While 500 mg of Sustanon 250 is a dose which causes obvious results, some athletes inject this product even at a dosage of 1000 mg daily. It is important to know that if this medication is combined with other steroids, its weekly dosage of 500 mg can be lowered to 250 mg.

If you have access to some resistance bands give this back and arms workout a try using the rep & set scheme provided

Se puede crear una serie de combinaciones de fármacos con él dependiendo del resultado deseado. Para volumen muscular, se puede juntar con el Anadrol o una testosterona inyectable. El resultado debería ser una ganancia increíble de tamaño muscular y fuerza, sin la misma intensidad de efectos secundarios si se usa el andrógeno (a una dosis más alta) por sí sola.
