

7 Minecraft Kitchen Ideas to Enhance Your Builds - IGN

Despite food being a big role in Minecraft there aren't many people who take the time to design a fully furnished kitchen for their homes. Whilst they don't serve any real reason, they do allow for a higher level of RP. It can also allow you to designate specific areas of your home to specific tasks. Do you want to host guests and have them sit at an extended table, like in the show? Do you want a simple, but stylish kitchen?

When you are planning a kitchen design, your choices will be based on what matters most to you, such as lighting, aesthetic, size and location. From medieval tables to an old-fashioned Minecraft theme to outdoor buffets to fulfill a tropical vibe, this list showcases a great mix of choices. If you're a beginner in Minecraft or are looking to get more involved by tackling a new challenge, there's a kitchen ready to be built in your Minecraft world.

We have 7 top Minecraft kitchen ideas that will inspire you, from a small corner kitchen to a themed sci-fi-themed kitchen.

1. Cabin Corner

Simple designs can be beneficial depending on the type of home you've constructed. Sometimes the less is more. You can create an inviting corner kitchen in your home by using mostly wood materials, Flower Pots with plants and mushrooms as well as mood lighting with lanterns and a campfire or Netherrack fire for cooking area.

Corner Kitchen in Minecraft

2. Modern

A modern design in Minecraft can be a good option for those who want elegance and simplicity. Stick to one color scheme and then add modern appliances and amenities like a microwave and fridge-freezer. Then, add a breakfast bar/center island, and you're done. It's a simple kitchen style to continue your modern-day home decor available.

Minecraft Modern Kitchen

3. Restaurant

It is especially useful for players who are on a multiplayer server and would like to engage in

some RP. The process of creating an establishment and cooking meals with your friends, in exchange for material or goods can be incredibly simple and incredibly immersive.

Minecraft Kitchen Restaurant

Create a seating space, a space for people to place their orders, and then set up some serious cooking machinery behind the scenes to handle different food preparations simultaneously. You can use a campfire to grill, and you can also construct an ice-room to store your meat prior to cooking.

4. Banqueting Hall

If you're seeking something simple and elegant, it's easy to transform your kitchen into an elegant banquet. A long table should be adorned with plenty of food, flowers pots, and a fireplace to roast the fruits of your hunting and explorations.

Minecraft Banquet Hall Kitchen

The default style of Minecraft is rustic and medieval. The design doesn't need any old-fashioned materials which makes it a great option for a display that doesn't consume too much of your time.

5. Cantina

A must-have for sci-fi enthusiasts Why not build a room for all kinds of aliens. Sci-fi allows you to use any material and make it work. You can also double up on cooking appliances by using a furnace/blast furnace as service droids.

Minecraft Cantina

You can also incorporate other ideas to your build for example, an aquarium-like mini or fish-tank which you can use to store exotic fish to admire (or to eat). If you're looking to go all down, you can grab a sci-fi texture pack/skins on the internet or from the Minecraft Marketplace.

6. Boat Buffet

Kitchens in the indoors can be suffocating and overcrowded and crowded, so why not take the cooking outside? You could even move it to the water for a tropical-themed buffet. To make your cookout more fun take a boat and fishing rods. You can also add a Jukebox or Lanterns to the mix. There are many ways to customize this idea for waterfront dining, with stunning views to boot.

Minecraft Outdoor Kitchen

7. Hell's Kitchen

If you're looking for a dark and mysterious kitchen in a different dimension, let loose your inner Gordon Ramsay and build your kitchen in the most gruesome spot in Minecraft: The Nether.

Minecraft Kitchen in The Nether

It should be constructed at the edge of the lake. Furnaces will be forfeited to light Netherrack or glowing Campfires. You can even set up a Hoglin farm in the vicinity to gather piles of Porkchop while you're playing. Make use of some Obsidian to reinforce the walls from Ghast's fireballs (or your own cooking disasters), and build tables. Just don't expect too many regular customers.

Summary

With these seven kitchen ideas based on themes and different objectives you might have, we hope you discovered something you're interested in playing with. Whatever design you choose, remember that the kitchen is the center of your home.
