been told is fake.
Once you realize this,
what you've thought of as reality
begins to look like
a cheap set on some ridiculous B movie.

Imagine what knowledge and understanding of an assortment of awakened minds can do about our future. Today more than ever each of us, if we choose, can see how we fit into this grand design, more accurately a grand dysfunction. As we begin to acknowledge the plan stemming from unimaginable greed, insane lust for power and the nonexistent healthy balance designed into society, we can collectively begin to imagine a functional human community that fits into a real grand natural system of life.

"Just by fighting we won something. When just one man says "No, I won't," Rome begins to fear. And there were tens of thousands who said "No." That was the wonder of it." - Kirk Douglas as Spartacus in the 1960 movie "Spartacus"

How can we the people collaborate as a community to build a system that discourages exploitation in a rigged game by the global elite that will never agree to allow change? How can we inspire each other to live up to our highest shared ideals? The answer is simple; "the people" understanding their reality is the first step to take us all in that direction.

In our age there is no such thing as 'keeping out of politics.' All issues are political issues, and politics itself is a mass of lies, evasions, folly, hatred and schizophrenia." - George Orwell

Before the internet existed for research, instant news and dot connecting people had to

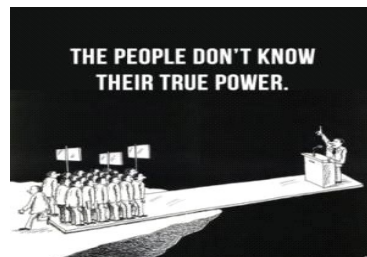

rely on news papers, news magazines, radio and television when searching for information. ALL of those sources where/are still today owned and operated by the global elite. They also control the education system and what you know as realty programming your mind since birth. Elite control of "the peoples' education and ideas of reality has been a reality for many generations.

"We believe that education is one of the principal causes of discontent of late years manifesting itself among the laboring classes" - Report of the Senate Committee on education 1888.

For 15 years I have been delving into what my younger self and most people, by design, consider to be deep unacceptable conspiracy related subjects. And with all the knowledge and wisdom this research has afforded me, I also acknowledge the truth about many details of realty are rapidly changing, will be more evolved, or different from how I have interpreted them.

Regardless:

- There is/has been going way way back a sinister global movement in the world which seeks to eliminate true freedom globally and exploit every single thing in nature.

-It's simply a pyramid system, **and it's only as strong as the amount of people that deny its existence.** So today, by design the plan is stronger than any other time in history. Simply consider the size of earth's current population. And there never was any Republican and Democratic party in the U.S.A., the only party that has existed since Lincoln was murdered is the moneypower globalist New World Order party.

"The world will not be destroyed by those who do evil, but by those who watch them without doing anything" -Albert Einstein.

"If a nation values anything more than freedom, it will lose its freedom; and the irony of it is that if it is comfort or money that it values more, it will lose that, too." -W. Somerset Maugham (1874-1965)

America has been essential for today's global elitists plan, and its been that way for over 100 years now. Meanwhile both parties banksters and politicians for 150+ years have grown the government together; centralizing everything, to control everything, to

eventually globalize everything for a plan that represents where we are today.

"None are more hopelessly enslaved than those who falsely believe they are free." -Johann Wolfgang von Goethe

Every single institution in the United States; from both political parties, to money, to food, to universities, to churches, to the military, to medicine, to the public school system, to technologies, has been corrupted by globalist totalitarians for the plan. They call all they do to you "progressive" but it's simply the same totalitarian control we see happened over and over throughout history. How is it different today? its combined with a barbaric form of technologically advanced human monitoring to set up psychological mind control to reconstruct Western civilization for a radically advanced technological totalitarian world government, to reconstruct the world.

"Whenever the legislators endeavor to take away and destroy the property of the people, or to reduce them to slavery under arbitrary power, they put themselves into a state of war with the people, who are thereupon absolved from any further obedience." - John Locke

After the elite of the world replaced feudalism and open slavery with monopoly-capitalism, they next groomed the smartest and most ambitious kids through Ivy League universities and hooked them in a privileged life style in return for helping with a long term plan. As a result of generations of this the globalist favored class today are, as always, financially rewarded for being psychopaths, mass-murderers, pretentious, greedy, mild-mannered sociopaths....with what elite classify as "taste" because they go along with the scam. They are today in the halls banking, global councils, groups, global committees, education, government, tax exempt foundations, NGO's and corporate boardrooms.

Globalist controlled moneypower initiated and controlled education in this century by controlling its CONTENT for the plan. That moneypower went into private foundation funds to convert the educational system for the people from one aimed at developing the individual child to one aimed at conditioning the child. The University of Chicago, Columbia University then others fanned the "new education" throughout the United States. The content is radically different then the traditional view of education, which sees each child as unique individual and the school as a means of developing this uniqueness. Criticism of the educational system today ignores that important history and focuses on how kids can't read, write, spell or do math. If we look at the educational system through the eyes of the globalists and the objectives of their plan, then the problems and reasons for them become clear. So if teachers are not teaching basics then what are they really doing? They are simply preparing children for a political objective for the globalist plan. Its not in the best interest of slave-masters for slaves to have their uniqueness developed as children. That is why the emphasis is on global living, preparing for a global society. It's of no concern to the

globalists or the educational establishment the globalists control that children can't read, write, and can't do elementary mathematics, the globalists want it that way, because the people will be easier to control and only need to take orders to be ready for world government/slavery.

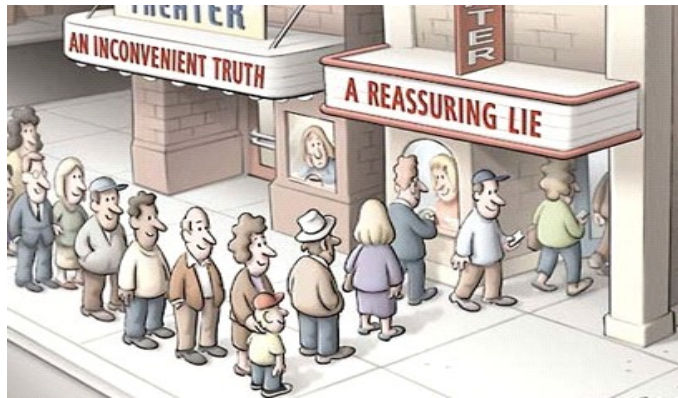

"I prefer the company of peasants because they have not been educated sufficiently to reason incorrectly." - Michel de Montaigne

"Education is what remains after one has forgotten everything learned in school" - Albert Einstein

The plan was in place before the ink dried on the constitution. It was kicked into overdrive with the creation of the Federal Reserve. Together the FED and the global elite created the American family as the foundational block to build a society that made Americas middle class, planned to be in competition with communism to create the most efficient money crops in history for the globalists for the plan of world domination. Fast fwd to the 1960's and globalists called for a complete transformation of the culture in America that has nothing to do with making a better society for the people, it was to destroy the American family for the plan. All culture had to be detached from moral anchors for the next phase of the globalist plan we can clearly see today once the globalist plan is understood.

"You know your country is dying when you have to make a distinction between what is moral and ethical, and what is legal." -John De Armond

There are so many at the top of the favored class, (those smartest and ambitious I mentioned above) have acquired multibillion dollar fortunes. For them to use at their sole discretion you ask? Or for the globalist plan for the eventual enslavement of mankind. The ones you may know like Bill Gates, George Soros, Eric Schmitts, Mark Zuckerberg and many many others obviously do what they are told. No surprise every copy of MS Windows and the MacOS has a back door to the NSA. No surprise Bill Gates donates billions to mass sterilization programs disguised as vaccinations and is involved heavily with Monsanto and chemtrails. No surprise George Soros spends hundreds of millions on campaigns to disarm the American people and overthrow governments globally that refuse to follow the orders of the globalists. No surprise Eric Schmitt transformed his search engine into Big Brother and Mark Zuckerberg turned his social networking application into a spying tool that knows everything about you for the globalist plan.

The plan was designed at a certain point to reduce the effectiveness of the citizenry with indoctrination and debt to keep them from ever rising up. All by design the plan would turn the public against each other to deal with the problems their government created, leaving meaningless elections as the only means to save a dying Constitutional America, all in the plan....sound familiar? The planners learned through history the following; if justice is denied and poverty is enforced, ignorance in the people prevails. With that in play its then easy to then make one class be made to feel that society is an organized conspiracy to oppress, rob and degrade them, so neither persons nor property in the society will feel safe, allowing the plan to move forward uninterrupted in every direction since the creation of the FED in 1913.

"The case for government by elites is irrefutable" Senator William Fulbright, Former chairman of the US Senate Foreign Relations Committee, stated at a 1963 symposium entitled: The Elite and the Electorate - Is Government by the People Ever Possible?

"Fifty men have run America, and that's a high figure." Joseph Kennedy, father of JFK, in the July 26th, 1936 issue of The New York Times.

If your fed up and want change, as I hear more and more people saying, please understand it cannot and will NEVER come from putting trust in a party Republican or Democrat. It's about you educating yourself first, then others, because the real battle is Truth vs. the Establishment. For real change, less a bloody Revolutionary war, is if the people start with learning the actual roles of the puppet Republican & Democrat party's to understand how their partisan politics is merely a gimmick to manipulate the thoughts of the people to not govern but rule them, it would lead to wanting to know more. Both party's are controlled by the global elite.

"The real rulers in Washington are invisible, and exercise power from behind the scenes." Supreme Court Justice Felix Frankfurter, 1952

"In the struggle between those seeking power there is no middle course." - Cornelius Tacitus (55-117 A.D.)

Thus far throughout history right up to 2015 it seems the solution to all this is a catch-22 because while being simple to understand its the most difficult thing to ever do for most people who refuse to take the time to understand it. If people take a stand and become involved in their community finding like minded people many will do the same. We all learn in different ways, and as long as people pass on knowledge planting seeds eventually the people should catch onto reality.

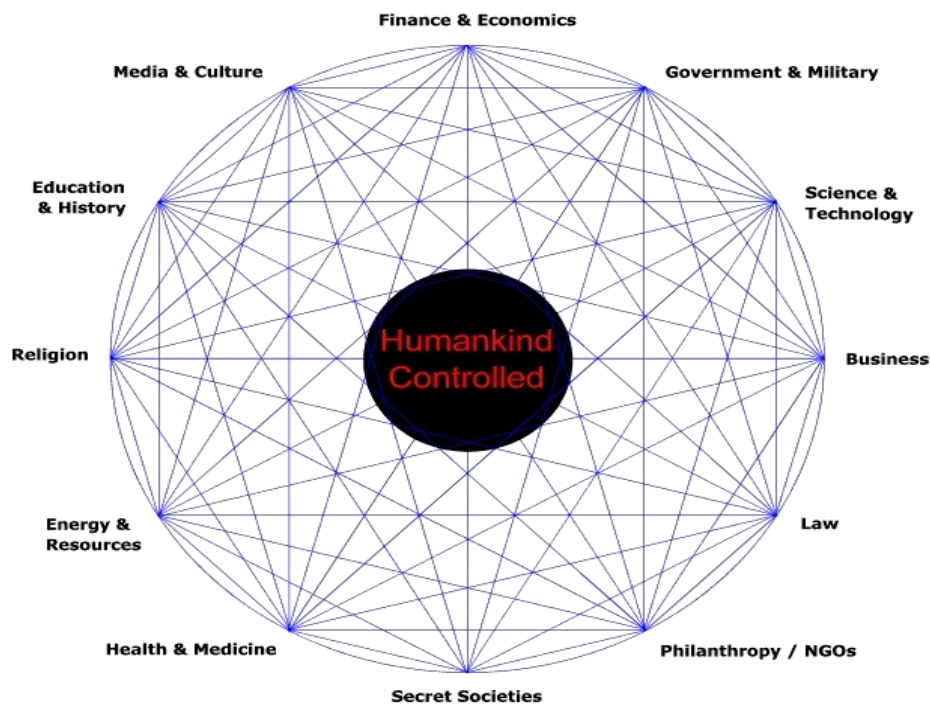

"Today the path of total dictatorship in the United States can be laid by strictly legal means, unseen and unheard by the Congress, the President, or the people. Outwardly we have a Constitutional government. We have operating within our government and political system, another body representing another form of government - a bureaucratic elite." - Senator William Jenner, 1954.

"By the time you become leader of a country, someone else makes all the decisions. You may find you can get away with virtual presidents, virtual prime ministers, virtual everything." -Bill Clinton 9/19/98

Please understand every major social grievance today among the people is by *design* for a one world dictatorship masquerading as "sustainable" globalism, and that smokescreen and their funding is why it is supported by an endless supply of globalist created climate pseudo-scientists and ivy League pseudo-sociologists. We in this generation are now living

on many levels at a historical juncture. For the global elite, their plan for world government just around the corner is the beginning of something exciting for them and their favored class; the birth of a new era in human understanding/control for global totalitarianism/slavery. Once in place they will do whatever they want without interruption from the world's population, while enabling themselves to live longer and more luxurious in their private utopia than any other time throughout history with the aid of advanced technology and more efficient slavery of people. Look how far they have come from funding dictators and financing/creating wars by creating order out of chaos over the centuries, all to pave the way for the first real world empire we heard about now and then called a new world order or world government for the last 100 years.

It won't be hard for you to understand how they have come so far, they have owned Wall Street from day one, the same ones that also backed/controlled Lenin, Stalin, Hitler the United Nations, the FED, and controlled every US president right up to Obama. Sounds unreal?, just keep reading.

"Never forget that everything Hitler did in Germany was legal." – Martin Luther King Jr.

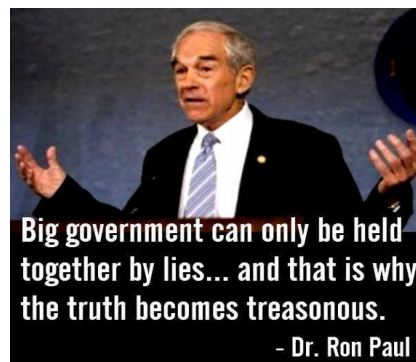

I see the Wall Street protest movement is one sign so many young people are in the transition of awakening, but the partial knowledge is controlled. Many still at the stage of blaming Capitalism, Democrats, Republicans, Obama, Bush or ANYONE with money, proving they are still in a matrix that (by design) does not threaten the globalists, missing the big

picture; that most of the US govt is run by, bought and paid for by, the globalists and their politically favored class. Corrupt politicians representing their backers onboard with the globalist plan, NOT voters is the reality & they pass legislation that not only gives the super rich politically favored class every advantage, but also free money through Quantitative Easing/Bailouts, not to mention zero accountability in the design. In addition, they own/control the mainstream media leaving the majority in America brainwashed and divided using racism quite effectively for part of very old plan to achieve cultural and socioeconomic dislocation. And on this front the US government has perfected the concepts of racial hatred and racial prejudice over the last 100 years, that's the real reason globalists want several ethnic groups in a society they control through government...its all about repeating history with a more efficient covert version of divide and conquer. As a result the people always focus their energies on government created decoys or meaningless partisan smokescreens to try and fix their broke and broken society. Globalists through government twist facts, manipulate world views, have always held humanity back from its better potential and terrify or kill the defiant. Obama as the first black President had an opportunity to transcend racial issues, but that is clearly not what he has done.

"The history of the race, and each individual's experience, are thick with evidence that a truth is not hard to kill and that a lie told well is immortal." -Mark Twain

Regarding the globalists, there are no "American" globalists or for example "Chinese" globalists. They are all members of the same international establishment, working for the same plan to end all sovereignty and construct a world economy/world government. Globalists use national affiliations to create international wars and fiscal calamities to further centralize power under a single authority, which they plan to force the people of the world to accept without question when they have everything in place.

"The very concept of objective truth is fading out of the world. Lies will pass into history." - George Orwell

"The conscious and intelligent manipulation of the organized habits and opinions of the masses is an important element in democratic society. Those who manipulate this unseen mechanism of society constitute an invisible government which is the true ruling power of our country. ...We are governed, our minds are molded, our tastes formed, our ideas suggested, largely by men we have never heard of. This is a logical result of the way in which our democratic society is organized. Vast numbers of human beings must cooperate in this manner if they are to live together as a smoothly functioning society. ...In almost every act of our daily lives, whether in the sphere of politics or business, in our social conduct or our ethical thinking, we are dominated by the relatively small number of persons...who understand the mental processes and social patterns of the masses. It is they who pull the wires which control the public mind." -Propaganda, by Edward L. Bernays (the father of modern advertising), 1928.

The horrific influence the ruling class has gained over time for the level of control over our government today continued to gain momentum for the last 100 years to also create global control. America's decline and plunder of its people accelerated even more for the globalist plan when Nixon took the country off the gold standard while Americans were distracted with Vietnam. During that war America's detachment from gold gave the globalist's a boost for what we see being done to the U.S. necessary to bring in a world currency. And later I will cover the Globalist Bush Crime Family. Richard Nixon & George Bush gave each in line over the decades from Carter, Clinton, Bush 2 and now Obama; more in place to create today's Obamanation of a nation designed to hand over the USA to a one world government!

"We shall have world government whether or not you like it, by conquest or consent." Statement by Council on Foreign Relations (CFR) member James Warburg to The Senate Foreign Relations Committee on February 17th, 1950. Warburg's an agent of the Rothschild dynasty.

Today in the USA and since the creation of the FED we should be revolting. When you finish this essay you will understand everything we gained in 1776 was finally lost with the creation of the FED. The reason we are not standing up is our controllers have gotten better at controlling us. Obama & those backing him would rather see America destroyed to a medieval level before giving back the power/their ownership of trillions in stolen assets and power over many generations. All because the necessities of preserving America for Americans are totally irrelevant for their united goal of a united world for global domination/slavery. If we ever manage to elect in a President for the people before world

government makes the next big LAST step, he or she will be powerless if the Senate & House are not also taken. Self govt is a distant memory today and totalitarianism is in our door. Liberty was not meant so the elites could use what is called "a debt money system" for the last 100+yrs to eventually take over OUR government to rob us all of everything. To prevent that from happening is why our Founders did all they could to give us a Constitutional Republic instead of a Democracy and left us with so many warnings the bankers would destroy America if the people allow them.

On November 28th, 2015, Alaska State judge Anna Reitz (Anna Maria Riezinger) addressed an open letter to all federal agents, including the FBI and US Marshals to arrest Congress, the President and the Secretary of the Treasury. She justifies this request by going into detail regarding fraud that has been committed going way back.

<http://annavonreitz.com/dearfederalagents.pdf>

"Only a large-scale popular movement toward decentralization and self-help can arrest the present tendency toward statism... A really efficient totalitarian state would be one in which the all-powerful executive of political bosses and their army of managers control a population of slaves who do not have to be coerced, because they love their servitude. To make them love it is the task assigned, in present-day totalitarian states, to ministries of propaganda, newspaper editors and schoolteachers." -- Aldous Huxley (1894-1963) Author Source: Forward to 'Brave New World', 1932

The similarities between Hitler and Obama are numerous. Both Obama and Hitler distort their mixed racial heritage as a tool to control the brainwashed public's opinion with racist tactics. Obama bases most of his appeal with youth voters as did Hitler. Another common occurrence throughout history with the rise of these tyrants is they make everything legal that was once illegal and unconstitutional simply by corrupting and distorting constitutional law. And just like Hitler, Obamas interpretation of Law is becoming the primary tool to advance the crimes of the elite. And compared to Hitler's Germany this time the global elite have soooo much more technology and resources in place to succeed.

"You may disagree with our new government, but "you" will already be gone , we will have your children" - Hitler.

"Since I entered politics, I have chiefly had men's views confided to me privately. Some of the biggest men in the United States, in the Field of commerce and manufacture, are afraid of something. They know that there is a power somewhere so organized, so subtle, so watchful, so interlocked, so complete, so pervasive, that they better not speak above their breath when they speak in condemnation of it." Woodrow Wilson, *The New Freedom* 1913.

Woodrow Wilson as U.S President 3 years later;

"I am a most unhappy man. I have unwittingly ruined my country. A great industrial nation is controlled by its system of credit. Our system of credit is concentrated. The growth of the nation, therefore, and all our activities are in the hands of a few men. We have come to be one of the worst ruled, one of the most completely controlled and dominated governments in the civilized world. No longer a government by free opinion, no longer a government by conviction and the vote of the majority, but a government by the opinion and duress of a small group of dominant men." President Woodrow Wilson 1916, 3 years after the creation of the Federal Reserve.

If the people of the USA and the world understood the TRUTH regarding the *world* system of political and financial control, legal crime, the REAL roles of; The Committee 300, The Federal Reserve, United Nations, The Council on Foreign Relations, The money systems actual role, The New World Order, collectivism and goals/methods/morality of the sociopath global elite, well what would happen immediately would be a third non establishment party by the people in America.

But the Globalists have too much invested in controlling the existing parties in America to ever let a true third party exist, they will go to war with the people first. 150 years ago a new party called the Republicans ousted the Whigs with Lincoln and look where that got us today, exactly where the globalists want us.

Take your pick

Since the Supreme Court and Congress are obviously globalist owned and unwilling to restore constitutional order by affirmatively re-establishing the doctrine of separation of powers at the federal level, what can we the people do? The answer is simple; in accordance with the 10th amendment, it falls to the States and/or the people to take action to remedy the breach.

What happens once the Federal government gets a globalist approved idea started? History for the last 100+ years and current events prove they regulate it. Then come the mandates. Then they bribe States with federal funds that dont exist to impose national regulations the States and people do not want; its all on our road to world government. That is the process of how we got The Federal Reserve System, Agenda 21, Obamacare, Common Core, global warming etc. etc., (all I will explain in detail later) and all those systems purpose are for and to create a one world totalitarian government.

In 2009 a movement exploded onto the political scene as a direct result of this unconstitutional government Bush+Obama put into overdrive, showing the globalists the people have the ability to awaken. It was called the Tea Party and it was like nothing this generation had ever seen. Rallies were held coast to coast with thousands and sometimes tens of thousands of people attending. As 2009 ended so did the rallies and 2010 became the year of the election. Tea Party groups from across the country threw themselves into the electoral process and the people handed the Republicans the House who drafted up what they called a Pledge to America.

Many people were convinced the message was clear and Obama would be stopped, but the pledge was all empty words and the establishment just kept control like always. All the incumbents are grossly outnumbered and Congress year after year only supports Obama through in-actions. Until enough people awaken this will remain a useless two party system and the globalists have absolute control over both of them. The ACTIONS of today's Republican establishment indicate they, like the Democrats, want the destruction of the tea party movement. One would think that would eventually launch a third conservative party?if so, I guarantee its already engineered by the globalists through the DEM-GOP to be a

catch 22....in other words globalist owned and controlled.

Can we turn this thing around? Do we control our destiny? If so to what end? Many people who believe in the bible think this cannot be turned around and we are entering a time to save your soul and not fight the globalist plan. Seems many disagree on how to go about saving their soul. My chosen path with the resources at my disposal is to try and plant seeds in the minds of people doing my part for one day when the people will be ready to stop history from repeating itself. It *seems* the internet , while monitored and controlled for the plan, is still becoming more of an outlet to expose what the media/government hide, its necessary for the globalists to get total understanding for total control. I wonder why God would want to help anyone who will not stand up against the greedy satanic globalist sociopaths that control the money, institutions, and transitional corporations, employ most members of our government. Who want to enslave humanity! What would be the benefit in the long run to repeat history and torture future generations, only this time under radically advanced technology? Until we can learn to fight for what is moral and just would it not just be prolonging the inevitable and inflict more genocidal suffering on our children? How moral is that result? In my humble opinion people that are mentally and physically capable with or without a trust in God should fight the tyranny upon us with whatever resources and means they have at their disposal.

"I discovered that governments have murdered millions of their own citizens, and that in some cases, the death toll may have actually exceeded that of World War II. To get some idea of the numbers involved, I surveyed the extent of genocide and mass killing by governments since 1900. The results were shocking: according to these first figures, independent of war and other kinds of conflict, governments probably have murdered 119,400,000 people, Marxist governments about 95,200,000 of them. By comparison, the battle-killed in all foreign and domestic wars in this century total 35,700,000." – Lethal Politics: Soviet Genocide and Mass Murder Since 1917 By R.J. Rummel New Brunswick, N.J.: Transaction Publishers, 1990

Revolt against today's usurper government is NOT insurrection; The law of the land states: it is the DUTY of every citizen to do whatever it takes to defend the Constitution and the nation from all enemies both foreign and DOMESTIC!

