Idrotherapy FAQs

1. What if You Have Ever Undergone Idrotherapy?

It would be safe to apply the cream to freshly cleansed skin and other areas before going to bed.

1. Essential Attributes

The skin cream for the face is made up of peptides. These peptides may be used to improve the skin's appearance from the outside.

A few websites refer to the auto-ship feature of the company once the trial period ends. In the unlikely event that one was successful in obtaining it, this is something to consider.

1. What might it taste and smell like?

Unfortunately, we don't have any information on the aroma of Idrotherapy. However, a few reviews state that the product has a light-weight fragrance.

1. Is it safe to use?

People with normal facial skin can use Idrotherapy every day. It is best to consult your dermatologist before using the device if you have sensitive skin.

1. When will I feel or see any improvement?

Contra-maturing remedies should generally be used for several weeks to see any benefit. This is true even for Idrotherapy.
