

# Anything you need to know about truth (Divine Revelation)

By Brother in Christ Stanley Green

## Answering Six Interrogatories (Who, What, When, Where, Why, and How)

Who is the deity that created truth? What are the severe ramifications of attempting to distort truth? When will we be judged by truth? Where does truth come from? Why is truth so urgent to God? How does God know when we're not telling the truth? This is the only written material to teach you anything you need to know about truth. It's truly a divine revelation from God.

Spread the good news! I have created an online link to share my message across the globe. Text and/or email copies of my link so recipients may place on his or her Facebook, Twitter, Instagram and/or LinkedIn page account etc.: (<https://docdro.id/PeadbX>). Tell all your friends, associates, acquaintances and/or family members on social media to visit my message center. Realize that each living human being needs to come to grips with the reality of what truth is and its urgency to God!

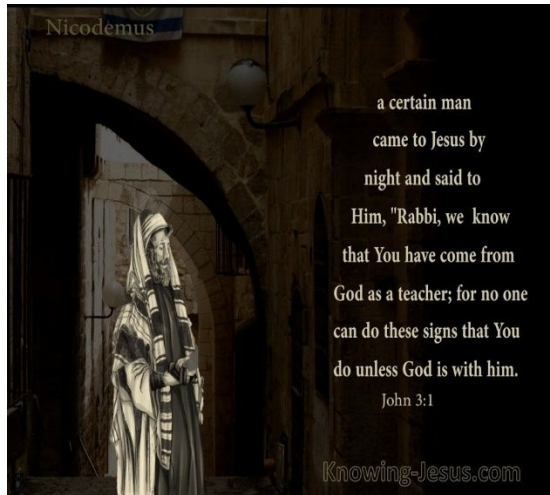

## Representing your constituency

Are you an elected or appointed public official representing your constituency? If so, then you certainly may need a lucid discernment of what truth is. The reason is that you have placed your hand on our Holy Bible swearing a sacred oath to Jehovah God to uphold and defend our United States Constitution. If any were to violate his or her sacred oath for any reason, then God will hold him and/or her accountable. Let's say that he or she chose to breach his or her oath based on the justification of COVID-19. The latter is an abomination to God. Actually, the truth is our word is our bond. When we pledge an oath to the Lord, then we are binding our soul. *Num30:2 – If a man vow a vow unto the LORD, or swear an oath to bind his soul with a bond, he shall not break his word, he shall do according to all that proceedeth out of his mouth.*

# Rabbi we know thou art a teacher come from God

## Anointed Teacher

Jhn3:1 – There was a man of the Pharisees, named Nicodemus, a ruler of the Jews. Jhn3:2 – The same came to Jesus by night, and said unto him, Rabbi, we know that thou art a teacher come from God: for no man can do these miracles that thou doest, except God be with him.

Jesus is God's anointed teacher. Nicodemus greeted him with the salutation of 'Rabbi'. In Jewish custom it is high honor to wear such title. In biblical days a teacher was equivalent to a doctor. Nicodemus went further to acknowledge Jesus as a teacher sent by God. His justification was that no living human being could possibly do the miracles they had witnessed him perform.

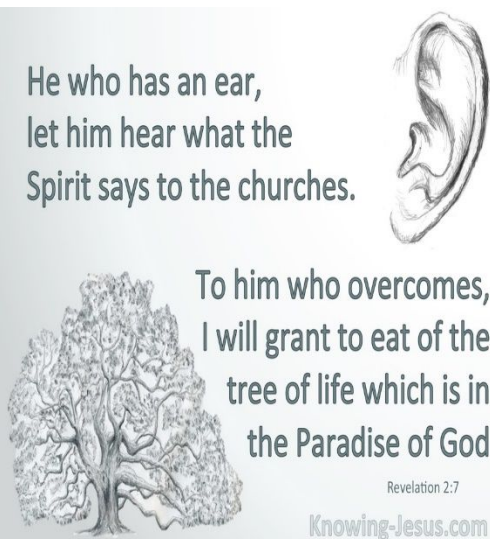

Later Jesus is attempting to teach Nicodemus to apprehend spiritual phenomena. Jhn3:3 – Jesus answered and said unto him, Verily I say unto thee, Except a man be born again, he cannot see the kingdom of God. Yet, Nicodemus remained dumbfounded beyond his wildest imagination.