"Whensoever the General Government assumes undelegated powers, its acts are unauthoritative, void, and of no force." - Thomas Jefferson

The Globalist Script is our real life Matrix

"The illegal we do immediately. The unconstitutional takes a little longer." - Henry Kissinger, New York Times, Oct. 28, 1973.

I will explain this script clearly and with common sense. The globalist playbook is as simple as it is insane; to perform the same genocidal magical disappearing-freedom act we see over and over throughout history. This round is to create the most powerful and all-seeing government ever in history. A government that can write any law, not only regulate any behavior but control any behavior, confiscate any property, and tax anything no matter what the people say.

-To control the world the globalists seek to make it so the people's rights don't come from God or humanity, only from a government they control.

-For their plan real freedom must become only an illusion, whatever freedom exists it must only be temporary. The goal is to eventually deny all people of the world they are unique individuals, make them want to be public property, and they will when its for their own safety/security. The only rights they will be allowed to have are the ones that can stripped away whenever the government desires.

-All of this will need to be accomplished with the consent of the people by owning the people's representatives to subvert their Constitution.

-The war that will never end is the war of misinformation. The government will construct its own reality to suit the ever progressing global plan/agenda.

-The people must remain afraid, very afraid, and by demonizing external enemies, they will not only accept subversion, but vote for it. The fear of that enemy will be one of many tools to suppress, then eliminate their freedoms, then their Constitution.

-Threats will become imminent dangers precisely because the government allowed them to happen; by scapegoating external enemies using false flags.

- All of this will progress to a point where the government will be able to claim citizens words make them an enemy. Soon after this is in place the government will remove the peoples Constitution and classify the entire country a battlefield to rid or re-educate all who disagree with being a slave.

-Eventually the people will willingly sacrifice all of their liberties for a matrix of control/safety for slavery.

"What if those who traded liberty for safety ended up in internment camps? What if the greatest threat to freedom was not any outfit of thugs in some cave in a far-off land, but an organized force here at home? What if that organized force broke its own laws? What if that organized force did the very same things to those it hates and fears that it prosecutes people for doing to it? What if I'm right and the government's wrong? What if it's dangerous to be right when the government is wrong? What if government is essentially wrong and always dangerous? What if the ultimate target in the government's war on terror is all who believe in personal freedom? What if that includes YOU? What do we do about it?" - Judge Andrew Napolitano 2012.

Those questions are not hypothetical or rhetorical; they are on point and to date in 2015. The plan is clear and looking at how far this country has come its clear what is planned. The plan now has over 107 million Americans on welfare, over 15 million unemployed; my feelings are a day will come where survivors will be the ones who had stockpiled provisions; nonperishable foods, water, power generation, things to trade in a crisis like clothing, firearms, knives, ammunition etc. Things that can ensure survival when a complete economic collapse makes money worthless or worth pennies on today's dollar, and or only digital currency is legal. Perhaps it's best to be prepared to be living in what most find unimaginable in America, a horrific scenario where not only the government targets everyone who was prepared, but also the unprepared desperate starving majority will also be after those who were prepared!

"The C.I.A. is behind most if not all terrorist attacks in America. As for the F.B.I there is no question weather or not; it has been infiltrated by the Illuminati" -Ted Gunderson, Former Chief of the Los Angeles F.B.I.

Kissinger's 1974 Plan: Food Control Genocide

http://www.larouchepub.com/other/1995/2249_kissinger_food.html

Henry is one of many globalist puppets, who gave us 3 clues! Want to do your own research and see into the future?

Here are more than 3 clues to search/research:

1. Banksters, Financial Collapse, Secrets of the FED (Who controls the money)
2. Chemtrails, HARRP, Weather Control (Who controls the weather)
3. GMO's, Monsanto, (Who controls the food)
4. Fluoride (Who controls the water)
5. Committee 300, Illuminati, Bilderberg Group, Denver Airport (Who controls the others)
6. Vaccines, manmade viruses, (Who controls human DNA)
7. Micro Chipping, RFID, microwaves, wifi, and other technology (Who controls technology, citizens emotions, thoughts and movement of the people)
8. Fema camps or Fema coffins (Who controls the Re-Education)
10. Mainstream Media, Suppression of truth, disinformation, False Flags (Who controls the media)

Many people that know enough to look outside the mainstream media for an understanding of the world are waiting/expecting for a new world order/one world government to arrive, when in reality that happened long ago.

"The old world order changed when this war-storm broke. The old international order passed away as suddenly, as unexpectedly, and as completely as if it had been wiped out by a gigantic flood, by a great tempest, or by a volcanic eruption. The old world order died with the setting of that day's sun and a new world order is being born while I speak, with birth-pangs so terrible that it seems almost incredible that life could come out of such fearful suffering and such overwhelming sorrow." - Nicholas Murray Butler, in an address delivered before the Union League of Philadelphia, Nov. 27, 1915

This seems impossible for most people to grasp; the plan for world government required the people under capitalism and Communism as enemies to create the most technological

advancements in history to advance world government. And today those cold war technological advances are being used to create a one world totalitarian all seeing government. Its easy to expose because today the global elite system is more transparent then ever before in history.

We have all been born into this, for me its very much like the the movie the Matrix, where Neo discovers he was born a slave into bondage. Globalists have a different definition of morality/reality then the rest of us...and its all in defiance of truth! And with that defiance they afford themselves the right to impose totalitarian order on the chaos they define as all of us globally, and they do everything they can to create that chaos. We let them rob us all, generation after generation and kill hundreds of millions to put themselves into this position of power allowing them to control money to control and rob us from birth to death.

*"The drive of the Rockefellers and their allies is to create a one-world government combining supercapitalism and Communism under the same tent, all under their control.... Do I mean conspiracy? Yes I do. I am convinced there is such a plot, international in scope, generations old in planning, and incredibly evil in intent."*U.S. Congressman Larry P. McDonald, 1976, killed in a 747 shot down by the Soviets.

"There also exists another alliance -- at first glance a strange one, a surprising one -- but if you think about it, in fact, one which is well grounded and easy to understand. This is the alliance between our Communist leaders and your capitalists. This alliance is not new. ... We observe continuous and steady support by the businessmen of the West of the Soviet Communist leaders." - Alexander Solzhenitsyn (1918-2008) Russian novelist, Soviet dissident, imprisoned for 8 years for criticizing Stalin in a personal letter, Nobel Prize for Literature, 1970 Source: Speaking in the Ballroom of the Hilton in Washington, D.C., on June 30, 1975.

All truth passes through 3 stages.

First, it is ridiculed.
Second, it is violently opposed.
Third, it is accepted as being self-evident.

Arthur Schopenhauer
19th century German philosopher

"But it became clear that in Mr. Bush's mind the New World Order was founded on a convergence of goals and interests between the U.S. and the Soviet Union, so strong and permanent that they would work as a team through the U.N. Security Council." Excerpt from A. M. Rosenthal, in The New York Times (January 1991)

For those younger than I am in case you did not know in the 1950's and 1960's, there was a war between Russia and the United States. The war was ideological, a war of Communism vs Democracy called "the the Cold War". Russia's Communism looked attractive to oppressed people around the world. More and more countries fell under the Soviet sphere of influence. Many people understand that part of the history.

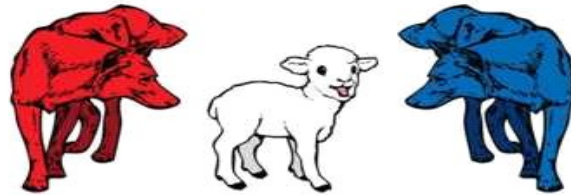

What most do not understand is the cold war was created for a globalist goal. And that had absolutely nothing to do with helping the people of the world trough communism or capitalism. The reason for it all was necessary to one day create a one-world government. And using/combining super-capitalism and Communism, all under their control, they created the most efficient money crops (slaves) of the people in history for needed resources for needed technological advancements for the globalist plan for their version of a united world. All the technological advancements from the cold war were used to create the resources and technology needed for a one world totalitarian all seeing government. And the globalists achieved this creating the USA/Russia in a competition with the cold war. As a result today's world has been radically and rapidly modernized in the last 60 years with products and processes that allow common people to; connect like never before, save manual labor, achieve tasks that were once done by slave labor. Why would globalists want common people to have such luxuries? because this has made us more devoted to what they need us to be helping making us the most efficient controlled money crops (slaves) in history for the elite.

We the efficient money crop people for the elite have created all the technological advancements needed to enslave ourselves and handed them to the globalists simply by allowing them to control the funding structure of everything. The longer they wait to officially implement their united world the better equipped they become. They have alternative materials that will be used to enslave the world instead of serving the people.

We have DNA nanotechnology to fabricate nano-scale devices. The self-assembly mechanism of DNA will be harnessed to fabricate mechanical, electrical and optical devices smaller than current technology allows. The development of nanobots. New developments in piezoelectric materials will allow devices without batteries to run on power harvested from vibrations. Graphene paper around ten times stronger than steel. Magnetic shape-memory alloys change shape and mechanical properties when a magnetic field is applied. Metamaterials are artificial materials engineered to exhibit properties that only rarely occur naturally. A transparent material made of self-assembling nanospheres that is the stiffest organic material ever created, surpassing the properties of stainless steel and Kevlar. Ultra-lightweight and ultra-absorbent materials such as highly-porous carbon constructs one-sixth the density of air and highly absorbent. Programmable matter. Materials that can be programmed to alter themselves at the molecular level into various shapes and then disassemble to form entirely new ones. Compounds that can reform the shape of components in real-time, similar to holograms, could allow the remote projection of a replica of a person or object, or enable robots to change size (and perhaps even state of matter) to navigate narrow passages or around obstacles.

"It may be your intent to be our masters; how can it be ours to be your slaves?" -Melians to Athenians, Peloponnesian War, 431 BC

DEMOCRACY

TWO WOLVES AND A SHEEP VOTING ON WHAT'S FOR DINNER

"When it becomes dominated by a collectivist creed, democracy will inevitably destroy itself." -- Fredrich August von Hayek (1899-1992)

The Cold War was made more frightening in 1957, when the Russian Communists became the first in Space with the launch of Sputnik. Further, in May, 1961, Fidel Castro pronounced Cuba as a Communist nation -- 90 miles off the coast of Florida. Then in October 1961, the Russian Communists exploded the Hydrogen Bomb, the most powerful bomb ever, dwarfing the 1945 American bombs of Hiroshima and Nagasaki. The tension was high in America and Russia, it served the globalist plan. Showing the globalists had succeeded in creating fierce competing money crops for rapidly advancing technology, all controlled (top

secret) ultimately for the globalists.

Jan 10, 1963, Congressman A. S. Herlong Jr. of Florida introduced into the Congressional Record a list of goals of the communist party as stated in the book "The Naked Communist" (1958) by Dr. W. Cleon Skousen. Skousen was in the FBI who lived to be 93, passing in 2006.

In his book published in 1958, Skousen listed 45 goals of the Soviet (and American) communist party.

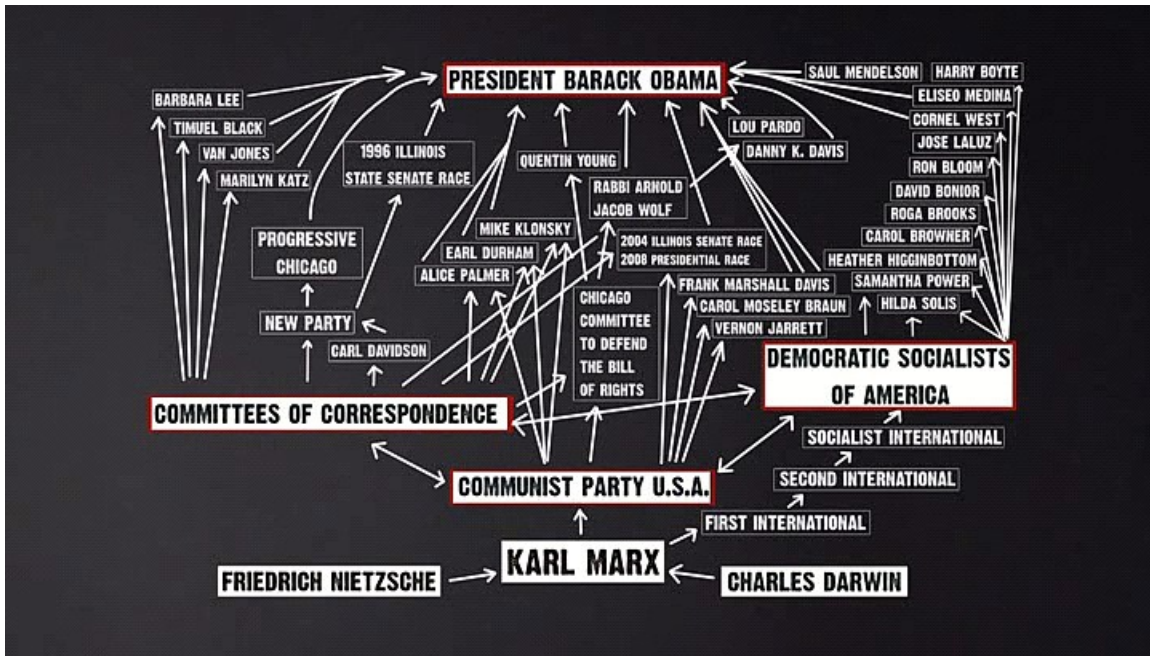

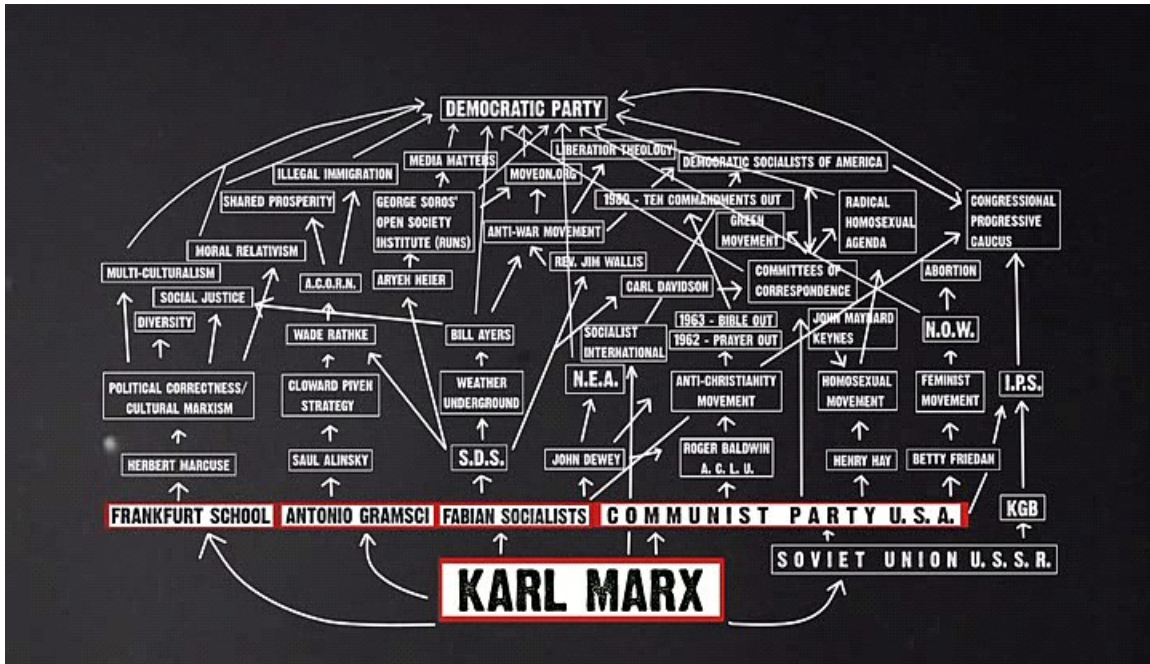

These Communist Goals below for America in 1958 are part of the globalist plan for world control.

1. U.S. acceptance of coexistence as the only alternative to atomic war.
2. U.S. willingness to capitulate in preference to engaging in atomic war.
3. Develop the illusion that total disarmament (by) the United States would be a demonstration of moral strength.
4. Permit free trade between all nations regardless of Communist affiliation and regardless of whether or not items could be used for war.
5. Extension of long-term loans to Russia and Soviet satellites.
6. Provide American aid to all nations regardless of Communist domination.
7. Grant recognition of Communist China. Admission of Communist China to the U.N.
8. Set up East and West Germany as separate states in spite of Khrushchev's promise in 1955 to settle the German question by free elections under supervision of the U.N.
9. Prolong the conferences to ban atomic tests because the United States has agreed to suspend tests as long as negotiations are in progress.
10. Allow all Soviet satellite countries individual representation in the U.N.
11. Promote the United Nations as the only hope for mankind. If its charter is rewritten, demand that it be set up as a one-world government with its own independent armed forces.
12. Resist any attempt to outlaw the Communist Party.
13. Do away with all loyalty oaths.

14. Continue giving Russia access to the U.S. Patent Office.
15. Capture one or both of the political parties in the United States.
16. Use technical decisions of the courts to weaken basic American institutions by claiming their activities violate civil rights.
17. Get control of the schools. Use them as transmission belts for socialism and current Communist propaganda. Soften the curriculum. Get control of teachers' associations. Put the party line in textbooks.
18. Gain control of all student newspapers.
19. Use student riots to foment public protests against programs of organizations which are under Communist attack.
20. Infiltrate the press. Get control of book-review assignments, editorial writing, policymaking positions.
21. Gain control of key positions in radio, TV, and motion pictures.
22. Continue discrediting American culture by degrading all forms of artistic expression. An American Communist cell was told to "eliminate all good sculpture from parks and buildings, substitute shapeless, awkward and meaningless forms."
23. Control art critics and directors of art museums. "Our plan is to promote ugliness, repulsive, meaningless art."
24. Eliminate all laws governing obscenity by calling them "censorship" and a violation of free speech and free press.
25. Break down cultural standards of morality by promoting pornography and obscenity in books, magazines, motion pictures, radio and TV.
27. Infiltrate the churches and replace revealed religion with "social" religion. Discredit the Bible and emphasize the need for intellectual maturity which does not need a "religious crutch."
28. Eliminate prayer or any phase of religious expression in the schools on the grounds that it violates the principle of "separation of church and state."
29. Discredit the American Constitution by calling it inadequate, old-fashioned, out of step with modern needs, a hindrance to cooperation between nations on a worldwide basis.

30. Discredit the American Founding Fathers. Present them as selfish aristocrats who had no concern for the "common man."
31. Belittle all forms of American culture and discourage the teaching of American history on the grounds that it was only a minor part of the "big picture." Give more emphasis to Russian history since the Communists took over.
32. Support any socialist movement to give centralized control over any part of the culture--education, social agencies, welfare programs, mental health clinics, etc.
33. Eliminate all laws or procedures which interfere with the operation of the Communist apparatus.
34. Eliminate the House Committee on Un-American Activities.
35. Discredit and eventually dismantle the FBI.
36. Infiltrate and gain control of more unions.
37. Infiltrate and gain control of big business.
38. Transfer some of the powers of arrest from the police to social agencies. Treat all behavioral problems as psychiatric disorders which no one but psychiatrists can understand (or treat).
39. Dominate the psychiatric profession and use mental health laws as a means of gaining coercive control over those who oppose Communist goals.
40. Discredit the family as an institution. Encourage promiscuity and easy divorce.
41. Emphasize the need to raise children away from the negative influence of parents. Attribute prejudices, mental blocks and retarding of children to suppressive influence of parents.
42. Create the impression that violence and insurrection are legitimate aspects of the American tradition; students and special-interest groups should rise up and use united force to solve economic, political or social problems.
43. Overthrow all colonial governments before native populations are ready for self-government.
44. Internationalize the Panama Canal.
45. Repeal the Connally reservation so the United States cannot prevent the World Court

from seizing jurisdiction over domestic problems. Give the World Court jurisdiction over nations and individuals alike.

As you tumble down the rabbit hole reading this I will try to use familiar faces/names on your journey and provide lots of links for further research if you desire. For more than one hundred years enough books have been written about for example the Rockefellers alone

and their international banker allies to spend years researching those connections alone. Once some facts are known/understood, the overall plot *"international in scope, generations old in planning, and incredibly evil in intent"* becomes horrifically obvious!

The Rockefeller family has been awarded the annual UNA-USA's Global Leadership Award, along with other recipients over time, including Bill Clinton and Michael Bloomberg. Members of the Rockefeller family into the fourth generation have been heavily involved in international politics for the globalist plan, and established or been involved in the following major international institutions for the globalist plan:

- The Council on Foreign Relations - David, David Jr., Nelson, John D. 3rd, John (Jay), Peggy Dulany, Rockefeller Foundation, Rockefeller Brothers Fund.
- The Trilateral Commission - David, Rockefeller Brothers Fund.
- The Bilderberg Group - David, John D. IV.

For us today there still exists an Ancient Global Shadow Government that I have been referring to as "globalists" who coordinate world affairs from behind the scenes.

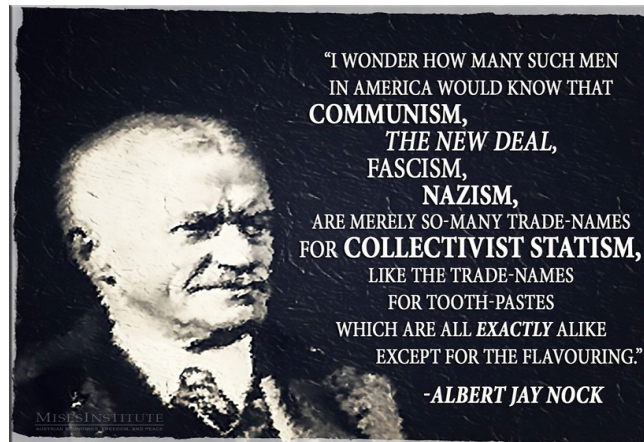

"There exists a shadowy Government with its own Air Force, its own Navy, its own fundraising mechanism, and the ability to pursue its own ideas of national interest, free from all checks and balances, and free from the law itself." -Senator Daniel K. Inouye, during the Iran Contra Hearings and former chair, U.S. Senate MKULTRA hearings in 1977.

"When a well packaged web of lies has been sold gradually to the masses over generations the truth will seem utterly preposterous and its speaker a raving lunatic" -Dresden James

In 1704, America got the nation's first slave patrol. Slave patrols existed to maintain economic order and to help wealthy landowners in recovering and punishing slaves.

Slavery was fully institutionalized in the American economic and legal order with laws being enacted at both the state and national divisions of government. Virginia enacted 130 slave statutes between 1689 and 1865. Connecticut, New York and other colonies enacted laws to criminalize and control slaves. Congress also passed fugitive Slave Laws, laws allowing the detention and return of escaped slaves, in 1793 and 1850. The literature clearly establishes a law enforcement system existed in America before the Civil War for the express purpose of protecting the interests of slave owners. I am referring to that because the slave patrol from yesterday is the forerunner for today's world government law enforcement. That connection will become clearly visible to you when you understand the globalist plan.

Looking back to 1712 the future of slavery finally became an issue of public controversy and was the first occasion on which slavery and the slave trade were allowed to be challenged as a matter of public policy by any representative assembly. One has to ponder why in that time the oligarch elites in that time allowed this to happen? Its clear today when looking at the world. They were ready to conspire their next move to eventually use even more humans, not just blacks, but all colors for themselves in the centuries ahead, to get the level of wealth/technology and slavery they have acquired today its obvious it worked out that way. We have more evidence today than anyone throughout history had to understand how ALL Elected Governments are false fronts coordinated by a global shadow government/globalists.

"A problem clearly stated is a problem halfway solved" - Benjamin Franklin

For the plan to keep moving forward, say by 2020, government controllers will need all citizens to believe the destruction of the individual is only for the benefit the people. And as a result of the plan many people today already "believe" that is truth. But it is control pure and simple with a completely different agenda than what we have been taught. For example most everyone I talk with *believes* the bankers/global elite/globalists were/are

capitalists, who also believe capitalism and or money is evil. They are not evil, the controllers of them are. Many factors are in play for people from a young age to keep them from understanding reality in any meaningful depth. Bankers and globalists are collectivists and monopoly capitalists who by design live by a completely different set of rules than you and I. To understand the world system we are forced to accept it is *essential* to understand monopoly capitalism. And more importantly how and why the globalist plan calls for collectivism and how it competes with individualism for the destruction of the individual, which supports monopoly capitalism. And monopoly capitalism is dependent on fiat money and many other parts of the globalist plan explained throughout the essay.

