

## 6A

- Retinal disparity
- Proximal/Distal Stimuli
- Absolute threshold
- JND
- Webbers Law
- Signal Detection theory
- Type 1 / 2 error
- Adaptation
- Duplicity theory of vision
- Parallel processing
- Photo-Transduction cascade
- Place theory
- Otolithic organs
- Medial / lateral geniculate nucleus
- A-B , A-D, C fibres
- Gate theory of pain
- Gestalt principles
- Pragnanz
- Law of past experiences
- Law of subjective contours
- Phi Phenomenon
- Top down processing
- Bottom up processing
- Perceptual organization
- tonic receptors
- Phasic receptors
- Stereopsis
- Linear perspective
- Labeled line theory
- Vibrational theory of olfaction
- Magnocellular pathway
- Parvocellular pathway
- Optic Chiasm

## 6B

- Alpha, Beta, Theta and delta waves
- REM and NREM
- REM Rebound
- Sleep spindles + K complexes
- Activation Synthesis Theory
- Dissociation Theory
- Social influence theory
- Problem solving dream theory
- Cognitive process dream theory
- Dyssomnia
- Parasomnia
- Depressants
- Mesolimbic reward pathway
- Nucleus Accumbens
- Ventral Legmental area
- Divided/Selective attention
- Inattention/ Change blindness
- Dichotic listening
- Theories of selective attention
- Broadbent early selection theory
- Deutch and Deutch theory
- Treismans theory
- Dual Coding hypothesis
- Iconic / echoic memory
- Implicit memory
- Explicit memory
- Semantic memory
- Episodic memory
- Flashbulb memories
- Autobiographical memory
- Retrieval Cues

- Encoding strategies
- Priming
- Serial positioning effect
- Source monitoring error
- Proactive/retroactive interference
- Fluid/crystallized intelligence
- Informational processing theory
- Central executive
- Episodic Buffer
- Eidetic memory
- Adaptation / Assimilation
- Accommodation
- Categorical Perception
- Schema
- Scripts
- Inductive/Deductive reasoning
- Availability / Representative Heuristic
- Base rate fallacy
- Conjunction fallacy
- Confirmation bias
- Belief perseverance
- Semantic network
- Intelligence theories
- Spearman's gen intelligence theory-
- Gardners intelligence theory
- Thurnstone intelligence theory
- Sternberg Multiple I theory
- Galton intelligence theory
- Language Theories
- Universalism language theory
- Nativist Theory
- Learning theory
- Interactionist approach
- Whorfian Hypothesis/ AKA Linguistic Relativity hypothesis
- Broca's Area / aphasia
- Wernicke's Area / aphasia
- Arcuate Fasciculus
- Conduction aphasia
- Naming Explosion
- Bootstrapping
- Overextension

## 6C

- Arousal theory
- Yerkes-Dodson law
- Maslow's Hierarchy of needs
- Emotion Theories
- James Lange theory
- Cannon Bard theory
- Schachter-Singer theory
- Lazzarus theory
- Stress appraisal (primary / secondary)
- catastrophe / ambient / personal stressor
- General adaption syndrome

## 7A

- corticobulbar / corticospinal tract
- Dopamine release centers
- Brain structures
- Basal Ganglia
- Glutamate / GABA / Glycine / ACh
- MA : Serotonin / Dopamine / Norepi
- NMDA receptors
- Monoamine hypothesis
- Motivation theories:

- Self determination theory
- Incentive theory
- Expectancy-value theory
- Opponent process theory
- Drive reduction theory
- Optimal arousal theory
- Theory of planned behavior
- Attitude to behavior process model
- Prototype willingness model
- Elaboration likelihood model
- Cognitive Dissonance theory
- Extrinsic motivation
- External motivation
- Theories of Personality
- Psychoanalytic / dynamic theory
- Humanistic theory
- Biological theory
- Behaviorist Theory
- Social Cognitive theory
- Trait theory
- Cardinal / Central / secondary traits
- Eysenck's traits ( PEN )
- Reciprocal determinism
- Incongruence
- Projection
- Reaction formation
- Regression
- Sublimation
- Displacement
- Stages of grief
- Disorders

## 7B

- Normative/Informative influence
- Group Polarization
- Conformation Bias
- Group Think
- Asch Conformity Studies
- Milgram obedience studies
- Conformity
- Compliance
- Identification
- Internalization
- Obedience
- Just world phenomenon
- Fundamental attribution error
- Self Serving Bias
- Actor Observer
- Correspondent inference theory
- Zimbardo prison study
- Demand Characteristics
- Bystander effect
- Deindividuation
- Social facilitation
- Social loafing
- Socialization
- Folkways / Mores / taboos
- Sanctions
- Theory of differential association
- Labeling theory
- Anomie
- Strain theory
- Deviance + (primary/secondary)
- Collective vs group behavior
- Hawthorne effect
- Social impairment

## 7C

- Classical Conditioning
- Generalization
- Discrimination
- Discriminating stimuli
- Extinction
- Spontaneous recovery
- Aversive conditioning
- Escape / Avoidance conditioning
- Acquisition
- Systemic desensitization
- Counter conditioning
- Shaping
- Non-associative learning
- Operant conditioning
- Habituation
- Sensitization
- Elaboration likelihood model
- Characteristics of persuasion
- Target / source / message characteristics
- Primary / secondary reinforcers
- Token economy
- Instinctual Drift
- Learning - Performance Distinction
- Reciprocal Determinism
- Locus of Control
- Ego Depletion
- Learned helplessness

