Hi, my name is James Wilson and I've partnered with Nutrition Hacks to help publish this new leap in the ketogenic diet that people have been calling "truly revolutionary..."

And do so conveniently **over the age of 50** and beyond.

This first-of-its-kind program has already been taste-tested by ***thousands*** of beta users and the feedback has been **extraordinary!**

People are finally able to enjoy the pleasure of desserts while getting into the best shape of their lives and **eliminating processed sugar** from their diets.

As I'm sure you know, processed sugars have been linked to **severe health risks.**

And they're especially dangerous after the age of 50, because our immune systems and metabolisms aren't as strong as they were in our 20s or 30s, when we could consume sugars without harmful effects our bodies.

So now we have to be ***extra-careful*** when it comes to the stuff we put in our body.

Fortunately, the incredibly delicious desserts that I'm about to share with you have **no processed sugars or preservatives.**

They even contain **nutrient-rich ingredients that can...**

- ✓ **Strengthen Your Immune System**
- ✓ **Boost Your Metabolism**
- ✓ **Provide Youthful All-Day Energy**

- ✓ **Improve Mental Clarity & Focus**
- ✓ **Satisfy Sweet Tooth & Sugar Cravings**

Now you can **finally enjoy your desserts *guilt-free***, knowing that each dessert is nutrient-rich and great for your health!

Whether it's a black forest cake **drenched in chocolate...**

Or banana split ice cream **overflowing with toppings...**

And even lemon squares that immediately **melt in your mouth...**

Whatever your favorite dessert is, it's possible to enjoy it once more.

A Better Way to Enjoy The Ketogenic Diet

(Especially for Men & Women Over 50)

Let's face it... the ketogenic diet is **tough**.

Of course, the results have been proven over and over again. There's no doubt this is a very effective way of burning fat, improving brain function, increasing energy and feeling younger...

But it's just so hard to maintain.

I mean, you pretty much have to cut out so many delicious foods and deprive yourself.

Unfortunately, that's the easiest way to run into a plateau and **rebound** from all that effort...

I know, because **that's exactly what happened to me.**

I lost 21 pounds on the ketogenic diet...

And then I gained it all back because I couldn't take

it anymore...

You see, **being married to one of the best cooks in the world** for over 25 years, you get to enjoy the rich flavors of all kinds of foods.

And let's just say that I have one *heck* of a sweet tooth.

So as the years went on, I became 70 pounds overweight and started to have some health scares...

When a trip to the doctor revealed that **I was borderline Type 2 diabetic**, I decided to make a change right then and there.

But at age 59, it was hard to even imagine that I could make such a drastic transformation at that stage of my life.

It Wasn't Until I Stumbled upon the Ketogenic Diet That I Finally Had Some Hope.

The results other people were getting from it were very encouraging to me. I thought, this might actually work for me...

So I decided to learn everything I could about the "ins and outs" of the keto diet and how the body forces itself to burn away fat by producing ketones from not having too many carbs.

I gave the keto diet a try, and in just a few short weeks, **I lost 21 pounds.**

But I had one major weakness...

My Love For Sweets & Desserts

My wife is an incredible baker and our home is always filled with the smell of delicious sweets that have you coming back for more every time.

The time came when the temptation was too strong, and I couldn't resist anymore...

I began to sneak sweets throughout the day...

It was like I couldn't help myself. My cravings were rampant, and I couldn't control them.

Anyone on keto knows that **sugar is the last thing you should eat** if you want to keep your body consistently in ketosis.

I was repeatedly **rebounding back and forth** between gaining weight and losing it depending on whether I could control my cravings.

It was a nightmare...

I wanted to give up and just eat whatever I wanted. I didn't care if I was going to lose all the progress that I spent months trying to achieve.

Being over the age of 50, the **rebound weight gain** effect hit me hard...

And in half the time it took me to lose that weight, **I gained it all back** and felt like I aged another 20 years.

I was ready to give up all hope.

“I Can Have My Cake and Eat It Too”

The Moment That Changed My Life

My wife saw me going through these changes and saw how much I was suffering. She sat me down one day and asked me what she could do to help...

I thought there was no solution, **that I was doomed for the**

rest of my life...

She asked me about keto, and I told her the role that sugar played. I was lost, and I didn't know what to do. I was on the verge of tears when her eyes lit up... **I could tell she had an idea.**

She went to the store and when she returned, told me to stay out of the kitchen. I didn't know what she was up to, I just laid on the couch feeling sorry for myself.

Shortly after, she brought me a slice of the most **decadent and incredible-looking chocolate cake** (my favorite) that I'd *ever* seen in my life.

I told her that there was no way I could eat it!

She urged me to try a piece, and although my conscience was telling me not to, **I couldn't resist.**

I took a huge mouthful and I could feel every ounce of stress in me dissolve.

I couldn't help myself... I ate the entire slice.

It was **so delicious and rich** that my mouth was watering for more...

She told me to go ahead and have another slice:

There was no sugar and barely any carbs in it!

I couldn't wrap my head around it...

How could something so *decadent and delicious* have **no sugar and be low in carbs?**

She explained how she was able to find **zero-carb alternatives** to sugar that worked just as well as processed sugar and found alternatives for flour, grains and any other artificial ingredients that are added to

traditional desserts.

That was when my eyes lit up, and I came up with a **new idea** for helping both men and women that are over 50 and attempting the keto diet.

Combining *my* knowledge of keto with *my wife's* baking expertise, we created...

Here's What Everyone Else is Saying About Keto After 50 Desserts

From: **Maria H, 55 years old, New York, NY**

to **James Wilson**

I've never found any diet that let me eat the sweets that I wanted. I basically had to cut out my one true love from my life. And even though being on keto was helping me lose weight faster than anything else, I still really missed desserts! It definitely made me cheat a bit more than I should've and I was paying for it, gaining back weight.

But when I found that there was also a Keto After 50 Desserts, I bought it immediately! It included so many of my favorite treats that I wasted no time making them. They were so delicious and rich, that most times I was satisfied with one serving. **Now, I'm back on track with my weight-loss goals and I can still enjoy dessert!**

From: **Joseph T, 61 years old, Seattle, WA**

to **James Wilson** 

I am not a baker. I'm more of a BBQ guy. But that doesn't mean that I don't enjoy sweets. I don't like eating a meal without the knowledge that there will be desert after. But after starting the keto diet, I found it increasingly difficult to sacrifice dessert. I'd cheat and eat a piece of cake or snack on candy while watching TV.

I was gaining weight again and I thought I would have to just give up and accept it. Then I found the Keto After 50 Desserts. I took this opportunity to learn how to bake and in no time, I was making my favorite desserts! I began to lose weight again because I was keeping my body in ketosis through eating tasty desserts that had no sugar. **This is the most incredible breakthrough I've seen anywhere!**

From: **George S, 65 years old, Dallas, TX**

to **James Wilson** 

This is truly revolutionary! I first got the Keto After 50 Desserts for my sister since she was on the keto diet for several months now. Her progress was slow though because it was so difficult for her to avoid sweets. I wanted to help her so when I saw this incredible book, I knew it was just right for her! I first baked her some chocolate chip cookies and I told her to have as many as she wanted. She looked at me like I was crazy.

But when I assured her it was alright, she ate one and said it was the most delicious cookie she's had! And really, I couldn't even tell the difference! When I told her it was sugar-free, low in carbs and keto-friendly she almost couldn't believe it. I gave her the book and now she can keep her sugar cravings in check and she is finally losing the weight she wanted. Thank you!

As you can see, there is nothing like Keto After 50 Desserts on the internet or on any bookshelf out there.
