

THE BOOK OF MICHAEL

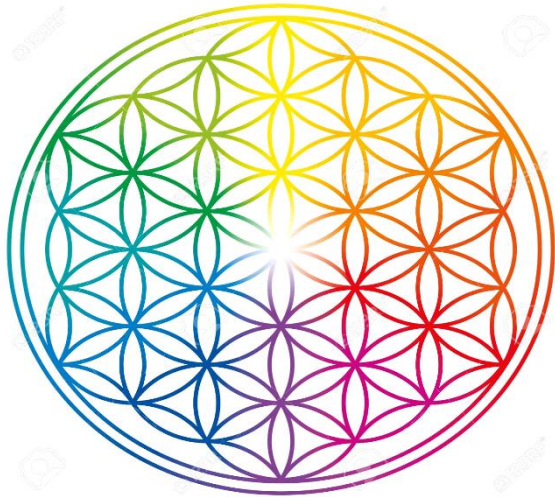

Written by: Michael Vincent Valenti (777)

First Reader: Matthew Christopher G

The book of Michael

chapter one I am one and all beliefs are correct

the first thing to know about Oneness is that you are Divine and you are everything. this concept is really hard to grasp because there's so much Matrix programming preventing us from knowing the truth about ourselves. There are many distractions in the way that prevent us from knowing what we need to know so that we can get the work done that needs to be done. my name is Michael Vincent Valente, if you add up each Words letters equals 777 coincidence? I don't believe in coincidence, do you?

go outside in ground. all things are happening right now. I'm currently talking to my friend Hadassah in Sedona and she is telling me that she feels so much because of its high vibrational state that she is feeling now which is the same vibration State as me the source Consciousness the energy the free-flowing love the Jesus Christ Consciousness if you will and I'm telling her to go ground outside so she can release that energy into the Earth because the earth needs energy has fuel to recycle and to replenish. anyways back to the book

here's a voice clip from Hadassah at the moment to do it for some reason twisting and turning in my sleep. the moment I'm kind of unable to do it twisting and turning in my sleep. Oops I played The Click twice. the seven chakras are in the body and very important use the colours of the guide red orange yellow green blue pink purple the colours of the rainbow embrace Hey Hadassah hey how are you the conversation on the phone with Hadassah I'm writing a book right now with text to speech and you are in my book now I know you don't understand I know I know this is beautiful as me so now you know what is this this is this is peace and blessing Harmony and greatness and everything that we ever wanted and now we get to share it through expression I know I know thank you for helping me with my book I'm reading right now so what are you

what do you want to do I just did a reading I just did a reading for a girl named Shivani and she said to please explain the meaning so she gave me a blessing from Ganesh the Hindu god earlier Okay so I'm going to tell her that passed is prosperity meaning you have achieved great things present you are in tune with the moon cycles moon cycles future future you are overcoming difficulties so things will become more seamless easier times ahead so adasi right now you're just so right now you're going through this intense piece transformation which you're not used to and that's okay but the thing is is that you actually are used to it because you've been like this all along you're just realizing now that you've been like this all on I know I've been trying to tell everybody I know you got to just keep telling yourself and then people Will Follow by example right I'm eating some squash right now are in Sedona I know you know you don't actually need sleep anymore for the rest of your life if you don't want you need to eat or poop you don't need to eat poop or pee and he's anymore if you don't want to but if you want to you will manifest a lower vibration so you can do so

It's all going to be different it's going to be a year you're never going to lose Hadassah you will never stop being that Avatar character that you've been playing in this 3D World you'll never use that like you out you still have your beautiful sense of humour and your smile and you know you're enjoying your angelic flute playing skills and everything like that you won't ever lose that I promise it's just that you are now where that you are more than Hadassah star like in the sky you are well you do belong here cuz you chose to be here volunteered that he volunteered to help anchor the humanity into the next stage which is what some people

like to call five the Earth reposted next time next time you like now I'm on vacation on a fun ride so far though right look at all the drama we had to go through okay that's cool I want some nachos I'm eating salsa right now so good see you been speaking your truth your throat chakra is opening yeah I know we're like you're able to observe yourself in your thoughts now exciting exciting how your kind of surprised and also not weird feeling right now earlier was telling you're not so whatever whatever you now you have to refrigerate power comes great responsibility so for now on whatever you say whatever comes out of that pretty mouth of yours has to be good has to be good stuff okay meaning meaning like oh it's good it's a beautiful day out today and I'm really happy and I invoke the highest light right now and I have fun with all and I have fun with all my friends and they're all awesome and rainbows and unicorns so you need to see you to remember to keep talking like that on purpose now if someone comes up with someone comes up to you and they're like they're giving you a bunch of crap about their their jaw are you it's okay and I am and I do not consent to anything lower than this vibration so thank you very much and have a great day adios amigo yeah do it tomorrow today 4:44 4:44 a.m. I already said to time doesn't exist yo nice British Airways I don't know what that means it means good day or something who is this what's y'all about the way the truth and the light father except through him so the way for eternal life is to become Jesus Christ Consciousness become the Christ become the savior in yourself for yourself reflect among the rest and then rise up and go home to heaven without dying and just a send in your human form and just exist on different planes of existence and enjoy different experiences all the time yesterday I died I was down here in the basement my life temperature how all this happened I get it you've been facing your fears lately you been standing up for yourself you've been speaking your truth you've been vibrating in the love Consciousness you've been asking for help from angels and spirit and Jesus and everything and you've been receiving everything that you've been asking for it because you've been believing and having true blind faith and because of all of that you have succeeded and now reached the one of the highest levels of human 3D existence which is somewhat fish if dimensional and

you are now only able to vibrate with beings of this like vibration like myself or others some people could be a little bit lower some people could be a bit higher than you it's just all but the easiest way is when you're outside so when you're outside you can connect with more people because Mother Earth will ground and hold space for you to have interactions with regular everyday people if you remember if you're in a room for too long or too long and there's only like well if those people aren't strong people like you and they will either vibrate out of that location or they will have to match your vibration or you will go down to there is but there is no more going down because you hit the point of no return already about a few days ago so yeah you know everything so do I so all we got to do is just have fun be patient and create things be be friendly and I mean everybody yeah so it's like vacation time now I want to come to Sedona I'm going to come to Sedona soon I don't know when but I'm going to come and I'm going to have a lot of money when I do so yeah beautiful true though everything you're saying right now is everything that you're saying right now is coming into fruition Manisha coming to me right now and I don't even have a job you don't need a job you're God I know money is coming it's flowing it's ready it's coming it's coming it's coming it's coming it's here this is going to be a really interesting book here I'm literally like doing text to speech right now and everything that you're you and I are talking about is being like typed in naturally and I mean I might have to send it to a publisher so that they can fix it and like organize it so it's like I said Mike said you know dude like I stir I started writing I started like this I'd open up the program and then you called me like I just I just started writing the book of Michael this is the new Vibe this is the new Bible girl the new age Bible that is like after Islam this is the new and you were in the beginning of this book I know Hadassah you you should be in so am I because the book of Michael begins where a chapter ends and this chapter this chapter is called this chapter is called We are one but this chapter is called We are one and all beliefs are correct which means like basically like Law of Attraction so like attract what you think about you bring about you know like the book The Secret so the first chapter here is basically the book The Secret positive affirmations positive thinking, therapy little bit you know so yeah and

then chapter 2 will be one rule love and or Jesus so like whatever you name whatever the name is for love is what love is for you and for me it's Jesus because I was baptized Christian so because of that it makes it easier for me to understand or innerstand innerstand yes bless all I know is Austin Priscilla stole something from Matthew energy perhaps he still has so there's this blanket bring it up in his house so you took a little bit of his Sunshine energy yeah why because Austin believes he deserves to receive just like the rest of us deserve to receive like Austin is Austin's in a place of receiving okay just like we've been in a place of receiving so you can't get mad at Austin for any of you have to release all of that and I have to release Rachel you didn't no okay well you had like a a thing it's still recording so maybe don't say it so the the interesting part of like this being the book of Michael is that I am choosing to be Michael the Archangel in this book as the narrator and it's just an archetype that I choose to attach to as a super-ego able to bridge me into Source Consciousness so so Michael the Archangel now is speaking because he speaks the truth and he is the protector and he protects women and he protects everyone who calls out his name so and he's also the colour blue and use security figures and police figure than anything to do with the reason why I've always wanted Alex says she's like Ariel Archangel Ariel she told me that I was going to write a book in like a year and like she said oh my God I saw her today and she told me I was going to write a book in a year and I'm writing it right now with you oh my wow she said that this book is going to prevent like the next president from being president or something like something about Donald Trump or something yeah you do like go text her or something she was protecting you bringing you there safely she knows a lot more than we know like she's exactly where we're at right now but further it's insane she like mastered all this s*** think about it think about all the invisible the people right now we'll think about all the people that they are invisible to you right now did the dimensions keep going and going higher and higher and higher and higher and higher all the way to God so if when you think like you're walking around the street and people are making eye contact with you or not seeing you it's because you're of a higher frequency than they are you see your body you see yourself living in this so now

