

Solar generators are an excellent source of renewable energy that can be used for camping and emergencies. They are portable, affordable, and easy to use. With solar generators, you can power your small appliances, mobile devices, and even your home during a power outage. In this article, we will review the top 5 solar generators for camping and emergencies.

1. Goal Zero Yeti 400 Lithium Portable Power Station

The Goal Zero Yeti 400 is a portable power station that can provide up to 400Wh of power. It has multiple charging options, including solar panels, wall outlet, and car adapter. With the solar panels, you can charge the generator in 5-8 hours of direct sunlight. It comes with two AC outlets, two USB ports, and two 12V ports. The Yeti 400 is lightweight and easy to carry with a convenient handle. It is perfect for camping, road trips, and power outages.

2. Jackery Explorer 240 Portable Power Station

The Jackery Explorer 240 is a compact and affordable option for solar generators. It can provide up to 240Wh of power and can be recharged with solar panels or wall outlets. It has two USB ports, one DC carport, and one AC outlet. The Jackery can power small appliances, mobile devices, and laptops. It is lightweight and easy to carry with a handy handle. The Jackery is an excellent choice for camping, outdoor activities, and emergency situations.

3. Renogy Phoenix Portable Generator All-in-one Solar Kit

The Renogy Phoenix is an all-in-one solar kit that includes a portable generator, solar panels, and a battery. It can provide up to 210Wh of power and can be charged with direct sunlight or wall outlet. The Phoenix has multiple ports: AC outlet, DC car charger, USB ports, and a 12V cigarette lighter. It also has a built-in flashlight and an LCD screen display. The Phoenix is compact, durable, and easy to use. It is ideal for camping, outdoor adventures, and power outages.

4. EcoFlow River Portable Power Station

The EcoFlow River is a powerful solar generator that can provide up to 288Wh of power. It has multiple charging options, including solar panels, wall outlet, and car adapter. With the solar panels, you can charge the generator in 10-15 hours of direct sunlight. The EcoFlow has multiple outputs: AC outlet, USB ports, and DC output. It is capable of powering small appliances, tools, and even your home during a power outage. The EcoFlow is portable, durable, and easy to use. It is perfect for camping, road trips, and emergency situations.

5. Anker Powerhouse 200 Portable Generator

The Anker Powerhouse 200 is a portable generator that can provide up to 200Wh of power. It has multiple charging options, including solar panels, wall outlet, and car adapter. With the solar panels, you can charge the generator in 6-7 hours of direct sunlight. The Anker has multiple outputs: USB-A port, USB-C port, AC

outlet, and DC output. It can power small appliances, mobile devices, and laptops. The Anker is lightweight, compact, and easy to use. It is perfect for camping, outdoor activities, and power outages.

Conclusion

Solar generators are an excellent source of renewable energy that can be used for camping and emergencies. They are portable, affordable, and easy to use. In this article, we have reviewed the top 5 [solar generators](#) for camping and emergencies. These generators have different capacities, charging options, and outputs, depending on your needs. Whether you are going camping or preparing for a power outage, a solar generator can provide you with peace of mind and reliable power.
