

Haining Guangyu Warp Knitting Co., Ltd.

In order to satisfy customers' needs, we expanded the production scale and introduced the advanced equipment from Germany and Taiwan in recent years. Guangyu has Two Calendering lines, five warp knitting lines and five laminating lines with the annual production capacity of 100 million square meters so far. We always focus on the quality of our products and we can promise that the products are up to the standard so that our products are well accepted by our customers. The fact that our products are exported to North America, South America, Europe, Middle East and Southeast Asia is a good evidence to prove that Guangyu is your better friend to cooperate.