## He that hath an ear to hear

Rev2:7 – He that hath an ear, let him hear what the Spirit saith unto the churches; To him that overcometh will I give to eat of the tree of life, which is in the midst of the paradise of God. The term hear isn't referring to the carnal sense of the word as to physically hear what God is saying. Instead, God is speaking in the spiritual sense as to who is capable of apprehending and/or comprehending.

What is it that God expects for us to hear? He expects for us to hear the truth. Yet, the problem is we can't hear truth unless we know what truth is. Ultimately, we need an anointed teacher sent by God, who is gifted enough to open our eyes. I believe that I may be that person whom God has anointed.

Truth is highly paradoxical. This means it is subjective based upon varying opinions. Myriad political persuasions are often times cockamamie. What's true today may not be true tomorrow. Your guess is good as mines. The paradoxical nature of truth makes it literally impossible to nail down any single version. Yet, there may be a scientific methodology that may factually eliminate our guesswork. The proof of the pudding is in the tasting. I hope to satisfy both your spiritual and intellectual curiosity.

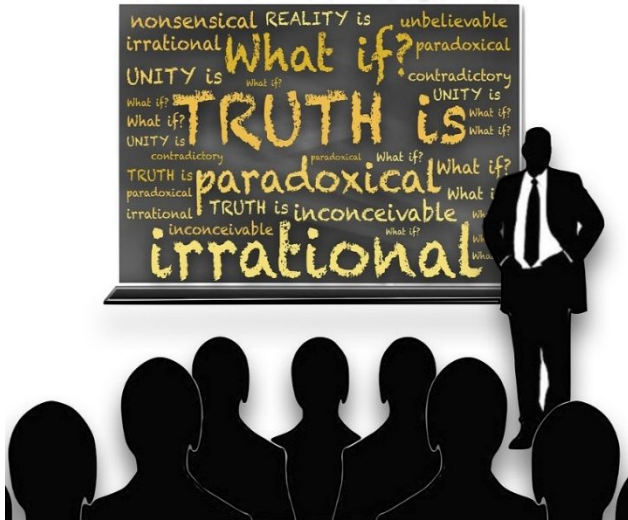

# What is truth?

## Let's answer this paradox once and for all

My approach to answering the paradox of 'what is truth?' is purely scientific and may be proven by digital technology. I commence with the atom to develop my reasoning. What's so interesting is that my conclusion aligns perfectly with the word of God. As a matter of fact, you may become so amazed by my teaching, your eyes will suddenly awaken as an epiphany of wisdom, knowledge and/or understanding of our Almighty Jehovah God!

Even if you were agnostic or atheist I think that you may agree with my core presentation and have a change of heart to accept Jesus Christ as our Lord and Savior. Trust me I am not attempting to shove religion down anyone's throat. Frankly, I don't believe in religion. Make no mistake that I do profess my spirituality. Religion and spirituality are diametrical terms that oppose one another. Any person that professes religion can't be spiritual. Vice versus, any person who professes spirituality can't be religious. This is virtually the same conversation that Jesus was having with Nicodemus, who perceived himself a Pharisee.

