

# The Secret Cabal That Runs the World

Most of the problems that the world is facing can be traced back to a fateful day in 1954 when a secret organization called "[The Bilderberg Group](#)" was formed. The members of the group is said to consist of one hundred and thirty of the world's most powerful people. At its core were the Rothschild and Rockefeller clans.

Their objective: the supranational sovereignty of an intellectual elite

Fast-forward to 1991: A secret transcript of David Rockefeller's opining remarks at a Bilderberg meeting in Baden, Germany was leaked to the public.

With Arkansas governor and future U.S. president, Bill Clinton, at his side here's what he said:

*"We are grateful to the Washington Post, The New York Times, Time magazine and other publications whose directors have attended our meetings and respected their promises of discretion for almost forty years. It would have been impossible for us to develop our plan for the world if we had been subject to the bright lights of publicity during those years. But the world is now more sophisticated and prepared to march toward a world government.*

*The supranational sovereignty of an intellectual elite and world bankers is surely preferable to the national auto-determination practiced in past centuries."*

The leaked transcript confirmed once and for all that Rockefeller and his associates had been striving for almost 40-years to create a one world government and that prominent media companies had been complicit in the devious plan.