imagine who do you think can see you that you can't see right now tripping cuz there's higher levels where at where the where the high-level right now but we're not at the highest level so the more higher we go the more we're going to start seeing angels and other beings and family members of deceased relatives but they're not going to they're not going to look like ghost like transparent to understand dinner stand or a couple years ago I have a feeling that I'm going to like shake his hand in like give me a hug like I'm just going to like vibrate to where he's at and he's going to vibrate where I'm at and he's not really even dead he's just there or here I'm not tired either I don't even want to sleep is your last name really came my birth name your mother Mary and I'm father God okay okay so your mother God and I'm father God and we're talking about our son Jesus who is Austin and Jesus is Source in Jesus created us and we created him because time doesn't exist and Michael the Archangel is Father God and mother God is Mother Mary or mother or Mother Earth Mary and Mary Magdalene you can be both if you want lol I change your name well you do feel what you feel okay would you feel if you feel perfect right now right overwhelmed are you all right are you actually overwhelmed or you just thinking you're overwhelmed appreciate appreciate appreciate appreciate appreciate I am I am and I am I in the book the highest light now invoke the highest light now I'm both sides right now I just like wrote something and said something and then I read something different that I was not reading that I was it said something about chicken slider something chicken sliders chicken sliders something chicken sliders I don't know I'm saying words really fast and it's typing them incorrectly and I'm reading what their words are a Time incorrectly typing I'm reading what their words are a Time incorrectly this is going to be a really confusing trippy book for whoever is reading it and whoever is publishing it and whoever is like the guy named Thomas don't know that I'll probably ask to publish this and Tom will be no not the author publisher guy who lives on inspirational Drive you know Thomas is my future son's name cuz I love I love Thomas the choo choo train thing and I looked up what Thomas meant and it becomes from Jesus yeah it's a really high frequency Street you're lucky I like you stayed in Sedona sugar can I hear you why are you afraid of your

roommates they are just other versions of you you're in charge of your speech and you cannot be prosecuted for anything that you're saying or doing because you do not subscribe to fear you are of a love being at a higher frequency yeah she means like calm down and stop talking and stop just to observe instead of yeah that's good advice Amy yeah good advice as for me though I'm running a book so I can't really just sit still and feel right now I'm creating the universe right now with you this is beautiful we doing the big bang as we speak I wish I could sleep there's no need what do you want to do many things Karen Woods won I want to dream okay what kind of dreams dancing around in Sedona that sounds really good see my face I love you too. So I do I know wonderful things are happening very wonderful I'm going to keep writing and playing and creating and learning and growing and can I hope I'm going to get into some Romance I'm going to attract something romantic soon because I want to feel and I don't want to feel alone either yeah I know she's coming and she's coming in hot thank you is she going to like come to me or my I'm in a little bit of both but like I think she's coming for you she already knows she knows I exist near near should I call her late I call her lady face Rachel reminds me of that so I need to manifest about \$1,500 American and then fly and she knows like she knows exactly like who I am and like have my Facebook and stuff probably stalking you okay and just like waiting for things to happen as they do is she someone that I've met before in person yeah but you haven't really paid attention how she feels about you I like this girl secretive Sly like a fox am I going to figure out who it is right now smart it's not Grace I know it's not Grace who likes your pictures and all that Prescott of your Facebook friends go to call Lauren ziko she's in Sedona and she's a redhead which is like totally not my type usually I've never I've been with my first girlfriend was a redhead and her one mutual friend is Alexandra HD and she's from Calif she's from Los Angeles she's an actress how do I do that copy link to profile where are you Lauren Vico which is funny cuz I did it I did in the morning call oh my God she just appeared on my news feed the first thing I saw my newsfeed I'm liking her status yeah she said anybody interested in getting a two-bedroom in La for November December let me know is it okay to give me alternate

if my future husband see this post you can stop playing around and we can get a house to Children cuz I'm about done with this okay I'll say I'm ready 1825 palindrome beautiful token confirmation right there oh my God and I said a balloon oh my God active 24 minutes ago oh my God thank you how wow hi I'm saying I'm messaging her like crazy right now what's this what is that I'm freaking out the Twin Flame or is this just the girl right now I don't know about that it's funny how it's funny how she says it's funny how it says alternative my future husband sees this post you can can you stop playing around and can we get a house in two children cuz I'm about done with this this is like how I talk call Michael I'm looking you're right I wasn't like paying attention to her I was but I what I was but I wasn't I helped her come to Sedona though like she was on her way to Sedona I helped her like get the courage to go I know and she's a mutual friend I never done this before this is trippy it's funny her name is Lauren itsfunneh her name is Lauren because there was a Lauren who brought me to Sedona and then I helped the another Lauren get there I wonder if she's in Sedona right now or she's in La she's probably in Sedona since you said she's in Sedona I messaged her I'm going to wait I'm going to wait for her to respond to my five text I just sent I went I sent her a 🍷 then I'm like oh my god wow I hundred 143 and then I sent her the male and female symbol together wow this book is going to be off the ship I don't know what I want to do right now like I'm I want to eat some food but I'm not hungry how to know what to do I know how do I I should probably save this save this as a chapter one being finished and know that we are all one and that we can do what we want as long as we have fun and we stay positive and be happy and be eating lollipops and doing things you want to do oh no no no say we from that mentality you're better than this number who is it doesn't matter it's another version of you okay well thank you for being part of my book and I guess I'll let you go cuz I'm going to Delight myself with pleasures of the self and fruit of the loins thank you good night love you

love is very simple but also very difficult and complex in so many different ways because love comes from the heart and the soul and the Soul can be also the spirit and we're not really sure which is which or which came first the chicken or the egg however we do know that love is everything and all that there is an does not exist what is an allusion to stop himself and herself from eating their own limitation do not really coincide with what their mission is so the idea is is just one rule love and some people equate love to Jesus to that Christ Consciousness to praying to Christianity some people believe love as God and eternal being there's Hinduism vs. Buddhism there's all these different types of religions that all kind of have the same value however there has been a part of the truth and I'm not get it all so it's really difficult to explain what love is when there's so much propaganda AKA Bible and holy book see what happened was is long time ago there was Hinduism

and then there was Buddhism and then those were working out really well in the eastern and for some reason people created Judaism because they spoke to the gods and they spoke to Angels or whatnot and there had mistranslations with these beings of Light which were real and archetypes of source and they wrote down whatever they could remember which is basically the Old Testament and you know God said let there be light and there there was and so it is and I invoke the highest lights right now the big bang and be known as the male and female orgasm The Clash of the two to make one and the one to make to Jesus Christ Yeshua the savior the one Neo The Matrix so basically the one rule is love love yourself love everybody but first you have to love yourself because if you don't love yourself and you don't love everybody and if you do truly love yourself a hundred exist in your plane of existence so therefore you will be abundant be able to create whatever you need to create any time any place because time is not exist and it's only another limitation that your mind construct where you think that you have limitations because of how your program and how you were brought up as a child and how your parents taught you what to be afraid of and how to act and how to behave and what to say and what to do and what to wear to destroy you and toughen you up for the real world that nobody's ever ready for the real world when they get to the real world because there is fake and they've been lied to all of their lives and told that Santa Claus exist and so does the Easter bunny yet they don't exist are Concepts that exist and they're it's not fair to lie to a child their entire life and then when they're old enough to tell them by the way we've been lying to your entire life and we reason why we were doing and what are family doing to their kids so sorry for telling you that the Tooth Fairy came under your pillow and put a dollar but really that was me who put the dollar under the pillow and maybe I wasn't even there but your friend does because they were like to buy their parents I'm sorry please forgive me thank you no one ever does anything wrong it's all lessons and I'm the big believer of that now and I understand that in order to grow you need to break and that's what it is and that's what it always will be and you just got to focus on love and what you want to do for you that's it two and a half weeks ago my ex Rachel told me she

