

Targeted Individual Program

Local law enforcement or any intelligence agency nominates you

"Foreign" terrorists (mostly US citizens with extremely weak foreign ties / justifications)

About 300,000 people with "no terrorist group affiliation" are on "the watchlist"

Domestic terrorists (exclusively)

Main terrorists databases: Terrorist Screening Database (TSDB) & Terrorist Identities Datamart Environment (TIDE)

Replaced CIA as head of national intelligence

TSDB Watchlist Known as "the watchlist" Contains unclassified data.

"Derogatory information" is used to justify crossing the threshold (i.e. it's a "good" citizen scoring system like you find in communist China)

TIDE Watchlist Contains classified and unclassified data Contains data on non-terrorists as well

Declared a high-level suspected terrorist / low-level terrorist

All agencies and branches must give ODNI & NCTC ALL terrorist information, including information on exclusively domestic terrorists.

Your info is also given to foreign partnerships like the Five Eyes and Fourteen Eyes.

The Department of Homeland Security uses their Office of Intelligence & Analysis, HSIN (includes private citizens), & state fusion centers to watch you.

Various agencies will use citizen groups like the FBI's InfraGard, DHS's Citizen Corps, and the Sheriffs' National Neighborhood Watch Program to overly/gangstank you to cause emotional distress.

CIA, FBI, and NSA will use their spy methods (human intel, hacking, surveillance technology) and requests to Internet services and major companies to get more dirt on you.

Targeted Individual Level 1 - Gangstalking aka overt stalking

NCTC Gives information to all other agencies & law enforcement, including state, local, and tribal.

That means your local law enforcement eventually gets your information.

DHS Shares information to all other agencies & law enforcement. Fusion centers use Liaison Officers (LEO, military, firefighters, paramedics, doctors, nurses, & other private citizens) to harass you.

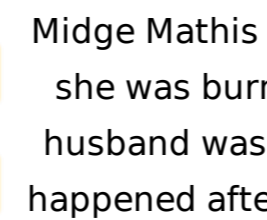

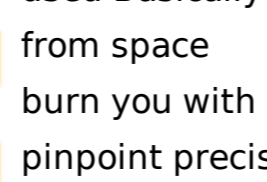

LOCKHEED MARTIN Private contractors also get a copy of your information.

Those in the program often give your info to your neighbors, friends, and family.

Tech involved is hard to believe technology like through-the-wall cameras, hidden backdoors to your computer, and laser microphones.

Department of Defense - While no one is sure what they do with your information, it is believed they run their own harassment campaign and spy on citizens with satellites. See NORTHCOM

Declared "an enemy of the state," weapons can now legally be "tested" on you

Targeted Individual Level 2 - DEWs aka electronic torture

People often end up here because they upset someone in the program.

Microwaves are used to discretely torture you hoping it'll make you do something you normally wouldn't do.

It is believed satellite lasers are used Basically invisible beams from space burn you with pinpoint precision

Microwaves can cause burns (internally and externally), sense of vibration, headaches, tinnitus, and can go through walls.

Midge Mathis had a radiation doctor confirm she was burned by a radiation attack. Ex-husband was a DHS contractor and this all happened after filing a civil suit against him.

Targeted Individual Level 2 - DEWs aka electronic torture

Declared "better off dead"

