

Master Certification List

<< [ONS Certification website](#) | << [back to previous page](#)

This list provides guidance in determining if a specialty certification has met established review criteria to be considered for use with the ONS Above Entry Tool for appointment or 1
This list is not intended to be used when determining APRN eligibility for appointment/hiring.

This list includes all categories (RN, APRN, LPN/LVN, etc.).

- You can easily sort or filter these items by hovering over a column header to reveal the arrow, which lets you select a sort or filter option.
- Asterisk * indicates that additional information is available in note column at far right
- "Any" denotes certifications that cover more than 1 professional level (RN, APRN, LVN/LPN, etc.)
- The amount and quantity of award for certification is determined locally (see PSB resource)
- Apprv-Recert only in Status field indicates that no new certification will be granted, but recertification is still available

Nursing Certification Review Criteria (beginning in FY2012, approval requires that 5 of 5 criteria are satisfactorily met)

Questions? [Technical support](#) OR [Content questions](#)

Don't see the certification you are looking for? [Search the list using the search field in the top right corner of this page or keyboard Ctrl + F and the browser search field.](#)

The review of certifications for approval is **temporarily closed** due to the discontinuation of software that managed the process. A new version will be implemented soon. Thank you for your pa