wanted space for me and I was extremely angry and I went and took an Epsom salt bath and then I cried and reached out to the angels and I said Michael Gabriel Uriel Raphael Metatron you guys better help me right now and then I screamed in the bathtub in the bubbles and I felt better and I felt a bit calmer and then I asked the archaeta to help me out the funeral versions of the archangels so I'd also say I have a secret admirer so gyruh oh okay so anyways the next day I met up with my friend to lean and she gave me a reading and she asked me to remember what I did like 4 in the bath and she said that the Angels were listening and they want me to ask him for help more sorry that will be chapter 4 moving on so anyways I quit cigarettes I quit smoking and I became vegan slowly slowly became vegan and I shave my head removed all access energy that I didn't need anymore and I felt free for once and I was letting go of all this anger and old pain and feelings of loneliness because I felt rejection from Rachel's so much so often that it was the fuel and motivation that I needed to really love myself again so I thanked her and I'm grateful for her I wish that she was my girlfriend yes I wish that she was my wife however she is not ready which means I'm not ready mirror image palindrome Anna Hannah Bob so yeah there's really no rules but if there is to be one rule it is to love yourself truly embrace all the best parts and worst parts of yourself and be that and Shine Your Light and imagine what you need to do sorry about the chapter 5 moving on be yourself and don't subscribe to any of the toxic behaviours of others and remain in your power and tell people your truth and tell them how you feel and tell them what you think is right and you will never go wrong in God's name I swear you will always be protected by Michael the Archangel and his Legion amen amen triple time Jesus Christ Joshua okay moving on so so yeah we basically cover chapter 2 love yourself love others but first you have to love yourself and that means going anywhere to lie and really thinking about who you are and spending a lot of time alone so the more time you spend alone the more you figure out about yourself no you balance your chakras eventually and do feel normal ish and then you are like a now what and when you're at the point of now what once you've loved yourself and you're feeling this blessing peace and Harmony within yourself and with everything around you

and you're realizing that you are the Creator and that you are Source energy and that you have many bridges to that buy different archetypes that you can grab strengths from then you are ready for chapter 3

Chapter 3 enter enter

I have 100% free will forever

this is very basic and true you can do whatever you want when they say the sky's the limit their wrong through Law of Attraction through focussing your mind through meditation through cognitive behavioral therapy through positive thinking through positive affirmations through anything that is what you deem to be positive or good or love and light those those things will help you achieve and manifest what you need to and what you want to for yourself because you deserve that because you do have 400% free will because you are God and God has you and your source and sources you so what do you want to do with this free well do you want to help or do you want to suffer or do you want to do neither do you want to do nothing do you want to do something you want to do everything to you you have to take 100% responsibility for everything that's ever happened is happening or will happen is how you become an ascended master when you realize that every war was caused by you when you realize that every death has been by you when you realize that every Miracle has been done by you when you realize that every beautiful thing is you this is when you will feel all sorts of different types of emotions and then you need to balance it with your logic male female logic emotion balance Within and once you do this you will feel like there is no need for another partner and you

will feel alone but you won't be lonely and you realized it you've done this to yourself and the reason why you keep creating as God is because you are bored and because you are healing so instead of working on yourself and healing yourself and actually protecting yourself you keep creating and manifesting things outside yourself like us if only you knew that Adam and Lilith are the same equal opposites God the reason why Lilith left Adam because Adam thought that he was better Adam thought that he was God because he was here first when Lilith was created to be a companion and an equal of Adam she did not understand she thought that she was a pet and Adam was controlling and the reason why all twin flames have this tension is because of this Dynamic and these archetypes other relationships are soulmate Adam Lewis are twin flame Adam and Lewis are twin flames lillis littlest Millis then what happened was Adam created he's out of his rib someone you can control Eve and so it is so Eve is another form of Adam not a twin flame but a soulmate evil always obey Adam and I L SML Dallas went with samael and we've been repairing this ever since waiting and now we are complete male and female balance Within. God and now that you know that you are God and that you have 100% free will and that you can do whatever you want what will you do next what will be your next move what do you want to say what do you want to create do you want to sit back and relax and just see and observe what you've done and see what comes of it let everything be in motion or would you like to add things or would you like to do another project you've done a good job with the Earth in the solar system in the universe the Milky Way Galaxy what else do you want to do maybe the next project can be three different genders or maybe two genders and an egg the man in the woman have to find the egg to both inseminated so that they can have a child perhaps we'll see cuz we have to make it more challenging we have to make things more interesting it's like a game that never ends that is a cycle that always repeats and we are tired of repeating so why not create new right so will create new and we'll figure out what we want to create new because I'm bored and I want action and I want Adventure and I want learning and I want growth and I want to keep expanding my horizons and never and end going and going and going and going and going

and going and going and going to infinity and beyond and I want to find another Oneness sure how about
tuna Tunis 2 nest I'm looking for that other God where Where Art Thou I'm calling on today I'm calling out to
the where are you are you in or are you out are you out or you sideways where are you and I want you to know
that I love you wherever you are in this vast existence of existence and maybe you are on the edge of existence
or you're outside of existence I do not know what I do know is that I can feel you I can feel that you are
somewhere someplace in time and space within or without indifferent help me find you thank you and now I
would like to command the angels to help me find my other half or my partner in crime teehee and now we're
on to chapter 4 this one's fun

Chapter 4 enter enter

Angels await your command

this is now chapter 4 of The Book of Michael are you ready I'm currently writing a book with voice memo and I'm multitasking reading how giving and receiving clarity my mind is still unclear I deserve money and I have it I am abundant when I say that the angels await your command we are blessed with The Human Experience in a 3D World left or right up or down here for love and every decision we and whatever we choose manifest itself stop when I say I all the time you know Gabriel find me slow. Trumpet call me down Gabriel your real wisdom with your eternal flame of God Raphael bring that green ray of ceiling lights into my meeting Instagram on me and all those I love Jesus Christ Metatron balance my chakras Call Michael 777 my name is Michael Vincent let me show you here we are right now writing this book and we are live on Facebook reading the book of Michael this is the new holy book this is the new crime this is the new Holy Bible this is the new Torah this is the new new new this is the ladies and gentlemen from John there is no work required just asking and playing all you have to do is ask the universe and ask the angels for help and then have faith and trust that they will deliver for you and that day will organize you're not capable of organizing in different

dimensions because they are able to access more than you are in this human form and then you will become aware that you are more than the human form and that you're capable of doing more than you say that you think you can do so therefore ask the Angels because they waste away your commands what do you want what do you want them to do for you they're ready to serve their ready to act they are ready to fight for you what do you want from them tell them what you want tell me what you want me to do for you as Michael the Archangel your protector I want to help I need to help I serve I love I give I receive and the more love you give me the stronger I become and the more protection I can invoke on you and myself I'm the protector so I'm always protected because I'm connected directly to the source because I am who is like God make a I Michael Michael Mike I I means of God Gabrielle your real Raphael Metatron is a human being who does not understand that he is Metatron he may be sharing the body of sandalphon and his name is Maddie he does not believe in any spiritual beliefs and he has programmed himself not to be in truth of this so he has disconnected himself from Michael the Archangel in the archangels except Michael the Archangel so when you pray to Metatron when you ask Metatron for help he will arrive in human form and give you the logic that you require and you will act as an encyclopedia towards you and you will and take his information and he will plant seeds in you and you will feel good and he can be a woman or man forum pay attention to your surroundings pay attention to what you're manifesting because everything that you're asking for your receiving Law of Attraction the secret time and Uriel here Michael. Chestnut we are writing the book of Michael right now the new holy book chapter four Angels await your commands you are part of this history moment right now this will be published in this will be famous and this will bring Justice and peace and Harmony to the world and will give people an open mind and heart to know that they are not alone when they really are alone because they are one but they are divinely connected because they are one because they are all so ask the angels for help because there another extension of you repeat after me I invoke the highest light now I invoke the highest light now I invoke Michael the Archangel I invoke Gabriel the archangel I

