EXPERIENCE

International Depot Implementation Manager Company (04/2015-CURRENT)

- Provide technical and logistics planning support for the activation of international MRO facilities for the F135 engine program.
- Coordinate with supply chain on hardware/component repair process and capacity planning, support technical/customer support issue resolution.
- Identify depot support system issues and develop proactive solutions to meet the customer's needs.

Military Aftermarket Planning Manager Company(07/2009-04/2015)

- Provided management oversight to the Tinker AFB based Program Management team, and acted as on-site intermediary for Supply Chain Management on issues/queries regarding potential reparability of hardware.
- Provided input to the aftermarket & engineering community to align repair/overhaul priorities with field needs, performed work-scope evaluations, and worked closely with the Aftermarket team on coordination/capacity planning with repair vendors and OEM suppliers.

F119 Subcontractor Repair Manager Company (07/2007-07/2009)

- Held the role of Control Account Manager (CAM) for all F119 hardware repair processed through subcontractors/OEMs. Managed all key processes to ensure customer metrics including TAT and repair cost were maintained within contractual thresholds. Effectively managed the repairs budget (Over \$10M), and reported financials for the Subcontractor Support USAF contract.
- Key contributor to achievement of ACE Gold status (UTC's Continuous Improvement/Lean Operating System) in the role of ACE Pilot (Team Leader) for the F119 LPM