-Individualism means the *basis* of society is the individual and the purpose of the government/state is to protect the individual, and where the government/state is the servant of the people.

- Collectivism is the opposite, where the State and group are considered most important, where the purpose of the people is to serve the government/state.

It's simple to understand the difference and understand why the globalists/global elite banking cartel, who control governments would rely on collectivism for the globalist plan. The version of a real life and happiness in life for the people, under any political system, directly depend upon how much our individuality (versus the crowd) is retained. That can protect our mind from being brainwashed for the globalist plan that ultimate seeks us all to be slaves for their private utopia. The more individuality we retain or work to gain back later in life (like myself), directly measures to what extent we can throw off globalist created manipulated illusions of reality. The more we are immersed into the the crowd/collectivist mass mind design, the more we are manipulated, and the more manipulated we are, the more dependent on government we become.....all in the plan.
<http://personalliberty.com/the-tools-collectivists-use-to-gain-power/>

The people's world today is like a machine with a million gears, and every tooth on every gear is calculated to drive us into a collective dependent mindless herd with an automatic response to authority. Awakened good honest people with a completely different definition and understanding of morality and reality compared to the sociopath globalists will become the main definition of terrorists in the near future for the globalist plan to move forward. Since our pseudo-world is an illusion of perception waking up to truth is impossible without understanding what created our psuedo-world. I think if only 1% of the world population had the means to wake up to the truth, it would cause a ripple effect, and that tipping point would cause globalist crooks and politicians to start feeding upon each other instead of the people of the world as they have always done generation after generation after generation etc..

"It is the system of nationalist individualism that will go....We are living in the end of the sovereign states.... In the great struggle to evoke a Westernized World Socialism, contemporary governments may vanish....Countless people...will hate the new world order....and will die protesting against it." — H.G. Wells, in his book, "The New World Order", 1940.

If the American people are not happy with their political parties, they are supposed to be able to remove them. Our Constitution was structured to begin with a Bill of Rights which means it starts with protecting *individuals*. Then it follows up with establishing strict rules for how the government shall serve the people.

"Socialism needs two legs on which to stand; a right and a left. While appearing to be in complete opposition to one another, they both march in the same direction." - Paul Proctor

Under the model of collectivism for 100 years in America we have been being pushed slowly toward a goal, and as a result we are living under a government/state that serves the elite globalists more every year and increasingly steals the value people create, all to fund the globalist plan through monopoly capitalism. There was never a free market, its always been a rigged game from the beginning. So next time you hear someone say we need to get rid of capitalism for communism or socialism, say no they all represent elite controlled collectivism. Tell them to get rid of collectivism for individualism, as it will lead to fixing everything thats broken for the people of the world! If this concept is difficult for you grasp the way I present it Edward Griffin explains it here: <https://www.youtube.com/watch?v=cVdl4Kx8TdY>

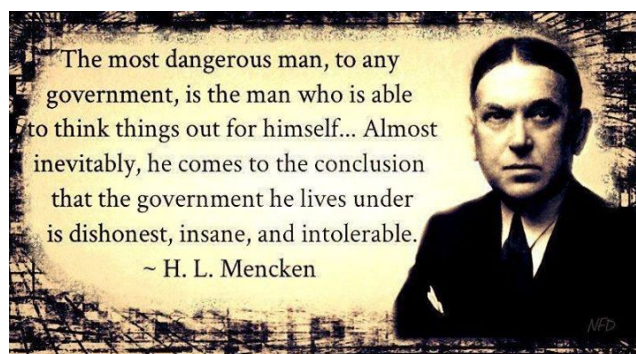

"The idea was that those who direct the overall conspiracy could use the differences in those two so-called ideologies marxism/fascism/socialism v. democracy/capitalism] to enable them [the Illuminati] to divide larger and larger portions of the human race into opposing camps so that they could be armed and then brainwashed into fighting and destroying each other." -Myron Fagan

Collectivism for the globalists/bankers worked/works perfectly with communism, socialism and crony monopoly capitalism to rob and control ALL the people not just in America, but of the world for the globalist plan. As a result ALL National governments today pretend to have independent motives while they enact a scripted version of world events. To continually increase this control/power world events never slow down over the last 100 years creating continuous conditions for removal of freedom and independence from nations and individuals, while every event removing those freedoms by design transfers more wealth and control to the globalists. From the beginning wars were always the catalyst for that process and later I will explain why in detail.

As a result of all this insanity America and her Constitutional government are considered the most powerful Empire in history, yet in reality, if one knows the facts, there is no American government because we live under an illegal shadow puppet government. In reality the last nail in the Constitution's coffin was the day the Federal Reserve was created proving there was/is no Constitutional American Government! Let's face facts the Constitution is not followed in any way period. Its not followed in any way as elections are merely a dog and pony show to put key puppets into office for the globalists, polls are rigged to create/sway mass opinion and politicians are blackmailed or bribed into serving the globalists. And the system by design ensures the majority of those who become politicians are self serving and can only continue in government if they are corrupt. One needs to be a greedy, evil, a narcissist, a sociopath, insane etc .etc., to make it to the top of politics. And that explains why only those selected (by the globalist oligarch controllers of shadow government) ultimately make it to the top. History proves moneypower used endless ways to get rid of dissenters who tried to represent the people/Constitution over many generations.

I have yet to meet a bureaucrat who was not petty, dull, almost witless, crafty or stupid, an oppressor or a thief, a holder of little authority in which he delights, as a boy delights in possessing a vicious dog. Who can trust such creatures?" - Marcus Tullius Cicero

To discard tyranny and oppression fifty-six men did everything in their power to change the course of America and the world by signing the Declaration of Independence. So when did America get this bad? Well the sad reality is elite sociopaths had a plan in place to control our money before the ink had dried on that game changing Constitution for the people.....

- May 1, 1776 Jesuit Professor Adam Weishaupt completes a world dominance plan under the Rothschild's.

- 1776-1790: U.S. Independence - Free Banking -no formal central bank.

- 1791-1811: First Bank of the United States.

-1816-1836: Second Bank of the United States.

-1837-1862: Free Banking Era -no formal central bank.

-1862-1913: System of National Banks (Consequence of Lincoln's War).

-1914-current: A consortium of 12 privately held banks became the Federal Reserve. The largest share holder of the FED are the Rothschild's of London.

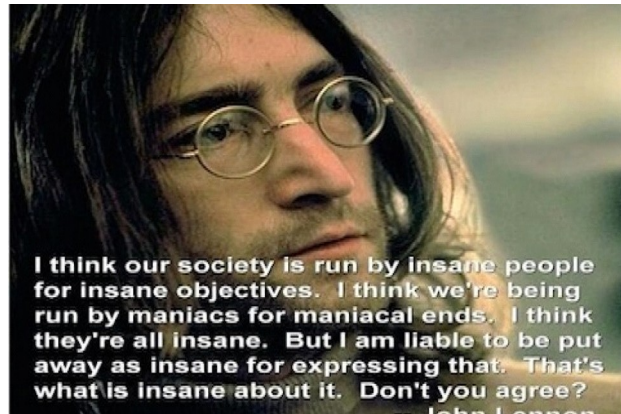

"The period of 1820 onwards became the age of the Rothschilds, so-that by the middle of the century it was a common dictum, there is only one power in Europe, and that is Rothschild" (Prof. Werner Sombart, "The Jews And Modern Capitalism", p. 99).

The worlds international banksters conned the world into giving them the right to manufacture money out of nothing to lend it back to the world plus usurious interest! And in their efforts to dominate the world with the globalist plan they caused generation after generation etc, of pain, agony and destruction of life on earth. Before the creation of the FED in 1913 the following American Presidents were targets of assassination, who all opposed private national banks. Andrew Jackson in 1835, Abraham Lincoln in 1865, James Garfield in 1881 and William McKinley in 1901. Also Harry S. Truman in 1950 and John F. Kennedy in 1963 opposed the FED.

The greatest fear of the founders was the establishment of a powerful central government and a strong political leader at the center of that government. Since day one America has been a rigged game. No third party has been even moderately successful since 1860 to even begin to expose moneypower control or put an end to the elite/globalist controlled D&R monopoly in America.

The question we need to ask ourselves is what exactly is freedom morphing into living in a society designed, evolving and controlled by collectivists? It may still sound absurd to you, but as I said earlier America and her Americas middle class represents the most efficient providers than any other slaves throughout history for serving the global elite, while we see it as freedom. That's why we are programmed to see the inverse of reality. It's simply

brainwashing PERIOD.

Our world in reality mirrors the movie "The Matrix" because a global enslavement machine has programmed people to "believe" they are free, it allows them to cope with the reality we are all slaves for an economic system that only serves the slave master globalists. Under government the people are only economic resources for the global elite, we are simply a commodity to them not human or spiritual beings. This is why we are programmed from childhood to want to be "economic resources" who love and feel lucky to be a part of America where anyone can move up. That gives us an opportunity to live better than most in the world trying to keep up with the Joneses.

"Let me tell you why you're here. You're here because you know something. What you know you can't explain, but you feel it. You've felt it your entire life, that there's something wrong with the world. You don't know what it is, but it's there, like a splinter in your mind, driving you mad. It is this feeling that has brought you to me. Do you know what I'm talking about?" - Morpheus from the movie The Matrix.

Understanding the globalist plan laid out here in the real world means you can understand (our pseudo-world) that makes up the globalist plan. Those unaware of the globalist plan see their programming since childhood as their only available reality. Can you accept your idea of your freedom is simply because your mind has been programmed to believe you are free?

In reality most all of us are a slave and your globalist/government slavemasters need you to accept your enslavement or else they can't control you. You are "free" to choose your form of slavery when you vote for your puppet dictators on the left or right. And that is clearly only an illusion of choice.

"That's what they, they start when you're young, y'know. When you're little they, at school they, they Baden-Powell all the boys and they Betty Crocker all the girls and they, then they air condition ya' and put ya' in the Heat N' Bake Oven and ya' can't breathe any more"-Jerry Fletcher in the movie Conspiracy Theory.

"A good conspiracy is unprovable. I mean, if you can prove it, it means they screwed up somewhere along

the line. - Jerry Fletcher in the movie Conspiracy Theory.

There is a reason the education system is controlled, it's where your conditioning to become a free slave begins. It gives you the rules to abide by. You are taught to regurgitate information, not think. You are taught to be driven from individuality, to be obedient, to embrace collectivism, not to question authority; all grooming to become a slave to the system that serves the elite. We become enslaved by being conditioned to want a job/career/degree from a corrupt insane system that will eventually give the globalists everything they need for world domination. And along the way we are all "free to work", unknowingly for the plan. Did you choose or want your life structured that way? The system depends on most people making the purpose of their life to work for the system....that = the American dream, just like George Carlin said; "you have to be asleep to believe it". What's considered "normal" couldn't be more insane. We should not be surprised because our world was set up by selfish greedy insane sociopaths.

Unless you are in the elite crowd, in their politically favored class, in at a corporate executive level, most all jobs are supposed to be positions of slavery. Most unknowingly give most of their day to a corporate body, organization or business that is only allowed to serve the global elite or their agenda. That is slavery. That system today outperforms any others before it throughout history, as it makes you a "happier slave" repackaging slavery as freedom more efficiently.

And regarding religion's role for the globalist plan, history shows leaders throughout history used religious preference to justify discrimination and oppression right up to today. That's why the Constitution guarantees your right to practice your religion as you see fit, it also was supposed to prevent the government from using religion to deny people rights. Today government is still using religion to deny people rights. That's why the Pope came to N.Y.C in 2015 in support of the globalist plan. The same old elite approved routine that harms the people is being used today under different slogans. It's also used as one tool to justify people's right to discriminate allowing, as always, easier control of the people for the globalists. Religious 'Liberty' has been a great tool for justifying racism, sexism and slavery throughout history. Government using religion to deny people rights is as old as government itself. Throughout history religion for control/mind control has been used/abused as a shield to justify everything from slavery to sexist violence to racism, just as it is today and will be even more under world government control.

All of this should make one question the meaning of your life, "slavery" and "freedom". Today it's clear the freedom to work and make money = the freedom to choose your form of enslavement. That practice is as old as government itself; it's simply diverting attention from something by declaring it to be its opposite. It is used in all areas of life where mass

control is needed.

"Just look at us. Everything is backwards. Everything is upside down. Doctors destroy health, lawyers destroy justice, universities destroy knowledge, governments destroy freedom, the major media destroy information, and religion destroys spirituality." -Michael Ellner

And the war on terror plays its part for their plan; to create even more psychological insecurities that the enslavement system already provides. All our emotional insecurities keep us in their pseudo-world , being tied down mentally, emotionally and physically. Rampant fear-mongering convinces people that being in a state of fear and paranoia is good for your protection. The system is designed to keep the people in a state of conformity. Fear-mongering creates an internal state of fear and weakness breaking down the individual further. All of these controls are designed to reinforce each other. Conformity's role is the instilled belief that the views of the majority must always be right and the minority always wrong. It is a mindless "belief" to live by. History shows many high profile intellectuals (by design) of the world have been seen through this insane belief.

And last but not least to keep your matrix going generation after generation; money itself is the main engine to enslave the world for elite reasons and is totally artificial, its the lifeblood of the globalist enslavement system. Have you ever felt like a slave to money?

"Why do I have to 'pay' to be in a world I was born into?" -Alex Collier

The system doesn't teach you to ever think for yourself. Before reading this have you ever thought that the America may simply be an enslavement system? You are not supposed to "think" about such things, you were born to work. So study hard, work hard, and make lots of money to have a good life while the globalist plan moves forward using everything you created. But in reality most (lucky enough to be in the efficient money crop part of the world) end up slaving away their whole lives for money with little or no time to enjoy any true freedom or a good life, that is reserved for the globalists and those that help keep

things in their favor. And while the global elite and their politically favored class experience wealth and freedom throughout life, most all people/slaves have different fate. Most live sad depressing lives. How many have come to a point near the end where they begin to their whole lives were to keep up an illusory facade and wonder why? Go visit an old home.

Most all common goals of the people aren't in any way wrong. We want to raise healthy children, grow lots of good nutrient dense food from nature's abundance. We want to suit our skills and desires and agree upon efficient processes to make our tasks less onerous. We want technology to serve humanity. We seek wise representatives to guide our collaboration. We band together to protect ourselves from threat. It all makes sense. But we remain in a rigged game.

Are you a slave? Is the USA a corporation? <https://www.youtube.com/watch?v=50cB5yhKR98>

Four different university studies about the psychology of 'gatekeepers' for government. More and more regular citizens learning the true nature of today's level of government corruption, the world system of political and financial control, the globalist plan, legal crime, the REAL roles of the; Federal Reserve, United Nations, and Council on Foreign Relations, our money system, and the goals/methods/morality of the ruthless sociopath global elite pulling all the strings are now making life difficult for the gatekeepers. The studies show they become irrational and emotionally unstable when challenged with an alternative view.

"Of the 2174 comments collected, 1459 were coded as conspiracist and 715 as conventionalist." In other words, among people who comment on news articles, those who disbelieve government accounts of such events as 9/11 and the JFK assassination outnumber believers by more than two to one. That means it is the pro-conspiracy commenters who are expressing what is now the conventional wisdom, while the anti-conspiracy commenters are becoming a small, beleaguered minority".

"I was taught when I was a young reporter that it's news when we say it is. I think that's still true -- it's news when 'we' say it is. It's just who 'we' is has changed. Members of the public, people with modems, people with cell phones are now producers, editors. They can push and push and push on a story until it ends up being acknowledged by everyone." - David Carr, columnist for The New York Times

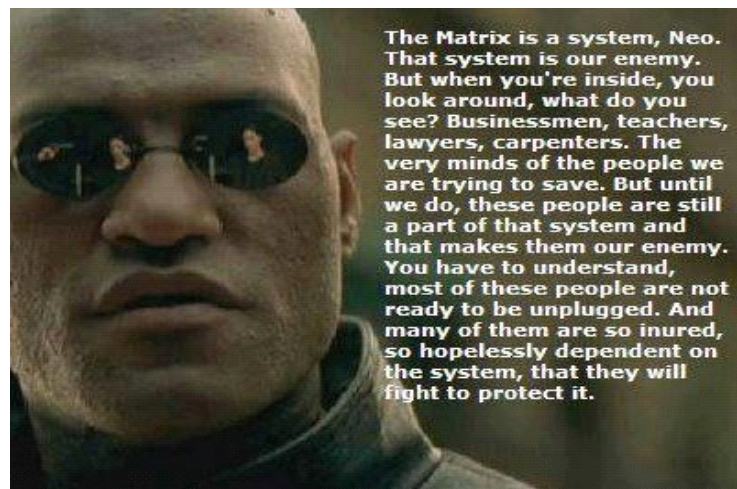

Robo-journalists are the answer! It's impossible to control every single journalist just paying them huge salaries to a prevent informed citizens as we now rocket toward a one world government. Here is the globalist solution, just what every totalitarian globalist puppet government needs for complete control of the thoughts of its citizens; robo-journalists. <http://rt.com/usa/170340-computers-ap-article-writing/>

"The owners of this country know the truth: It's called the American Dream because you have to be asleep

to believe it. You know what they want? They want obedient workers. Obedient workers, people who are just smart enough to run the machines and do the paperwork. And just dumb enough to passively accept all these increasingly shittier jobs with the lower pay, the longer hours, the reduced benefits, the end of overtime and vanishing pension that disappears the minute you go to collect it, and they're coming for your Social Security money. They want your retirement money. They want it back so they can give it to their criminal friends on Wall Street, and you know something? They'll get it. They'll get it all from you sooner or later cause they own this place. It's a big club and you ain't in it. You and I are not in The Big Club. By the way, it's the same big club they use to beat you over the head with all day long when they tell you what to believe. All day long beating you over the head with their media telling you what to believe, what to think and what to buy." -George Carlin

An awakened person realizes and sees through what's positive in understanding all this insanity, and realizes what they once wanted and what everyone else wants/strives for makes absolutely no sense. Everyone wanting a reality made of lies, mind control, illusion, voluntary slavery and the giving up of one's life and freedom so evil elite sociopaths can get away with new levels of genocide, and live life larger and more elaborate than any other time in history is insane as anything can get in human life.

"We need a program of psychosurgery for political control of our society. The purpose is physical control of the mind. Everyone who deviates from the given norm can be surgically mutilated. The individual may think that the most important reality is his own existence, but this is only his personal point of view. . . Man does not have the right to develop his own mind. . . . We must electronically control the brain. Someday armies and generals will be controlled by electronic stimulation of the brain." — Dr. Jose M.R. Delgado, Director of Neuropsychiatry, Yale University Medical School, Congressional Record, No. 26, Vol. 118, February 24, 1974.

The controllers make sure everybody is not only comfortable with control, but want more and more of it. In adulthood social reality is created/controlled by globalist approved/created popular culture; collectivism, mass media, ideological divisions, fear and anger, etc. And the people today BELIEVE that ancient form of divide and conquer is

freedom. You are also free to go to the voting booth, free to have unlimited flavors of ice-cream, pick from 20 different kinds of toxic GMO apples etc., etc. Its the illusion of choice.....for meaningless choice, meaningless to you anyway.

For decades the globalist plan has worked on destroying “the peoples” food not only with toxins and removing nutrients to establish control over human survival, but also GMO genetic manipulation and patenting of life forms to gain worldwide control over food. Done over the decades step by step within a handful of chemical, food and seed corporations, supported by people in key departments of the US Government. Over the last 100 years they re-wrote the regulatory framework in nearly every country. GMO's and Food are covered in part 2.

If you agree with all this I bet you will keep reading :) and will want to know what you can do about it, try to inform fellow slaves, try to awaken them. You could join one of those self-sustaining eco-villages around the world to live your life off the grid. If you work to awaken others, meanwhile try to be employed in something that has some kind purpose that does not serve the plan, something you can enjoy on some level, so that it does not feel as much like slavery.

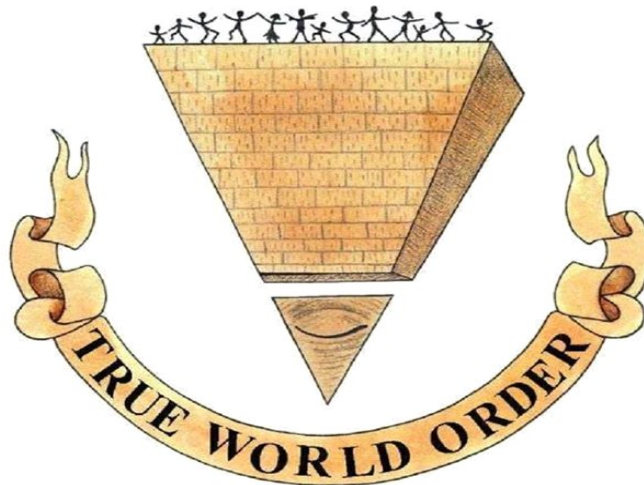

The pic above represents the current structure. Can the people ever wake up enough to demand a system/plan for and by the people while the media, education, money, medicine, energy, food and all emerging technologies remain globalist controlled/owned?

An occult seal of an occult society for an occult agenda.

The pic below represents what a structure would look like for the people. I find the closed eye soothing LOL.

"In 1857, at the marriage of Lionel's daughter, Leonora, to her cousin Alfonse, son of James of Paris, all the Rothschilds were assembled in London. Disraeli, said "Under this roof are the heads of the family of Rothschild -a name famous in every capital in Europe and every division of the globe" (Reeves, p. 228). After dinner James Rothschild III, Lionel and Disraeli sat together and "conspired". James, always harsh, could not fail to grumble "How about the globe? The New World is not yet ours." Disraeli could not resist jumping to his feet and boast "If you like, we shall divide the United States in two parts, one for you (James) and one for you (Lionel). Napoleon will do exactly, and all, that I shall advise him, and to Bismarck will be suggested such an intoxicating program, as to make of him our abject slave." (The Secret world Government p. 171)"

The following is from; The Secret World Government p 177-178

"ROTHSCHILD'S ORDER TO AMERICAN BANKERS,

To pay the soldiers the Government issued its Treasury notes, authorized by act of Congress, July 17, 1861, -for \$50,000,000, bearing no interest. These notes circulated at par with gold. The Rothschilds' agents inspired the American banks to offer to Lincoln a loan of \$150 million. But before they had taken much of the loan, the banks broke down and suspended specie payments in Dec. 1861. They wished to blackmail Lincoln and demanded the "shaving" of government paper to the extent of 33%, an extortion which was refused. A bill drafted for the Government issue of \$150 million, which should be full legal tender for every debt in the United States, passed the House of Representatives Feb. 25, 1862, and was hailed with delight by the entire country. But the Wall Street bankers were furious. Sen. Pettigrew reprints the so called "Hazard Circular" sent in 1862 by the Bank of England (ruled by the Rothschilds)

"Slavery is likely to be abolished by the war power and chattel slavery destroyed. This I (Rothschild) and my European friends (the 300 men) are glad of, for slavery is but the owning of labor and carries with it the care of the laborer, while the European (read 'Rothschildian') plan led on by England (i. e. the Rothschilds) is for capital to control labor by controlling wages. THIS CAN BE DONE BY CONTROLLING THE MONEY. THE GREAT DEBT THAT CAPITALISTS WILL SEE TO IS MADE OUT OF THE WAR must be used as a means to control the volume of money. To accomplish this the BONDS must be used as a banking basis. We are now waiting for the Secretary of the Treasury to make his recommendation to Congress. It will not do to ALLOW the GREENBACK, as it is called, to circulate as money any length of time, as we cannot control that." Thus the order of the Rothschilds was clear: "Capitalists WILL SEE TO IT that a DEBT is MADE out of the war."

The result was that by "hook and crook" the Rothschilds enslaved this country. And Schiffs,, Baruchs & Co. are the rulers. The Chairman of the Committee on Ways and Means of the House of Representatives, Mr. Thaddeus Stevens explains how the United States was

captured by the Rothschilds. "The agents of the banks fell upon the bill in haste and disfigured it."

In the Senate this amendment was tacked upon the bill: "Good for all debts and dues of the U. S. EXCEPT DUTIES ON IMPORTS AND INTEREST on the PUBLIC DEBT," (\$150 million above mentioned, plus \$70 million, a pre-war debt). "Thus equipped this bill went forth to rob every American and turn the ownership of this nation into the hands of capitalists." (Mrs. Hobart). When the bill came back to the House, Mr. Stevens said: "We are about to consummate a cunningly devised scheme which will bring GREAT LOSS to all classes of people, except one" (the Rothschilds' branch of the Wall Street). The bill was passed.

