# Life Token WhitePaper

## What Is Life Token?

Life Token is a **charity orientated token** on the **Binance Smart Chain**. Our aim is **to aid Suicide Prevention** charities all over the world, to help **save lives**.

The **community is active, helpful**, and very pleasant to be around. The goal of this project is to **donate to help suicide prevention** charities and have one **community-driven token**, with many partnerships, unique features, and a solid community-chosen **roadmap**.

## What is Tokenomics?

Tokenomics is **how our token functions**. Our Tokenomics is quite easy to understand. Life Token has renowned tokenomics:

We place a **10% fee on every transaction**.

- 5% fee from all transactions is **put aside and donated to suicide prevention charities bi-weekly**.

- 1% fee is burnt (help **increase the price over time**)

- 4% is **redistributed to all the holders** (all holders get free tokens!)

## How secure is Life Token?

Life Token has **locked ALL LIQUIDITY POOL (LP) TOKENS** on the day of launch.

Life Token did **not have an airdrop nor a presale** so it was a **fair launch for all investors**.

## Life Tokens Achievements To Date.

We have raised over **\$30,000 for charity** in under 48 hours of launch.

We have **already donated over \$1,000 to Songs of Love Foundation** live on our **Twitch**.

**Transaction link for the donation is:**
