

Statistics

90%

Of companies estimate that a cyberattack will have serious negative consequences on their business

60%

Of SMEs have been targeted by a cyberattack in the last 2 years

50%

Of SMEs go out of business 6 months following a data breach.

ABOUT THE MASTERCLASS

The purpose of this masterclass is to take you on a fascinating cybersecurity journey and guide you through the maze of EU cybersecurity rules, obligations and requirements.

You will learn about the latest developments in the EU's cybersecurity agenda - from the already existing legislative requirements (found in the **NIS Directive, the GDPR, the Cybersecurity Act**), the new obligations (found in the **NIS2 Directive and DORA**), to the upcoming rules (found in the **AI Act, the Cyber Resilience Act, the Cyber Solidarity Act**) and much more!

ABOUT YOU

This masterclass is for **CEO, IT, risk and compliance professionals** in regulated sectors (critical sectors e.g. manufacturing, AI, fintech, health).

The masterclass is also for **students** interested in expanding their knowledge in the EU cybersecurity agenda.

BENEFITS

You are less likely to fall victim to a cyberattack if your level of awareness and preparedness is high.

You will know the specific security measures every company doing business in / with the EU should implement.

You will be more aware of how to handle an attack respecting EU laws, who to notify and ask for support in case of a cyberattack.

You will acquire new skills in the digital domain and receive a certificate of completion.