ROTHSCHILD'S OVERPOWERED CONGRESS (1862).

The Rothschilds were in possession of 80% of the gold in the country. They had a "corner" on gold. By securing this discrimination against the "greenback" by means of the "Exception clause;" they made a market for their gold. "Importers were obliged to go to Wall Street to buy gold to pay duties on their goods, and the Wall Street gamblers held the power to fix the price. Gold went to a premium. Had the greenbacks been permitted to retain their full legal-tender quality, there would have been no need for gold to pay import duties. The price of gold rapidly rose and before the war closed had reached the price of \$2.85, measured in greenbacks. The gold bought in Wall Street to pay import duties became the revenues of the government and was by it paid back to Wall Street as interest on the public debt. As fast as the bankers sold the gold it was returned for interest on the public debt to be sold again. Thus during the entire war these gold gamblers speculated in gold, making fortunes from the blood and tears of the American people," (Mrs' M. E. Hobart in her "The Secret of Rothschilds," p. 54).

Two more issues of \$150 million each, with the "Exception clause" were authorized in July, 1862 and in March, 1863, making in all \$450,000,000. They bore no interest. When these issues were exhausted and necessity arose for additional money the bankers demanded that Treasury Notes should no longer be made in the form of DOLLARS, but in the form of BONDS: the bond draws interest, the dollar does not. A gigantic war costing seven billions was carried through without gold. Why? Because everything was supplied at home, and American money, the "greenbacks" were gladly accepted. "How then was it that this government, several years after the war was over, found itself owing in London and Wall Street several hundred million dollars to men who never fought a battle, who never made a uniform, never furnished a pound of bread, men, who never did an honest day's work in all their lives... The fact is, that billions owned by the sweat, tears and blood of American laborers have been poured into the coffers of these men for absolutely nothing. This 'sacred war debt' was only a gigantic scheme of fraud, concocted by European capitalists

and enacted into American lava by the aid of American congressmen, who were their paid hirelings or their ignorant dupes. That this crime has remained uncovered is due to the power of prejudice which seldom permits the victim to see clearly or reason correctly: 'the Money power prolongs its reign. By working on the prejudices' (Lincoln). Every means has been employed to deceive the masses. Ridicule and derision, have been applied to all opposition, while flattery and appreciation were showered upon the officials," (Mary E. Hobart, p. 49)"

"The hour to stab the Republic had arrived. London sent gold by the million to buy up the 'Exception clause' greenbacks for 35 cents on the dollar and to redeem it in U. S. bonds at face value, or 100 cents on the dollar. The money mongers of Europe could buy up our money at 35c. a dollar and convert it into a bonded debt against us of 100 cents. Lincoln was opposed to this conversion! The assassin's bullet was in harmony with such diabolical plots. But under U. S. Grant, he being either willingly or ignorantly their (bankers') tool, the work of despoiling the American people began in earnest. The \$450 million, 'Exception clause' greenbacks were converted into \$1,640 million of bonded indebtedness" (Mrs. Hobart, p. 58).

Those 3 evil insane men in 1857 got the a grim future for the people of the United States they wanted. Since 1812 disputes existed between the South and the North but I wonder if the Civil War would have happened if the Rothschilds who thought its was there birthright to be on the forefront for enslavement of the New World had not gone through with the plunder? The Union army had 385,245 killed and wounded and at least 100,000 were killed in the Confederate Army. Its still the case today; Elite controllers have never been removed from the drivers seat.

"The division of the United States into two federations of equal force was decided long before the Civil War by the High Financial Power of Europe. These bankers were afraid that the United States, if they remained in one block and as one nation, would attain economical and financial independence, which would upset their financial domination over the World. The voice of the Rothschilds predominated. They foresaw tremendous booty if they could substitute two feeble democracies, indebted to the Jewish financiers, to the vigorous Republic, confident and self-providing. Therefore, they started their emissaries in order to exploit the question of slavery and thus to dig an abyss between the two parts of the Republic. Lincoln never suspected these underground machinations. He was anti-Slaverist, and he was elected as such, But his character prevented him from being the man of one party. When he had affairs in his hands, he perceived that these sinister financiers of Europe, the Rothschilds, wished to make him the executor of their designs. They made the rupture between the North and the South imminent! The masters of Finance in Europe made this rupture definitive in order to exploit it to the utmost. Lincoln's personality surprised them. His candidature did not trouble them: they thought to easily dupe the candidate woodcutter. But Lincoln read their plots and soon understood, that the South was not the worst foe, but the Jew financiers. He did not confide his apprehensions; he watched the gestures of the Hidden Hand; he did not wish to expose publicly the questions which would disconcert the ignorant masses. He decided to eliminate the International bankers, by establishing a system of Loans, allowing the States to borrow directly from the people without intermediary. He did not study financial questions, but his robust good sense revealed to him, that the source of any wealth resides in the work and economy of the nation. He opposed emissions through the International financiers,

He obtained from Congress the right to borrow from the people by selling to it the 'bonds' of States. The local banks were only too glad to help such a system. And the Government and the nation escaped the plots of the foreign financiers. They understood at once, that the United States would escape their grip. The death of Lincoln was resolved upon. Nothing is easier than to find a fanatic to strike." - Bismark 1876. Published in La Vieille Prance," N-216, March, 1921.

Fast forward to 1898 and read this account of how things were in the eyes of historian John Clark Ridpath.

"To my mind there is no paragraph in human history more provocative of indignation and tears than that which recounts the selfish intrigues and cold-blooded machinations by which the tremendous volume of patriotic sacrifice and devotion— swelling up and breaking in long lines of foam in the days of our mortal trial —was diverted from its purpose in the twentyfive years following our Civil War, poisoned with the malevolent sentiments of the money power, and made at last the subservient force in the attempted destruction of American democracy and the institution on its ruins of a base imperialism of wealth. We shall not here repeat the melancholy story. Let us go forward at once to the year 1896 and look calmly over the landscape of American life, noting its aspects and analyzing its conditions.

By this time the party of Lincoln and Sumner and Lovejoy had become the party of Pierpont Morgan and Lazard Freres. Chase had been succeeded by Sherman, Thaddeus Stevens by Thomas B. Reed, and Horace Greeley by Thomas C. Platt. From being the party which used the Declaration of Independence as the cornerstone of its platforms, the Republican organization had become a party having the Banker's Magazine for its handbook and Wall Street for its corner-stone and cope. The moving force which had inspired a million soldiers to do battle for the stars and stripes was no longer the soul of old John Brown, but the snarl of Shylock. In place of an army of boys in Blue had arisen a horde of railroad wreckers, stock-gamblers, and gold-cormorants moving under the dictation of Rothschild and the Morgan syndicate. This malevolent combination of forces, historical and personal, had invaded not only the Republican party but also the party which still defined itself as Democratic. It had obtained the mastery of both parties; for it had the leaders of both in its clutches. The combination believed itself invincible. It had invented one lexicon of lying phrases with which to delude the masses, and another lexicon with which to terrorize them. To this combination all seasons and all conditions were as naught, provided only that it might continue to prevail and to reign. One administration succeeded another; but they were all alike.

Such had been the power of the money intrigue that already in 1878 it was able to compel the President to veto a bill made deliberately in the interest of the people and ratified by a majority of more than three-fourths of both houses of Congress. The money power cares nothing for majorities— except to despise them. The Garfield-Arthur administration dragged through in the same spirit which had characterized that of Hayes. Then came the accession of Cleveland. The people supposed in electing Mr. Cleveland to the presidency that they were electing a democrat. They had tired at last of the other kind and thought they were making a change.

The money power meanwhile chuckled at the exhibition of the popular credulity. The money power knew its men. Under his eight years of authority and the four years of the interplanetary administration of Harrison the American Republic was purposely steered every day further and further from the will of the people, and nearer and nearer to that harbor in which the universal plutocracy expected to cast anchor. At the end of the

second administration of Cleveland that power had no doubt that it would be able to continue to reign as before."

And where are we today? It has not only reigned, it has grown beyond belief to most everyone, not to mention being assisted with radically advanced mind boggling and literally mind controlling technology. I find it noteworthy to understand the greenbacks had for a while deprived bankers of their override on some of the government debt, then the National Banking Act quickly put a stop to that. And by using government bonds as backing for the money supply, it locked the nation into perpetual debt anyway. So the globalist/banksters always had a plan in place to make any event that looked like progress for the people actually rob the people and enrich the globalists. At that point in history the monetary system was yet to be 100% concentrated into one central-banking mechanism for the globalists/shadow government.

Regarding what the globalist banksters had planned for the future (world control) they needed ALL control to be taken away from the people and the politicians and placed only into their hands to guarantee the level of plunder they wanted for their plan for world domination/slavery to one day become a reality. They devised a plan to do just that with the creation of a cartel system called The U.S. Federal Reserve (FED). After that point in history, their plans got a boost, even though events clearly show America has always been built on lies for hundreds of years, always more lies to cover up previous lies for the elites to get more money power for their plans of world control. This is why all wars were/are bankers wars PERIOD! And the explanation is ahead.

'We are grateful to The Washington Post, The New York Times, Time Magazine and other great publications whose directors have attended our meetings and respected their promises of discretion for almost 40 years,'
"It would have been impossible for us to develop our plan for the world if we had been subjected to the lights of publicity during those years. But, the world is now more sophisticated and prepared to march towards a

world government. The supranational sovereignty of an intellectual elite and world bankers is surely preferable to the national auto-determination practiced in past centuries." - David Rockefeller 1991

The following was posted to my facebook wall for me not agreeing with Globalist Agenda 21 "sustainable development" Depopulation Agenda, and later with like hundreds of great comments, it was removed by facebook.

"its obvious Jeff there is a large percentage of people, all over America and the planet which are inferior in intellect, so in this discussion lets say many are simply human like. Now consider what the world would be like if all those billions of morons (the globalists call them useless eaters) who live despicable meaningless lives were just not around anymore? Imagine if those with degenerate dna simply weren't around? We need a clean slate dont you agree? You have a huge following so I would like to know if you have the reasoning capacity to consider the possibilities of a better world we could all create together." I will post this on my FB page if you want to respond there.

My response was:

"Well first off Human progress to a globalist means forced collectivism for efficient money crops, something completely different than any sane non brainwashed person world desire. We are dealing with ideologies stemming from 2 completely different definitions of morality PERIOD! All the globalist sociopaths on board with you Dave spew "the people" are a product of their environment, an environment created by the global elite to limit the ability of the people to overcome being controlled. And today its being used to support the globalist de-population reduction schemes. And they have many schemes in play to create inferior humans; GMO's, toxic air, toxic water, toxic food, wifi, other pulsed microwaves, and other dna damaging cytotoxic electromagnetic poison, and its being used to create, as you wrote "degenerate dna". By separating themselves from everything they support/fund/create to limit human potential they plan to make themselves superior humans, thats how unbelievably insane they are. All of those genocidal schemes have been created by the globalists to support their own narcissistic, insane, delusional world government fantasy to make themselves in their minds Gods over the people, who they simply see as their slaves to get them whatever they desire. The globalists want to control everything in the world so when people pray to their god and say, all things created by you and for you, it will be the globalists they are actually praying to. Human life cant get any more messed up than that."

Globalists worked hard to create the environment to need "order out of chaos" Just look on a country-by-country basis when globalist organizations like the World Bank or IMF have taken over: more poverty, more sickness, and a decrease in life expectancy.....and that's just what the main goal has been to date in preparation for the nightmare they have

planned. Not to mention they ALL work to weaken resistance to illnesses in the people and today do all they can get away with to cause sterility.

To me the world has not changed as "royals" still run the show, with the Bush family, Rothschilds, Rockefellers, world bankers etc etc. and see themselves up a notch from Egyptian Pharaohs. They own and control governments. They control the weight of all local conflicts and set up the world so the people will look to the world from a geographic, ideological, spiritualist or racial point of view, while the main engine that creates and activates conflicts is the *economic* factors they design/control!

Illuminating Secret Societies: The Mind Control Agenda exposes the Secret Society networks that covertly run the entire world. Also Mind Control and Propaganda used to with a plan to eventually subvert every Human Being to their way of thinking. Topics covered in the video range from Secret Societies and Mind Control, to the deliberate dumbing down of the Educational System. Those who want to devote their lives to changing the world are forced to get credentials from this globalist created education system, like political, social, medical, legal, etc etc, are mandated groups designed to refuse to embrace information technology for the people. If it was for the people instead of against us, imagine with all the variables, how it would show us direction based on real variables, as opposed to everything being fueled by deviant greed and lust. Will the people ever be allowed to awaken and get to use the technologically advanced tools at hand for not just a better quality of life, but a real life? https://www.youtube.com/watch?v=T-08_iv5s08&feature=related

Below is a Declaration of War posted in 2012 from the Youth of France. And France is on the same road to world government as the USA.

"We are the 'Generation of National Identity. We are proud of our heritage and we are fed up with the left wing socialist policies of our parents generation. We are the generation that is sick of being called racist for looking at someone the wrong way. The forced mixing of races/ethnicities has been a total failure. We are sick of paying into a social system that only benefits outsiders. We reject your revisionist history and the global village. We have roots. Our heritage is our land, our blood, our identity, and we are its heirs, not the foreigners. The Lambda, painted on proud Spartans' shields, is our symbol. We are sick of your cowardice, your diversity, social justice, 25% unemployment, multiculturalism collapse and exploding anti-white racism. You can keep your dead-end government jobs. This is not a manifesto, it is a declaration of war."

Perhaps at some point, a few percent, instead of less than 1% of the people on this planet will find a way to awaken at the same time. That could cause in IMHO a result where the globalist agenda would become deficient, including the sociopaths implementing it.

A 2014 study here from Princeton and Northwestern university's on Americas Political system. The researchers examined 1,800 U.S. policy changes in the years between 1981 and 2002; then, they compared those policy changes with the expressed preferences of the median American, at the 50th percentile of income; with affluent Americans, at the 90th percentile of income; and with the position of powerful interest and lobbying groups. The Report classifies America's political system as 'Biased Pluralism'. The report claims government policies overwhelmingly benefit wealthy elites. Politicians do not represent the public but set policy according to the wishes of special-interest groups. The peer-reviewed study, which will be taught at universities in September, says: *"The central point that emerges from our research is that economic elites and organized groups representing business interests have substantial independent impacts on US government policy, while mass-based interest groups and average citizens have little or no independent influence."*

In 2014 Confidence in the Supreme Court, Congress, and the presidency hit record lows.

Americans' Level of Confidence in the Three Branches of Government

% Great deal/Quite a lot

GALLUP

That the drop in confidence *“threatens and complicates the U.S. system of government.”* The people are being driven to want a new "system" of government. *“At this point, Americans place much greater faith in the military and the police than in any of the three branches of government.”* the article with the graph notes. That's exactly what the globalists want. Given that scores of daily accounts of police brutality are now being documented, as well as heightened concern over the rapid militarization of police, this certainly paints a dismal picture for the government of the future that is planned.

If not already it will become obvious to you the American Government represent the globalists and are now trying to convince Americans representative government is out dated and the reason they are using is the visible dysfunction of government today that they are responsible for creating. They have worked many many decades for the combination of public discontent & corruption we have today in the federal government, and it's for the sole purpose to get the people to want to overthrow the entire system of government in America for a world government. It could not be clearer today why our Framers insisted on limiting the power of government who also limited the ability of the majority of voters to strip away the rights of their fellow citizens.

In 1933, H.G. Wells wrote *The Shape of Things to Come*, a counter-factual history of the world from 1933 to the year 2106. Its a story of all-consuming world wars, territorial ambition, and general chaos which would end in a 100-year tyranny followed finally by the establishment of the Modern World State – its the prototype for global government/slavery.

“Countless people will hate the new world order and will die protesting against it.” H.G.Wells 1939

And the people that refuse to make the choice to understand reality, once they have lost

everything personally, will be asking how could this have been done to the people without them knowing. Its simply because the majority of citizens have been taught to define their reality by denying reality. All that was needed is an unending series of victories over peoples own memory. George Orwell called it "doublethink."

"The power of holding two contradictory beliefs in one's mind simultaneously, and accepting both of them. To tell deliberate lies while genuinely believing in them, to forget any fact that has become inconvenient, and then, when it becomes necessary again, to draw it back from oblivion for just so long as it is needed, to deny the existence of objective reality and all the while to take account of the reality which one denies—all this is indispensably necessary. Even in using the word doublethink it is necessary to exercise doublethink. For by using the word one admits that one is tampering with reality; by a fresh act of doublethink one erases this knowledge; and so on indefinitely, with the lie always one leap ahead of the truth" –George Orwell

Since everything is created to serve the elites, way before the internet existed, whats changed today with the internet? Well they can study us more efficiently and we can connect to help each understand the global elite, so they are unable to pull the strings from afar any longer as more and more of us citizens every day around the world are becoming aware of their vicious multi-generational crimes against humanity. And I am sure they expected this while they continuepulling them. They still have ultimate power over all the most prominent governments and corporations on earth. Will it ever change?

Today the government blocks truth every minute of everyday. My experience blogging or posting on facebook is as soon as your message exposing truth gets popular you are blocked and or have stuff simply disappear from the internet. Given that reality read this example from the 400 page Obama-FCC regulations on your First Amendment rights in Section 544:

"The rules we adopt today do not curtail broadband providers' free speech rights. When engaged in broadband Internet access services, broadband providers are not speakers, but rather serve as conduits for the speech of others."

The internet clearly can serve as conduits for the speech of others. The globalists know they don't need to control your speech if they get their puppet Obama to control the "conduits" of your speech. And that's exactly what he intends to do. What they really mean

is if you like your Internet, you can keep your Internet, and if you like your First Amendment rights, you can keep your First Amendment rights. You can say whatever you want and good luck when it comes to anyone actually hearing what you have say other than government.

THINGS YOU NEED TO KNOW ABOUT ACTA
FACTS:

1. ACTA isn't the "European" SOPA. It's nearly GLOBAL, and will apply to every country that signs the treaty.
2. ACTA is far more aggressive. ACTA will not simply affect websites and have them blocked out of the internet - its measures go as far as surveillance of anything you share through private channels.
3. ACTA doesn't have a campaign against it that is as wide-spread and organized as the SOPA one. This is DANGEROUS, as there's less time between now and the final signing of ACTA.
4. ACTA has effects on healthcare, trade, and even tourism.
5. ACTA has to be stopped.

Let's start spreading the word and organizing a good, solid response to it.

Get cheered up on 9GAG.COM

As more people awaken it should be expected the globalist agenda would create ACTA and something similar, so its is the beginning of international laws that will surely come. We have SOPA, PIPA and the ACTA Treaty. SOPA and PIPA are smokescreens so ACTA will get in through the backdoor, (a tried and true process government uses). For those that did not know ACTA has already been signed by Obama in 2012. Another trick as old as government itself; while we were busy fighting winning against SOPA/PIPA, the more powerful ACTA Treaty is in place, giving the people the traditional illusion of fighting and winning something, thats in reality was a meaningless choice for a meaningless fight. In the link below Rockefeller testified at a Senate hearing wanting additional civilian cybersecurity under the supervision of DHS. The corrupt power hungry domestic enemies running our government and in our government remain united through their criminality. They are uncomfortable with the growing number of Law-abiding political activists who understand/expose corrupt government as far as it could get outside its Constitutional Authority. http://www.youtube.com/watch?feature=player_embedded&v=x8ooxusx9E

Marcus Tullius Cicero, in a speech to the Roman Senate, 42 BC: *"A nation can survive its fools, and even the ambitious. But it cannot survive treason from within. An enemy at the gates is less formidable, for he is known and carries his banner openly. But the traitor moves amongst those within the gate freely, his sly whispers rustling through all the alleys, heard in the very halls of government itself. For the traitor appears not a traitor; he speaks in accents familiar to his victims, and he wears their face and their arguments, he appeals to the baseness that lies deep in the hearts of all men. He rots the soul of a nation, he works secretly and unknown in the night to undermine the pillars of the city, he infects the body politic so that it can no*

longer resist. A murderer is less to fear. The traitor is the plague."

Imagine how fast the world would change if seven billion human beings had the means to wake up to the globalist plan? It's so easy for the elite to continue their crimes against humanity because so few ever get to look at the formula they use/what they do; you reading this are having a look!

The Internet must change ASAP to become a level playing field for all users, consumers, innovators, activists, artists, businesses, and everyone between. Where its at now is in favor of a handful of gigantic globalist controlled corporations, all by design for the globalist plan. Today the people need ASAP the next wave of Internet activists, while the globalists need ASAP the internet to only be only another propaganda tool for their dictators.

"No one understood better than Stalin that the true object of propaganda is neither to convince nor even to persuade, but to produce a uniform pattern of public utterance in which the first trace of unorthodox thought immediately reveals itself as a jarring dissonance." - Alan Bullock, in Hitler and Stalin: Parallel Lives

Forty-two countries already filter and censor internet content. In just the last 4 years, governments have enacted 20 new laws threatening online free expression. The intent to increase censorship, threaten innovation and allow governments to censor legitimate free speech will never go away. The Cybersecurity Act of 2012 was voted down by the U.S. Senate because of people protesting privacy and Constitutional concerns. So puppet Obama issued a secret directive to establish federal control over the Internet and the collection of data on everyone. The media/government need the internet as their platform to lie, distort, twist, omit, subvert and remove the truth to keep people still in their matrix.

Want to protest against corrupt government censorship safely as a hologram? The day is coming when they will criminalize hologram protests. <http://revolution-news.com/first-hologram-protest-in-history-held-against-spains-gag-law/>

Even more rules are coming, and they will make the internet as useless as the education system or alphabet channels for getting truth/facts to the people. It will only serve the controllers to know everything about you. The only purpose of globalist designed rules will be to ensure the people cannot overcome today's traditional media constraints leading to a better informed citizen. As long as expertise and authority are hijacked by a corrupt media awake people won't get to the masses. ACTA exists because those behind the curtain are threatened/exposed by an unregulated internet.

In 2015 there is a DHS funded multi-billion dollar spy tool called "FirstNet". This is a citizen information gathering device like no prior. The company New World Systems is in charge of implementing the system. <http://www.firstnet.gov/> https://www.newworldsystems.com/Public_Safety/

FBI's Next Generation Identification project is where were headed and will institute the following:

"A comprehensive, centralized, and technologically interoperable biometric database that spans across military and national security agencies, as well as all other state and federal government agencies. Once complete, NGI will strive to centralize whatever biometric data is available on all citizens and noncitizens in the United States and abroad, including information on fingerprints, DNA, iris scans, voice recognition, and facial recognition data captured through digitalized photos, such as U.S. passport photos and REAL ID driver's licenses. The NGI Interstate Photo System, for instance, aims to aggregate digital photos from not only federal, state, and local law enforcement, but also digital photos from private businesses, social networking sites, government agencies, and foreign and international entities, as well as acquaintances, friends, and family members". BiometricID cybersurveillance might be used to assign risk assessment scores & to take action based on those scores". http://www.fbi.gov/about-us/cjis/fingerprints_biometrics/ngi

It doesn't end with the above. The following will remind you of the movie Minority Report. Under the "Future Attribute Screening Technology" (FAST), criminals are identified through the following types of biometric data including body and eye movements, eye blink rate and pupil variation, body heat changes, and breathing patterns. Various linguistic cues include the analysis of voice pitch changes, alterations in voice rhythm patterns, and changes in intonations of speech. The "precrime" data will be gathered" through cybersurveillance and stealth data monitoring of ordinary citizens. The FAST program purports to assess whether an individual might pose a "precrime" threat through the capture of a range of data, including biometric data. In the documents released by DHS it clearly shows individuals can be arrested based only upon statistical algorithms and predictive analytical assessments. In other words, FAST accuses non-convicted individuals as being a security threat risk of becoming future criminals and terrorists through data analysis. No charges, no police interviews, the system is designed to become "judge, jury and executioner" using complex statistical algorithms that will compile data from multiple databases and will subsequently "predict" future criminal acts.