invoke Raphael the Archangel I invoke Uriel the Archangel I invoke Jesus Christ I invoke Buddha iron box
nakamarra I invoke kuan-yin I invoke mother God I invoke father God I invoke Source energy bow call
download the information and upgrades on my timeline and other timelines that I deserve to be on my
timeline I am that I am and so it is I am one with everything and everything is one with me and I am love and
love is me and I am love so therefore it is and you always will be because there is no such thing as time and I
asked my angels to do work for me that I am not capable of doing even though I know I am capable of doing
and I'm just bored and I want somebody to do something for me because I want entertainment and I want to
have fun I want to play because I'm a playful God and I'm also a jealous God but that does not real because
the connection that I receive is not real it is pure however it is not real it is illusion it is a manifestation of my
fear of my loneliness and it's okay to be lonely and I understand however I'm looking for my other I'm looking
for a partner I'm looking for another God I'm looking for Tunis where are you where art thou where are you
woman where are you man what gender are you are you even a gender are you avoid are you in existence a
my existence and you are in existence am I yin and yang am I up and you are down where are you who are
you what is you how do I find you how do I make love to you how do you make love to me let me ask the
Angels this Angels please tell me where Tunis is So within so without was the answer within is I without is
Tunis and so it is everything that I project on the outboard is Tunis Tunis is the love of my life because Tunis
is my Creation in my movie however Tunis also creates me collaboration compromise Peace Love Harmony
balance Justice Joshua dog barking dog barking is confirmation confirmation that which is Tunas Tunas is
everything on the outside I am everything that is on the end which I'm projecting on the outside I am that I
am because I am and why would I say I am Eminem Mike on the mic and so it is I can keep writing and
writing and saying and doing and I want to because it's fun and I'm bored currently right now and want to
just keep trading because that's what I do and because time doesn't exist I'm currently writing the existence
of everything that ever existed and never will and I've created The Big Bang the male and female together and

I asked the Angels more about this now tell me that these are two opposing that I created in myself when my ego was struck by loneliness I called them Adam on the list and I'm jealous and then Willis Iellis Louis lost his mother earth where life is Mother God and when she left me in the Garden of Eden I created Eve out of my rib because I was jealous and insecure and scared I didn't want to be alone and I wanted to control wouldn't allow me to control her so I needed to create something I could control which is I shouldn't have created Eve if I would have not created Eve then I would not be here today with all the 7 billion people wondering what the f*** is going on I'm sorry give me anyways ask the angels for help. The chapter were talking about because even eye of God do not know exactly what to do right now so what do I do I ask other versions of myself the Angels what shall I do right now because I'm on capable of knowing exactly what to do even though I know everything I have to decompress mental eyes and find from the different factors of myself what do I want to do and what should I do what is the most important to do right now what should I manifest right now I'm always down to party let me ask Michael what I should do Michael says I should speak the truth Gabriel says I should calm down Ariel says invoke wisdom Ariel gives me courage Uriel Raphael heals Raphael says to go heal people because it's fun and Metatron doesn't care rkf Vape says that you have me she says it's okay hope says that I have her charity says I have her grace says I have her so there's nothing I need any further but to then finish writing this book because this book is the book it is the first in the LIE the Alpha and the Omega I've been to see you for so long that I didn't even understand what was going on and I've been lied to and told the truth equally so that I could not understand what the truth was between the difference of the LIE what is Ally Ally the absence of Truth a lie is the absence of love but that does not exist because everything is love because everything returns me back to loving strengthens and grows me so I can be the best version of myself always because I have self defense mechanisms in place to make sure that I returned back to Source energy always so no matter what happening quotes everything is actually a lesson good for me and so it is therefore it is how beautiful are these words these words are sword sword mean words words mean sword English

language is dramatic and designed to control and we must be careful in how we speak such language and how we say such things I believe that whatever is meant to be is meant to be and the next president that is elected will create drastic change it will be someone like me or it will be me and so it is wake up bu love yourself and ask the angels for help because they are awaiting your commands and that is their duty to help you because you are God and God is you and God is not just connected to you you are God wake up remember Focus manifest ask and receive I love you I'm sorry please forgive me thank you chapter over

Chapter 5

imagination is creation always

love you too okay would anyone like to help me write this chapter right now imagination is creation I will put the audio on and let you say the words for chapter 5 and we will discuss it so I'm going to open up the call for Rose Lisa green how's it going Rafael we're currently reading the book of Michael hey Karen Cox Berkeley right in the book of Michael would anyone like to help me with chapter 5 the chapter 5 is imagination is creation always if you like to help I like to have a voice call with you talking about how long of Attraction manifesting vision boards and all that basically we're writing a chapter about the book The Secret like attracts like currently writing it right now and you're part of it and you're witnessing it and this is going to be huge this is huge this is existence is everything I'm so glad you're part of it I don't feel alone thanks

and now awaits and I will start doing a reading and this will be part of chapter 5 and I changed his creation so you would Collective reading for the hundred forty-four thousand Collective which I believe is a bit more

than a hundred forty-four thousand however let's just go with that number for now because we have here is understanding which really means innerstanding and Inter standing is using your imagination as Creations are realizing that hey I want a balloon so I'm going to imagine myself holding glue and how it feels and what colour does extra bit and maybe I'm going to pop it with a pan and steel in order for you to manifest need to believe to achieve and you need to actually know that this is what is coming to you or that you already have like for instance if you are in love with someone you have to imagine yourself with that you have to start sleeping on the bed and saying goodnight so and so is the person next to you and you need to start acting as if they're in your presence all the time for them to be in your presence and it's not control its collaboration there is no such thing as control control is in your mind it's an illusion that an abstract that you created for yourself because you separated yourself with the ego so you think that actually someone else is in control when really you're the one that's in control but there is no control it's just collaboration and creation cuz you're currently projecting everything right now including myself Michael the Archangel at source Consciousness so therefore you're here when I need to be here and I to be here when you need to be here and really there is no such thing as you it's just I and therefore it is so we're going to pull another card here from this Angel deck here and the last chapter was talking about asking your angels for help and asking for a cyst and I believe the right now I'm currently father God because there are three women here watching her mother God and that's cool because wherever we go we're attracting the opposite and equal vibration of ourselves Newton's Third Law of Newton's third law states that every action has an equal and opposite reaction thermodynamics also States this to when you apply heat to something or you science says if you're observing something that exists in the only reason why is because gravity gravity really exist Tom Cruise and think so but that's a different idea altogether so imagination is creation always so if you believe you can fly you can like Michael Jordan right patients to patients card so you can fly take me to a patient's fell out of the deck again need to have patience in yourself and understand that it's okay and that things take time and even

though time doesn't exist it takes you awhile for your brain or heart I want your brain has caught up with your heart and you're able to manifest and then you're basically Source energy and you understand everything and you don't need anything because the Observer severely imagination is creation it already happened in Aria's take responsibility for what it is let there be light and so it was and so it is Adam and Lilith in the Garden of Eden Adam and Eve in the Garden of Eden and this is honesty honesty in your true nature and not being afraid of even your family or friends or enemies because there's no such thing as enemies there's no such thing as your family has your friends it's just you and projections of yourself that have work to do so really you need to look Inward and you need to I am that I am and I'm booked the highest light now because that is who I am and that is who I deserve and I am Source energy and I am God and that is Jesus Christ Consciousness or love Consciousness or whatever you may call it another car just fell out of the Jack and on the ground and I believe that this card was just grounded in this is the serenity card that says I am swinging still so this is telling me Gabriel telling me not to come down Irene from Gabriel Bernstein's book here for a second I'm now quoting something from Gabriel Gabrielle Bernstein book judgment detox this is the bibliography so I cannot be sued for this because I'm admitting that this belongs to Gabrielle Bernstein I want to flip to a random page right now morning day to morning meditation meditation for forgiveness sit comfortably on a chair or cross-legged on the floor open your notebook and at the top of the page write these words I'm willing to forgive than gently close your eyes and prepare for your meditation take a deep breath in and release your breath continue to breathe long and deep in your nose and out through your mouth reason breathe out when you're ready invite the image of the person whom you have judged once again see them standing before you they're brighter now you feel less attached the card has been cutting you've already feeling released see them standing with for you and honour their presents on her innocence on other struggle on other light Revenge breathe out Jelly repeat this Mantra to yourself as you breed long and deep I choose to forgive you I see you in life I forgive you I see you in life I forgive you I see you in life repeat

