What's new in e4.2

EMBROIDERY STUDIO e4²

General improvements

64-bit - Speed and performance

e4.2 now supports 64-bit operating system, delivering significant speed and performance improvements. Resource-intensive tasks happen in seconds, dramatically improving your productivity and design output.
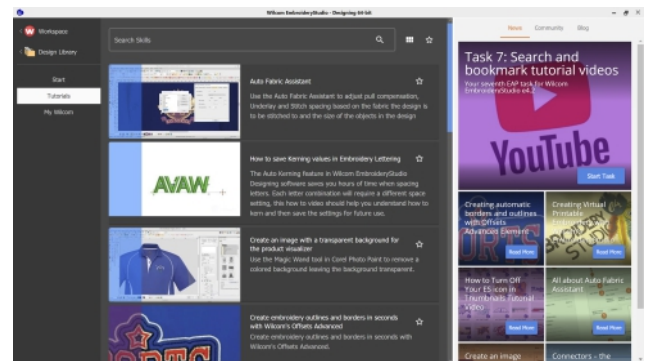

Close all windows

Quickly close all active design windows with the new File > Close All.

Improved thumbnail display

Design thumbnails now reflect the display settings at the time of saving, meaning if bitmaps are shown, they will also display in the thumbnail.

Wilcom Home Screen

Enjoy instant access to video tutorials, product hints and tips, community forums posts plus your recent design files from the new Home screen.

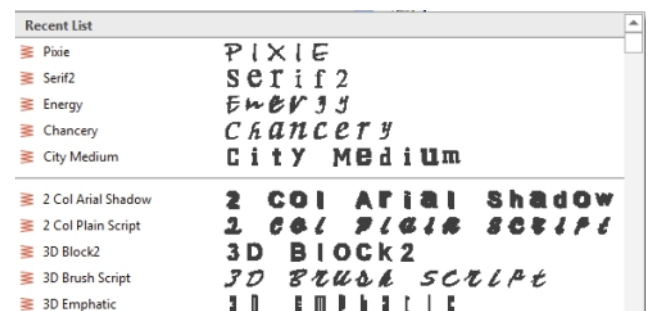

The new Wilcom Home Screen

Lettering improvements

Font preview

Easily preview your letter with new solid font previews. The preview size can be adjusted, and the preview pane can be enlarged.

Recently used font list

Access recently used fonts in the font properties window, and set the number of fonts you want to your Recently Used font list.

Improved font selection

Quickly select the font you're looking for by typing the font name in the font property font list.

Solid font previews

WILCOM®

Thread & Color improvements

Quick preview of objects by color

Preview design elements using a particular thread by holding down the mouse on a particular thread palette color.

Preview design elements by selected color

Quick edit of thread palette colors

Quickly edit thread palette colors by double-clicking the thread palette color icon and adjust the color.

Auto-scroll in the Color-Object List

Selecting an object will now automatically scroll to the object in Color-Object List.

Design & digitizing Improvements

New design templates

Enjoy a collection of new editable design templates.

New editable design templates

Single Mirror Merge toolbar

The Mirror Merge toolbar and settings bar are now merged into a single Mirror Merge toolbar

Graphical Digitizing improvement

Graphical Digitizing tools now remember the last stitch type used when using a particular tool. This improvement will dramatically improve the efficiency of using the Graphical Digitizing Tools.