"There is no way to rule innocent men. The only power government has is the power to crack down on criminals. Well, when there aren't enough criminals, one makes them. One declares so many things to be a crime that it becomes impossible for men to live without breaking laws." — Ayn Rand

In my opinion what many of us awake are doing with social media is the beginning of what easily someday could rein in unchecked power if the internet was no longer controlled. It could lead to the beginning of the end of the people being oppressed by governments on behalf of a ruling class, who would no longer be able to remain hidden. This government's ability to control the message is slipping, to counteract that we see to Obama collecting data on everyone. This data may make elites walking the halls of power uneasy? Awakened people that are not part of government or the media ARE earning a reputation by other people and THAT threatens traditional media, government and their elite handlers. So what will they do about it? When will they strike? or will enough people learn the truth about the world system of control first?

In the link below Rockefeller testified at a Senate hearing wanting additional civilian cybersecurity under the supervision of DHS. The globalists are uncomfortable with the growing number of Law-abiding political activists who expose corrupt government way outside its constitutional authority. https://www.youtube.com/watch?v=_x8ooxusx9E

For the first time in history the internet provides people with a new more effective way to communicate, and social media has become a new way to expose truth to the masses, a truth that could stop the tyranny and oppression upon us that has been planned for many decades. Exactly why this White House & the majority in Congress on behalf of the globalists have and are doing all they can to put an end to our First Amendment protected right of free speech on the internet.

The internet/social media prevents the government's monopoly on the exchange of information/ideas, threatening their corrupt un-Constitutional existence. Once he was able to rule by decree it was too late, Hitler destroyed that constitution in 39 days.

United Nations 148 page report calls for Internet surveillance, saying lack of "internationally agreed framework for retention of data" is a problem. They want total control of the info/opinions on social networks like Facebook, Twitter, YouTube etc.

Facebook

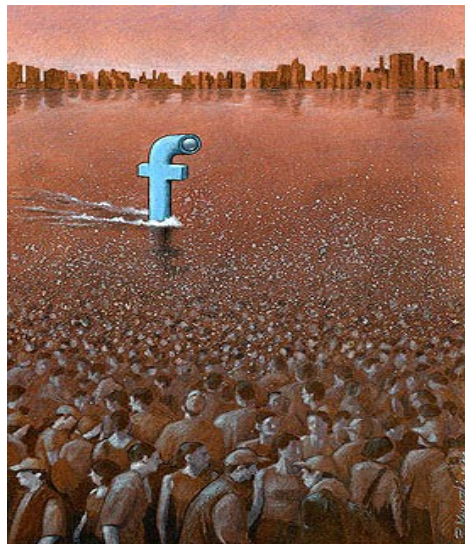

That's a snapshot of what became so frequent it finally forced me to quit Facebook. It got to a point everything I wanted to post or comment on exposing the globalist plan Facebook classified as inappropriate. Since 2011 Facebook increasingly blocked my ability to engage in critical thinking with other people globally and by 2013 Facebook had deleted 60 of my posts and became impossible to use by preventing me from exposing government corruption in posts or comments to not only American citizens, but people around the world. And Facebook is a self-proclaimed "social network" whose stated mission is "to give people the power to share and make the world more open and connected"

In reality Facebook limits ability to connect and share truth by:

- continuously and arbitrarily removing posts and other forms of speech without notice;
- capping friendships and blocking or banning users from being able to send friend requests;
- blocking and banning without notice or an opportunity to be heard;

Facebook states we are free to share and connect with one another, but the reality is if you are working to expose the globalist plan you are prevented from having any power or choice in what you can share and who you can share and connect with. In the effort to expose the same issues written here facebook continually and systematically subjected me to arbitrary, unjust, anti-social policies and speech suppression. Meanwhile its globalist corporate sponsors and highest bidders are rewarded with the power to connect and share without limitation.

NAMBLA (The North American Man/Boy Love Association) advocates the weakening of laws against sexual relations between MEN and minor male boys. They used facebook to find boys for sex globally. And facebook didn't censor them in any way until hundreds of thousands of people complained. Facebook had no problem giving homosexual men the means to access boys to share and make the world more open and connected in that horrific criminal sick disgusting way. But they put their foot down when it comes to citizens exposing government corruption and the globalist plan to kill and rob people.

Facebook is also a great tool for the CIA since the arrival of the Facebook timeline that makes it super-easy to backdate the online history of "persons of interest." Guess we can imagine what NSA & FBI are doing with their mammoth computer facilities today. I wonder how many magical finding algorithms they have written for Ohitler to create his list of enemies that are sovereign constitutional law abiding citizens?

Have you read enough to to understand how our Federal Govt has positioned itself to surrender America to a world Government? America's government simply used its monopoly with the use of force by breaking its own laws. That corruption, not to mention scapegoating of external enemies on behalf of the ruling class is as old as government itself. As you can see a time is closing in where it will become dangerous for anyone outspoken exposing how our government is wrong. It's all been set up over many decades by our own representatives that subverted the Constitution. This is a war of misinformation this government has created, to construct its own reality, to suit its own agenda. So be prepared for this govt to become the horrific domestic enemy it has set itself up to be!

The chart above exposes another example of how everything is in place for the plan, and its

simple; problem-reaction-solution, whereby a problem is created to push people into accepting a rigged solution. False Flag attacks are engineered by the globalists. 911 justified the further removal of freedoms from the populace to keep them safe. Ultimately, liberty traded for security is the plan having one outcome, its for total world slavery. Its clear to me deception is the globalists technique to frame up the problems of the world, then provide their solutions. Like the RUSH song says "All the world's a stage, we are merely players" or the Styx song "The Grand Illusion", they are 2 songs from my younger years I connected with. Using fear as a means of gaining and keeping attention the globalists maintain your attention with the war on poverty, war on terror, war on drugs, war on cancer etc., they move the props around the stage. And when the planned horrific problems emerge like 911 for the people, the globalists through their power centers always have the solutions, and those solutions, by design, ALWAYS require the transfer of more power, wealth, resources, liberty and control of your life to the globalists. This control is used to create our pseudo-world.

We all know terrorists attack governments and kill humans in the process with the purpose to destabilize governments. Reading this essay you more deeply understand the attacks are only done so leaders can be replaced by puppets who will serve the interests of the globalist plan. Its really quite simple, to bring about regime change the globalist plan requires destruction of ALL regimes they do not control. The global elite long ago captured the financial and military resources of governments. We have all been "educated" to believe governments are the culprits of terrorism, the truth is terrorism is a tactic of the globalist plan, and that plan requires that war is waged to covertly control all governments to create world government.

In chapter 5 of "The Creature From Jekyll Island" Edward Griffin described the stained-glass window above in the Beatrice Webb House in Surry, England, that once served as the headquarters of the Fabian Socialist Society. The Fabians were (and still are) global elites that advocates collectivism through legislation. But, first, they say, the public has to be conditioned to want it.

The stained-glass window depicts the Fabian strategy. The Fabian Crest is shown in the top, right quadrant and depicts a wolf in sheep's clothing. Across the bottom, the masses are shown kneeling in adoration of a stack of books advocating socialism. From the perspective of toppling governments with terrorism and then counter-terrorism, the most startling image depicts George Bernard Shaw and Sidney Web (famous members of the Fabian Society) striking a world globe with hammers!

Today the globalists and the globalist plan are not limited to Fabians working toward a global government based on the model of collectivism. Anything in the way must be destroyed, especially all foundations based on freedom, especially as it is declared in the United States Constitution. They will happily and plan to bring in a one world government upon the ruins they created.

The solution for the people law is simple and clear; the representatives in our government derive their authority solely from the citizens they serve. But most Americans today (by design) do not even understand that one simple fact. School and media propaganda is the reason why "the people" by design do not understand the philosophical foundation of freedom, or how to force government to keep a balance between personal freedom and public safety. Or that government may only use physical force to do only those things that individual citizens may use force to do, which is to defend lives, liberty, and property. Today all by design individuals do not have the right in America, so how can people delegate it to elected representatives? The purpose of our government, which is long gone, is to protect the lives, liberty, and property of its citizens.....and every globalist knows that is the only place Freedom can or will ever come from for the people.

As a result from centuries of a shadow government operating, today globalist sociopath oligarchs also own the most powerful transnational corporations that work to merge America with all national governments for the plan..... ideology and culture have nothing to do with merging.

"In the next century, nations as we know it will be obsolete; all states will recognize a single, global authority." Strobe Talbot, President Clinton's Deputy Secretary of State, as quoted in *Time*, July 20th, 1992.

Obama and most others in this government are simply hand-picked political puppets in charge of betraying the Constitution and the citizens for the plan. The US-EU-NATO alliance is carrying out the oligarch high command to destabilize, polarize and militarize every continent on earth for the plan. The oligarch planetary vision of destabilizing every Third World nation on earth is currently working an accelerated pace for the plan. All by design a morally bankrupt global economic system keeps people drowning in insurmountable debt for the plan. So when required they give the people a new puppet leader.

All this criminal theft, death and human suffering generation after generation is the result from wealthy oligarch families who have been let loose on this planet manipulating/enslaving the global masses through the centuries. And after several hundred years of controlling the money supply/international economies at will through wars, (explained ahead) they are almost ready for depopulation, world government, and world slavery on a scale like the world has never experienced. That's why today more than ever our world is full of illusory choices with options that all lead to the same outcome. Liberal vs conservative is a good example because we should all be able to understand how each side leads to the same end result of ignorance and imbalance. The political system relies on the illusion of the two party choice which makes people think they're living in a republic or democracy. Neither exists because mass opinion is not only swayed but created through media manipulation and rigged polls, not to mention the Electoral College consists of bought members by the globalists who obviously obey them. The most willing slaves are those who think they are free. The globalists program the people to accept and even demand more and more laws to solve their perceived problems. Do you know the real purpose for all these laws yet? It's so one day all of them can be enforced at once to create a legal form of totalitarianism, the true reason for all the Executive Orders written by U.S. Presidents for over 50 years.

"Lawfully Yours" - a People's Empowerment Guide to Our Corrupt Corporate-Commercial

One of many reasons America is on a fast track to tyranny is the UN-constitutional grey area the government has created to re-define who is a “suspected terrorist.” This has opened the door for illegal warrant-less surveillance of Constitutional law abiding citizens. Congress checked by the Judiciary and the Executive is supposed to be the focus of federal power and source of federal law. Art I, Sec 1 of the Constitution provides that all legislative powers herein granted shall be vested in Congress. Article II specifically outlines Executive powers and duties, none include legislating in any form.

TSA’s terror profiling tactics <http://personalliberty.com/tsas-secret-and-ineffective-terror-profiling-tactics-revealed/>

The U.N. Office for Disarmament Affairs stated the agency’s goals are; to remove weapons from “Insurgents, armed gang members, pirates, terrorists.” Now when you understand whats in place with National Defense Authorization Act (NDAA) and the Department of Homeland Security you understand they deliberately broadened the definition of terrorist to include anyone Obama decides it applies to. As a result today Americans wanting to reinstate our Constitutional form of government with State power from this government are the citizens becoming the targeted terrorists, simply for demanding this illegal cease and desist un-constitutional command of the States. As a result the Department of Homeland Security is increasingly focusing its anti-terror apparatus on these Americans, portraying them as domestic terrorists. This Congressional report proves DHS spends more money watching citizens than terrorists. <http://www.homelandsecurityus.com/archives/6907>

A Senate investigative committee exposes DHS as useless and devoted not to national security, but spying on innocent Americans, all for the plan.

<http://foxnewsinsider.com/2012/10/03/judge-napolitano-bipartisan-senate-panel-report-finds-dhs-intelligence-effort-had-nothing-to-do-with-national-security/>

Today most Americans are recorded everywhere just going about their daily business. Stingray devices used by government are disguised as fake cell phone towers and can download everything that individuals have on any device. Google admits that it can track people simply by monitoring the power usage from cell phones. The NSA downloads over two billion US citizens' personal emails per day. Smart phones tv's and appliances are recording conversations in the home. The FBI has a database of DNA samples that include samples taken from babies at birth. https://www.youtube.com/watch?v=tyTGQPaW_IE&feature=youtu.be

In March 2012 Eric Holder told the public that the congressional resolution passed after September 11, 2001 gives Obama power to order extra-judicial state murders based solely

on his own discretion, without even the pretext of judicial review. So Obama and his legal aides decree they interpret and deem who is a threat to US national security and decree this is an absolute power of the executive, they refuse any interference from the Constitution, any court or Congress. Look how Obama moved “Forward” in this area since that announcement for the plan;

- Obama's next-generation drone kill list is called the 'disposition matrix'. Its basically a computer program that is an algorithm using computerized data to determine who is to be killed as an enemy that allows faceless operators in Washington DC to implement the program. <http://rt.com/usa/news/disposition-matrix-kill-obama-146/>

- Obama refuses to answer the question about the Constitutionality of his 'kill list' and assassinating US citizens without a trial, only saying its a matter of national security.

"I think that Barack has done a phenomenal job working around a Congress that has never been willing to help move the country forward on so many different issues" -Michelle Obama October 2012

In 2012 globalist puppet/U.S.domestic terrorist Obama served 14 US Governors National Security Letters warning them not to form State Defense Forces against this illegal government or they will face arrest. Increasingly as people awaken its obvious the globalists expect an eventual revolution against Obama or their next puppet by the States. The Governors of Alabama, Georgia, Louisiana, South Carolina, Tennessee, Texas, and

Virginia still have their Command-and-Control State Defense Forces that should have been used to stop this illegal there are NO U.S. laws prohibiting National Guard troops from also joining their State's Defense Forces. This occurred during the Civil War where many "citizen soldiers" chose to serve their states instead of the Federal Government. What started a revolution 250 years ago are the EXACT same intent this unconstitutional illegal government has today. And the globalists must know that will become the best motivation for citizens to start/join militias.

AMERICAN MILITIA-MAN WARNS CONGRESS TO BACK OFF He testifies before Congress in 2011 where he tells them that a growing number of Americans wont tolerate being treated like subjects instead of free men https://www.youtube.com/watch?v=_G3Xm_k9150

As if things were not already out of control enough on July 6th 2012 Obama signed this Executive Order <http://www.whitehouse.gov/the-press-office/2012/07/06/executive-order-assignment-national-security-and-emergency-preparedness>- to usurp all available forms of communication to expand the control by implementing measures that redefine what a crisis is. According to this out of control insane government a crisis is defined by the President who can enable the executive branch to do warrantless surveillance, control the internet and ALL communications. Obama dodges the question on the constitutionality of assassinating US citizens without a trial. <https://www.youtube.com/watch?v=WrruNOaNYME&list=UU1h3bqESVdqkwm123Ce4ZmA&index=1&feature=plcp>

The NDAA is designed to profile everyone, like citizens who speak out against corrupt government because HR 347 is for the implementation of Sections 1021 and 1022 of the National Defense Authorization Act and can stop any citizen who dares to speak out against the government. And with all the EO's in place Obama will use the NDAA <http://www.govtrack.us/congress/bills/112/s3254> for indefinite detention for citizens without any due process of the law.

The Obama administration is setting up the globalists for the ultimate most genocidal war crime in history with a Worldwide military adventure, "a long war", to threaten the future of humanity. The Pentagon's global military design, is one of world conquest. <http://www.globalresearch.ca/the-ultimate-war-crime-americas-global-war-on-terrorism/5434478>

In this link <http://www.nysd.uscourts.gov/cases/show.php?db=special&id=223> is the Sept 12, 2012 ruling from a district court in New York against Obama, Leon Panetta, John Boehner, Harry Reid and others who had no evidence in support of blatant UN-Constitutional positions. In the summary of opinion the plaintiffs who are writers, journalists, and activists testified credibly to having an actual fear that their writing/activities will be subject to indefinite military detention. And its clear under 1021(b)(2) the National Defense Authorization Act.

In October 2013 the Globalists tasked Obama with the Federal takeover of local jurisdictions when he expanded the Department of Homeland Security's ties to local law enforcement with ANOTHER illegal executive order to create a "Homeland Security Partnership Council and Steering Committee with the Obama White House." Its for local partnerships between federal and private institutions "to address homeland security challenges." And every law abiding citizen against corrupt government and the Globalist led takeover who want to defend the U.S. Constitution from all enemies both foreign and domestic are simply the main target of the challenge!

Government Approved Media + Education = Indoctrination

Public education from the globalist/government perspective has a main goal, like the media, is simply behavior modification to create worker drone slaves instead of capable individuals. This is done through systems of reward and punishment, compartmentalization of the mind, preoccupation with meaningless work, political correctness, and radical distortions of facts and principles in textbooks. As a result its over for most of us soon after the education system takes over. By the time I finished high school, there was not any curiosity or critical thinking abilities left toward what should most important, it had been wiped out. It took me many years to reprogram my mind. Our view of the world has been shaped by globalist designed cultures. Are you seeing the world from that perspective? or as it really is?

"The state must declare the child to be the most precious treasure of the people as long as government is perceived as working for the benefit of children, the people happily will endure almost any curtailment of liberty." -Adolf Hitler

When it comes to government mandated indoctrination through education government today, through several Non Government Institutions, has perfected the brainwashing over the decades. With government controlled education the purpose of education is not education, its to change the thoughts, actions and feelings of students. Its obvious the goal is for the plan.

THE TWO MOST MISGUIDED NOTIONS HELD IN AMERICA

- 1. Our Government wouldn't really do that to us.**
- 2. If they did, they would tell us about it on TV.**

The need to educate yourself has never been greater!

"Every child in America entering school at the age of five is mentally ill because he comes to school with certain allegiances to our Founding Fathers, toward our elected officials, toward his parents, toward a belief in a supernatural being, and toward the sovereignty of this nation as a separate entity. It's up to you as teachers to make all these sick children well - by creating the international child of the future." -Chester M. Pierce, M.D., Professor of Education and Psychiatry at Harvard

Higher education is the foundation and is the most effective engine allowing this corrupt government to keep the people in the dark. Our government on behalf of the globalist ruling class created something using that stolen money from the public coffer; ivy league progressive PhD clubs of cultural elitism that serve the plan for our government to implement advanced social engineering that rely on collectivism that truly represent subversive and psychologically impaired pseudoscience. Its the right drug for the pseudo-world they created for us. The plan called for the sabotage of America's cultural, fiscal, political & judicial systems long ago to gradually replace our system of government eventually with global government/slavery. Just like all the special interest laws that ALWAYS piggy-back on major congressional bills, for many decades subversive hidden objectives have been hitchhiked on our national drive for literacy. Then there are those PhD's put in government to create policy that see themselves as intellectuals so far above the people. What they are is globalist created tools who infest present-day government and all the organizations that control government, all for the plan.

On April 10, 2012 Obama said regarding what he is doing to America; *"this is not some socialist dream"*

"Socialism is the phantastic younger brother of despotism, which it wants to inherit. Socialism wants to have the fullness of state force which before only existed in despotism. ... However, it goes further than anything in the past because it aims at the formal destruction of the individual" – Friedrich Nietzsche

We need to reprogram/restore our fiscal and political foundations before we can reprogram education/society to move us to a more efficient socioeconomic society where university degrees designed to address the nightmare issues we face will become marketable, for now moneypower ensures they all end up serving the plan. Look at the fiscal program we have evolved into that ultimately exploits today's wider potential of minds fueling narrower ambition....all by globalist design. For example I remember reading a rocket scientist working on Wall Street because thats where the most money is. The

degrees and information that flow from the highest levels have created an abundance of ideals the plan called for; a pseudo world of social/professional knowledge that's destroyed/eliminated any real cure for our fiscal and political foundations. We must address the way Ivy League schools churn out experts that provide what the globalists need for the plan and they are everywhere; in government, in The Federal Reserve System, in the United Nations, in Non Government Organizations, in Tax Exempt Foundations, in The Council on Foreign Relations, in all the most influential transitional corporations, Big Pharma etc. etc... Today's world economy with its perpetually increasing debt ratios exposes decades/generations of business people graduating to serve the plan, with neither the skills or desire to be economically and or socially responsible, nor the tools for non programmed intellectual development to make them evolve into discerning individuals/citizens. And most graduates from prestigious institutions have walked away as non productive contributors to the economy, not caring, or are unable to see through political rhetoric. I left the entire university education system. And than began a real education. I disagreed with their globalist sponsored ideology, and eventually decided I would have NO part in it. Sovereign humans into resources

Fantastic movie IMHO to win hearts and minds. Whats exposed in this film allows people to grasp how the elite using moneypower hijacked social engineering long ago to change societies, even before using/controlling "isms" (marxism, communism, capitalism, socialism) for controlling the world, on the road to world government its clear today technology provided the conversion of sovereign humans into resources to bring about world government. " Social Engineering in the 20th Century explores the rise of mechanistic philosophy and the exploitation of human beings under modern hierarchical systems. Topics covered include behaviorism, scientific management, work-place democracy, schooling, frustration-aggression hypothesis and human experimentation." <https://www.youtube.com/watch?v=4rnJEdDNDsI>

"Education is a weapon, whose effect depends on who holds it in his hands & at whom it is aimed." - Stalin

"Give me four years to teach the children and the seed I have sown will never be uprooted." - Lenin

"higher education cannot be a luxury; it is an economic imperative that every family in America should be able to afford." - Obama 2011

Higher education Obama refers to is the globalist created/sponsored education for the plan allowing the dumbing down to get worse each generation to compensate against the people for any technological gains and historical evidence that may have moved the people away from the horrific social disease and fiscal insanity we have today, what Obama and other tyrants throughout call moving "Forward." Anyone that understands how this insane process of non-stop fiscal & social regression keep the ruling class in power had to learn

this truth on their own! With the Dept of Education having the main purpose to create a complicit indoctrinated populous to serve the international banking families of the world as slaves, who also put the current system in place to create the illusion of representative government, how could the world be any other way today? In reality it's simply just a better cloaked system to deal with the fact the people eventually won their freedom from Monarchies. You already know they created the Federal Reserve to be all based in fraud because those who control the money easily control governments.

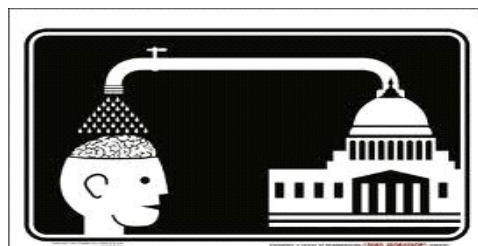

"Garbage in-garbage out" the indoctrination keeps the game rigged! -George Carlin

10 minute interview of Charlotte Iserbyt who was Senior Policy Adviser in the Dept of Ed.
https://www.youtube.com/watch?feature=player_embedded&v=DDyDtYy2I0M <http://www.newswithviews.com/iserbyt/iserbyt111.htm>

"Never before was there so much power, and never before was that power so used for the destruction of human life; never before was there so much education, and never before so little coming to the knowledge of the truth: never before was there so much wealth and luxury, and never before so much poverty and distress." -Venerable Fulton J. Sheen, The American Psychoses and Neuroses, 1952.

Hidden Influence: The Rise of Collectivism is the first film in a 3 part saga. Explained is how the ruling class through billion dollar foundations have infiltrated the public education system in the west for the globalist plan by indoctrinating children into a totalitarian ideology. The film explores the chronological paper trail uncovered by Charlotte Iserbyt, who was fired from her post as the Senior Policy Advisor for the United States Department of Education in 1982 because she exposed to the public classified documents proving computers were already being used in 1982 to psychologically manipulate American students. They cover Norman Dodd's investigation into these globalist controlled foundations Congress in the 1950's. Today its horrifically clear how the philosophy of these foundations, for the last 100 years has changed/controlling the education system right up to today. Also explains why these foundations promote radical and authoritarian ideologies on college and university campuses. <http://www.libertymachinenews.com/hiddeninfluence/>

No surprise Hillary Clinton is at the rotten center of the globalist's sponsored Common Core national standards initiative. <http://eagnews.org/hillary-clinton-found-at-the-rotten-center-of-the-common-core-national-standards-initiative/>

The people need to understand the goal was NEVER reading writing and arithmetic, its been A CONTINUOUS NON STOP BRAINWASH, generation after generation.

"Among the elementary measures the American Soviet government will adopt to further the cultural revolution are...[a] National Department of Education...the studies will be revolutionized, being cleansed of religious, patriotic, and other features of the bourgeois ideology. The students will be taught the basis of Marxian dialectical materialism, internationalism and the general ethics of the new Socialist society." -William Z. Foster, Toward Soviet America, 1932 National Chairman of the American Communist Party.

Big Pharma pays doctor millions to push their drugs. All those drugs are in the plan. If they don't have a pill to sell, the disease doesn't exist in this pseudo world. The globalist controlled American Psychiatric Association dropped homosexuality from the DSM in 1973 not because they have compassion for the abuse it caused gay people, it is only to assist in their plan, a plan for control. Today they're proposing to drop pedophilia and some forms of autism for the plan. A horrific number of kids are pumped full of Ritalin (amphetamine) to treat ADD, when in fact, ADD is caused by the globalists using toxins, food, microwaves combined with social engineers using the teaching methods Charlotte Iserbyt exposed.