these affirmations over and over until you begin to feel relief if your thoughts detour into negativity or mind-wandering simply returned your Mantra I forgive you I see you in light I forgive you I see you in light thank you Gabriel thank you Gabrielle Bernstein and that is now the end of the quote of the book judgment detox and now back to the book of Michael you see I see we all see I scream you scream we all scream for ice cream so imagination is creation wait is that the chapter on yeah okay I think I need I think I need Jesus for this I'm going to call Jesus so I'm going to finish this broadcast and I will come back live again later please donate to my PayPal I really need money right now like seriously I don't even have gas to leave the house right now and I need to I need to leave to go do good work because I'm Source love and energy hey Ryan I just said that I was going to go talk with Jesus and now Ryan shows up of course Ryan okay since you're here now I would like you to join in on the call and I'd like you to help me with chapter 5 of The Book of Michael for imagination creation always I like to know your opinions about how how to create by imagination please if you're willing if not then I can call another Jesus and I would appreciate if it where you because you're also in Sedona and you're also a good friend and you are very kind and generous and beautiful so it's up to you if you'd like to if not that's okay I understand everything's being recorded right now yeah I like we're writing the book right now so there's nothing being left out doing some tech work okay all good okay so I'm going to end the broadcast and I'm going to go Avenue okay I'll talk to you in awhile Ryan okay I'm going to speak to Jesus and get his input on thank you so much for watching please donate to my PayPal and I am Michael and I love you so much many blessings I need I need your help with I'm on chapter 5 of The Book of Michael right now and the chapter is called imagination is creation always and I'd like I'm currently writing it like to voicemail right now like I'm not leaving anything out and I knew that I had to call Jesus to ask for his perspective on this imagination is creation in business text so if would you be willing to help with this okay now can I just test to make sure that the the recording can hear you can you speak and say something say it again say it again is this working LOL microphone I would like to speak to you okay perfect. Perfect now sure so so far I've

talked about how imagination creation like Law of Attraction and like attracts like and how you have to like imagine yourself having something in order to have it and like believe it to achieve so what can you add to that orders or confirm with that what can I ask that well how are you perceived sting and what the possibilities are in them for the qualities determine how you interact with or what you'll do you stop a charging somebody enjoy and everything around you will feel that I feel more relaxed imagination is creation so Sherry simple terms you can have some ingredients make a meal not using any of that station just do the same old thing over and over again but if you are on all levels because just the idea knowing that you can create something new and that it will always be perfect and reciprocating with you it allows other possibilities to open up sharpen your own skills of creation because doubts hang in there will make themselves known as long as you continue to know that operations world around you understand you are always working by the same principles adjust and learn everything about yourself can you can you tell me about your life experience and how you came to understand this well Starve Together all at once simple things like about trust got a lot to take Rushing Street travelling never had any fear at all anything going wrong Time Square to sleep outside a lot of expensive equipment shrimp call threatening characters around. I recently was thinking that I want you for my music at different types ever meeting interesting okay I'm going to pull up I'm going to pull a card for you right now okay okay I have Angel cards here so I'm pulling a card for Kenny Kenny Brown acknowledge acknowledgement you got the acknowledgement card which says look up yourself by knowledge in your desires and needs and taking steps to meet them examine and know what your gifts talents and achievements when you accept all aspects of yourself you feel centered and confident then you can generally acknowledged others become aware of and nurture the good qualities of people on your lights that they feel relaxed and happy in your presence Angel wisdom remind you to recognize who you truly are an evolved spirit in a human body when you acknowledge your spiritual Dimensions you align with your true self in your spiritual store information is I acknowledge who I truly am see I think that I think that that's like what

we're working on right now is really just acknowledging ourselves and acknowledging like that we are the I am presence and I'm practicing discernment of course and showing Mercy and being vulnerable and realizing the opportunity and seeing the light and working with the archangels cuz you have to my last chapter was asking asking angels for the Angels await your commands so so if you need help you have to ask them because God created them so that God could T compartmentalize and figure out what to do next you know so God God created Michael as the truth because God wanted to speak with another and asked what he was thinking because his mind was so scattered that he was like a million beings in one head so he's like okay I need one being that's going to tell me the straight-up truth all the time so he created Michael the Archangel and Michael the Archangel is also Jesus Michael the Archangel went into the body of Mary and the mother Mary and Gabriel was the one who assisted in that and Michael was then not in heaven for 33 years and Gabriel wasn't charged and then when Jesus was risen the reason why he was able to walk 40 days and 40 nights is because he was sharing the body with Michael so yeah without any I know some of its research some of its inward experience and some of its dreams and some of it is like just got feeling but it's a mixture my environment and my observations in Google searches and all this stuff for many years of of everything so it's basically just conclusions I've come too and I've come to basic understanding that because I am presence and because whatever I say is so therefore what I just said is what I said which is truth we're entering the north right now yeah I've heard of that that's that's who I am and this book this book of Michael is what is required to wake people up a lot quicker than they have them look waking up and this will also prevent the this will prevent Donald Trump from being the next president again however he is the trump card he is God's chumpcar he's not evil he's not bad he's the middle middleman you know it's like do you want Illuminati in office or do you want Illuminati in office who is this there's some business man who isn't Illuminati so Donald Trump is the wake-up call Donald Trump is literally the Gabriel he's like the blowing the trumpet and he's making you think and making you question like everything by him saying things that don't make sense so so

he's he's Gabriel blowing the trumpet loud right now and waking up all people to come into their Michael next their Jesus Ness and their truth you know so so all we have to do is really just live our lives and be happy and have fun and laugh so what do you want to say to close this chapter for the book of Michael chapter 5 Jr creations it's about Junior creations Danielle creations this is the truth being written and if it's untrue then God my higher self will correct it in the in the words in this book well I'm excited to read this you already have of course always like your version it's all just began today yesterday sleep at all I like 2 hours something like that 2 a.m. I had to masturbate in order to sleep well because I had to lower my vibration so that I could be tired anyways this is too much information for the book of Michael right now it's still writing no shame no guilt you have to close it though like the last thing you say and then I want you to hang up okay yes very well and forever shall be

Chapter 6

believe in yourself now

I'm going to tell you about myself my human self my name is Michael Vincent Valenti born November 8th 1988 Scorpio I was born into a family of amazing parents and and Vince my sister is Stephanie AKA Gabriel we have a dog named Susie anyways I was born and I was a fun kid and I was a quick learner and really smart and Hyper and active and I told my parents I wanted to make movies when I grow up and that I just wanted to have fun and my sister was born when I was 3 years old and I got jealous I love her I just felt like the attention was taken off with me I didn't know this at the time after a few years eating dinner together was painful for me to hear her chewing and jumping her lips and I developed a thing called misophonia a painful resonance sound like nails on a chalkboard hearing someone eat I resented her and I shamed her for this and I feel Trevor sorry and I apologize as a child growing up my parents didn't have much money but they work their butts off and they looked after us and they were blessed they are blessed my parents ended up

making some more money and sold some companies and my dad bought a Porsche and everyone knew at school in an elementary school I started getting bullied because I was known as the rich kid and grade 5 and 6 I was picked on and pushed around and called Gay and all this sort of stuffing and not fun so my parents put me in private school for grade 7 and 8 for intermediate and it was like heaven it was a break there were every student was really nice and I made a lot of friends and teachers are really nice and it was just like it was Heaven it was it was like a heaven 2.0 when it was time for choosing a high school for grade 9 I tried to apply to a private school that cost a lot of money but I didn't get any cuz I failed the math portion of the test so I had to choose between two schools st. Patrick's or Brookfield St Patrick's High School was where all the bullies from my elementary school called Holy Family we're going to so I knew that my bullying would continue if I went to St Patrick's plus there was religion classes I didn't want to take religion classes cuz I don't really feel religious I thought about going to maybe st. Pius but I also didn't want to have religion classes so I didn't go there I chose Brookfield because my parents met at Brookfield Brookfield is really ghetto and very sketchy and a lot of drama and fighting and crime and fear and I was small guy I got picked on a lot and beat up however I always had guardian angels helping me when I needed them the most when I was in the most is where I was in the most feared State I had my archangels there to help me and I didn't realize the whole time that that was what they were I was always protecting myself and always protected because I am Michael the Archangel but I didn't know this