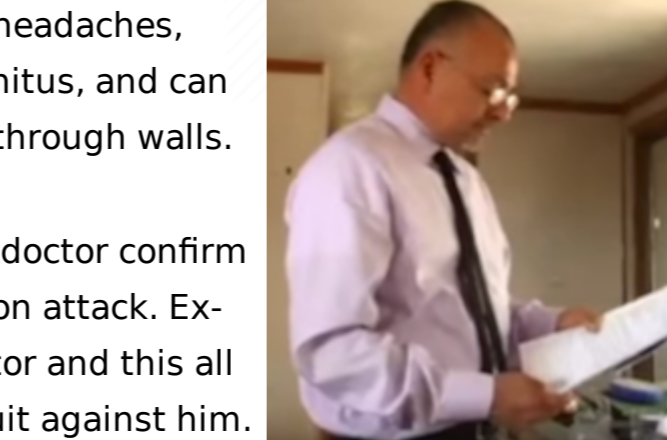

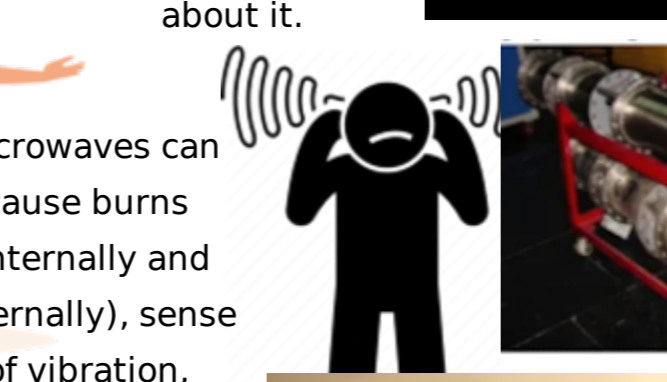

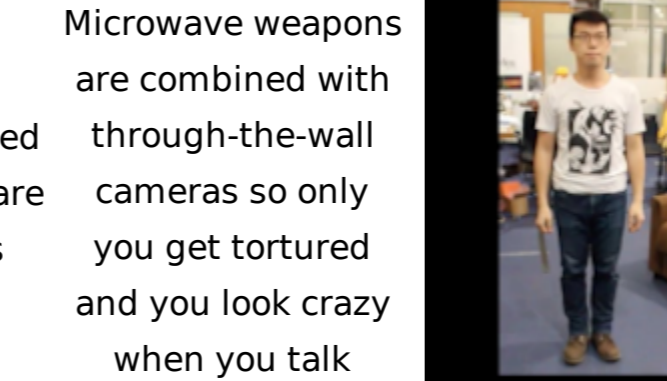

When you get in the way of an agenda...

Microwave weapons are combined with through-the-wall cameras so only you get tortured and you look crazy when you talk about it.

One of the weapons believed to be used by the perpetrators of this crime.

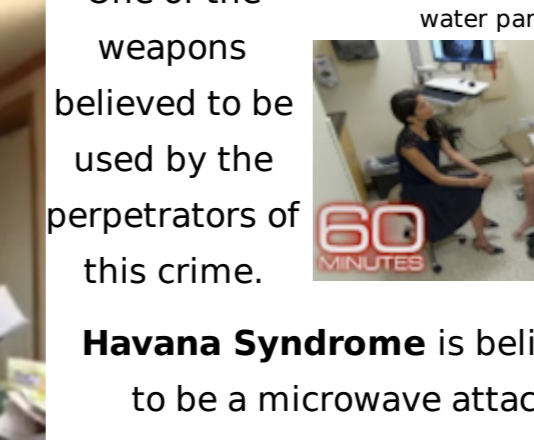

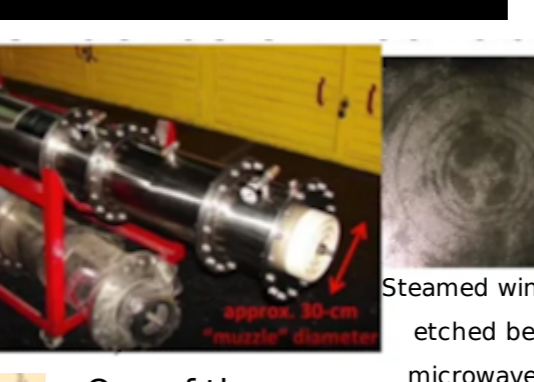

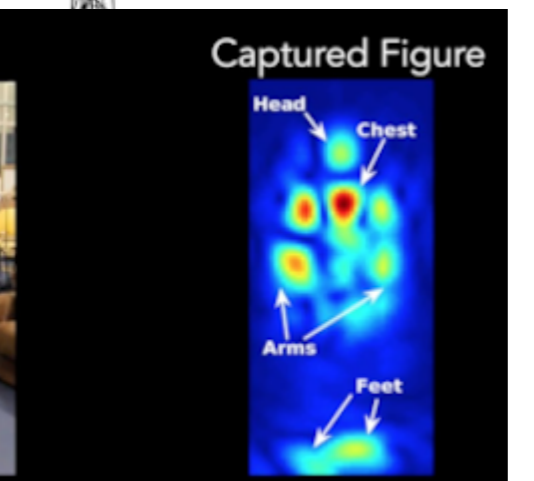

Havana Syndrome is believed to be a microwave attack.

Targeted Individual Level 3 - Death aka assassination