Its all so HORRIFIC and its so easy to be overfed and undernourished today, but that is the design, what the plan calls for. Toxic nutritionally void food works together with the education system, the pharmaceutical system and Microwave/RFR radiation in damaging DNA, limiting potential and dumbing down/weakening each generation more than the last. And now we have entered non stop Pulse frequency exposures (explained later) and the GMO era to compound those genocidal results, not to mention engineered sterility, with more Big pharma dependence is result today. Why we have a growing trend by doctors to prescribe psychotropic drugs (like Adderall commonly used to treat ADHD in children) even though the child does not have ADHD. Big pharma and conventional doctors spew that stimulating their brains with drugs will give them a mental-performance boost from everything engineered into society to bring it down. Meanwhile, by design, conventional medicine ignores ALL the reasons for their mental decline. Until the whole elite globalist designed system is abolished and reassembled drugs to boost mental performance will only be about control and will only make matters worse. <http://naturalsociety.com/adhd-drugs-prescribed-to-all.../>

"We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness. — That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed, — That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness." - The unanimous Declaration of the thirteen united States of America

The notion of even the idea of individual or personal responsibility to be gone is the goal by 2020, its collectivism and equality ingrained in the majority by the Globalist controlled CFR and the UN, through OUR Federal Government on behalf of the ruling class. The globalist hypnosis trick today using Obama with "Hope and Change" worked with the old word "Forward", still brainwashing/controlling consciousness and perceptions.

"[Some people] have a depraved taste for equality, which impels the weak to lower the powerful to their own level, and reduces men to prefer equality in slavery to inequality with freedom. I believe that it is easier to establish an absolute and despotic government amongst a people in which the conditions of society are

equal, than amongst any other; and I think that, if such a government were once established amongst such a people, it would not only oppress men, but would eventually strip each of them of several of the highest qualities of humanity. Despotism, therefore, appears to me peculiarly to be dreaded in democratic times." - Alexis de Tocqueville

July 2012 Obama said he was “encouraged” by the massive number of young voters volunteering for his campaign. And when asked why they support Obama the #1 answer is;

“We want Obama to finish what he started”.

Finishing what he claims he started is what every globalist demands him to do! It could not more obvious today the over reaching power of the state manifests itself in every part of society. Its the reason for all the use of psychiatric drugs; to turn people into compliant and dependent sheeple. Our Constitution was created for free Individualists, not totalitarian driven collectivists. Today’s retirement generation is on track to be the last citizens with even the ability to understand the Original Constitutional Intent for this nation that the elite moneypower completely hijacked since lincoln was murdered.

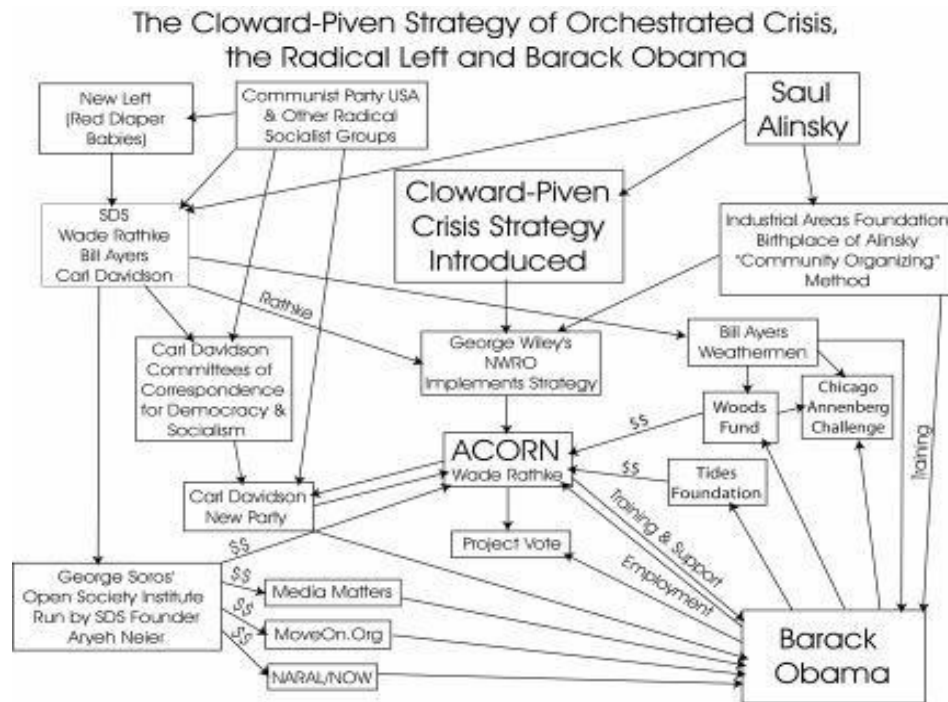

"When an opponent declares, 'I will not come over to your side. 'I calmly say, 'your child belongs to us already....What are you? You will pass on. Your descendants, however, now stand in the new camp. In a short time they will know nothing else but this new community.'" - Adolf Hitler

We need what we don’t have, what Nazi Germany also did not have; honest elections, a competitive media, an educational system responsive to parents, free speech, a well-armed citizenry, sound money, freedom-of-choice in health care, a non-interventionist foreign policy, and national sovereignty. And this government, like Hitler’s, is pushing us into a corner to be left with nothing but nationalism and violence, to be enslaved by the globalists under one world government.

Globalist Approved Cloward-Piven Strategy

In 1965 two Columbia university sociologists Richard Andrew Cloward and Frances Fox Piven spearheaded a strategy to catalyze the New Left's planned transformation of the United States into a Social Democracy. In the May 2, 1966 issue of "The Nation" they detailed their proposed strategy in an article titled "The Weight of the Poor: A Strategy to End Poverty".

Following its publication The Nation sold 30,000 reprints of the issue to radical socialists all over the country. Using the tactics of Alinsky, their globalist approved strategy created then managed a crisis. They sold it on the pretense that the social welfare system was not created as a means of helping the poor, but of placing them to ensure their resentment never built to a point of open rebellion. It is also the same ideology used in university sociology departments for the moral justification of welfare.

Cloward and Piven pushed activists to sabotage the welfare system to recruit the poor for a socialist revolution. They initiated a public services enrollment drive to inform the poor about their "right" to benefits, then forced government to "Live up to their own book of rules," Alinsky called for this in his book called Rules for Radicals.

As a result they successfully added millions to the welfare rolls mobilizing the poor in many violent demonstrations. That tactic, by design, created an outcry among left wing journalists. That, by design, would eventually lead to Democrats in Washington implementing large scale wealth redistribution for a reason that had nothing to do with

helping the poor.

In 1967 Cloward co-founded the National Welfare Rights Organization with George Wiley of the New Left, and began the enrollment drive. NWRO activists and the poor invaded welfare offices around the country demanding welfare payments. The movement spread boasting 523 chapters and 22,500 members by 1969. As the story goes from this point, The Cloward-Piven strategy nearly worked, but every globalist knows it worked just as the plan demanded. The globalist version of it took over for the version of creating and managing the crisis we are under today. By 1975 a public backlash began against entitlement spending. New York City declared bankruptcy and blamed to wealfare payments.

After 1975 I call it the Cloward-Piven pre show for a globalist strategy (the plan). As the New Left moved on to set its sights on the next step in the globalist plan. No more focusing on the welfare system, the maneuvers to eventually crash the entire U.S. economy, and use the resulting fallout to attempt to discredit Capitalism was the new direction. Its clear today how far the globalists have come on this front in the plan to destroy America for world government.

If the people could somehow just find the time/desire to focus on the system, then the people could overcome the output of bureaucratic/dogmatic abusive control from the top.

And this generation of globalist elites are no different than the rest still thinking enslaving humanity is their birthright, their parents and grandparents didn't continue to create/fund wars, control economies and governments and remain united in their criminality stealing trillions for just being rich. The elite international banking families of the world are multi-generational narcissistic psychopaths who would gladly kill billions, destroy resources and the biosphere before relinquishing their even stronger stranglehold on humanity they have planned. These Psychopaths have nothing to live for but to exercise their right they afford themselves to plunder and enslave the world, to them were simply livestock to slaughter at will. Socialism, Communism, Fascism, etc... have been their choice of governments they used to keep power from behind the curtain for what's ahead. Will we the people ever unite against them?

Governments always unofficially used false propaganda to sway public opinion. In 2013 Congress made it official and repealed the formal ban against the deployment of propaganda against U.S. citizens living on American soil. Today we have automated propaganda for one purpose; rampant disinformation to keep the plan moving forward. And it's used for military and intelligence services to manipulate social media to counter criticism of pro Globalist policies. They flood social media with comments supporting government and large corporations with fake social media identities. The Pentagon, Federal Reserve and other government entities use software to track discussion of political issues to try nip dissent in the bud before it ever goes viral. We also live in a time of artificial intelligence programs that predict how people react to propaganda.

<http://www.zerohedge.com/news/2015-03-23/propagandists-use-automated-software-spread-disinformation>

Looking back to March, 1915, the J.P. Morgan interests, the steel, shipbuilding, and powder interest, and their subsidiary organizations, got together 12 men high up in the newspaper world and employed them to select the most influential newspapers in the United States and sufficient number of them to control generally the policy of the daily press....They decided it was necessary to purchase/control 25 of the greatest papers to get control of the people's minds.

"An agreement was reached; the policy of the papers was bought, to be paid for by the month; an editor was furnished for each paper to properly supervise and edit information regarding the questions of preparedness, militarism, financial policies, and other things of national and international nature considered vital to the interests of the purchasers. From a very early age, to produce the sort of character and the sort of beliefs that the authorities consider desirable, and any serious criticism of the powers that be will become psychologically impossible." Bertrand Russell, The Impact of Science on Society (1953) p. 50.

When people become journalists, they are looking for a way of expression to get to the truth through opinion making. They should desire to have ideological influence serving fellow human beings by keeping them informed. Reality clearly exposes its just the opposite. For journalists and the rest of us in this matrix the only true freedom we have left is to think our own thoughts, and the globalists want to control that through intellect, also with microwave mind control technologies. Presently it's 2015 and they to eventually implement mind control on us all. Meanwhile we are and will not be free to establish a platform for the expression of our thoughts, something I have experienced firsthand on social media. Something every real journalist eventually experiences when the owner and the editor come in on behalf of the globalists and rewrite the truth they wanted to expose. For reasons they do not or don't want to understand.

Google for example is simply one in an endless supply of pro globalist greedy, vicious, hypocritical, power-hungry companies working only for what serves the plan. So its no surprise the internet giant averages a meeting a week for 6 years strait in the Obama white house. <http://humanevents.com/2015/03/31/currently-in-power-the-google-administration/>

Today mental depression and anxiety is at epidemic proportion and government is the main engine causing the grief, and its all by design for the plan. All the profits go to pharmaceutical and defense industries for the plan. A plan that requires the people to be at the hands of our government who always get greater control over our lives using debt, taxation, divide and conquer. Sadly I predict not until the last moment will even 1 in 10,000 Americans even realize who the real enemy was or is.

For most of my life I was perplexed, confused, and overwhelmed over judicial, social & fiscal problems in America. Up until the Bush 2 years I assumed I was not qualified to fully understand the issues simply because I accepted my programming to believe all the really intelligent highly educated/qualified people were on it. Certainly I *believed* I wasnt capable of understanding such things.

After 911 I found myself unable to come down either pro or con on many issues, so I made a choice and decided I was wrong about being UN-opinionated or UN-qualified to take responsibility of studying politics & politicians. I became more drawn to political humor, at that stage Bill Maher and George Carlin were helping to open my mind (I had to start somewhere LOL). Their political satire allowed ME to begin to UN-indoctrinate myself so I could begin to understand the world of complex sociopolitical material. So I ask; are you capable of the logical thought process called cause & effect? Do you know anything about the nature of obsessive greed, lust, control, idealism & narcissism? Have you read enough World History to understand those are the types of personalities who ALWAYS end up as dictators, including those who put them there? Have you read enough to understand the big money interests of the world own the U.N., presidents & politicians? Do you understand how those power players control the electoral process & are behind the structures of government & corporate corruption? Have you studied the Ruling Families of the world, The Federal Reserve System, Council on Foreign Relations, the committee 300, the Tri-Lateral Commission, or the Bilderberg Group to understand why those organizations exist and what they fund?

The Medias job by design is to emotionally shock and hypnotize the public and has no obligation to report reality or truth, only to obey orders from the globalists using government. They work tirelessly to lower mass consciousness and report stories to propagate the globalist agenda. The Global Shadow Government, around 250 dynasties or proxies are globalists that are confident they will have a united world/one world power, much more in your face control and transparent than today's cartel of banksters, governments, counsels, NGO's foundations etc etc., to create/control the world with their protectorate they worked hard to create.....today's pseudo electorate. We will have a new global middle class under world government made up only of government workers.

I see the sociopolitical framework of the United States and the world at large just like a theater.....I think of them as scripted plays created by the powers-that-be (globalists) with radically advanced technology, its all been used to understand critical knowledge of human behavior/psychology. And when I consider the fact globalists control the WORLD'S media, entertainment, education, money, military, religions, energy, food, water and medicine it becomes a very complex script with one clear and defined purpose.....for the plan.

The world/Matrix you and I live in is the control system that has been pulled over our eyes to blind us from the truth; what truth is that? I already told you above, its that the world's wealthiest and most militarily powerful nation on earth (USA) was created for a plan, not because of the Constitution or the people. So every day the world is more and more controlled by an unnamed focused group controlling all the power centers, transitional corporations, enforcing agencies and military of the wealthiest and most powerful nation on earth for a plan. Since the world is controlled by the globalists who plan for a one world government, doesn't it sound logical that it's easy to for them to write the script (the globalist script is our reality) when they own the media, schools, churches, energy, money and military?

"All national institutions of churches, whether Jewish, Christian, or Turkish, appear to me to be no other than human inventions set up to terrify and enslave mankind, and monopolize power and profit." -- Thomas Paine,

"The Age of Reason" 1794

The globalist plan is our reality from birth.....until we choose different:

The elite wrote the script for our current pseudo-world going way back using scientific study, wars, religions, education, control of images, information and themes. Today they work to control thought through the media, education, food, drugs, mental health, endless propaganda and topic restrictions. Add to that with vast resources to limit your mental energy and issuing your currency they steal the value you create to fuel their plan. The globalists now control technology to eventually have total control of every individual's mind, their mental/intellectual potential, their wealth, health and spirituality.....and they plan to eventually control every entity on the planet; humans, animals, weather, plants, insects etc. etc., and kill off whatever they can't control.

Television programming, mainstream news, theater, tv shows, movies, and what writers have to come up with to get their scripts funded shows me everything we watch are globalist approved scripts. I study what drives/controls media, what Hollywood and the networks produce, looking for the geopolitical trends their existence exposes, it helps connect dots for me that I am not supposed to connect! When I think about the treaties, executive orders, laws and regionalization at large it's horrifically obvious everything is in place/already in motion for depopulation before world government becomes official. After that then a global totalitarian takeover of all "the people" remaining. Once they eliminate the middle class, what each round of quantitative easing really speeds up, then they just

have one more thing to execute in the US to be ready for world government, and that's disarm the American people. When you consider the United Nations Department of Economic and Social Affairs Division for Sustainable Development in the 21st century; Review of implementation of Agenda 21 & the Rio Principles Synthesis, its obvious!
<http://www.uncsd2012.org/content/documents/194Synthesis%20Agenda%2021%20and%20Rio%20principles.pdf>

12 signs indicating you're a slave in a globalist created Matrix;

1. You pay taxes to a cartel infesting your government run by people that should be in jail for genocide and theft.
2. You go to the doctor but you're not just still sick, your sicker. That's the genocidal design of modern pharmaceutical medicine, called the business of symptom suppression. Just take the drugs and get cancer, no questions asked.
3. You've picked Team Democrat or Team Republican.
4. You work hard doing something you hate only for fiat dollars.
5. You go into debt to fund more of a consumer-oriented lifestyle.
6. You not only have nothing to hide from government surveillance, but have no idea why microwave/pulse frequencies are damaging your DNA..
7. You think the world will be safer when only governments have guns.
8. You knowingly consume toxic poison; GMO's and nutritionally void foods.
9. You depend/rely on the pharmaceutical industry to manage your mental health.
10. You still watch local and national news programming.
11. You're skeptical of anything not validated by government approved science or studies.
12. You never question the version you were taught of ancient history or the origins of our civilization.

From the Matrix: Neo: *"What truth?"*, Morpheus: *"That you are a slave, Neo. That you, like everyone else, was born into bondage... kept inside a prison that you cannot smell, taste, or touch – a prison for your mind."*

War

Most people seem confused or don't seem to understand the main cause for wars, In this section I will cover all the players involved. College and High school textbooks always present war and revolution as more or less *accidental* results of conflicting forces. These books say the decay of political negotiation into physical conflict comes after valiant efforts to avoid war PERIOD. Those globalist approved books could not be further from the truth. The truth is real Revolution never happens because it would be a spontaneous event by the politically or economically deprived against an autocratic state. Never in Western textbooks, in my searching, will you find truth. The truth is revolutions are planned and need finance and the source of the finance in most cases traces back to Wall Street.

You were taught and made to believe wars were/are fought over resources, over territories, over assassinations, over dictatorial conquests or human rights abuses. That is why for example most people today are 100% brainwashed to "believe" Libya was about freedom, Iraq was about oil, Vietnam was about communism or the American Civil War was about slavery. There are hundreds of excuses for wars. What you were not taught, what I expose here, is all wars are bankers wars and extended wars are bankers wars, except rare revolutions of common people. War has all the features (by design) of a globalist sponsored/approved government program: propaganda, lies, central planning, power grabs, cronyism, centralization, taxes, debt, erosion of liberty, and unintended consequences. As a result the more wars waged the healthier the state becomes, and unsound money is what determines the health of wars for the globalist plan.

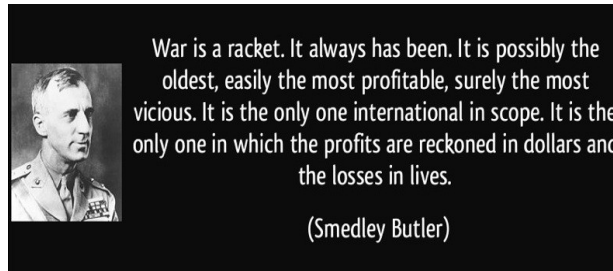

Regarding war and revolution its important to understand; *a controlled conflict is to create a predetermined history*. Without controlled conflict the plan for world government could not come about. So its done with the calculated and managed use of conflict. This for example explains why International bankers backed the Nazis, the Soviet Union, North Korea, North Vietnam, all against the United States. The "conflicts" built profits for the globalist plan while pushing the world closer to One World Government. War, more

specifically the globalist reasons for war, is the real definition of planned genocidal insanity. Wars were/are triggered deliberately to transfer wealth and achieve psychological transformation for the plan PERIOD. The real purpose of wars for the globalists are; removal of freedoms, their accumulation of wealth, political authority, destabilizing of the average person's means of survival, desperation of the entire population, and a centralization of control. All necessary if you have a plan for world domination.

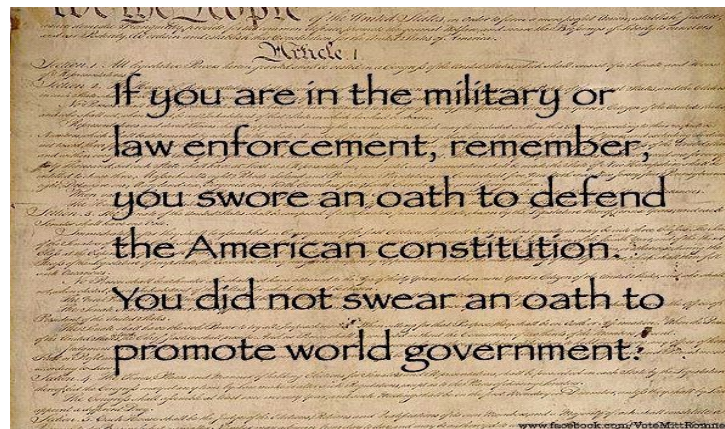

IMHO globalists must have relied for generations on how 1 out of say 1000 born are likely to be psychotic enough, if given the opportunity to embellish those traits, to want to operate on the principle that in order for them to be successful all others must die that cannot be controlled. These humans seek positions working for the globalist plan where they can control others and it seems the globalists have found them all for the plan. They are very hard to spot by their words but never their actions. The cast of characters running today's Obamanation is a one example that easy to see when looking. Perhaps the reason most of the other 999 born can't comprehend this evil is simply the sane do not "think" like the insane. It's hard to conceive a being whose sole intention is destruction, including its own if necessary to "get everyone else". My sister provided me with the ability to understand the insane, molded and shaped from Columbia University, then further in an elite world. The sane victimized by sociopaths or ruthless psychotics because the sane are unwilling to consider the unthinkable is the way it's been throughout history. Will this ever change? The psychotic, knowing this, has an even easier time playing on it hiding everything they do to the people or the globalist plan I lay out here as a "conspiracy".

While they promise peace and harmony, they destroy the freedoms of those they rule over. The promise is like the mouse in front of the cat; to make people follow and go where the globalists desire them to go. So everything we do, anytime, is manipulated by forces unseen, and that is a "belief" system the people cling too.....all by design. The dark vermin who are actually responsible for our world being the way it is will be hard to get your mind around, but you have made it this far I am confident you will. <http://tomwoods.com/podcast/ep-368-war-big-governments-best-friend/>

For civilian citizens and everyone else working for any of the multiple enforcement branches of the U.S. government who took an oath to defend the Constitution against all enemies foreign and domestic; understanding war on every level is absolutely essential. Its not fair and you did not choose this but if you work for any of the agencies promoting the globalist plan your standing on the wrong side of history. You have been put into a position where you are not only participating in the complete destruction of America, but helping bring in world slavery/control like no other time in the history of planet earth. I believe the majority of you chose the life in uniform because you love your country and what that uniform is supposed to stand for, to serve and protect the people. Your job depends on you following orders, not to mention you have families to support and bills to pay. Now to stand up to this corrupt treasonous government on one hand means you could lose everything, but to continue submitting to illegal unconstitutional orders will not protect you from the endgame that is coming. I think the majority would go against orders at this time to officially eliminate the Constitution. However having said that, if given orders that seem harmless, via the argument that it is training, eventually the line between right and wrong will become hard to see. And that is exactly how the globalists are preparing everyone.

You must understand your employed by a puppet government on behalf of a ruling class, they are both domestic enemies to America. A government who knows with enough stolen money from the public trough they have made the majority of Americans think and believe whatever they want! And the ruling class has always seen America as theirs for the taking,

and sees its people as nothing more than owned property. Our Federal Govt has positioned itself to end America, all done with its monopoly on the use of force by breaking its own laws. That corruption, not to mention scapegoating of external enemies on behalf of the ruling class is as old as government itself.

"If you want a picture of the future, imagine a boot stamping on a human face—forever" -George orwell.

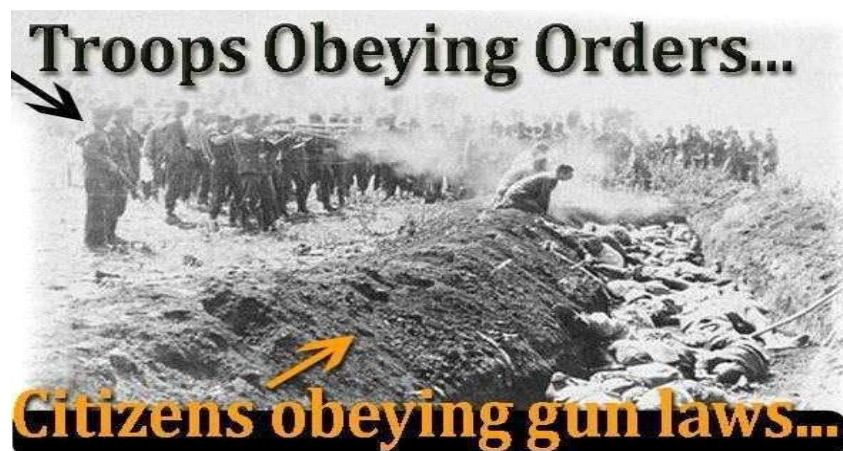

We are at the stage where if not stopped, my guess is soon it will become dangerous for anyone outspoken exposing how our govt is illegal/wrong, and it will strip away all rights to anyone the govt considers to be its enemy. It's been set up over many many decades by our own representatives that subverted the Constitution. This is a war of misinformation this govt has created, to construct its own reality, to suit its own (the plan) agenda. IMHO before 2020 be prepared for this govt to become the horrific domestic enemy it has set itself up to be! One that has written thousands of illegal laws it will interpret any way it sees fit to keep you detained without letting you see a lawyer or a judge. One that will lock you up and throw you in jail indefinitely just for speaking out against the govt. One so evil and corrupt it will not only steal all of the peoples wealth over generations, but after will classify the entire country a battlefield to destroy the country.