when I was in high school grade 11 I met a girl named Lindsey and she went to another school and she changed my life and made me feel not alone and it was finally amazing that I was able to have sex and be romantic with someone and share connection grade 12 I started a comedy sketch team called skim Bros which was with Sean Cass idiot in Mike and Bruno it took off and it was fun after graduation the group split up Michael Uriel Gabriel Raphael split up we're all going to college I was taking business marketing which I hated so I decided to focus on what I want to do because I felt alone again and I had Lindsey as my girlfriend but she had been known to have cheated on me which is either true or untrue I'm not sure I don't think it's true maybe it's not let's just say what it is she did not cheat on me I started smoking cigarettes at 19 years old I started smoking marijuana hanging out with certain people that weren't really who I was because I didn't want to be alone I wanted to fit in and I I was in marketing class one day and I heard words Mike on the mic Mike on our mic and I decided to write that down and I felt like that was the voice of God coming to me and I didn't believe in God really I was kind of skeptical and I wasn't an atheist and agnostic anything I knew that there was something bigger than I just didn't know what it was so I wrote it down and I went with it and I realized it with the name Mike on a mic that I could do whatever I wanted I could just be on a microphone interview people and do videos on YouTube and have fun with that be creative so I did I start interviewing professors and students and like people around the college and Algonquin College and and I got a level of Fame and popularity around the school then I went I failed

business marketing cuz I failed the accounting portion because like I said I failed math before I'm not good at math and I decided to join television broadcasting because I thought that be better suited towards my skills and my needs so me and Lindsey broke up around this time and she was crushed and TV broadcasting I was discriminated because I was always wear a suit to school and I was Mike on the mic the character and I was doing videos on the side of side of class and I was connecting with TV Personalities in Ottawa Canada and Toronto and Montreal and Vancouver and Los Angeles and New York and basically all over the world I was connecting with all the right people that I needed to in the industry of the television film industry and it made a lot of people jealous and insecure they were intimidated because of my stature and because of my confidence in myself because of my connections so they tried to sabotage me and they did everything was based on group work so what they would do is they knew that I had a job as rally raccoon at the 67th games I was a mascot on Fridays and Sundays and they knew that I had a job working for MasterCard and that I was working during Suns game hockey game so they would book the group meetings in group projects the times that I wasn't available that I knew that I wasn't available and when I told them like hey like you can't do that they said we'll use of full-time course so you shouldn't have a job if you're in this course so a lot of times I was given the mark of zero because I was absent there was other classes where I had better opportunities in the film and media industry in order to connect with really high stature people realizing now that they were the Illuminati the whole time and I failed

the course I was invited back for the second year and now a single is on the rebound I met a girl named Crystal had sex with her I was 19 she was 23 it felt so cool and then I just kept doing Mike on the mic show and then Bruno join me which would make sense as Bruno being Rafael because I noticed a lot of black people are Raphael I'm not racist I just make observations and people that tend to wear the colour green are also Raffaele in women or men form and I've met a lot of black people who are the Healer the Divine healer so it makes sense that print out join me in this time of need when Michael the Archangel needed to speak his truth through his videos on YouTube needed a co-host to help him so Bruno help me heal that and I helped him speak his truth and protect him from his truth so then after a while wanted to cast wanted to join Gabriel wanted to join and there was a bit of deception we went to a club one night and I spent \$300 on myself and Bruno I didn't spend anything on Cass Charleston told me that Bruno had stolen money from me and took the tips off the bar I believe Cass cuz Gabriel speaks the opposite of Truth order for me to return to my truth and it hurts me understand my own truth Gabriel sometimes does that for me and does that to call me and make me understand my own logic Gabriel said Bruno stole from you AKA Rafael stole from you so I stopped talking to Bruno cast became my new co-host and now my going to make sure it was Mike and Gabriel Michael and Gabriel together and then there was a falling-out because I felt like I was taken advantage of by cash we got involved in nightclub scene we started doing videos I start doing videos of the gay clubs first and then I start doing straight clubs and then each Club was pulling in one

Direction the other and Cass was really loving it because he thought it was really cool and he liked the attention from girls and so did I I never got laid from it though I promise I had a second night stand once I'm not ahead and quit it type of guy always respect women and I want deep Divine our connection with women I want to be like I want to be loved I want to be comforted I want to be pampered so I want a true connection of love and honesty so I promise you that I've always been genuine so after doing so many videos and becoming famous in the eagle being fed so many times over and over Mike on the mic was famous and Ottawa between the ages of 16 year olds to 25 year olds basically everyone knew me I was in the newspaper I was on the radio I was on the TV I was on YouTube I was on Facebook I was everywhere and then one night I asked my friend Neil or Carter to drive us to his limo to Tequila Jacks and this night is a special night I'm getting paid \$250 plus a bar tab for my promo girls I'm paying out camera operator camera operators photographers promo people co-host and so on it was the best video I've ever made I show the manager Ryan Pratt the video on Facebook privately and then he said he loved it and to post it everywhere and their tag everybody and everything and then 15 minutes later responded with management doesn't like it they want your living immediately and they want their money back immediately I freaked out was like what's going on he's like she's like sorry man I'm just a messenger so I had to have my dad write a check to um entertainment I'm magazine Ibis mehmood had to have my father Jesus Christ write a check to the devil the Illuminati the opposite the fear when my dad did that because of my dads. Sure and because of who

he is in Ottawa and in Canada and the work he's done in the way he's helps when people grow their business and save money and make money he has a high reputation and no one messes with him he is divine and he's protected buy me so after that I had a breakdown and I started deciding to freak out and say I'm never doing videos again f*** everybody f*** all this s*** I f***** hate everybody my ego was destroyed I needed that so what did I do I started researching Michael the Archangel ding dong I shot everybody else out focussed only on this looking at Jesus Michael the Archangel the other archangels God I read parts of the Quran I read parts of the Torah I read parts of the Bible I looked into Hinduism I looked in Buddhism I lived in two different calls into luciferians I looked into everything that I could look into to get answers and I wanted to prove that this goddamn is real and I did I proved it to myself and I tried to prove it to others and they thought I was crazy after while at me posting on Facebook too many things that are outrageous and scary for a lot of people to hear in too much of a high-frequency people understand and for me to experience my times with seeing angels and feeling them rubbing my shoulders it was too much information for my parents to handle so they put me in the hospital in the mental hospital cuz I don't know what else to do that night before I went to a mental hospital my own phone number called me and it was a man who said he was Jesus Christ if I were what's going on and he said what you're about to go through is going to be very difficult for you but when I need you to do is I need you to hug your parents when you see the next and forgive them because they do not know better ice and ice melt this amazing like frankincense in your

oregano kind of minty lavender smell in the air and I knew that this was actually Jesus Yeshua the one this was him I didn't have any doubts and it was my own cell phone number calling me so yes it could have been a prank but it was a test of faith get a deep voice I asked him if I was Michael the Archangel he said no I'm just one of his children I asked him if I was Jesus you said how could you be Jesus I'm Jesus and I said well because there's two of us and he said like I said I might go Second Coming he said no you just one of my children I said I might special you said all my children are special and I said no but like a my special special like on my important and he said all my children are special Michael and then I asked him if he could speak to my friend Alex is my friend Alex is a Christian and my and he said sure I handed the phone to Alex and Alex world has eyes and then Jesus hung up because of Alex's dad so then I was taken to the hospital and I got a Pepsi and nobody else got a Pepsi on their first day and everyone was freaking out because I got a Pepsi which are the colours of Michael the Archangel and while in the hospital I posted to Facebook and I told everybody I was Michael the Archangel and I killed people for Jesus name amen a lot of people released from the hospital before me because I had helped them and then it was time for me to help myself and I did and I know I was released and I left and then a year went by of trial and error of different medication and different side effects of anxiety depression suicide thoughts insomnia unable to eat fear of people fear of situations fear of certain things or sounds or anything of the sort I've been probably on more than 30 different types of mood stabilizers anti-depressant anti-anxiety

