All species have come to a consensus about the importance of nutrition except the human species. Millions of people refuse to emphasize internal hygiene practices with proper eating and drinking habits while lecturing to others about the need for social distancing, wearing masks, and getting vaccinated. There is no substitute for high quality nutrition.

I referred to 27 news articles which prove that neither SARS-CoV-2 nor COVID-19 are contagious between March 8 and March 26. Negative test results were produced from experiments with vibrio cholerae (the bacterium associated with cholera), smallpox, Spanish flu virus, and polio virus between 1884 and 1949.

Our cells release viruses everyday. Germs do not cause disease. Neither germs nor diseases are contagious.
