

How To eWhore For Dummies

Written by: NadezsB

Ever watch me on my livestream and see the money I would make? Hundreds of dollars flowing into my paypal and all you could do was beg and ask how did I do it?

Now you can find out the secrets to eWhoring in just 5 minutes. During my eWhoring days I could make 100-200 dollars in a short hour and have fun while doing it or you could just ignore my post and work for 6-8 hours and make a nice little salary of \$80 - considering most of you are under 18.

Worried about getting caught? Well this is where we get into the issues at hand and how to prevent them in a simple way. This is where you learn how to make 100\$ in 1 hour, no scams, no sites, just simple Social Engineering. I'm Nadezsb and this is my method.

Materials:

Fake paypal

Fake Skype

Fake Email

Fake Facebook (Optional)

A Picture pack (Links Below)

I have two methods, the first one being the simple selling saturated method, the second being my somewhat unsaturated method. I have never used the first method, although it's somewhat easier, but the money intake is a lot lower.

All Redistributors will be found under plagiarism and legal actions will be taken

Method #1

1. First you are going to want to make your fake email so go to:
<https://accounts.google.com/SignUp?service=mail&continue=http%3A%2F%2Fmail.google.com%2Fmail%2F<mpl=default> ← This is the link to create your gmail, Since this is method one you are going to want a sexy, but somewhat simple girl name, you can create your own or get one at:
<http://www.fakenamegenerator.com/>
2. Once your email is created, we are going to need a proxy/vpn, there are many great paid vpns, but if your not trying to buy a vpn there is a great free one called: hotspotsheild, to download it go here: <http://www.hotspotshield.com/> - If you're looking to go that extra step I suggest nVpn or ExpressVPN or BlackShades
3. Once you have created that sexy name, now you must create a paypal. In order to send money you must make it Canadian and name it after your sexy girls name. On the first page for creating your account it allows you to choose a country, choose Canada and the account label as premier, anything not premier will get limited very fast. [Please note: Send all

payments as gifts and create your paypal under your vpn to protect yourself from being limited and also try switching up your paypal accounts after 2-3 payments] Also if you are having trouble for a Canadian address just google a Canadian business and find all the information on address/postal code/ext.

4. Now you have set up an area to get your money, you will need a fake IM program, I prefer skype, but for this MSN will work.
5. After you have created your fake IM account you will need a picture pack with some strip tease videos/pictures/ext. I will link you to a very good one:
<http://thebotnet.com/freebies/107439-free-huge-e-whore-pack-1000-a/> to find more just use google.
6. To setup a fake webcam you will need a program called ManyCam:
<http://manycam.com/> This will allow you to portray your video of your sexy girl to your victims. For tutorials, just go on youtube and search for: Manycame Fake Webcam Tutorial.
7. Now that we have everything set up we are going to need some victims. The chat sites I have always used were:
www.321sexchat.com/ and <http://www.chat-avenue.com/adultchat.html> - Though somewhat saturated they still work very well, if need be more sites will be posted below at the end of the eBook.

8. Now it's time to advertise your self, if you don't want to get right into it then say: Horny 18/f/NewYork Needs older males add my skype/msn: [name here] always try and in there later 20's although 17-22 works some of the times. Make sure to always stick to the same story as well, create your own be original and be believable, use extra letters or say thanks with an x, thanx ← If you like a direct approach say something like this: 18/f/Newyork Selling hot Pictures/Strip shows to help support myself in college.
9. Once you have your victim start chatting with them and make them feel sorry for you as well want to fuck your brains out, this will create good general revenue. Usually if you get your victim in a good stage you can pull a lot of money out of them.
10. Finally is method #2 you can do both and create even more if you have the patients, which I never did, but if you end up trying to sell pictures and blackmailing you must say you are a minor so you can grab you victim by the nuts and get their money.