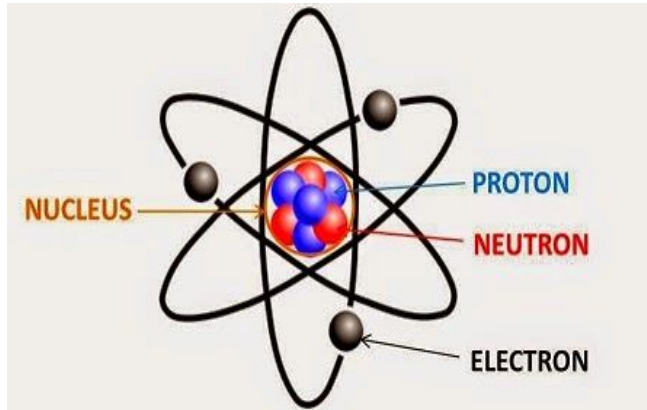

## Digital technology based upon diametric numbers

Digital technology is based upon diametric numbers zero (0) and one (1). Of course you may be familiar with the term binary numbers. Yet, binary is a misnomer. The prefix 'bi' simply means two as in: binoculars, bicentennial, bilateral, bigamy etc. The prefix 'dia' means across from for example: dialogue, diagonal, diameter etc. Diametric means two opposing things. Zero and one are two numbers that oppose one another. The concept is zero is an even number, thus it is positive or true. Conversely, one is an odd number, thus it is negative or false. Digital devices are totally electronic and utilize even/odd parity for determining whether things are true or false. Let's say our digital device requires a user id and/or password. The device will pair the stored security data with the input data to determine if they match. If they do pair the device will output a zero (0) indicating they are even. If they do not pair the device will output a one (1) indicating they don't match. True or false operates in the exact same manner as above. In short, according to digital technology true is default to zero (0). Whereas, false is default to one (1).

# Learning about Atoms

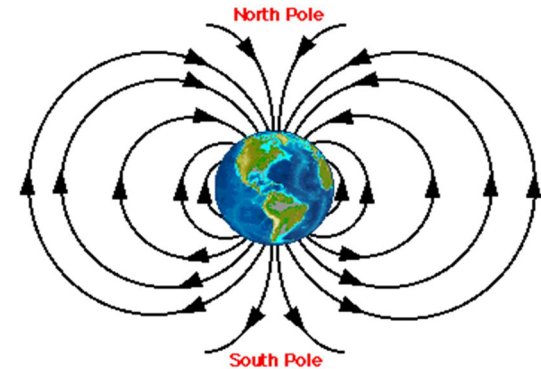

[This Photo](#) by Unknown Author is licensed under [CC BY-NC-](#)

## Magnetic charges of Protons vs. Electrons

The original state of atom is zero magnetic charge. Protons have positive magnetic charges. Electrons have negative magnetic charges. The neutron's magnetic charge is neutral. Anytime the number of protons equals the number of electrons their charges cancel out. The term ion is applied to magnetic charges that show an imbalance. The nucleus is the center core. Protons and/or neutrons are encased within the interior shell of the nucleus and are static (i.e. stable). Electrons orbit the exterior shell and are dynamic (unstable). The outermost orbital shells are termed as valances. Atoms are designed specifically for sharing electrons (i.e. bonding). The latter structure of the atom enables all atoms to correctly configure highly sophisticated mathematical equations (algorithms). Physicists may construe these algorithms as bonding of ionic molecules. The mathematical end result is the creation of physical matter (solid, liquid or gas).

## Rotation of the Earth

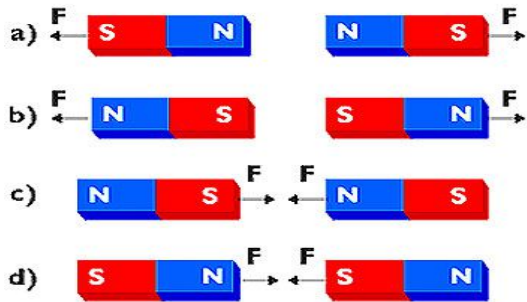

Earth's magnetic core generates a ubiquitous magnetic force field emanating across the globe upwards to the North Pole and downwards to the South Pole. The latter magnetic force field produces sufficient energy to propel Earth's rotation upon its axis. The magnetic energy source never needs recharging and/or refueling. Calibration for magnetic north and/or south is slightly different by degrees from true mathematical north and/or south. Bear in mind Earth's magnetic force field is microscopic and/or invisible to our naked eye. So, we must realize that although we can't see protons and/or electrons in action they are protecting our world from disintegration. The Earth has made millions of revolutions around the sun and is liable for our seasonal variations. We can't overlook the acute contribution magnetic charges play to maintain operation of our universe.

