

Places Where I Have Gone Barefoot - by State or Country

This is a list of every place I've ever been in barefoot since the beginning of 2003, where others would likely be wearing shoes. I listed a place only once even if I was in it more than once or even many times - except for airline travel, where I listed each trip or round trip separately.

For the few that refused service or forced me to leave, I marked with an X in the column on the far right.

These do not include a few more that I may have had an initial confrontation, but was able to get it resolved in my favor.
