January 11, 2018

Group Manager Establishment
Current Group Manager Roles

With the new year, two new group managers, **ur_lucky** (snorlax#6987) and **Seb**(Sebmm#0886) have been hired to help with the group. They will become the new source for the Group Management of the United States.

With these upcoming new managers I would like to give them certain roles in order to manage our group more efficiently. Their roles are as followed:

Ur_lucky

Senior Group Manager

Group "**Administrative**" Manager

Sebmm

Group Manager

Group "**Community & Immigration**" Manager

I would also like to announce our new upcoming development of our new Washington. We have an amazing team redesigning the whole game. Ur_Famous will be scripting a new gun system and a new economy system. Iceladen will be creating a new car network with a customizable shop. A new arrest system by Node, and finally a new build by myself and Ian.

SIGNED,

Jamie_Jr

Above **ALL** Group Managers

Founder of the United States