# Apprehending Positive vs. Negative Polarity

## Opposite poles attract similar poles repel

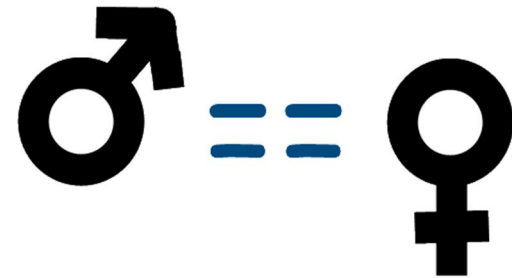

Properties of Magnets

This Photo by Unknown Author is licensed under

Opposite poles attract whereas similar poles repel. North and south poles are mutually attracted. Respectively, the north pole is repelled by another north pole and a south pole is repelled by another south pole. Consider everything within our universe has been created directly from magnetic force fields. This means all things are either an attraction or repulsion. There are persons and/or things that we're attracted to. Conversely, there are persons and/or things that we're repelled by. The same holds true for protons and electrons. Positive charges are attracted to negative charges. Whereas, positive and/or negative charges are repelled by charges with the exact same polarity. So, the question arises as to why opposite poles are attracted, on the other hand similar poles are repelled? The reason is if the situations were reversed, equilibrium would be nonexistent and our entire universe would collapse. Life as we know it would cease and desist.

## Equality of Masculine and Feminine Gender

Are you aware masculine and/or feminine gender are in everything that God has created? The latter may include both animate and/or inanimate things. Many languages French, Spanish, Portuguese and Italian apply gender to all nouns. English language is among the few exceptions that don't practice the latter custom. Gender is merely a production of diametric. Male is opposite female. Neither is greater than the other. Actually, it requires both to make a whole. He is half and she is his other half. Adam wasn't made whole until God created Eve. His genitals enables him to mate with her genitals. Mating leads to procreation which means rebirth. God has made us like him whereby we're able to create life same as he has created us. If we were to change God's order to make male the other half of male or female the other half of female, then we're an aberration of holiness and we lose our gift of recreating life, thus we die. Next, we will examine geometry to see how God uses angles to judge truth.

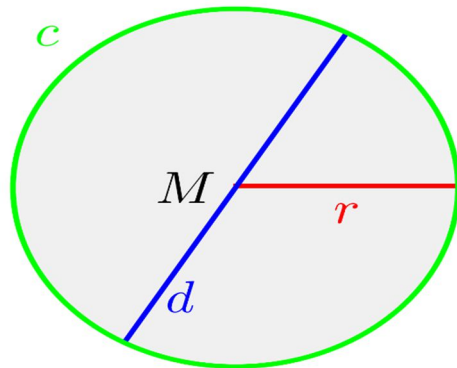

Equal-equals

Not "some are more equal" than others

# Geometry Circumference vs. Diameter

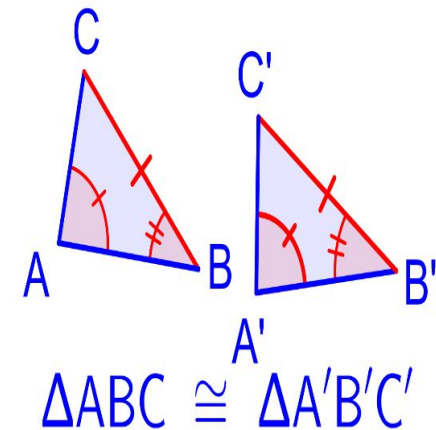

## 360° degrees equal a whole circle

The circumference is 360° that equals a whole circle. The diameter [d] is a 180° straight line dissecting the center which is one half of the whole circle. The term diameter may translate as diametric. Mathematically speaking, one half of the circle is negative whereas the opposite side is positive. Since each side of a diameter has opposite polarity and measures equidistance from the circumference, then the middle [M] point constitutes the number zero and represents balance. The latter is exactly the same as our numerical chart showing zero to constitute the center of positive vs. negative. In other words one half of any circle is a mirror reflection of its opposite side. Now if we were to draw a line to intersect any point on the diameter and also intersect with the circumference, it is referred to as the radius [r]. These smaller angles may appear as a slice of pie from the whole.

