

EZVIZ C3WN exterior security Camera review: Solid safety and a deal rate

CAMERAHAINAM - Despite the particulars of the latest EZVIZ protection camera, history has actually shown I'm going to get three things: rock-solid security attributes, a smooth arrangement, and numerous storage space alternatives to safeguard any type of video clip proof it may capture. The EZVIZ Outdoor Wi-Fi Electronic camera (model C3WN) strikes that trifecta squarely. That it can be <https://camerawifihd.net>

had for simply \$50, is icing on the cake.Camera Hải Nam

Design

The tennis-ball sized C3WN has twin Wi-Fi antennas and also is affixed to its [bán camera wifi ezviz](#) place with a sphere joint for simple angling. A tail growing from the back of the mount splits right into a power jack and an ethernet adapter (offering you the alternative of either wireless or hardwired connectivity to your network). The entire unit-- minus the tail, which will certainly be threaded via an outside wall or overhang-- is rated IP66, indicating it's protected from total dirt ingress and also from high-pressure water jets from any instructions, and operates in temperature levels from -22 degrees to 140 levels F.

HAINAMCCTV - The video camera has a 110-degree watching angle and also records 1080p video [camera wifi ezviz c6n](#) clip. It has an integrated noise-cancelling microphone to give clear sound at as much as 16 feet in cacophonous outside environments, and also 2 infrared LEDs provide approximately 100 feet of automatically triggered night vision.

EZVIZ

The C3WN's twin Wi-Fi antennas give you a lot liberty in placing the cam outside your house, although they could likewise verify eye-catching to mischief-makers if accessible.

Just like most EZVIZ cams, the C3WN features several storage choices. You can save video on the video camera with a microSD card (up to 256GB, not consisted of) or to the EZVIZ NVR (network video clip recorder, offered individually for \$230). You can also keep your video offsite with an EZVIZ CloudPlay registration. A seven-day storage plan costs \$6 monthly or \$60 annually, while one month of storage space prices \$11 each month or \$110 yearly.