Method #2

1. First you are going to want to make your fake email so go to:
<https://accounts.google.com/SignUp?servic>

[e=mail&continue=http%3A%2F%2Fmail.google.com%2Fmail%2F<mpl=default](http://mail.google.com/mail/<mpl=default) ← This is the link to create your gmail, moving to method #2 try to make it something like a group that tries to prevent child pornography, examples:
MarkingAnEndToChildPorn@Gmail.com

2. Once your email is created, we are going to need a proxy/vpn, there are many great paid vpns, but if your not trying to buy a vpn there is a great free one called: hotspotsheild, to download it go here: <http://www.hotspotshield.com/> - If you're looking to go that extra step I suggest nVpn or ExpressVPN or BlackShades
3. Once you have created that gmail, now you must create a paypal. In order to send money you must make it Canadian and name it after your company's name. On the first page for creating your account it allows you to choose a country, choose Canada and the account label as premier, anything not premier will get limited very fast. [Please note: Send all payments as gifts and create your paypal under your vpn to protect yourself from being limited and also try switching up your paypal accounts after 2-3 payments] Also if you are having trouble for a Canadian address just google a Canadian business and find all the information on address/postal code/ext.
4. Now you have set up an area to get your money, you will need a fake IM program, I prefer skype, but for this MSN

will work. Skype is usually better for blackmailing due to you can grab someone's IP address and get his city and state.

5. In order to successfully Blackmail you are going to need a skype ip resolver, there are a lot of free ones across the internet, but you can get one with a server stress tester tool aswell for 3\$ @ <http://vnetworks.ru/boot.php> Which is a very good SST and contains a great revolver for your workings.
6. Now that we have everything set up we are going to need some victims. The chat sites I have always used were: www.321sexchat.com/ and <http://www.chat-avenue.com/adultchat.html> - Though somewhat saturated they still work very well, if need be more sites will be posted below at the end of the eBook.
7. Now when on chat sites I often like to say: I loovvee big cock add my skype: [skype name here] Once they have added you, make sure to tell them: Hey is it ok I'm only 16 :\ I was scared of being judged. This will get those pedos in your trap. Here is a picture pack: <http://thebotnet.com/freebies/107439-free-huge-e-whore-pack-1000-a/> to find more just use google.
8. Now that those pedos just want you so bad you need to lure them in, I never really camed with them, but if you want to go above and look up how to set up the cam and you can lure a hire population,

but if not, make sure to say if they ask "Sorry no cam, my parents blocked all of it so I can't see or show me :\ they know how naughty I am (;" and start sending pictures of your fake girl, do not send any nudes yet, just regular pictures, then ask "Want a nude of my hot 16 year old body (;" and when they say yes, start reeling him in, keep sending picture after picture and try to get pictures of him, get him trapped.

9. Now it's time to shit on this pedo, This is my custom message I use: DO NOT DISCONNECT/BLOCK/NOT-REPLY, We Have gotten your Information and we see you are making sexual relations with a minor. This is highly illegal and you can be put in prison as well as be labled as a sex offender for the rest of your life. We have your information your ip address: [ip here] and your city/state: [city here] Since this is your first offence we will allow you to send a minor compensation of \$100 to our paypal: EndingChildhoodPornogrphy@gmail.com , If you do not cooperate we will be forced to convict you for your crime. You have 15 mintues. We also can get access of your desktop/shut off your internet if you do not comply within the time stated.

10. Need help:
<http://nodusgriefing.com/forum/showthread.php?tid=2293> One of my times where I made 100, well after you blackmail you need to pull up your SE skills and be creative, make him believe you and make him want to pay you that money.

11. Want to be extra badass? Get someone/or yourself to be able to send rats so you can get complete access to your pedos computer, more money is in the way for you if you do this.

Now that we reached the end, More chat sites can be found by using google, the ones I have listed are the best ones.

Final Words

The final words I would like to share with you all is that eWhoring is a sport. Basically, it's very similar to fishing. There are a lot of fishermen and all of them are looking for a great fish. Similarly, we are fishing for a pedophile willing to pay us money for pictures of some girl we get off the internet.

What I'm trying to say is that if you want to become an expert eWhore, you need to have the patience to do so and when you finally get a bite, you have to know how to reel her in properly. In other words, patience is a virtue.

Anyways, please stay safe, stay in your comfort zone, and have fun.

If you have any other questions/need help contact me on the forums or wherever you bought this tutorial. Good luck and happy fishing.
