

The Best Minecraft SMP Servers To 2022

What are Minecraft SMP servers?

An SMP Minecraft server is a map that is referred to as "Survival Multiplayer". Players have to explore the wilderness to find resources, construct homes, farms and make friends. In multiplayer SMP servers, you can even claim your land and defend it from grievers.

How do you play on the SMP Minecraft servers?

Extrema

1. Launch Minecraft: Java Edition 2. Click on "Multiplayer" button 3. Click on the "Add Server" button. Copy the IP of the server you'd like to play 5. Copy the IP address and paste it in the Server Address field. Click "Save". Double-click the server on your server list to play it.