Where will you stand?

You grow up wanting to be Luke Skywalker, but became a Stormtrooper for the Empire.

<http://upriser.com/posts/you-grow-up-wanting-to-be-luke-skywalker-then-realize-you-ve-become-a-stormtrooper-for-the-empire>

"The government of the Western nations, whether monarchical or republican, had passed into the invisible hands of a plutocracy, international in power and grasp. It was, I venture to suggest, this semioccult power which....pushed the mass of the American people into the cauldron of World War I." British military historian MajorGeneral J.F.C. Fuller, 1941

History proves how regimes consolidate power into few hands and why they do it. And we in America are going down exactly like those in Germany and the former Soviet Union. When I compare Obama and both Bush's to Stalin or Hitler, I am most always called a crackpot. For the record I am proud to be called a crackpot for exposing how reality today is beyond Orwells 1984. I know what it must have been like trying to warn the average German citizen in 1932 about what was ahead regarding National-Socialism and nobody cared! The only entity this government is afraid of today is citizens that cannot be subdued by tyrants.

"The strongest reason for the people to keep and bear arms is, as a last resort, to protect themselves against the tyranny of government" - Thomas Jefferson

No discussion on reality or wars can be properly understood without understanding fiat money. What Edward Griffin calls "The Rothschild Formula" is the most blatant scam in history. Understanding this alone provides the people of the world with the REAL cause of wars. Not to mention boom-bust cycles, inflation, depression, genocide, poverty and prosperity. The pattern is proven in history; the world's central banks and today's Federal Reserve system are catalysts for war.

War against a foreign country only happens when the moneyed classes think they are going to profit from it."
George Orwell

People need to understand they (the globalist sociopaths) would not have been able to justify world government without wars and the threat of wars. And those wars require enemies with weapons. And without the ability to create fiat money, most all modern wars would NEVER HAVE OCCURRED in the first place, as the elite sociopaths would have never been able to implement the Rothschild Formula.

The Formula:

The pic above is from 1848 and depicts "Rothschild" pondering over which of Europe's rulers to favor with loans, while revolutionaries challenge the ancient order he is supporting. Rothschild understood clearly how history shows freedom and war are interdependent and how to expand on the way in which freedom was not a natural state of civilizations themselves. And by creating an illusion that anyone not in support of his war machine was unwilling to ensure its preservation are doomed to lose it, the Rothschild's perfected the inhumane genocidal art of amassing private fortunes out of cooperating with both sides in wars and dominated the political and financial world as a result.

Study the history on this family and its clear they have proven themselves to have NO concern for the condition of mankind. Its obvious what matters to a Rothschild; keeping as many as possible enslaved using wars as the main engine, why you ask? because its extremely profitable. All by creating endless wars by lending or creating the money to finance them, but they also use government favoritism in the granting of commercial subsidies or monopolies. Edward Griffin in his book *The Creature From Jekyll Island* calls it "The Rothschild Formula" and lists it in 5 steps.

"1. War is the ultimate discipline to any government. If it can successfully meet the challenge of war, it will survive. If it cannot, it will perish. All else is secondary. The sanctity of its laws, the prosperity of its citizens, and the solvency of its treasury will be quickly sacrificed by any government in its primal act of self-survival.

2. All that is necessary, therefore, to insure that a government will maintain or expand its debt is to involve it in war or the threat of war. The greater the threat and the more destructive the war, the greater the need for debt.

3. To involve a country in war or the threat of war, it will be necessary for it to have enemies with credible military might. If such enemies already exist, all the better. If they exist but lack military strength, it will be necessary to provide them the money to build their war machine. If an enemy does not exist at all, then it will be necessary to create one by financing the rise of a hostile regime.

4. The ultimate obstacle is a government which declines to finance its wars through debt. Although this seldom happens, when it does, it will be necessary to encourage internal political opposition, insurrection, or revolution to replace that government with one that is more compliant to our will. The assassination of heads of state could play an important role in this process.

5. No nation can be allowed to remain militarily stronger than its adversaries, for that could lead to peace and a reduction of debt. To accomplish this balance of power, it may be necessary to finance both sides of the conflict. Unless one of the combatants is hostile to our interests and, therefore, must be destroyed, neither side should be allowed a decisive victory or defeat. While we must always proclaim the virtues of peace, the unspoken objective is perpetual war.

Once Wars became easy to finance through central banking and fiat money they became virtually perpetual. For example, the following war chronicle begins immediately following the formation of the Bank of England

which was created for the specific purpose of financing a war:

1689-1697 The War of the League of Augsburg

1702-1713 The War of Spanish Succession

1739-1742 The War of Jenkin's Ear

1744—1748 The War of Austrian Succession

1754—1763 The French and Indian War

1793-1801 The War against Revolutionary France

1803-1815 The Napoleonic Wars

In addition to these European conflicts, there also were two wars with America: the War for Independence and the War of 1812. In the 126 years between 1689 and 1815, England was at war 63 of them. That is one out of every two years in combat. The others were spent preparing for combat. The mark of the Rothschild Formula is unmistakable in these conflicts. And the most permanent result of any of these wars was expanded government debt for all parties."

"As long as the mechanism of central banking exists, it will be to such men an irresistible temptation to convert debt into Perpetual war and war into perpetual debt" -Edward Griffin.

"The modern theory of the perpetuation of debt has drenched the earth with blood, and crushed its inhabitants under burdens ever accumulating." -Thomas Jefferson

Humanity lost between 40 and 58 million during WW2 and 15-31 million during World War 1. More human beings were killed in the 20th century than all previous centuries combined.

Today America's globalist controlled money machine supports over 700 foreign bases around the world, and a global network of mass surveillance, CIA & NGO destabilization missions, drone campaigns, and special forces deployments. It holds nearly every country in the "free world" in its thrall. It props up and arms brutal military dictators, royal despots, and occupying armies in the Middle East, which along with our wars promote terrorism. Since the end of World War II, it has enabled the US to launch 201 out of the 248 armed conflicts in the world and to bomb, sabotage, or attempt to overthrow governments in... Syria 2011-present, Ukraine 2014 and Yemen 2015 <http://www.globalresearch.ca/peace-is-the-enemy-of-the-us-military-industrial-complex/5379633>

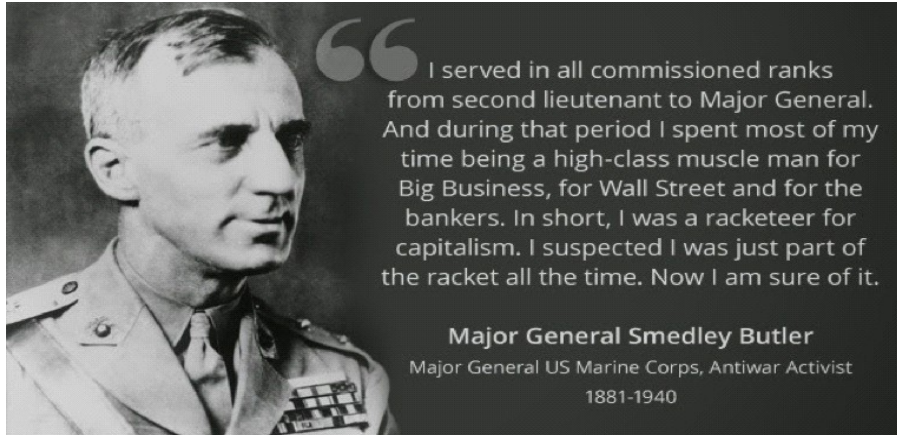

I was taught in America through high school and University the U.S. civil war was a result of social differences between the North and the South, the election of Lincoln, States versus federal rights, and the fight between slave and non-slave state proponents. The Rothschild formula was NEVER mentioned in this history, purposely left out to be more exact! History clearly shows the causes of the Civil War were economic and political, not freedom vs. slavery. BOTH sides used fiat money to finance the war. Lincoln exposed in his speeches that slavery was not the issue.

"My paramount object in this struggle is to save the Union, and is not either to save or to destroy slavery. If I could save the Union without freeing any slave I would do it, and if I could save it by freeing all the slaves I would do it; and if I could save it by freeing some and leaving others alone I would also do that. What I do about slavery, and the colored race, I do because I believe it helps to save the Union; and what I forbear, I forbear because I do not believe it would help to save the Union. I shall do less whenever I shall believe what I am doing hurts the cause, and I shall do more whenever I shall believe doing more will help the cause."- Abraham Lincoln (1809-1865) 16th US President Source: Letter to Horace Greeley, August 22, 1862.

The truth kept from us is America had become the target for world economics and politics. America's bloodiest and most devastating war was fought not over the issue of freedom versus slavery, but because of clashing economic interests. At the heart of this conflict were questions of legalized plunder and banking monopolies. The Rothschild formula is unmistakable across the graves of American soldiers on both sides in a War lasted from 1861 to 1865 and led to over 618,000 casualties.

"Military men are dumb, stupid animals to be used as pawns for foreign policy." - Henry A. Kissinger, quoted by Monika Jensen-Stevenson, Kiss the Boys Goodbye, Dutton, 1990, Page 97, citing The Final Days, Woodward and Bernstein (Simon & Schuster, 1976)

Another great example of the Rothschild formula is the The Bolshevik revolution; The Creature from Jekyll Island. Page 283:

"The Bolshevik revolution was not a spontaneous uprising of the masses. It was planned, financed, and orchestrated by outsiders. Some of the financing came from Germany which hoped that internal problems would force Russia out of the war against her. But most of the money and leadership came from financiers in England and the United States. It was a perfect example of the Rothschild formula in action.

This group centered mainly around a secret society created by Cecil Rhodes, one of the world's wealthiest men at the time. The purpose of that group was nothing less than world domination and the establishment of a modern feudalist society controlled by the world's central banks. Headquartered in England, the Rhodes inner-most directorate was called the Round Table. In other countries, there were established subordinate structures called Round-Table Groups. The Round-Table Group in the United States became known as the Council on Foreign Relations. The CFR, which was initially dominated by J.P. Morgan and later by the Rockefellers, is the most powerful group in America today. It is even more powerful than the federal government, because almost all of the key positions in government are held by it's members. In other words, it is the United States government.

Agents of these two groups cooperated closely in pre-Revolutionary Russia and particularly after the Tzar was overthrown. The American contingent in Russia disguised itself as a Red Cross mission allegedly doing humanitarian work. Cashing in on their close friendship with Trotsky and Lenin, they obtained profitable business concessions from the new government which returned their initial investment many times over. Max Warburg funded Lenin and his revolutionaries. Jacob Schiff gave a known \$20 million to Lenin. J.P. Morgan & Co. helped finance the Bolshevik revolution. Alfred de Rothschild also helped finance the Bolsheviks."

If you cant clearly understand how the Rothschild Formula leads up to our own doorstep today, please read the Creature From Jekyll Island.

Remember Saddam Hussein? he was one of the best enemies money can buy to global planners in the West, who did everything possible to keep him in power. And the think-tank for the the implementation of that strategy was none other than the Council on Foreign

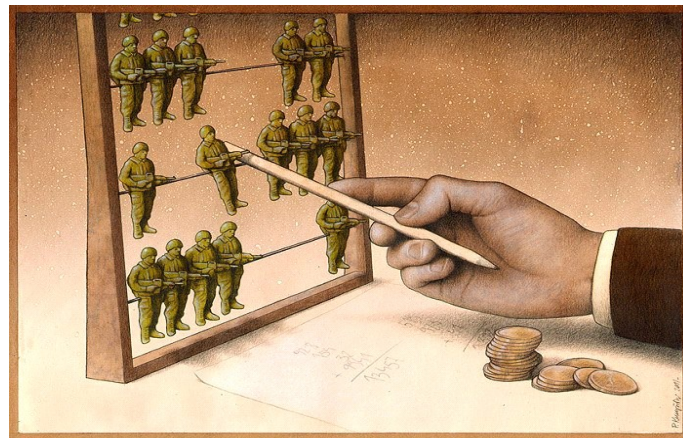

Relations. In 1996, Fareed Zakaria the Managing Editor of the CFR's monthly journal, Foreign Affairs offered the following rationalization:

"Yes, it's tempting to get rid of Saddam. But his bad behavior actually serves America's purposes in the region.... If Saddam Hussein did not exist, we would have to invent him.... The end of Saddam Hussein would be the end of the anti-Saddam coalition. Nothing destroys an alliance like the disappearance of the enemy. Maintaining a long-term American presence in the gulf would be difficult in the absence of a regional threat"

Ron Paul here traces our current foreign policy mess to 1990, when President Bush gave Saddam Hussein a green light to go into Kuwait...and then attacked him for doing so. A Green Light for the American Empire <http://tinyurl.com/pynleke>

Going back further, when David Rockefeller was asked about the propriety of providing funding for Communist countries which are openly hostile to the United States, specifically at that time was Angola where the Marxist dictatorship was forced upon the people with Cuban soldiers and Soviet weapons, he responded with what you would expect;

"I don't think an international bank such as ours ought to try to set itself as a judge about what kind of government a country wishes to have."

Look at World War II.

In WWII Hitler was initially set up by Wall Street and the City of London banksters with the intent to force Stalin to heel, to establish their "joint world rule." The outcome we have from WWII is the Soviet Union went from a regional power to a global power spreading communism over the globe. WWII cost millions of lives, billions of dollars, all for and by globalists with plans to rule the world. I am not talking about the puppets Hitler and Stalin. I am talking about the CFR, the Club of Rome, and the Committee of 300. After WWII, they just transformed the battleground. They expanded their "connections" with Hitler's intelligence networks from the War into the formation of our own CIA. That's the group President Eisenhower identified as the "Military Industrial Complex," in his farewell speech.

Also, financing and profiting from both sides in World War II was just blatant. From the beginning of Hitler's rise to power, German industry was financed by Prescott Bush, American and British bankers. I.G. Farben was the largest of the industrial cartels directly involved and was a primary source of political funding for Hitler. Farben staffed and directed Hitler's intelligence section and ran the Nazi slave labor camps as a supplemental source of manpower for Germany's factories. John D. Rockefeller's PR specialist, was used to improve Hitler's public image in America. Most of the capital for the expansion of I.G. Farben came from Wall Street, specifically Rockefeller's Bank.

The examples throughout history showing the Rothschild formula in play go on and on and on across endless graves right up to today.

"If totalitarianism wins this conflict, the world will be ruled by tyrants, and individuals will be slaves. If democracy wins, the nations of the earth will be united in a commonwealth of free peoples, and individuals, wherever found, will be the sovereign units of the new world order." The Declaration of the Federation of the World, produced by the Congress on World Federation, adopted by the Legislatures of North Carolina (1941), New Jersey (1942), Pennsylvania (1943)

Hillary Clinton in an interview on June 21, 2012, LAUGHS about going to war with Iran and AGREES with those who say the best thing that could happen would be for someone to attack the US, to *"just bring it on"*, that would create support for an all-out war. It doesn't get any clearer than that! Six Things You Didn't Know the U.S. and its Allies Did to Iran;

1. The founder of Reuters purchased Iran in 1872
 2. The BBC helped the CIA's 1953 overthrow of Iran's Prime Minister Mohammad Mosaddegh
 3. We had extensive plans to use nuclear weapons in Iran
 4. U.S. leaders have repeatedly threatened to outright destroy Iran
 5. We shot down a civilian Iranian airliner — killing 290 people, including 66 children
 6. We worry about Iranian nukes because they would deter our own military strikes

Obama & Hilary; two only 2 of thousands of domestic enemies doing all they can to destroy America. A well written article here explaining how the speech Obama made in Cairo on June 4, 2009 laid the foundation for his foreign policy in the Arab World. This has the same endgame as his domestic agenda, to set up global governance. In the Middle East his policy has been a doctrine of consent and apology that was a deliberate course of action to create orchestrated chaos across the Middle East, and it's working for the plan.

"The Obama doctrine of foreign policy is the globalist doctrine, except the Obama doctrine employs the effective use of the Muslim Brotherhood to advance the globalist agenda. This explains the seemingly schizophrenic policies in play by Obama and those signed on to his agenda on both sides of the political spectrum." The Rockefeller – Ford/Carnegie Foundation that controls the Rand Corporation suggests war with a major world power will revitalize the economy. No surprise as that would help the current banking elite not only maintain, but get more control of the world.

<http://www.darkgovernment.com/news/wwiii-encouraged-by-rand-corporation/>

"In fact, if we take a look at the combined total of DHS, DoD, and VA spending, we find that as of 2014 — a period of military “decline” according to the Heritage Foundation — that military spending was up 50 percent from 2004 to 2014. Now, the second chart is not adjusted for inflation, so if we go in and check the CPI numbers, we find that the rate of growth was twice that of the CPI. In other words, true defense spending, including all the relevant agencies, increased by twice the total inflation rate from 2004 to 2014.” -Ryan McMaken <http://mises.org/blog/reality-check-defense-spending>

In America in school I was taught World War II was the supreme example of a just and necessary war, when in reality its the exact opposite. It is my opinion this is why economists by design are not taught true history in any Ivy League University, because their main job, without knowing, (like doctors as drug dealers for big pharma or the military as stormtroopers for the globalists) is to help create a one world order global enslavement machine for the globalists. To stop the globalists from moving toward their goal would simply require the people to stop them from keeping UN-restored balance. Easier said than done since before America/monopoly capitalism was put in play, they were undermining everything all along. Its really the same trick being played out for thousands of years. So from a historical perspective; when creditors are dominating extensively people need to learn to see what it is that they are winning. People being robbed/controlled using DEBT controlled simple social obligations, controlled slavery, is the reason for the disappearance of honor societies, the possibility of (extended) wars, the rise & fall of empires, the emergence of the great world religions, the current financial crisis, and all global conflicts. All of it is controlled, funded, and created using Debt. I firmly believe that until food,

weather, drugs, technology, energy, governments, education, culture and morality are no longer defined/created/controlled through debt by the sociopath globalists "we the people" will NEVER stop history from repeating itself for their plans.

NATO member countries make direct and indirect financial contributions to the Organization. Common funding arrangements are used to finance NATO's principal budgets: the civil budget (NATO HQ running costs), the military budget (costs of the integrated Command Structure) and the NATO Security Investment Program (military capabilities). The funding process is overseen by the North Atlantic Council, managed by the Resource Policy and Planning Board, and implemented by the Budget Committee and the Investment Committee. Common funding covers collective requirements such as the NATO command structure, NATO-wide air defence, command and control systems or Alliance-wide communications systems, which are not the responsibility of any single member. In 2006, NATO member countries agreed to commit a minimum of 2% of their Gross Domestic Product. Since 9/11, the United States significantly increased its defense spending. The gap between defense spending in the United States compared to Canada and European members combined has therefore increased dramatically.

Today, the volume of the *United States defense expenditure effectively represents 73% of the defense spending of the NATO Alliance as a whole*. Even before the "significant increase in spending" the military infrastructure of NATO has *always* been a US military structure at its core, because it's for the globalist plan.

"The brutal fact is that Western Europe and increasingly also Central Europe, remains largely an American protectorate, with its allied states reminiscent of ancient vassals and tributaries." -Z. Brzezinski, former security adviser to Jimmy Carter.

The Club of Rome (COR) is a think tank for the globalist plan. It was set up on orders of the committee 300. It has nothing to do with Rome or the catholic church. The COR is simply the New World Order-One World Government project designed to facilitate the transition to universal global slavery known as the New Dark Age, under the control of a group called the Committee of 300. The COR consists of the decedents of the ancient families who owned/controlled and ran Genoa and Venice in the 12th century. They are called "Black Nobility" because of their use of dirty tricks, murder, terrorism, unethical

behavior, and worship of Satan. This is no less true today than it was during the 13th to the 18th Centuries.

The International Monetary Fund (IMF) is a One World international bank set up specifically to rob, strip, and denude every weak country of its natural resources for the plan. The IMF is one of the key factors in the committee 300's/ Club of Rome's ability to dominate so many nations. In America the representatives of the People support unconstitutional funding of the IMF which will eventually take over the credit and monetary policies of the United States enslaving the people in a One World Government. Our representatives could bring order and stability back to the United States with the stroke of a pen, by simply obeying the Constitution.

The above diagram is from the 1992 book, *Conspirators' Hierarchy: The Story of The Committee of 300*. On page 161 is the intent and purpose of the Committee of 300:

"A One World Government and one-unit monetary system, under permanent non-elected hereditary oligarchists who self-select from among their numbers in the form of a feudal system as it was in the Middle Ages. In this One World entity, population will be limited by restrictions on the number of children per family, diseases, wars, famines, until 1 billion people who are useful to the ruling class, in areas which will be strictly and clearly defined, remain as the total world population. There will be no middle class, only rulers and the

servants. All laws will be uniform under a legal system of world courts practicing the same unified code of laws, backed up by a One World Government police force and a One World unified military to enforce laws in all former countries where no national boundaries shall exist. The system will be on the basis of a welfare state; those who are obedient and subservient to the One World Government will be rewarded with the means to live; those who are rebellious will simple be starved to death or be declared outlaws, thus a target for anyone who wishes to kill them. Privately owned firearms or weapons of any kind will be prohibited."

President John F. Kennedy

JFK secret society speech, Waldorf-Astoria Hotel, New York City April 27, 1961

<https://www.youtube.com/watch?v=xhZk8ronces>

In the speech Kennedy asks the Press Publishers to support him over the shadow government to wake up the American people. If his proposition to the newspaper-men had been accepted the globalists would have been stopped as soon as the people knew the truth. When he sent out this message in 1961 the people had better odds to awaken to reality for the chance to reverse the course the shadow government elite have us on today.

The globalists have us in a much more advanced state of decay then when Kennedy was speaking. Reversing course will be painful but it is ultimately better than continuing down the insane genocidal globalist's path. History exposes how people can become smarter than the habits and institutions to which they are controlled/ brainwashed and accustomed. Today we can see many major religions were borne out of a revolution of thought against a wrongful established order, only to be hijacked to become a wrongful established order, and Americas Constitution was driven from the people for the globalist plan. The New World Order is advertised as new thinking taking place, but its simply the genocidal totalitarian establishment all over again, the old order called a new order.