## 8A

- [Developmental Theories](#)
- Piaget's Cognitive development
- Circular Reactions
- Freud's Psychosexual theory
- Erikson's Psychosocial theory
- Vygotsky's Sociocultural develop.
- Kohlberg's Moral development
- Death instinct
- Parallel Play
- Socialization
- Reference Groups
- Social behaviorism
- Symbolic Interaction
- I and Me
- Prep/play/game stages
- Looking glass self
- Self image / self-concept / Self esteem
- Ideal self
- Existential self / Categorical Self
- Carl Rogers self concept
- Social identity theory
- Self efficacy
- Self verification

## 8B

- Attribution Theory
- Optimism bias
- Fundamental attribution theory
- Covariation model
- Actor Observer model
- Self serving bias
- Functional Fixedness
- Stereotyping
- Stereotype threat
- Self fulfilling prophecy
- Prejudice

- Authoritarian personally
- Discrimination
- Frustration Aggression hypothesis
- Hypothesis of relative deprivation
- Stigma
- Social stigma
- Self stigma
- Primacy/recency bias
- Halo effect / reverse halo effect
- Physical attractiveness stereotype
- Just world hypothesis
- Ethnocentric
- Xenocentric
- Cultural Relativism
- In group vs out group favoritism
- Out group derogation
- Group Polarization
- Aggregate
- Triad / Dyad

## 8C

- Status
- Ascribed Status
- Achieved Status
- Master Status
- Role Strain / Conflict / Exit
- Primary Group
- Secondary Group
- Reference Group
- Group Identification
- Dramaturgy
- Front Stage
- Impression Management
- Display rules
- Back Stage
- Organizations
- Utilitarian organizations
- Normative organizations
- Coercive organizations
- Bureaucracy
- Characteristics of ideal bureaucracy
- Iron Rule of Oligarchy
- McDonalldization
- Mere Exposure Effect
- Geographical Proximity
- Perceived Similarity
- Similarity Bias
- Projection Bias
- False consensus
- Harlow Monkey Experiments
- Mary Ainsworth's strange situation
- Authoritarian parenting style
- Permissive parenting style
- Authoritative parenting style
- Kin Selection
- Reciprocal Altruism
- Cost Signaling
- Empathy Altruism Hypothesis
- Early development trajectory
- Emotional / Esteem / tangible / informational / companionship Support
- Foraging
- Random Mating
- Assortative Mating
- Disassortative Mating
- Evolutionary Game theory

## 9A

- [Sociological Theories](#)
- Functionalism
- Conflict theory
- Social Constructionism
- Symbolic Constructionism
- Feminist theory
- Rational Choice theory
- Exchange theory
- Social Facts
- Dynamic equilibrium
- Manifest / latent functions
- Social Disfunction
- Thesis / Antithesis
- Synthesis
- Class Consciousness
- Conservative view of social institutions
- Progressive view of social institutions
- Hidden Curriculum
- Teacher expectancy
- Ecclesia
- Sect / Cult
- Secularization
- Fundamentalism
- Medicalization
- Sick Role / Illness experience
- Normative culture
- Sub culture
- Counter culture
- Microculture
- Amalgamation

## 9B

- [Aging Theories](#)
- Dependency ration
- Life course theory
- Age stratification theory
- Activity theory
- Disengagement theory
- continuity theory
- Racialiation
- Racial formation theory
- Pluralism
- Gender schema theory
- Gender script
- Urbanization
- Malthusian Theorem
- Fecundity
- [Globalization Theories](#)
- World Systems theory
- Modernization theory
- Dependency theory
- Hyperglobalist perspective
- Skeptical perspective
- Transformist perspective
- [Social Movement Theories](#)
- Mass society theory
- Relative deprivation theory
- Resource mobilization theory
- Regressive / reactionary movements
- Activist movements
- Incipient Stage

## 10A

- Gender pay gap
- Glass ceiling effect
- Horizontal mobility
- Vertical mobility
- Intergenerational mobility
- Intragenerational mobility
- Caste system
- Class system
- Meritocracy
- Absolute poverty
- Relative poverty
- Social reproduction
- Financial capital
- Social capital
- Cultural capital
- Poverty magnet segregation
- Environmental burden
- Residential segregation
- Linguistic isolation
- Intersectionality
- SES
- Class Consciousness
- False Consciousness

## People

- Pavlov
- BF Skinner
- Albert Bandura
- Piaget
- Leo Vygotsky
- Howard Gardner
- Noah Chomsky
- Freud
- Kohlberg
- Erik Erikson
- Carl Jung
- Alfred Adler
- Karen Horney
- Abraham Maslow
- Carl Rogers
- Eysenck
- Gordon Allport
- Raymond Cattle
- Maslow

## Brain Structures

- Nucleus Accumbens
- Inferior Colliculi
- Superior Colliculi
- Accurate Fasciculus
- Ventral Tegmental Area
- Basal Ganglia
- Medulla Oblongata
- Reticular formation
- Pons
- Septal Nuclei

## Experiments

## Disorders

- Schizophrenia
- Depression
- Anxiety Disorders
- Dependent personality disorder
- Conversion disorder
- Somatic symptom disorder
- Maladaptiveness
- Alzheimers
- Parkinsons
- Bipolar 1 / 2
- Cyclothymic disorder

## Biases

- Demand characteristics
- Response bias
- Social desirability bias
- Hawthorne effect
- Impression Management
- Observer bias
- Sampling bias

## Statistics

- Operationalize
- Cohort
- Longitudinal study
- Experimental study
- Cross-sectional study
- Case-control study
- Reliability / precise
- Validity / accuracy
- Internal / External Validity
- Construct validity

## Random

- Brain imaging
- Behavioral therapy
- Thomas Theorem
- Incidence
- Prevalence
- Atypical antipsychotics