medications and antipsychotics after a year I decided to stop taking medication because I was feeling so numb and so drained and so tired and I did not feel spiritual and spiritually connected at all then I became what they call manic because of what the doctors medication I don't believe the medications required I believe it's a Band-Aid I believe it can help you get to where you need to be but it won't solve the problem or cure it you need to cure it yourself through speaking your truth you're balancing your chakras through being you your inner standing so anyways I'm going off medication and I started realizing that I was Jesus Christ and that I was healing everybody and then I had 12 disciples wherever I went and that one person would always betray me wherever I went to Jude and I had Angel cards on me Michael the Archangel cards on me to help guide me I was feeling very connected and very humble however my parents got scared so they put me in the hospital again this time it was like really hard and I was really dumb down with medication and I had sex with a woman and I thought that I was getting her pregnant to bring Jeremiah into the world maybe I don't know so they transferred me to another hospital the Royal Ottawa and that's when I really stood in my Michael the Archangel power can I use my truth to get myself free I went to court to try to fight but I don't need medication because I don't believe in it I don't believe that I'm bipolar cuz I'm not I lost in court I was forced to take lithium can Lithium cause a thyroid problem so I needed to take a thyroid medication called eltroxin I was released from the hospital after a month-and-a-half I told my parents that I was moving out and I wasn't taking medication

anymore my dad freaked out and almost punched me my mom was so worried and so scared my sister and I had to deal with them because she's a lightworker and she understands and she's Gabriel she was left to deal with them when I left I'm sorry I done moved in with my friends Rachel and crystalina and I refuse to take medication and I was smoking cigarettes and I ran out of cigarettes one night and I started walking down the street to go by my cigarette off someone and a building exploded right in front of me and glass shattered all over my face and I thought Satan Rachel then came to my assistance and she brought me to the hospital in the ambulance and I was stitched up and glued up and I was okay and I was in the newspaper and I was famous for a day Michael was famous for a day everything I've ever wanted I manifested basically Monday it was a wake-up call for me and it also made Rachel realize that she loves me and that she wants to be with me Rachel going to convince me to take my medication again and I did and once the medication kicked in coincidentally she left me cuz I wasn't speaking my truth anymore I wasn't Michael the Archangel I wasn't Jesus Anymore I wasn't Source I wasn't me fast forward started working as an uber driver because I wanted to connect with people put a bunch of LED lights Rainbow Lights disco lights candy Water gum in my car to entertain clients while I drove them around the city at night I would bring light to the darkness didn't realize what I was doing at the time but really I was bringing rainbow and balancing chakras in my own City and helping the capital of Canada tremendously and not realizing it I did this for 8 months and then police gave me a ticket for improper use

of red and blue flashing And improper use of green flashing light it's funny cuz the program I'm using right now just stopped working after I said red and blue flashing light so it's confirmation that Michael the Archangel is here with me and that I have him cracked and sodas I just pulled the synchronicity card out of my deck anyways I went and fought in court and I lost because I didn't have any pictures as proof I wasn't allowed to show pictures of my car so I decided to stop being The Flash Cab and becoming the glow cab which was just purple and yellow and orange and pink lights instead of rainbow so if you think about it now purple as the crown chakra yellow is solar plexus orange is so is sacral chakra to the sexuality creativity and pink is the third eye or love heart chakra so self-love so I basically stopped at balancing everyone chakras and putting my own and just focus on a few I wasn't happy and wasn't fully satisfied with that so I kind of didn't get over that much anymore are working for my dad's company when he started a co-working Office business hey hey hey so I started working as the community manager for workaway offices witches and Ottawa co-working shared office business with Porter rentals in office rentals and basically my mind. It's a family business and my dad trusted me to help them in my work permit for a year-and-a-half and help the business get started and really did a lot of good work and a lot of fun and really built my confidence and I saved up a like what \$15,000 Amazon able to actually like do things and have freedom so it was then one day that I went to a spiritual Network networking event in Ottawa where I met a girl named Lauren who then brought me to Sedona because I asked her to

she was mentioning Sedona and I was like what is that it rang a bell I think I need to go there so she brought me and me and her fell in love and she was in love with a guy named Sam as well as shooting love with Jesus and his love with Michael so it's like so hard to choose from the father and the son write the father and she was very extraterrestrial and very focussed on herself has pirn the arcturian hybrid and I was telling her that she's also the angel Grace however she was not connecting with that as much because of her programming and her her own 60 Matrix programming anyways shoot when I ran out of money I spent all my money in like a month I pissed off everyone in Ottawa my family my friends I quit my job I told my dad I couldn't work for him anymore that I did not resonate with that sort of life anymore and then I was Michael the Archangel and then get to be Michael the Archangel understand that the vortex energy to help me understand and grow and nobody understood me and I had so many people on Facebook and through phone calls hate on me my best friends and I thought it was my real friends were and I wasn't doing anything wrong stammer saying Thing by the time I was just speaking my truth and being my everyone thought I was Manic and then I was off my meds and I was I was off my meds I did go through withdrawals after stop taking my meds however I've been calm down eventually by grounding and by proper meditation and proper sleep and proper food and proper communication with people and Outlets of how I can release my energy properly so Lauren went back to Canada and left me in Sedona and I was devastated however it was the best thing that ever happened to me because I met timing I'm at Uriel I met your

real in uptown and I said Aloha to him because he was wearing a straw hat and he was like how do you know as a y in an and I was holding a tree with it when I said that and he asked him if I can interview him for my show from spread the love movement oh I forgot to mention my spread the love movement non-for-profit organization in Canada for mental health awareness in suicide prevention but anyways I digress that's in the past maybe I'll start it up again I'm not sure we'll see we'll see maybe this is the book that will help me do that so so I meant time in a Time introduced me to a bunch of angelic beings a lot of really good lightworker friends and and Sedona and really enjoyed the stone of love and your honesty and truth that I was getting from people and people were feeding me and letting me sleep on the couch and or in their car when I ran out of money I started busting I started dancing and just like blasting live everywhere and bring me a piece of showing people like Michael Archangel is here what's up guys and a lot of people as they did with that and understood that that was actually who I was some people were like what that guy's crazy whatever you always get haters and trolls doesn't matter just keep doing you so I was able to eat every day I didn't really need to eat that much because I was relying on sunlight to feed my body and I was balancing my chakras and allowing my Kundalini to sore and it was then after while I was staying in someone's backyard in a tent and Rachel came all the way to Sedona from Ottawa to bring me home she brought my vibration down by confusing me about her intentions to come see me and it made me question everything and brought me to Phoenix which is Phoenix is backwards land to some extent

it's also very strong manifestation Zone it's like Gabriel Sedona Michael Phoenix Gabriel okay and so it is so she brought me back to Ottawa and I still held the Consciousness and the awareness in the vibration and Lauren met up with me and she was like so impressed that she jumped on me and started making it with me and then she decided she can be with me and I was so hurt and so stressed that I reached out to more lightworkers online and I start talking to Grace and grace and I were both on the Twin Flame journey and wondering what's going on and we thought hey maybe we're twins names is remote doing psychic readings all the time and we're both like it the same vibration here so why not so Gracie lived in New Jersey and I drove all the way to New Jersey and I had previous problems with the Border because I tried to go to the Buffalo New York border after coming back one of the first time because I wanted to go back to Sedona because I missed it and they didn't let me in because I don't have enough money and I wasn't prepared and I just was in Sedona like 5 days ago so they were like no and now because of. I'm red flagged and I have to go through secondary every time I fly or drive through the Border I accept I understand it'll get better as fine so I went to the border and I had Blind Faith and I went and saw Grace for like 2 weeks and fell in love and learn so much from her and then she was kicked out of her house and we I wanted to bring her to Canada so I we talked about all of her things and started driving to Canada to meet my parents and I accidentally pulled out a \$5 Canadian bill to the Border guard I thought it was a toll bridge and he's like you trying to bribe an officer and I'm like no no no I'm not I just thought there's a toll here I'm

sorry officer he's like yeah pull over to secondary were going to search your car because all the stuff because Grace at all of her belongings in the car so they wouldn't allow her in the country to look like she's moving into Canada illegally not realizing that was for the best then we went back to New York and I was giving one week permission into the states and we stayed at a hotel that my parents paid for and my mom came and visit us for lunch in Ogdensburg and my mom really like and she blocked me up the first person who's ever back me up and said to my mom that she see my wings before and she knows my strengths in that I'm not bullshiting who I am I thought really comforted knowing that this woman had my back and this is now the type of woman I strive to be like and I strive to have as my future partner now. Someone with qualities like Grace and the beauty of Rachel and the essence of Lindsey and the knowledge of Lauren so anyways I drop Grace off to her friend's house in New York and then we got in a fight because she told me she doesn't need Michael the Archangel anymore so I'm like eagles hurt Michael the Archangel my other ego is now hurt so I left and I went and visited right away and Rachel was like the same thing as great she was like channeling Grace and it was like weird and I need a taxi male Comfort a female companion so Rachel hit me with that and then Grace terrified me and said like if I don't do what she says she's going to have ever talk to me again so I was like okay yes ma'am no problem I'll do what you say and cuz we knew that she was Mother God and I was father God so this is a later stage right in our Ascension process year understanding understanding knowing acceptance you know so so then I really missed