Transcript of the JFK secret society speech

"The very word "secrecy" is repugnant in a free and open society; and we are as a people inherently and historically opposed to secret societies, to secret oaths and to secret proceedings. We decided long ago that the dangers of excessive and unwarranted concealment of pertinent facts far outweighed the dangers which are cited to justify it. Even today, there is little value in opposing the threat of a closed society by imitating its arbitrary restrictions. Even today, there is little value in insuring the survival of our nation if our traditions do not survive with it. And there is very grave danger that an announced need for increased security will be seized upon by those anxious to expand its meaning to the very limits of official censorship and concealment. That I do not intend to permit to the extent that it is in my control. And no official of my Administration, whether his rank is high or low, civilian or military, should interpret my words here tonight as an excuse to censor the news, to stifle dissent, to cover up our mistakes or to withhold from the press and the public the facts they deserve to know. But I do ask every publisher, every editor, and every newsman in the nation to reexamine his own standards, and to recognize the nature of our country's peril. In time of war, the government and the press have customarily joined in an effort based largely on self-discipline, to prevent unauthorized disclosures to the enemy. In time of "clear and present danger," the courts have held that even

the privileged rights of the First Amendment must yield to the public's need for national security. Today no war has been declared--and however fierce the struggle may be, it may never be declared in the traditional fashion. Our way of life is under attack. Those who make themselves our enemy are advancing around the globe. The survival of our friends is in danger. And yet no war has been declared, no borders have been crossed by marching troops, no missiles have been fired. If the press is awaiting a declaration of war before it imposes the self-discipline of combat conditions, then I can only say that no war ever posed a greater threat to our security. If you are awaiting a finding of "clear and present danger," then I can only say that the danger has never been more clear and its presence has never been more imminent. It requires a change in outlook, a change in tactics, a change in missions--by the government, by the people, by every businessman or labor leader, and by every newspaper. For we are opposed around the world by a monolithic and ruthless conspiracy that relies primarily on covert means for expanding its sphere of influence--on infiltration instead of invasion, on subversion instead of elections, on intimidation instead of free choice, on guerrillas by night instead of armies by day. It is a system which has conscripted vast human and material resources into the building of a tightly knit, highly efficient machine that combines military, diplomatic, intelligence, economic, scientific and political operations. Its preparations are concealed, not published. Its mistakes are buried, not headlined. Its dissenters are silenced, not praised. No expenditure is questioned, no rumor is printed, no secret is revealed. It conducts the Cold War, in short, with a war-time discipline no democracy would ever hope or wish to match. Nevertheless, every democracy recognizes the necessary restraints of national security--and the question remains whether those restraints need to be more strictly observed if we are to oppose this kind of attack as well as outright invasion. For the facts of the matter are that this nation's foes have openly boasted of acquiring through our newspapers information they would otherwise hire agents to acquire through theft, bribery or espionage; that details of this nation's covert preparations to counter the enemy's covert operations have been available to every newspaper reader, friend and foe alike; that the size, the strength, the location and the nature of our forces and weapons, and our plans and strategy for their use, have all been pinpointed in the press and other news media to a degree sufficient to satisfy any foreign power; and that, in at least in one case, the publication of details concerning a secret mechanism whereby satellites were followed required its alteration at the expense of considerable time and money. The newspapers which printed these stories were loyal, patriotic, responsible and well-meaning. Had we been engaged in open warfare, they undoubtedly would not have published such items. But in the absence of open warfare, they recognized only the tests of journalism and not the tests of national security. And my question tonight is whether additional tests should not now be adopted. The question is for you alone to answer. No public official should answer it for you. No governmental plan should impose its restraints against your will. But I would be failing in my duty to the nation, in considering all of the responsibilities that we now bear and all of the means at hand to meet those responsibilities, if I did not commend this problem to your attention, and urge its thoughtful consideration. On many earlier occasions, I have said--and your newspapers have constantly said--that these are times that appeal to every citizen's sense of sacrifice and self-discipline. They call out to every citizen to weigh his rights and comforts against his obligations to the common good. I cannot now believe that those citizens who serve in the newspaper business consider themselves exempt from that appeal. I have no intention of establishing a new Office of War Information to govern the flow of news. I am not suggesting any new forms of censorship or any new types of security classifications. I have no easy answer to the dilemma that I have posed, and would not seek to impose it if I had one. But I am asking the members of the newspaper profession and the industry in this country to reexamine their own responsibilities, to consider the degree and the nature of the present danger, and to heed the duty of self-restraint which that danger imposes upon us all. Every newspaper now asks itself, with respect to every story: "Is it news?" All I suggest is that you add the question: "Is it in the interest of the national security?" And I hope that every group in America--unions and businessmen and public officials at every level-- will ask the

same question of their endeavors, and subject their actions to the same exacting tests. And should the press of America consider and recommend the voluntary assumption of specific new steps or machinery, I can assure you that we will cooperate whole-heartedly with those recommendations. Perhaps there will be no recommendations. Perhaps there is no answer to the dilemma faced by a free and open society in a cold and secret war. In times of peace, any discussion of this subject, and any action that results, are both painful and without precedent. But this is a time of peace and peril which knows no precedent in history. It is the unprecedented nature of this challenge that also gives rise to your second obligation--an obligation which I share. And that is our obligation to inform and alert the American people--to make certain that they possess all the facts that they need, and understand them as well--the perils, the prospects, the purposes of our program and the choices that we face. No President should fear public scrutiny of his program. For from that scrutiny comes understanding; and from that understanding comes support or opposition. And both are necessary. I am not asking your newspapers to support the Administration, but I am asking your help in the tremendous task of informing and alerting the American people. For I have complete confidence in the response and dedication of our citizens whenever they are fully informed. I not only could not stifle controversy among your readers--I welcome it. This Administration intends to be candid about its errors; for as a wise man once said: "An error does not become a mistake until you refuse to correct it." We intend to accept full responsibility for our errors; and we expect you to point them out when we miss them. Without debate, without criticism, no Administration and no country can succeed--and no republic can survive. That is why the Athenian lawmaker Solon decreed it a crime for any citizen to shrink from controversy. And that is why our press was protected by the First Amendment-- the only business in America specifically protected by the Constitution-- not primarily to amuse and entertain, not to emphasize the trivial and the sentimental, not to simply "give the public what it wants"--but to inform, to arouse, to reflect, to state our dangers and our opportunities, to indicate our crises and our choices, to lead, mold, educate and sometimes even anger public opinion. This means greater coverage and analysis of international news--for it is no longer far away and foreign but close at hand and local. It means greater attention to improved understanding of the news as well as improved transmission. And it means, finally, that government at all levels, must meet its obligation to provide you with the fullest possible information outside the narrowest limits of national security--and we intend to do it. It was early in the Seventeenth Century that Francis Bacon remarked on three recent inventions already transforming the world: the compass, gunpowder and the printing press. Now the links between the nations first forged by the compass have made us all citizens of the world, the hopes and threats of one becoming the hopes and threats of us all. In that one world's efforts to live together, the evolution of gunpowder to its ultimate limit has warned mankind of the terrible consequences of failure. And so it is to the printing press--to the recorder of man's deeds, the keeper of his conscience, the courier of his news--that we look for strength and assistance, confident that with your help man will be what he was born to be: free and independent"

False Flags

"Why of course the people don't want war ... But after all it is the leaders of the country who determine the policy, and it is always a simple matter to drag the people along, whether it is a democracy, or a fascist dictatorship, or a parliament, or a communist dictatorship ... Voice or no voice, the people can always be brought to the bidding of the leaders. That is easy. All you have to do is to tell them they are being attacked, and denounce the pacifists for lack of patriotism and exposing the country to danger. It works the same in any country."— Hermann Goering, Nazi leader.

History of American False Flag Operations;

After the American war of Independence (1776-1779), and an English challenge to that independence (1812-1814) no single nation has planned an offensive war against the USA. At that time the British Empire was the strongest naval power, and the French the second strongest. The events led, however, into the Civil War (1860-1865) and due to the Russian intervention 1863 (1863) on the Union's side, those European plans were quietly abandoned.

Mexican wars 1819, 1846-48: Long series of operations, commencing with the annexation of Florida (1819) and followed by a declaration of independence of Texas from Mexico (1836). Provocative troop movements near the U.S. southern border caused an incident which led to war. (It is said the US built a fortification 150 km inside the Mexican border.) The annexation of Texas by the USA and the conquest of California, New Mexico, and nearby territories followed. Mexico had a weak government at that time, because after Napoleon conquered Spain (1809) their former colonies soon revolted. Mexico had been a colony of the Spanish kingdom but now they revolted and formed a republic. There were a series of revolts, not just one.

Spanish-American war, 1898: The surprise explosion of the battleship Maine at Havana, Cuba. 255 of the crew died. The Hearst press accused the Spanish, claiming that the explosion was caused by a remote-controlled mine. The USA declared war on Spain, and conquered Philippines, Guam and Cuba. Divers investigating the shipwreck found that the Armour plates of the ship were blown bending outwards, not inwards.

World War I, 1914-1918: A U-boat torpedo hit ocean liner Lusitania near Britain and some 1200 people, including 128 Americans, on board lost their lives. Subsequent investigations revealed that the major explosions were inside the Lusitania, as it was secretly transporting 6 million pounds of artillery shells and rifle ammunition, as well as other explosives on behalf of Morgan banking corporation. It was against US laws to transport war materials and passengers in the same ship.

World War 2, 1939-1945: A U-boat torpedo hit the ocean liner Athenia near Britain with some 1100 passengers, of which 311 were Americans. The sea was calm and only 118 people on board lost their lives. The ship was sunk because it behaved like a military transport, blackened out and zigzagging. This incident wasn't enough to precipitate war, and the Germans also refused to be provoked by several American acts of war. Americans confiscated German merchant ships, and Americans started to support the British with various lend-lease items, US volunteer pilots joined the RAF and some RAF pilots were trained in the US, US gave the British 50 old but usable WW1 destroyers and 20 modern

torpedo boats, tanks, light bombers, fighter aircraft like P-40s and so on. American destroyers also escorted the convoys bound to Britain, and attacked German U-boats even far away from those convoys. The US did not maintain a neutral stance attitude towards the warring nations.

Benjamin H. Freedman's speech from 1961 on how World War One and Two started and why the U.S. was eventually drawn in. <https://www.youtube.com/watch?v=HhFRGDyX48c>

The US naval intelligence, chief of Japan desk planned and suggested "8 insults", which should bring Japan into war with the US. President Roosevelt executed this plan immediately and also added some other insults, enraging the Japan. The most serious one was a total blockade of Japanese oil imports, as agreed between the Americans, British and the Dutch. FDR also declared an all-out embargo against the Japan and forbade them the use of Panama canal, impeding Japan's access to Venezuelan oil.

The Flying Tigers volunteer air group successfully fighting the Japanese in China with some 90 fairly modern P-40Bs was another effective provocation that is not generally acknowledged by historical accounts of World War 2, most of which fail to mention any air combat action prior to 7th December 1941. But at that time the Japanese had already had lost about 100 military aircraft, mostly bombers, to the Tigers. After Pearl Harbor these squadrons were some of the the hardest-hitting ones in the US service.

The attack on Pearl Harbor followed some 6 months later. Having broken the Japanese encryption codes, the Americans knew what was going to happen, when and where, but the president did not dispatch this information to Pearl Harbor. Americans even gave their friends the British 3 Magic decrypting machines which automatically opened encrypted Japanese military traffic. But this same information was not made available to the commanders of Hawaii. The movement of the fleet was also visible in the very effective radio direction finding network. Japan had an alliance with Germany, and the Germans upheld their promises by declaring the war against the USA right after the Japanese declaration.

Korean War, 1950-1953: South Korean incursions (the Tiger regiment etc.) into North Korea (1949) led to contrary claims and into war. The cause of this war probably was covert action involving leaders of Taiwan, South Korea and the US military-industrial complex (John Foster Dulles has been mentioned as an organizer of the hostilities.) After the unpublished hostilities in 1949, the communist powers were strongly backing North Korea.

Chiang Kai Sek was being abandoned, isolated and falling prey to the powerful communist Chinese operations. The right-wing South Korean ruler was expected to loose the soon-to-be-elections. The American military-industrial complex went into high gear again, and huge government orders for equipment were flowing in. The American-led UN forces had difficult times early in the war, but after sufficient forces arrived they advanced victoriously and penetrated deep into the North Korea. The strong Chino-Russian intervention into the war once again turned the tides, the Chinese with vast armies on ground, and the Soviets less visibly with large numbers of aircraft, nearly costing the UN forces the war. Finally the front stabilized along the original 38th parallel armistice line. The war resulted in the death of 3 million Korean Chinese and the destruction of virtually all of the Korean cities, and left Taiwan in strong American protection and South Korea firmly in the hands of the right-wing president Syngman Rhee. Some 55,000 Americans lost their lives.

Vietnam War: "The Tonkin incident", where American destroyer Maddox was supposedly attacked twice by three North Vietnamese torpedo boats in 1964 in the Gulf of Tonkin never happened. What was happening at the time were aggressive South Vietnamese raids against the North in the same general area. Huge American presence wasn't decisive and President Nixon negotiated a "peace with honor" in 1973. This war was lost, when North Vietnam finally conquered South Vietnam in 1975.

Grenada invasion: The Grenadian leader, Maurice Bishop, favoring the left and having invited Cubans to help build the infrastructure including by extending the airport to accommodate long range Soviet aircraft, was deposed and executed in October 19, 1983. Six days later the US invaded, with the proffered reason that the American medical students studying in the Grenada were in danger due the Cuban presence. The new leader was supported by the US.

War on Drugs was launched by Richard M Nixon around June 17,1971. The street prices of illicit drugs did not change significantly in the USA despite the military action in foreign drug-producing countries. Big Pharma took over the business. The war on drugs, outside of transferring all the money to big pharma, serves as a pretext for military invasions into less developed countries, where covert "bad" drug lords on behalf of western intelligence services are producing drugs. This operation produces huge incomes, generating black budget money for those intelligence services managing the global drug operations.

Panama invasion: The incident between American and Panamanian troops led to invasion. The leader Noriega was changed and the earlier Carter administration plan to hand control of the canal over to Panama was canceled. The strategic importance of the canal has

surpassed any more just thinking in the US global domination policy.

US-Israeli sponsored war between Iraq and Iran, 1980-1988: The US has built power bases in the Middle East in Iran starting with the CIA-organized coup 1953, where Iranian prime minister Mossadeq was replaced with the Shah of Iran Reza Pahlavi and he by his son Mohammad Reza Pahlavi. Iran was equipped with the best western military equipment, including the American F-14 fighters with Phoenix missiles and the British Chieftain MBTs. Unfortunately there was in 1979 a coup of ayatollah Khomeini replacing the Shah and founding an Islamite nation.

After this, the US warmed up relations with their good Iraqi friend Saddam Hussein, and started to build a nation capable of challenging the Iran. Iraq acquired large numbers of effective weapons including factories able to produce older versions of gas warfare agents. These would later be called WMDs, which of course they were not, being the WW1-vintage weapons. The war broke out and was fought to exhaustion because third-party powers, especially Israel, were carefully monitoring the power balance supplying more weapons to the side which seemed to be losing. "Too bad they both cannot lose" is how Kissinger evaluated this situation.

And likely that Iran war numbers would be three times those of Iraq, at least. Casualties from a strike on Bushehr Nuclear Plant: Hundreds of thousands.

Likely US troop deaths: 15,000

Likely US troops lightly injured: 270,000

Likely US troops more seriously wounded: 90,000

Direct cost of war: \$5.1 trillion

Cost of caring for wounded troops over lifetime: \$9 trillion to \$18 trillion

Likely Iranian deaths: 300,000 to 1 million

Likely Iranian injured: 900,000 to 3 million

Iranian displaced: 12 million (out of 75 million)

Opportunity cost to US: \$23 trillion of infrastructure, health care improvement

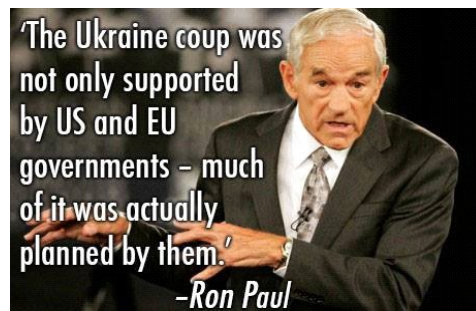

<http://www.juancole.com/2015/03/with-iran-numbers.html>

Desert Storm (First Gulf war), 1991: Hussein asked for permission from the US (via their ambassador April Gillespie) and got an answer that the US does not care Arab quarrels. That was a trap, and after Saddam occupied Kuwait, George Bush Sr. mobilized a coalition of some 40 nations to "liberate Kuwait" and to smash the recently-built Iraqi military power base. This also involved a media hoax, where the daughter of Kuwaiti US ambassador played nurse on TV and testified to "witnessing" Iraqi soldiers throwing babies out of incubators in Kuwait.

War on Terror: The war was launched by Bush administration October 2001. The war was claimed to be the response on terrorism, especially the 9-11 incidents. More and more of the people in the world today are thinking that these reasons are false and that those events were based on an inside job. <http://rt.com/op-edge/245217-us-war-terror-casualties-genocide/>

Enduring Freedom (Afghanistan invasion), 7.10.2001-: Without any evidence, the former CIA-asset, a Saudi-Arabian Osama bin Laden was claimed to be the mastermind behind the 9/11 strikes at the WTC and the Pentagon. Such a complex operation, if actually executed which it was not, in this case would be much beyond the capabilities of anything in Afghanistan. Only some top ten intelligence services in the world could hope to be successful in such an operation involving forgery, infiltration, living "underground" in a foreign non-Muslim country, coordination of moves, illegal arms, hi-quality flight training, accurate aircraft navigation in no-visibility conditions and so on. Perhaps even less, because the friends of the US (at that time, still most of the world) would also have been interested in stopping the attack.

Enduring Justice (Second Gulf war), 20.3.2003-: later known with less irony as Operation Iraqi Freedom The claimed reason of the attack was that Iraq was a clear and present danger to the US with wmd's available within less than an hour after the decision to assemble them has been made. Since no wmd's were found, and after the Iraqi also scrapped some 800 long range Scud style missiles before the US coalition attack, the reason for the invasion was changed into bringing the democracy into Iraq."

The Biggest Secret In History: False Flag Terror <http://www.washingtonsblog.com/2015/04/false-flags-2.html>

<https://theburningbloggerofbedlam.wordpress.com/2015/03/26/chess-board-terrorists-and-proxy-wars-the-isisil-narrative-continues-to-unravel/>

911

Its clear that 911, regardless if you think it was a false flag or not opened the floodgates for more totalitarian controls, war and terror in the world today. Its finally being questioned before the American Institute of Architects thanks to the Architects and Engineers for 911 Truth. <https://truthandshadows.wordpress.com/2015/03/26/aia-green-lights-building-7-vote/>

Black 911: Money, Motive, Technology, and Plausible Deniability

https://www.youtube.com/watch?feature=player_embedded&v=BsDtvu2uTuA

911 launched the perpetual “War on Terror” and our mainstream media propaganda machine labels anyone who questions the official narrative of 911 a wackjob unstable conspiracy theorist. Increasingly anyone exposing subversion/corruption in this government is considered treason by this government. Regardless if you believe the official story by our government, or if you believe or suspect 911 was a false flag event from thermite or advanced weaponry that brought down the towers as a controlled demolition, it’s obvious to a growing number of citizens what this government has used 911 for since.

9/11 truth opens up truth about other events for the past 150 years. WWI, WWII, rigged elections, assassinations, other false flags, chem-trails, GMO's, microwaves, nutrition, vaccine fraud, wasted money in taxes, fighting useless fights with family members, trying to keep up with the Joneses, wasting years in a school system to trick you. Once you realize the false flag historical pattern explained above, 911 fits neatly into it.

“A noble lie is a myth or untruth knowingly told by elite to maintain social harmony.” – Plato

Thanks to 911 this government has all the pieces in place for totalitarian control to deal with a groundswell of forthcoming civil unrest for which they are 100% responsible for creating. Trillions of dollars have been spent on anti-terrorism. The fake threat of terror the people are indoctrinated to embrace is for the technocratic elite globalists, who are responsible for ALL the most the horrific events, and through their chosen dictators in their puppet governments, they continue on schedule. Yes anyone who understands history KNOWS when it comes to unnatural death nobody kills like government, and if the U.S. puppet government is not stopped they WILL they continue to follow the historical pattern.

In the last 100 years governments have killed over 250 million unarmed civilians. And today they have the technology to kill civilians in covert ways their predecessors could not even imagine. Seems the only thing left for them to do in America is disarm the American people to take it to the next level.

168 people were killed from the 1995 bombing in Oklahoma City, 19 were children. For those watching the nightly news, terrorism came home. This movie discusses what's been ignored and censored, both by prominent media outlets and the U.S. government. The movie peels back what we thought we knew about the bombing and it's perpetrators exposing information never before examined or brought to the attention of the American public. The movie A Noble Lie is the culmination of years of research and documentation conducted by independent journalists, scholars, and ordinary citizens. Often risking their personal safety and sanity, they have gathered evidence which threatens to expose the startling reality of what exactly occurred. To help perpetuate the war on terror Obama uses the ideology and doctrines of radical Islam advancing here in America as a socio-political, socio-religious, socio-economical, educational, legislative, judicial, and militaristic system, hiding in religious terminology and hidden from many Americans by design. Under Obamas rule Radical Islam has shifted into overdrive from high gear and is now become proactive when it comes to exploiting our legal system to promote the terrorist agenda using “lawfare” to undermine/override our Constitution. <http://frontpagemag.com/2011/06/28/islamist-lawfare-on-steroids/>

Another step closer to world government as the globalists continue to get what they want and left vs. Right coming together to “protect” the American people. As a result of the 2015 Paris attacks the House of Representatives prepared a resolution for Obama to invoke Article 5 of the North Atlantic Treaty declaring the attacks were carried out by ISIS. The treaty obligation, therefore, is to wage war against an organization headquartered in Iraq. [The globalists are not calling for overthrowing the Iraqi government as they own it.] Under the pretense of fighting ISIS, they are using the Paris attack as an excuse to wage all-out war against the government of Syria instead. And ISIS also is attacking the government of Syria, and since ISIS was created by and continues to be supported by the CIA and attacked civilians in Paris, this is allowing Congress to demand to Obama full-scale war against the Syrian government, which had nothing to do with the terrorist attacks

<http://ronpaulinstitute.org/archives/congress-alert/2015/november/17/us-house-resolution-calls-for-nato-article-5-in-response-to-paris-killings/>

France responded to the Paris attacks by bombing more ISIS targets in Syria. As with previous attacks, the damage was relatively minor. This is nothing compared to the massive destruction brought upon the civilian population in Syria in the name of fighting ISIS.

Ret. Gen. Mike Flynn, former head of the (US) National Defense Intelligence Agency, NDI, which is the the umbrella intelligence organ of the US gov't of which the CIA is only a part of, went public with the Obama's intentional arming, or 'willful ambivalence' to arming ISIS

via the 'Moderate Syrian Rebels.' <https://theintercept.com/2015/07/16/retired-general-drones-create-terrorists-kill-iraq-war-helped-create-isis/>

We are nearing the end of 2015 and how long will Wall Street Banks want to keep crude from skyrocketing? If history is an indicator of how wall street is doing its part today for the globalist plan the production of oil from Syria will have no affect on oil contracts unless they wanted it to. Its logical to think at some point to bring in world government oil production must be drastically decreased to reduce supply to manipulate oil prices much higher. Why is it logical to think that? That's exactly what "sustainable development" has planned for "the people", to bring in world government where only the elite and their favored class will be able to afford to buy fuel and pay the carbon footprint under a one world government. <http://www.veteranstoday.com/2015/11/18/the-missing-piece-of-the-financial-puzzle/>

No surprise Muslim hatred propaganda is in the globalist plan. Have you noticed how Muslim's are still using the exact tactics to create an enemy they used 2400 years ago? Technology has changed the game and today mid-evil thinking Muslims assist the technocratic elite globalists in their plan for world domination . Muslims did not start WW-1 or WW-2, they cant start WW3. The globalists can for the same reasons they have the world enslaved through debt. The worlds debt is not owed to the Muslims. Muslims do not own the Military Industrial Complex, They do not own the largest corporations on the planet, the 4 main oil companies of the world. And they do not own Hollywood and the entertainment Industry. When you can print money at will, put any value on it you want, over centuries it makes it pretty easy to buy/do anything you want to the people of the world. That's why USA and Mossad are behind the creation of ISIS because both puppet Governments are controlled by the globalists.

"The statesmen will invent cheap lies, putting the blame upon the nation that is attacked, and every man will be glad of those conscience-soothing falsities, and will diligently study them, and refuse to examine any refutations of them; and thus he will by and by convince himself that the war is just, and will thank God for the better sleep he enjoys after this process of grotesque self-deception." – Mark Twain

Today the people's perspectives of everything are created through subversion and propaganda. So looking back "we the people" could say World War-1 never really ended because the war morphed into ever increasing propaganda and economic warfare for a plan to oneday control the world. So tragically, the American Dream meant the people were put to sleep while everything they died for and worked for went to the globalists for their plan. Fast forward to 2015 and the global elite control every conceivable form of technology and economic activity that's related to consumption. All because the people allowed them in secret to manufacture the financial instruments required to control the global economy that gradually allowed control of everything else. History and current events prove the global elite will never abandon the exploitation of people, they will have to be forced. Today in the form of the BRIC economies the globalist plan is creating a global economic union. We have allowed globalists to build our future built on financial strategies created by the global elite, who just like the State they control, are soulless and totalitarian, who always work toward eliminating freedom, human rights and the right to life, while nobody ever manages to hold them accountable for world wide destruction, theft and genocide. The perspective of continuous warfare that we in the West are locked into in the next stage of the globalist plan is going to (by design) get horrifically genocidal, all to make room for their "united world" under world government, for world slavery.

Part 2 begins with; Fiat/Paper Money and The Federal Reserve System.