## Congruent vs. Incongruent

Refer to the right triangle figures. Imagine if the pair of shoes were a pair of shoes. Suppose we had either two right or left shoes. Any pairing of the same shoes is construed as a mismatch. God has designed our body to be asymmetrical. We need both a right and left shoe in order to be congruent. A pair of mismatch shoes may be identical in shape, yet they are incongruent with our own body. Take a pair of shoes and align their soles together. Two right or left soles are incapable of alignment. This is proof of their incongruency. Yet, when we align the soles of a right and left shoe, they are congruent.

Congruent is a geometrical term referring to angles that overlap exactly. Also, this concept applies to words and/or actions. Things we say may be either congruent or incongruent with our actions. God measures our words and/or actions to see if they are congruent with each other and/or align with the facts. If God determines each of the latter is incongruent, then he renders his judgment of condemnation terminating our salvation. The only way to appeal God's verdict is by calling on the name of Jesus Christ.

# Problems and Solutions are equal to each other

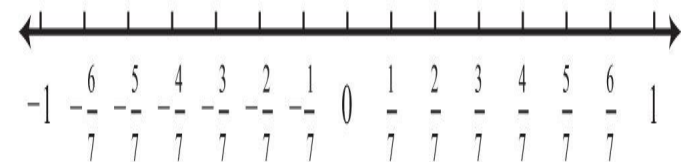

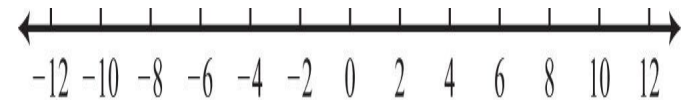

This Photo by Unknown Author is licensed under [CC BY-ND](#)

## Math is a tool for proving equilibrium

Mathematics is a tool that proves equilibrium, whereas problems and/or solutions are always equal to each other. This is the main reason why any problem may be easily configured as an equation. Let's presume that the problem is (-7). The solution would be (+7). We may notate the equation as  $[-7 = +7]$ . If we were to add the problem and the solution together then the sum total would equal to zero. We may record the notation as  $[-7 (+) +7 = 0]$ . The symbol 0 means center. The only way to achieve center is by adding any two numbers that are identical, but have opposite polarity. Suppose we were to add  $[-7 (+) -7 = -14]$ . Likewise, if we were to add  $[+7 (+) +7 = +14]$ . It is literally mathematically impossible to obtain zero by adding numbers that have the exact same polarity. Negative and/or positive polarity merely stipulate the number of increments and/or decrements that slide away from zero. If we were to increment 7 times in a positive direction and conversely decrement 7 times in a negative direction then the decrements will negate the increments. In essence, we end up exactly in the position we started which is zero.