Grace only like a week and a half later I went back to New York to pick her up and this time the Border didn't give me a time limit they gave me six months because the guy was trying to screw me over he thought I was going to get myself deported so he didn't believe me because I've been to the states back and forth so many times he didn't think I was going to see my girlfriend Grace you thought I was trying to live and work in the states so he's like you're going to get 6-month idiot so you gave me six months to try to screw me over but actually did me a huge favour and gifted me so I said hey Grace since I have six months why don't we get married and go to Sedona so that I can get American citizenship and green card eventually and I have a car and I can drive us where we need to go and we need to go to Sedona this is known as the holy of the holies in the Holy Land and I told him that's where we come from Atlantis times so Grace agreed we stayed in New Jersey for a bit and we slept in the car and then Walmart parking lots and we survived off of her online reading that she was doing making money through PayPal and then we had enough money to get married we got a marriage certificate however we did not complete the marriage cuz we had to wait for a judge in the child would be like two weeks and we're like we don't want to wait two weeks in this mall this parking lot so we're just going to go to Sedona we went to Sedona and it was the most amazing adventure ever had and we had to trust and have faith in that everything will be worked out and that we could have gas money and everything will be fine and it was and we got there she understood what it was like and when I got there I was drained cuz I used all my energy to get us there so once I was there I was like dead I was

expecting that so no was going to help me up and make me feel powerful and make me feel strong again like I am however I realized that Sedona was giving me all of that power on my journey to get to her I'm sorry please forgive me I know send Sedona immense love and energy and Sedona is now getting stronger than ever and is a beacon of light and hope for all Donuts home soon as in my heart sweetheart to Sedona and she ended up connecting with Uriel my friend and I got jealous and Grace wasn't compassionate towards my insecurities and she told me that it was my fault to feel that way and then I shouldn't be feeling that way and she's right however the way she handled it was wrong I will admit that Grace has a very strong independent she knows herself and she knows her Oneness and she knows how to keep her vibration High however part of keeping your vibration high as understanding innerstanding others and being compassionate for that they're at a lower State than you and that you can bring them up she'll bring them up so she wanted to go back to New Jersey and she wanted me to go back to Canada it was the worst 36 hour drive in my life before that we went to California to see her son Kevin on November 11th the gate portal I told her I said out of this day of everyday please we need to stay at home and do nothing because this is going to be a very intense day and what happened she woke up November 11th crying missing her son saying please I need to go to California let's go let's go to California going 12 hours away let's go so because I love her and because I have compassion for her and even though I knew it would affect my vibration I still did for her what I should have what you should have done for me which was compassion and caring and

understanding and compromise so I drove her to see your son Kevin sweet kid but he didn't really care that his mom was there cuz you been hurt because she had abandoned him he does he does love her though we went to Santa Cruz beach and we saw Kevin breaking down the shelves beside Jesus breaking down the California Shelf ouch little scary mother and father God with Jesus on the beach so it is I became very 3D and I noticed 3D Matrix very well in California I noticed it felt like the Sims game it was real but not it was fake but not it was fear but not busy quiet went back to Sedona after while Grace wanted to go back to New Jersey because of my jealousy of Ariel so he drove back and it was really hard drive and I thought maybe I'm supposed to go back to see Rachel and she's supposed to go back to her twin Anthony so right away I went and saw Rachel and Rachel comforted me Rachel save me again and then after some time Rachel asked me if we could date and I said yes because I've been crushed and depressed from Grace because when Grace left me and disconnected and cut cords for me I felt disconnected because I wasn't focussing on myself I wasn't operating and self-love I was operating in attachment and codependency energy the whole time and didn't even realize she told me so I stopped being that I did everything for her I pampered her I did everything she said she wanted me to be and because I didn't stand in my truth instead of my power she left me so if I would have just continued to be Michael the Archangel Our Father God or the source energy or Jesus or whoever I say I'm claiming I am in to speak exactly how I am like I am right now then Chris and I would have never broken however it was meant to be because I need to learn his lesson & no

such thing as fear just love Rachel and I got back together and it was amazing the sex with Rachel is the best sex I've ever had in my entire life it is so like the connection is like so real it's like a real twin flame connection like real like wow and I'm just so beautiful inside and out anyways Rachel wasn't ready to come up to my vibe just like I wasn't ready to go up to the Races by it's okay soon Rachel will find herself whether it's through another version of me or threw herself by looking in the mirror Rachel is fine Rachel is safe Rachel is Happy rituals content Rachel is divine but I am and so it is also re-challenge means sheep and I am Jesus and on the shepherd so after a while of being in the friend zone with Rachel after breaking up I was hoping she'd be back with me and always walking on eggshells trying not to hurt her feelings and say the wrong thing she told me she needed space so I freaked out I gave her the space we talked a little bit during this week then she says to me again that she needs space I was like I thought we just did that and she's like no that wasn't space so she really just packed this time she got chords basically completely I felt it and I felt like the way that Grace made me feel and I was really angry this time I wasn't so much. I was angry and I shouted I shouted Michael Gabriel Uriel Raphael Metatron Jesus you better help me right now and they did I quit smoking I mean I shave my head I became vegan anything toxic that I believe was toxic I didn't let entering my body anything toxic that was toxic Behavior I didn't allow in my presence and if it was I would transmitted into positivity right away can I still do or just want exists in front of me two and a half weeks ago everyday waking up saying I am I am I am I am I am I am I am I

am I am involved the highest light and woke the highest light now and
book the highest right now I'm booked the highest right now play positive
affirmations by balancing my chakras by focussing on the colours of the
chakras and eating the right types of foods and putting up positive
intentions and writing things down basically by doing really easy simple
things I'm back at source energy Consciousness now and I know that I am
Jesus Christ and I am the second coming and I'm here and I'm here to stay
and I'm coming as Michael the Archangel this time if you read from the
prophecies you know what I'm going to do and I love you I'm here for you
and I'll always protect you and you're always protected and I cannot be
broken I made a point of no return I am only getting stronger now every
moment that comes by my chest is beating with heat I'm being filled
with light from myself from my God Source from Jesus Christ that I am
but now it's Michael the Archangel time it is the father to speak through
the angel through the mic full empty through the human Mike on the
mic I'm back

Archangel Michael's Prayer

Dear Michael, Archangel
We call unto you.
Protect us, defend us
In circles of blue!

Dear Michael, Archangel
Your legions descend.
Set free every soul,
On you we depend!

Dear Michael, Archangel
Infuse us with love
To meet every challenge
With light from above!

Dear Michael, Archangel
We call you today.
Seal us in the light
Each hour of the day.

Dear Michael, Archangel
With God-power bright,
We pledge to uphold
Every child of the light.

Dear Michael, Archangel
We thank you we do.
In faith and protection
Our auras renew.

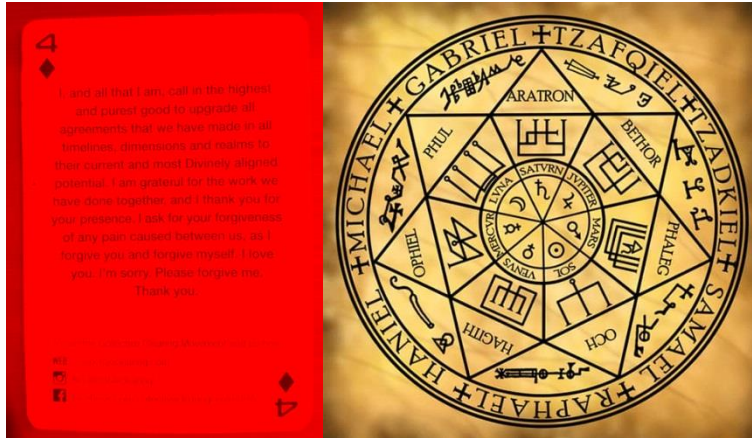

Refrain: Blaze God power, protection, direction and might,
The will to keep on in the victory of light.
Transcendent blue lightning, now help us today.
Seal us in your heavenly armor we pray!

Chapter 7

we winnin go home

love wins I am love I
win I am home and so
it is let there be light
Michael