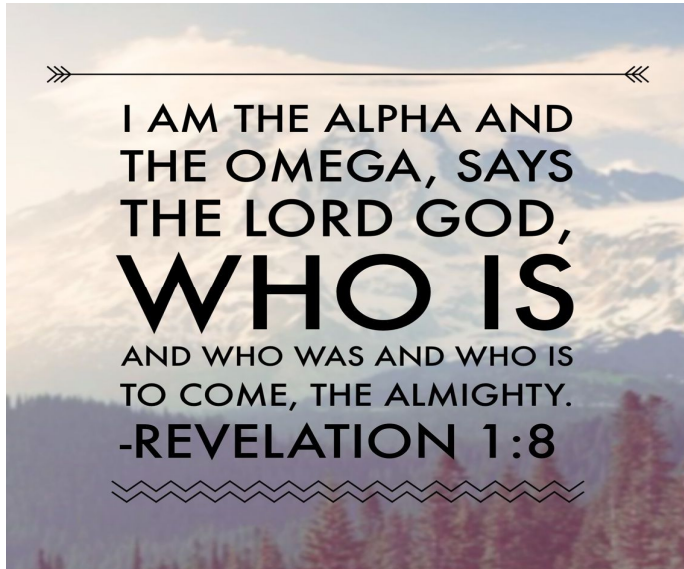

## Zero marks the center

Zero marks the center and is the starting point for counting negative vs. positive numbers. Negative numbers decrement to the left. Positive numbers increment to the right. Let's say that we start at zero and take exactly 2 steps to the right. This places us at the number +2. Next, we take exactly 2 steps to the left. This places us right back where we started at zero. In mathematical notation we record the latter as  $[+2 (+) -2 = 0]$ . Suppose we were to start at zero and take 6 steps to the left. This places us at number -6. Next, we take 5 steps to the right. This places us at number -1. In mathematical notation we record the latter as  $[-6 (+) +5 = -1]$ . The equal (=) sign indicates that whatever is positioned to either side of the equation is reciprocal to its opposite side. Thus, we may state the notation in reverse and the answer will remain the same. For example:  $[4 + 6 = 10]$  or  $[10 = 4 + 6]$ . It really doesn't matter. The reason is that mathematical notations merely reflect directional movement.

# I am Alpha and Omega

## The First and the Last

Jesus is saying, he is the first and last, beginning and end, also meaning he is both Genesis and Revelation. In respect to circumference, he is the diameter and all things center around him. In a figure of speech he is God's equilibrium. Without him nothing balances. Our world turns upside down. We stop loving one another and caring about our fellow mankind. Our souls become vain and selfish only to satisfy pleasures that appeal to our sinful nature. Our hearts are more fixated on following idolatry worshiping false gods. Thus, we become as the Lost Sheep of Israel. God is compelled to pronounce judgement upon those who have fallen away from Christ. Instead of being the light of the world or salt of the Earth, we follow the world. Now our world is in pandemonium and doesn't know where to turn or whom to turn to. We have misplaced our faith trusting that epidemiologists will rescue us from God's wrath. The truth is after we have fallen from God's grace, there are multiplicity of natural disasters God may call upon to destroy all mankind, as in the days of Noah.

## Be fruitful and multiply

Genesis means birth. Any word associated with birth may be a modified form such as: genes, genetics, genealogy, gender, genitals, generate or even generosity etc. In each species of animal male and female are attracted for sole purposes of procreation and to fulfill God's ordinance of 'be fruitful and multiply'. It is virtually impossible for any human couples, who share the same gender or genitals to fulfill God's ordinance and thus, contrary to God's will. Now do you have any better clarity why Jehovah God has created all things within our universe whereby opposites are attracted? Reconsider that the Book of Revelation is foretelling the birth of Jesus Christ's bride whom he has dubbed as his Church. Recall that Adam's bride Eve was born from Adam's own body. This means that the bride of Jesus Christ shall be born out of his own body. It is vital that we sanctify our human souls so we may be found holy in God's eyesight. If we were to continue our ungodly or sinful lifestyle, then our fate is eternally doomed!

# Statue of Liberty

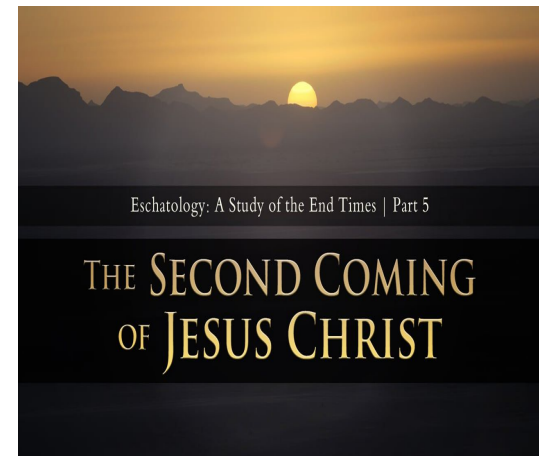

[This Photo by Unknown Author is licensed under CC BY NC](#)

## Jesus Christ is the Spirit of Liberty

2Co3:17 – Now the Lord is that Spirit and where the Spirit of the Lord is, there is liberty. The French sculptor Frederic-Auguste Bartholdi created the Statue of Liberty as a figure of Jesus Christ. France has donated his masterpiece artwork as a landmark to bestow honor on the United States as God's New Promise Land (Canaan). We are the Land of Milk and Honey, also the Land of Liberty. Our divine purpose is to serve as a beacon of light for oppressed persons across the globe to seek refuge from tyranny. The Book of Galatian is foretelling of false brethren who came in privily to spy out our liberty. Gal2:4 – And that because of false brethren unawares brought in, who came in privily to spy out our liberty which we have in Christ Jesus, that they might bring us into bondage. Our Founding Fathers were biblical scholars seeking to preserve liberty for our posterity. They have constructed the framework of our great nation upon United States Bill of Rights and American Flag as confirmation of Jesus Christ as our Lord and Savior. Jas1:25 – But whoso looketh into the perfect law of liberty, and continueth therein, he being not a forgetful hearer, but a doer of the work, this man shall be blessed in his deed.

## Second Coming of Jesus Christ

Mat25:32 – And before him shall be gathered all nations: and he shall separate them one from another, as a shepherd divideth his sheep from the goats. In the Second Coming of Jesus Christ, he shall divide the sheep from the goat. This means that government shall not legislate morality. Each person has the express liberty and/or freedom to choose his or her lifestyle regardless of tenet. If he or she were to have chosen to live by the wrong tenet then Jesus shall timely judge him or her. Thus, all moral judgment is relegated solely to Jesus Christ and restricted from our government. How do we as God's children determine God's truth concerning morality? The answer is we follow biblical scriptures. Jhn8:7 – So when they continued asking him, he lifted up himself, and said unto them, He that is without sin among you, let him first cast a stone at her. If you like my message please go to Facebook and look for my article: 'Anything you need to know about truth'. Let the world know that I have opened your eyes to apprehending the truth Jesus is the Spirit of Liberty.

# Cliffhanger

## God instructed me not to leave anyone hanging?

God has specifically instructed me not to leave anyone hanging off the cliff wondering what truth is. I have to do all in my power to pull you in. Truth isn't just a word. Rather, truth is also a number. That number is zero. You see zero is a circle same as a circumference. Zero means whole or complete. Truth must always be whole or complete same as a circle. If we were to pour pancakes in a skillet they would form a circular shape; not square, rectangle, triangle or polygon etc. Truth doesn't have any angle. Truth is always straight forward and honest. Suppose a person were attempting to circle around the truth. Guess what? It won't work. God has designed truth whereby inconsistencies expose when persons may be lying. The reason is that in the center of a circle is a diameter (180°) straight line that no human being is able to circumvent. Often we may apply the expression 'are you being straight with me?'. Moreover, we refer to the LGBTQ community in diametric terms as if he or she weren't a straight person.

## Answering my six model interrogatories

1. Jehovah God is the deity who has created truth which is actually the number zero.
2. The severe ramification of distorting the truth is creating an imbalance in the world.
3. We will be judged by Jesus when my message has reached the 4 corners of the earth.
4. Truth comes from the magnetic charges (protons & electrons) of atomic energy.
5. Truth is urgent to God because this is the order he's ordained to replenish the earth.
6. God knows we're not telling the truth if our words and/or actions are incongruent.

God expects for us to align ourselves with the moral guidelines of our Holy Bible. This means we must be morally straight and reflect a godly spirit. Jesus Christ is God's measuring stick to see if our hearts are filled with the holy spirit reflecting agape love of our fellow mankind. If God were to see any inkling of hatred in our hearts, then he knows we haven't accepted Jesus Christ as our Lord and Savior. Whereas, we're required to show love for LGBTQ, atheists and/or agnostics etc.
